INSTALLATION

TESTIMONIAL

PUNTA GORDA FL
ARMOR SYSTEMS

Formerly a Savant centralized lighting system, now replaced with Control4 Panelized Lighting.

Previous system could not dim LED lighting properly, causing random light flickering. It was replaced with Control4, and LED dimming has worked perfectly!

INSTALLATION DETAILS:

- 20,000 square feet
- 48 Configurable Keypads
- 6 Panelized Lighting Panels
- 19 8-Channel Dimmer Modules
- 7 8-Channel Relay Modules
- 6 8-Port Ethernet Switches
- Button engraving on every keypad
- Controls over 200 lighting loads

HOMEOWNER:

"We really love the simplicity of having a single keypad instead of a wall full of switches. Since we have LED lighting throughout the home, we're very happy with how the Control4 system dims and controls those lights."

ARMOR SYSTEMS:

"The previous system couldn't dim LED lighting throughout the home properly, causing homeowner frustration. We replaced it with Control4 Panelized Lighting and it has performed flawlessly!"

BIG ENTERTAINMENT

RESIDENTIAL AV SOLUTIONS

LARGE RESIDENTIAL AV SOLUTIONS

Stream audio and video to up to 20 zones, from multiple sources such as cloud-based music, streaming video services, satellite TV, etc.

Intuitively control and manage all media content and AV equipment throughout the house from simple Control4 user interfaces.

Simultaneously stream audio from personal mobile devices or computers to one or multiple zones in the house.

Outdoor speakers get extra power from the bridged outputs of Control4 Power Amplifiers.

Enjoy maximum video and audio resolutions with the Leaf 20x20 HDBaseT Matrix Switch zone locking feature.

Blu-ray player in the master bedroom can be viewed in and controlled from other zones.

