# BEAN BAG BASEBALL TOURNAMENT RULES

### PRINCIPLES OF THE GAME

- The beanbag Baseball game is played on a board stand that has been modified with openings see Diagram 1. The Beanbags will be made of cloth and will measure 2 <sup>1</sup>/<sub>2</sub>" x 4" with a thickness of 1". Cut cloth 3" x 9"
- 2. The rules for this game are similar to the real baseball game, that is to say that the person who is throwing continues to play until he gets three strikes for an out.
- 3. An inning is over when each team has three outs.

### TEAM PLAY

- 1. For this game, 5 to 12 players are required for each team, depending on how many want to play. Keep the teams even numbered for competition sake. It is desirable to have 9 players. You may have subs but once the sub is brought in the player is out for the rest of the game.
- 2. Each team nominates a Captain and chooses a name.
- 3. Have a baseball play-off chart showing the progression of the winners and the team names.

### PLAYERS DISTANCE

1. From home plate to the rear of the game board, a distance of 21 feet is required. It is 17 feet from the front leg.

## POSITIONING OF THE PLAYERS AND THE STAND

- The game board must be placed in such a way as to allow a chair to be placed behind it (2<sup>nd</sup> base), a chair to its right (1<sup>st</sup> base), and a chair to its left (3<sup>rd</sup> base). Make sure there is a reasonable separation between the chairs marking the bases and the chairs for the teams should sit between home base and first, and home base and third.
- 2. A line on the ground must clearly indicate where the thrower will stand. If the toe of the thrower goes ahead of the line, he is OUT. The best way to mark the line is with a small rope held down by two large nails.
- 3. The team chairs must be placed in such a way as not to obstruct the throwers view.
- 4. It is important that each player retains the same chair, in the same team for the whole game.

#### HOW TO SCORE

- 1. Each player is allowed to throw beanbags until he has a hit, three strikes or an out.
- 2. When the player has thrown a beanbag into one of the holes, he then is to do what is written under the hole.
- 3. Lets say that the bean bag enters the 1<sup>st</sup> base hole, the player drops the remaining bags and goes to sit in the 1<sup>st</sup> base at the right of the game board and waits for the next player to throw. He cannot leave his base until the next player successfully throws a hit or the team scores three outs. (THE PLAYER MUST WALK GOING FROM BASE TO BASE. IF HE RUNS HE IS OUT).

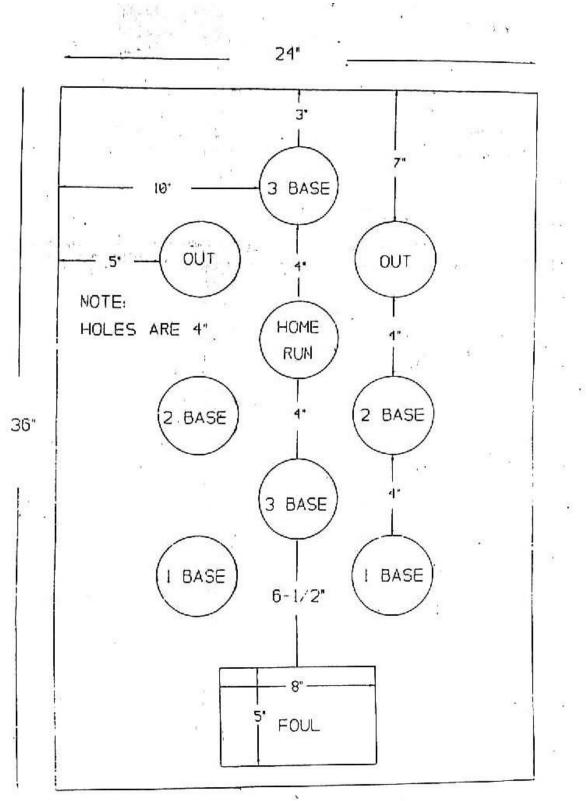

- 4. If the next player throws a bag into the second base hole, the player on 1<sup>st</sup> advances to the 3<sup>rd</sup> base chair touching 2<sup>nd</sup> as he goes by. At the same time the player who just threw the double advances to the 2<sup>nd</sup> base chair touching 1<sup>st</sup> as he goes by.
- 5. If the following player throws a beanbag into the 1<sup>st</sup> base hole, he goes and sits in the 1<sup>st</sup> base chair. The player at 3<sup>rd</sup> base cannot go home and score. He must be forced to go home.
- 6. When the bases are loaded and the following player throws a single the one player comes home and the others advance one base. If he throws a double two players come home and three players come home for a triple.
- 7. A home run makes all players on base score including the player who threw the beanbag.
- 8. Each bag thrown and not entering a hole is considered a strike. If the 1<sup>st</sup> and 2<sup>nd</sup> bag enters the foul hole they are considered a strike.
- 9. A player is out when he throws three strikes or puts a beanbag into the out hole.
- 10. If the 3<sup>rd</sup> bag enters the foul hole, the player is allowed to throw another beanbag until a base hit, strike or an out is made.
- 11. The UMPIRE is to keep track of the outs and the strikes and call them as the players make them.
- 12. The inning ends when each team score three outs. When a team has three outs, the player following the one who made the last out starts the next inning.
- 13. A flip of the coin by the team captains will determine which team will go first. Winner of the toss' choice.
- 14. If a beanbag is only half in a hole it does not count. If a following bag throw by the same player pushes it in and enters the same hole the first bag counts.
- 15. You must throw the beanbags underhand.
- 16. A game is complete after nine innings. Short innings may be scheduled.
- 17. For the sake of expediency, 6 runs scored by a team in the same inning ends the play for that team.
- 18. It is preferable to have an umpire who is not a player. His role is to watch the board to see which hole is entered and that the player stays behind the line. Also make sure that all runners touch or sit in all chairs as they pass the bases and touch home, or the run can be canceled.
- 19. A scorekeeper is required to keep score on the two teams and to call out the names as they come up to throw. The umpire will also call out the strikes and outs like a real umpire.

# HOW TO FILL IN THE SCORE SHEET

- 1. Each team uses a separate score sheet. Fill in the team's name at the top and the players' names on the left column.
- 2. If the teams have more than 9 players each use a second score sheet.
- 3. If a players, throws a beanbag into the hole indicating 1<sup>st</sup> base, circle 1B, the same is true if it should be 2B or 3B or HR.
- 4. When a run is made, fill in the little box above the letters HR on the score sheet for the person making the run. These should boxes are how to keep track of the runs.
- 5. When a player throws into the HOME Run hole, circle the HR and fill in the little box for his run. If he drives in runs from any who were sitting on base chairs, fill in the boxes under their names.

- 6. When a player is OUT, insert the X in the box. An inning is over when you have three boxes with an X.
- 7. Draw a line under the square of the player who makes the 3<sup>rd</sup> OUT, so the next inning can start with the following player.
- 8. Do not shift to the next inning column each time; keep track of the innings by these lines. The whole team may have to play before having 3 outs or 6 runs and you may run out of columns. Using the line method you may only need 5 columns during the 9 innings, but they are there if needed.
- 9. The bottom line on the score sheet is for reporting the runs. Each inning column has two triangles. The first triangle is for the runs made by the first 10 players. The second triangle is the running total of the game. Count the filled boxes in the column to give you the runs made for the first triangle.
