- c. Each station also has one multiple choice question pertaining to the product on display. Questions are general to the industry that produced the product, (i.e. Texas' national ranking, economic impact to Texas, general nutritional content, region of production) or specific to the individual product that is on display (i.e. cooking method, use, growing season, specific nutrition of the cut or variety).

This request must be made on the Official BCYF Exhibitor Substitution Form provided by the Show Secretary. This request must be accompanied by a notarized statement which is signed by a School Administrator on school letterhead stating the specific reason for which an exhibitor substitute is requested. The completed Official BCYF Exhibitor Substitution Form and the notarized statement must be returned to the Show Secretary prior to the beginning of each respective Show.

This request must be accompanied by a statement, signed by a Physician, on his/her letterhead. The completed Official BCYF Exhibitor Substitution Form and the Physicians statement must be returned to the Show Secretary prior to the start of the respective Show.

It is not necessary to complete an exhibitor substitution form if you have more than one entry in a class. However, only a bona fide 4-H, FFA, or FCCLA member who qualifies under the eligibility rule of the Bell County Youth Fair and Livestock Show and has entered the current year's show may show the exhibit.

In addition, exhibitors who are immediate family members may substitute for their siblings more than once if needed.

IN THE EVENT OF STUDENT INELIGIBILITY UNDER THE NO-PASS, NO-PLAY RULING, THE PROJECT WILL BE INELIGIBLE. PROJECTS MUST BE REMOVED FROM FACILITY.

ANY EXHIBITOR NOT PROPERLY CARING FOR THEIR ANIMAL during the show, such as feeding, watering and cleaning pens, may be barred from the show the following year. Exhibitors are expected to keep the area around their exhibits neat and clean at all times.

Any project in which the ownership is being contested through a formal complaint filed with the Board of Directors and the show superintendents must be done 1 hour before the judging of that project.

AGRICULTURE DIVISION SPECIAL RULES

ANIMAL HEALTH ISSUES POLICY & PROCEDURES:

Animals needing care upon and after arrival on the Bell County Expo grounds are subject to this policy and procedures at all times.

The official Show Veterinarian is designated annually by the Bell County Extension Office County Coordinator who will then maintain a memorandum of agreement with said Official Veterinarian. The animal care site on the grounds will be determined by show officials. This location is for the convenience of exhibitors, the show officials and for the quality assurance issues impacting the well being of the animal and the ultimate end user.

The Bell County Youth Fair Association and the Bell County Extension Office will arrange to have an official veterinarian on call and available; however, they do not donate their services or medications. Fees should be discussed before treatment. All medication administered during the livestock show must be Administered only by the Official Veterinarian and a written medication record must be filed with the Show officials by the Official Veterinarian.

Exhibitors, parents, volunteers and supervisors with questions regarding animal health issues and/or the need for medications should consult with the Bell County Youth Fair General Superintendents and/or the Extension Designee Ex-Officio to the Fair. These officials will then contact the Bell County Youth Fair Official Veterinarian upon the request and/or the needs of the animal. This can be prior to competition and/or after competition is complete.

Animals receiving performance enhancing drugs per the official veterinarian action (i.e. including, but not limited to, steroids, diuretics, anti-inflammatory, tranquilizers and pain killers) in this manner may be deemed ineligible for competition. The Official Show Veterinarian may remove any animal from competition if the health, safety, or welfare of the animal is in question.

At no time during the time the animal is on the grounds can it be administered any medication by the Exhibitor, Volunteer, Supervisor, and other Veterinarians not designated as Official by the Bell County Youth Fair and Bell County Extension Officials.

This policy and procedure is in place to protect the end user, individual and/or company purchasing the floor animals, and to insure the USDA Meat Quality Assurance Standards per The Wholesome Meat Act as well as assuring fair play for all exhibitors. Proper animal husbandry and animal care standards expected by the participants and attendees will be maintained at all times.

RULE REQUIREMENT: Unless specifically exempted in special rules, all entries and awards are subject to the General Rules. Records may be required by show officials as proof of ownership.

HEALTH RULE: Special care will be taken that animals having diseases of any nature will not be admitted into the show at any time. Unhealed animals from castration, dehorning, docking, or other operations shall be barred from the show. Exhibitors must comply with all rules and regulations set forth by the Texas Animal Health Commission.

DRUGS: All drugs must be administered by a veterinarian. All market animals may be subject to drug tests.

UNETHICAL FITTING RULE: The act of artificially filling animals internally, which would include stomach pumping, drench tubes, or any other method per os (by esophagus), is prohibited.