BIG LIGHTING

PANELIZED LIGHTING SOLUTIONS

PANELIZED LIGHTING SOLUTIONS

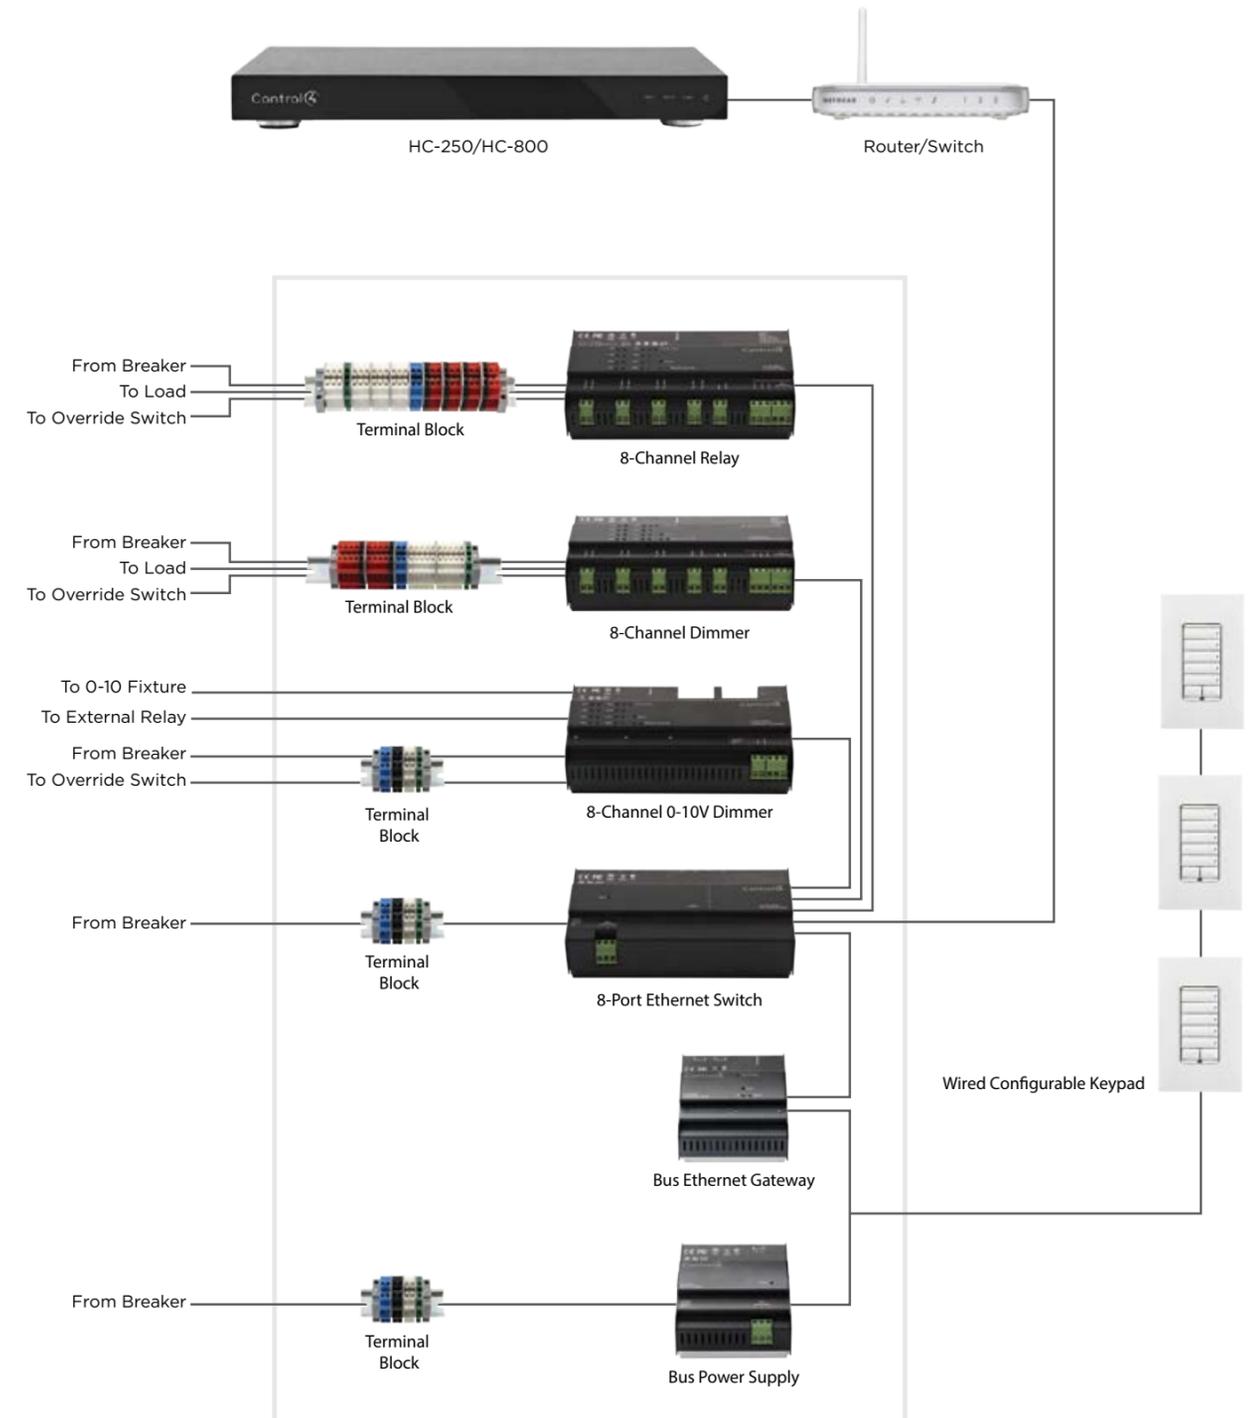

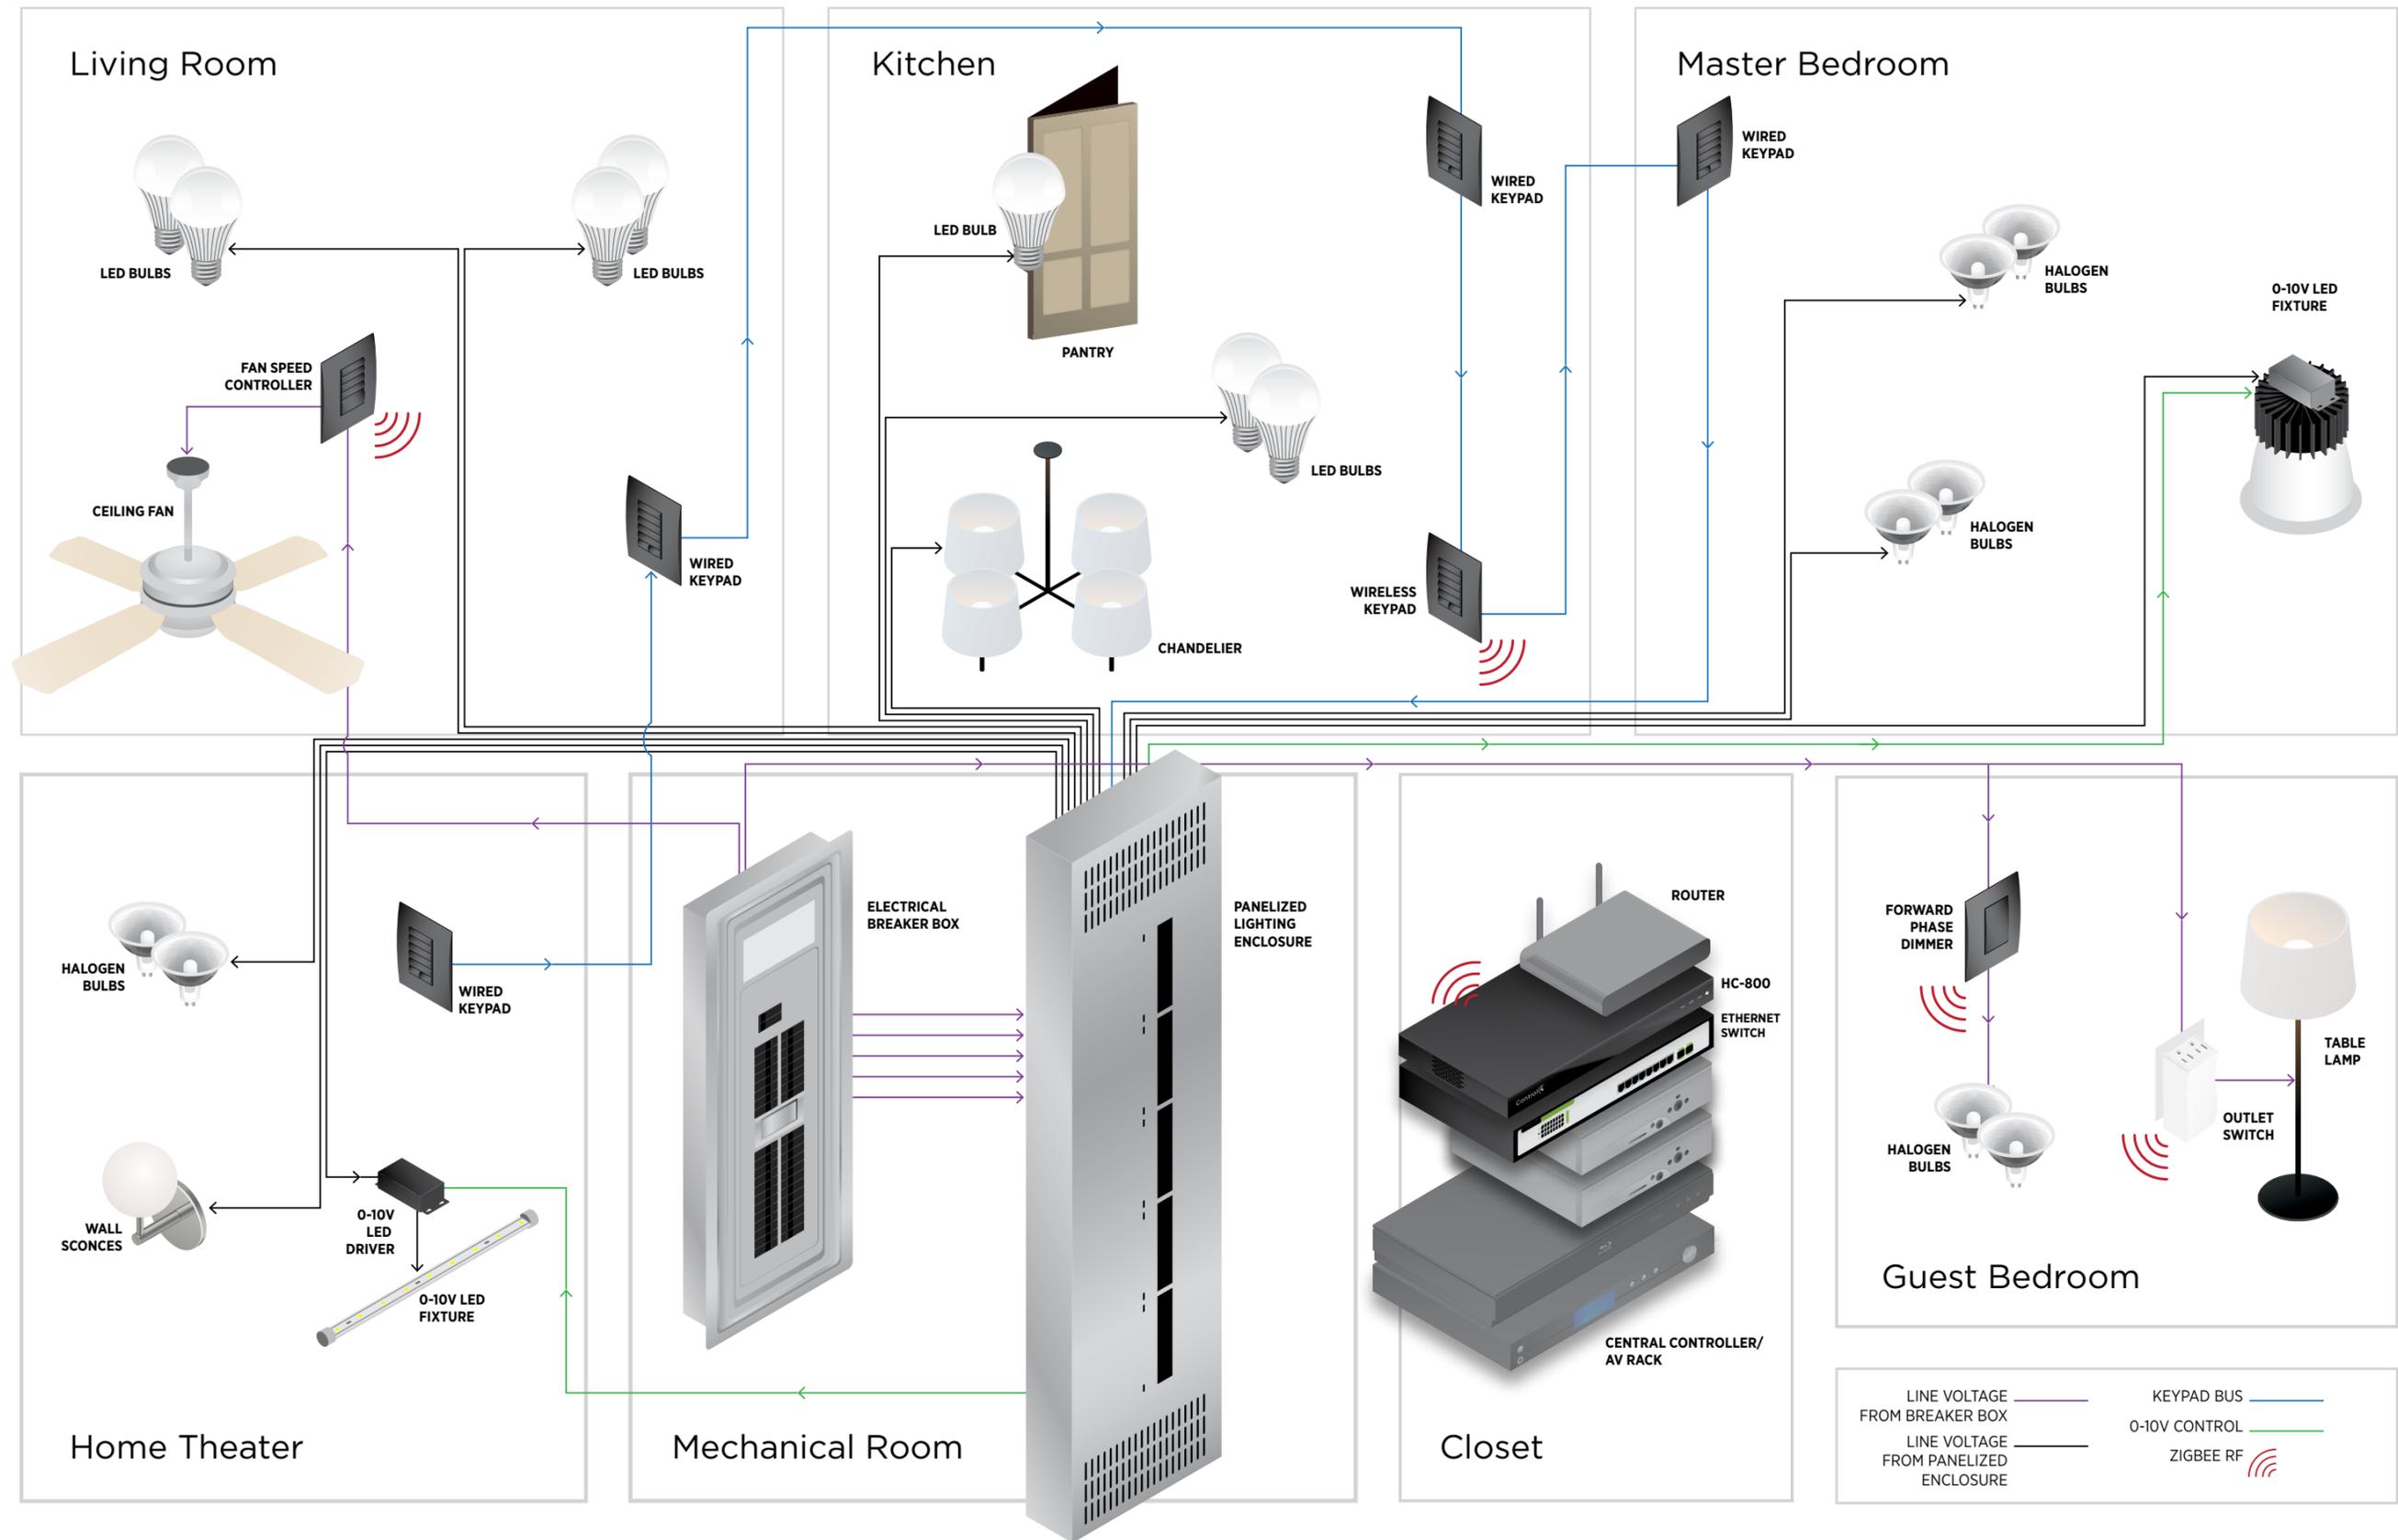

Simplify lighting control by replacing unsightly banks of light switches and dimmers with one elegant keypad that integrates lights, music, security and more.

All dimming, switching and load management is performed by smart lighting modules tucked away in a panel and completely hidden from view.

Discreet Panelized Lighting solutions enable complete control over residential and commercial lighting systems.
