His data makes him a go to bull with more carcass, and the maternal traits we have seen from his dam, half-sisters and progeny are very desirable. We really do believe that with disciplined selection and breeding you can have it all, and Let's Roll is a prime example of that.

BIEBER HARD DRIVE Y120

Hard Drive has been the pinnacle of our program the past few years and for good reason. His data hits a lot of sweet spots across the board and his daughters are outstanding. We often get visitors that marvel at his daughters and how moderate they are. We like our cowherd moderate and Hard Drive does it well. We have always tried to keep mature size in check and we feel that Hard Drive and Rollin Deep, along with their progeny, do a great job of that. Hard Drive is a very impressive sire all around.

BIEBER ROLLIN DEEP Y118

BIEBER ROLLIN DEEP Y118

Rollin Deep has been one of those rare sires that truly elevates the breed. He was an impressive individual from the start, posting outstanding data with one of the deepest phenotypes we had ever seen. His progeny proved impressive and our customers found that his sons complimented their programs and added muscle, great data, and superior style. Our attention then turned towards his daughters who continue to do an outstanding job. Rollin Deep has become the epitome of our program with 120 daughters in the herd and over 1300 progeny registered with the RAA. His influence has been felt across the breed and we have several great sons that are now making their own mark on the industry.