WHOLESOME MEAT ACT: The USDA Wholesome Meat Act applies to all market livestock. Only animals eligible for immediate slaughter may be brought onto the grounds and exhibited.

- (a) Animals must be in good health and carcasses free of drug or chemical residues.
- (b) Drug label directions for use and withdrawal periods must be followed.
- (c) If drug or chemical residues are found in tissue of carcasses, the entire carcass may be condemned.

Bell County Youth Fair and Livestock Show, Inc. will in no way be liable or responsible for the condition of carcasses or the sale price of the animal. In such cases, the exhibitor forfeits all rights to any and all proceeds including: Auction Price, Scholarships, Premium Awards, Market (Floor) Price and Special Awards.

As breeding animals are not entering the food chain, the USDA Wholesome Meat Act does not apply to these animals; however, breeding animals will be closely screened for any performance enhancing compounds. This includes, but is not limited to steroids, diuretics and pain killers.

JUDGING: Exhibitors are responsible for knowing the times at which their animals will be judged. Any animal not presented promptly will be ruled ineligible and barred from competition in the class. No complaint or protest on the grounds that the judge overlooked animals will be considered.

REMOVAL: No animal on exhibition may be removed from the **BARN** before release time without special written permission from the General Livestock Superintendent. Unruly animals deemed unsafe by show officials will be removed immediately.

SIFTING: Undesirable animals will be removed from the show. Any animal that does not make the minimum weight limit is not eligible to sell at the floor price.

CHECKING INTO THE BARN: Superintendents will check exhibitors in and assign stall space.

LATE ARRIVALS: Livestock arriving after designated times will be allowed into the barn only if they have made it to the facility grounds within **TWO (2) HOURS** of the deadline. All late arrivals will be charged a **\$50.00** penalty and will be required to hold their livestock outside until all weigh-in is complete before entering the barn.

RELEASE: All stalls and pens must be cleaned. All remaining animals will be released from the barn **30 minutes** after the conclusion of the auction on **Saturday, Feb. 8, 2020.** See Schedule for individual release times. Anyone leaving before published release time will forfeit prize money from all entries and be barred from future shows. **ALL ANIMALS/PROJECTS NOT REMOVED FROM THE BARN BY 7:00 P.M., FEB. 8, 2020 WILL BECOME PROPERTY OF BELL COUNTY YOUTH FAIR AND LIVESTOCK SHOW.**

**2019-2020 TEXAS 4-H/FFA LIVESTOCK PROGRAM ETHICS POLICY
(Updated April, 2019)**

This ethics policy applies to any 4-H/FFA member planning to exhibit animals at livestock shows in Texas. All classes of livestock offered at the livestock event are included: Cattle, Goats, Sheep, Swine, and any other livestock classes offered. This "Texas 4-H/FFA Livestock Program Ethics Policy" will be enhanced with additional rules and guidelines which individual fairs and livestock shows adhere to on the local, county, regional, and state levels.

4-H and FFA livestock project exhibitors are under the supervision of an Agricultural Science Teacher or County Extension Agent who serves as the advisor for that project. The Major Livestock Shows of Texas support the educational content and leadership provided by the Texas A&M AgriLife Extension Service, and the Texas Education Agency/VATAT. Also, the Texas Major Livestock Shows fully support the administrative authority of Agricultural Science Teachers and County Extension Agents to certify the fulfillment of all validation protocols and appropriate paperwork between the exhibitor, Texas 4-H / Texas FFA, the major livestock shows and the supervising educator. Exhibiting livestock is a privilege, and exhibitors must comply with this document and respect the authority granted to his/her supervisor.

The following practices or procedures are unacceptable and are defined as being deceptive, fraudulent, unethical, and inhumane in the care, fitting, preparation and showing of all classes of livestock. The use of any illegal drug is prohibited. Any practice used to alter the appearance of an animal entered in livestock events is prohibited (See Rule #9 & #10). Proof of any animal being subjected to illegal and/or unethical practice(s) and/or procedure(s) described herein subjects the animal to immediate disqualification from the state validation program. If a violation is found of any of the following rules, this may result in a cancelled validation record.

The following is a listing of rules all 4-H/FFA exhibitors must follow to enter livestock at organized competitive events.

1. Exhibitors must be bona fide members of a 4-H Club or FFA Chapter in the state of Texas and care for their animals under the direct supervision of a County Extension Agent or Agricultural Science Teacher. Exhibitors must be enrolled in, and attending, public or private and/or home school elementary or secondary schools in Texas.
2. County Level State Validation serves as proof of ownership for state validated livestock. Market animals (Beef, Sheep, Swine, Goats) must be owned and under exhibitor's daily care by the following deadline dates: June 30 – All major Steers and State Fair Lambs, Goats, Swine; October 31 – Lambs and Goats; November 30 – Swine; to be eligible to participate at any major livestock show within Texas. For breeding animals, the official ownership date is the date reflected on the registration papers. This date is the specific date for each breed of record as recognized by the validation program. (Individual show rules may determine ownership requirements for non-market animals.) Registered breeding livestock (with the exception of breeding swine at the 2019 State Fair of Texas) must show the exhibitor as the sole owner of the animal on the breed association papers. Breeding animals with additional registration papers within the breed association of validation record or in another breed association may be evaluated for multiple ownership. If additional registration papers are found active within an association indicating ownership information conflicting with the exhibitor's sole ownership designation, the breeding animal may be considered multiple-owned and subject to disqualification. Breeding animal validation deadlines dates: June 30 – Spring Heifer Validation; October 31 – Breeding Sheep and Goats and November 1 – Fall Heifer Validation.
3. To gain the life skills developed through the livestock project; exhibitors must be closely engaged in the feeding, maintenance, training, grooming and overall welfare of his/her animals. Exhibitors and immediate family/guardians are responsible for providing the primary and continuous daily care of livestock projects throughout the validation period. The validation period begins immediately following the county level state validation date (not the validation deadline date listed previously) through exhibition at all livestock shows (*exhibitors must provide continuous care for breeding heifers, sheep and goats throughout the animal's eligibility to show*). **4-H and FFA livestock project exhibitors are under the supervision of an Agricultural Science Teacher or County Extension Agent who serves as the advisor for that project.** Excessive involvement of third party consultants, breeders, fitters not affiliated with the Texas 4-H and Texas FFA programs is prohibited. Third party involvement interfering with the exhibitor's ability to provide primary daily care of and engagement with livestock projects may result in the disqualification of all state validated livestock projects. Likewise, third party involvement interfering with the County Extension Agent and Agricultural Science Teacher's ability to properly supervise the livestock project may result in the disqualification of all state validated livestock projects. Livestock projects must be raised at the physical address of validation record. Prior approval must be granted by the "Species Specific County Level State Validation Committee" in the event the animal will be outside the direct care of the exhibitor and/or immediate family/guardian.

- Failure to notify the supervising Agricultural Science Teacher (AST)/County Extension Agent (CEA) and/or Species Specific County Level State Validation Committee of the previous may result in the disqualification of all state validated livestock. By signing this document, the exhibitor and parent/guardian, recognize his/her responsibilities for the primary and continuous care of livestock projects throughout the feeding period and hereby authorizes the State Validation Coordinator or designated representatives and/or State Validation Compliance Team, supervising AST/CEA and the "Species Specific County Level State Validation Committee" **the right to inspect your livestock project(s), along with any other state validated livestock projects on premises, at any time during the feeding period with or without prior notice.** State validated livestock must be made available for inspection at any time requested at the address listed on validation record or any other property (public or privately owned) where the livestock may be located. Failure to make inspection available as requested will constitute a violation of validation rules and may lead to disqualification of the livestock in question and any other validated livestock. Additionally, any exhibitor in violation of the primary and continuous daily care rule is subject to disqualification.
4. Animals validated for major livestock shows may also be exhibited at other shows. Be advised, however, that if any validated animal is exhibited and SOLD at any other show (including a county show), the animal will be ineligible to show at any subsequent major livestock show. **Additionally, state validated livestock offered for sale during the feeding period via private treaty, private or public auction will be ineligible to show at any subsequent major livestock show. If ownership changes or has the possibility of changing through a sale offering (including animal(s) purchased back by the exhibitor of validation record), regardless of method or length of time, that chain of animal ownership is considered broken and will be ineligible to show at any remaining livestock shows in the feeding period requiring state validation.**
 5. DNA samples obtained from livestock at the time of county-level state validation must match DNA assays obtained any time during the feeding period for the state validated animal and exhibitor record.
 6. A state validated livestock project may not be simultaneously validated in more than one county. Additionally, a state validated animal may not be county or state validated under a different exhibitor's name in another county.
 7. Any method used to misrepresent the age of an animal for a class in which it is shown is deceptive and considered a violation of the rules and guidelines.
 8. Showing an animal for another individual by claiming ownership in order to show in a specific livestock class or event is prohibited. False ownership is a violation of the rules and guidelines.
 9. Treating an animal internally or externally, with any irritant, counter-irritant, or other substance used to artificially change the conformation or appearance of an animal for show is considered unethical, inhumane, and is prohibited. Surgery, injection or insertion of foreign material under the skin and/or into the flesh of an animal to change the natural contour, conformation or appearance of an animal's body is illegal. This includes **injection of gas, air, oil, or other foreign substances**; cutting/tearing of the hide/underneath the hide or removal of tissue in any attempt to alter the physical appearance of the animal; numbing or "deadening" an animal's tail; cutting tendons of an animal; using foreign substances to build or cosmetically re-shape feet (this does not include medically necessary treatments for injured hooves or feet); as well as "twining" which includes the attachment of hair or hair substances (i.e. baling twine, cloth, fiber, etc.). Acceptable practices of physical preparation which are allowed include, clipping of hair, trimming of hooves, dehorning, removal of ancillary teats, and docking of tails.
 10. The use of unethical fitting, showing and/or handling practices or devices compromising animal welfare shall not be tolerated.
 11. Livestock exhibitors will be held accountable for the Species-Specific Validation Guidelines for each species in which they state validate livestock projects. Livestock exhibitors will also be held accountable for the rules and guidelines for each major livestock show in which they exhibit state validated livestock. Validation Guidelines may be found at at.texasyouthlivestock.com
 12. The Administration of the Texas 4-H and/or FFA Programs reserve the final and absolute right to interpret these rules and to settle and determine all matters, questions, and differences in regard thereto, or otherwise arising out of or connected with or incident to "Texas 4-H/FFA Livestock Program Ethics Policy".

Any violation of the "Texas 4-H/FFA Livestock Program Ethics Policy" and/or associated validation guidelines, as well as specific rules as designated by individual fairs and livestock shows may result in disqualification and/or probationary status and/or loss of eligibility for future participation in organized livestock competition. **Possible civil penalties may be imposed by the proper authorities based on evidence provided by the livestock show of exhibitors in violation of the Federal Food, Drug and Cosmetic Act/or the animal mistreatment, neglect, and abandonment laws that apply on the local, state, and/or national levels.** All rule violations will be dealt with on an individual basis by the "Species Specific County State Validation Committee", the State Validation Coordinators, and/or appropriate livestock show officials.

I, the parent/guardian and exhibitor, am verifying that I have read the "Texas 4-H/FFA Livestock Program Ethics Policy" and understand the consequences of and penalties involved for illegal, unethical, inhumane, and unfair practices in livestock competition. I am also verifying knowledge that my family and I may be prohibited from future participation in organized validation programs in the State of Texas, and could face possible criminal prosecution and/or civil penalties if implicated in any of the aforementioned acts.

ALL FOOD RULES WILL APPLY TO THIS FOOD CLASS.
SPECIAL RULES:

1. **Canning Procedure:** All entries must be either processed in a boiling water canner etc. (if they are high acid foods) or in a steam pressure canner etc. (if they are low acid foods). The processing method required for foods is determined by the ph of the specific food being canned. Periodically, old methods of preparing food are revived; these methods are not reliable and not recommended. For example, the open kettle method is not acceptable.

2. **Jars:** Based on recommendations by the Extension Food Safety Specialist, NO jars will be tasted or opened for judging. All jars must be clear, no colored jars. Mason, Ball, Kerr, Collection Elite Ball jars or Better Homes & Garden are allowed. The jar must have a ring on it. **No quilted or jars with embossed pictures are allowed in any Food Preservation Class.** Standard pint or quart canning jars with brand name on the side or bottom of jar and standard canning lids are required for all classes except J17-J20. J17-J20 **Standard pint or decorative 1/2 pint canning jars are acceptable for the Jellies, Jams, Preserves, Marmalades, Conserves and Butters. No added decorations on jars.** No attachable labels on the jars or fabric on lids. No one piece lids. **ONLY STANDARD CANNING JARS** will be accepted.

3. Products for canning may have been bought, but they must have been canned solely by the exhibitor during the current year.

4. Refer to page 86 Special Rule #3 for recipe card instructions. Canning procedures used must be indicated on the recipe card. Recipe card must include head space measurement.

5. Entries will be judged on criteria such as the pack quality of liquid, color, clarity, container etc. but not flavor.

6. Items will be disqualified if they are: not sealed, are moldy or appear spoiled, or if the jar is broken or appears in any other way contaminated. Items will be disqualified if they are not in the standard canning jars which were specified or if the lids or rings are rusted.

7. If you are entering items in classes J-5 or J-6 Relishes and other Pickled Foods, the recipe must include blending of spices, sugar and vinegar with fruits or/vegetables which creates a crisp firm texture and pungent sweet-sour flavor. If products are not pickled they must be entered in either J-7 or J-8 if they are vegetables or J-9 or J-10 if they are fruits.

8. Exhibitors may not remove scorecards, ribbons, etc., until release time Thursday.

9. Food Preservation items are NOT eligible for Country Store.

DEFINITIONS:

Boiling Water/Canning Method— High acid foods are processed in a boiling water canner. The heat is transferred to the product by the boiling water which completely surrounds the jar and two piece cap. A temperature of 212°F is reached and must be maintained for the time specified by the recipe. This method is adequate to destroy molds, yeasts and some bacteria, as well as to activate enzymes.

Steam Pressure Canning Method – Low acid foods must be processed in a steam pressure canner. In order to destroy all bacteria, their spores and the toxins they produce, low acid foods must be heated to a temperature of 240° F and held there for the time specified by the recipe.

High-Acid Foods—These foods have naturally high levels of acid or have a sufficient amount of acid added to them. Bottled lemon juice, citric acid or vinegar labeled 5 percent acidity are sometimes added to recipes to increase acidity. Foods in this category must have a pH of 4.6 or lower. The boiling-water method of processing is adequate for high-acid foods. Generally, all fruits and soft spreads are classified as high-acid foods.

Figs and tomatoes require the addition of an acid so they may be safely canned using the boiling –water method. Fermented foods, such as sauerkraut and brined pickles, and foods to which a sufficient amount of vinegar is added are also treated as high-acid foods. Some recipes may call for high-acid and low-acid ingredients but still be classified as a high-acid product; these recipes must have a pH level of 4.6 or lower.

Low-Acid Foods—These foods have very little natural acid. Vegetables, meats, poultry and seafood's are in the low-acid group. Soups, stews, meat sauces and other recipes which contain a combination of high-acid and low-acid ingredients, yet remain with a pH level higher than 4.6, must be processed as a low-acid product.

CANDY CLASSES

SUPERINTENDENT: NISSA WALKER —254-760-0908

ALL FOOD RULES WILL APPLY TO THIS FOOD CLASS.

SPECIAL RULES:

1. 12 pieces per entry, all classes.
2. Candy products do not contain flour as an ingredient.
3. Microwaves should not be the primary cooking source when making candy.
4. **ALERT:** Dipped fresh fruit such as chocolate covered strawberries or dipped dried fruit or chocolate covered insects are not considered candy.

DEFINITIONS:

Divinity: Very sweet very soft candy made from white or brown sugar, whipped whites of eggs, corn syrup, water, salt and flavoring. If brown sugar is used instead of white sugar the candy is called sea foam. Some recipes for divinity candy specify ingredients such as peppermint, cinnamon, chocolate or candied fruits for flavoring.

Fudge: A thick, firm, smooth candy that is set-up in a pan and cut into squares. Candy can be cooked or uncooked. Degree of difficulty increases with cooked recipes. Ingredients usually include butter or margarine, fat derived from chocolate, milk, and sugar. Other flavor variations might include peanut butter, marshmallow, white chocolate, etc. Nuts may be added.

Brittles and Other Hard Candies: Breaks with sharp edges rather than bends, candy mass is somewhat crunchy. These include brittles, lollypops. No peppermint bark.

Brittle: A candy made from sugar that has been cooked to a high temperature. Nuts are a common addition to brittles. The nuts may be added to the hot sugar and the mixture is poured out in a thin layer. Baking soda may be added to form a light texture. The resulting candy is hard and snaps easily, thus the term "brittle." This class includes nut brittles, lollypops and other hard candy.

Toffee: A candy formed by boiling a sugar mixture to a high temperature, normally soft crack or hard-crack. Toffee normally has a hard, slightly chewy texture and a rich taste that is gained by adding butter to the sugar mixture. Other additions may include nuts and chocolate. Cracker toffee is not acceptable.

Pralines: (This candy may have two different forms.)

Louisiana Style: A candy consisting of primarily a brown sugar based sugar syrup mixture and pecans or other nuts. The candy is formed into small patties and often has a slightly crumbly, grainy texture.

Mexican Style: A candy consisting of a sugar mixture cooked to a caramel like texture that is thick and chewy. Nuts may be included in the caramel mixture or only found on the outer part of the candy. The caramel may be cooled and formed into a cylinder or log shape and rolled in nuts. The candy is then cut into serving size pieces.

Candy Other Types: This includes any candy that is not a fudge, brittle, divinity, toffee or praline. Such as fondant, caramels, taffy, and filled or dipped candies such as bon bon and chocolate covered maraschino cherries. Graham cracker crumbs are not allowed.
