# S

**Stile® Porcelain from BIGBROTHERSMG** is the latest evolution of porcelain for home and commercial properties. These 6mm and 12mm-thick porcelain slabs are lightweight and suitable for a variety of design projects, including new installations and remodeling projects. Available in 13 rich colors and organic textures that mimic the beauty of natural stone, Stile® Porcelain complement a variety of design and architectural styles.

A Stile® Porcelain slab, which comes in two sizes 118”x59” and 126”x63” and weigh 2.81 and 5.8 pounds per square foot respectively, is significantly lighter and less costly than natural stone slabs and tile. Its lighter weight allows for easy installation and along with its price, makes for lowered project costs. Stile® Porcelain slabs are designed for quick installation over existing surfaces, which reduces the waste typically associated with installation.

Stile® porcelain slabs are nonporous, etch and stain resistant, and heat resistant, making the material suitable for a variety of kitchen and bathroom projects in both commercial and residential properties. Stile® Porcelain slabs are a suitable, and often times superior, substitute for natural stone slabs and tile. Whether used to create focal walls, handsome floors, striking backsplashes, or lovely durable countertops, Stile® Porcelain slabs provides the seamless look of continuous natural stone for a fraction of the cost of stone. Unlike natural stone, Stile® Porcelain slabs require no routine maintenance and because of their large formats are installed with minimal grout lines.

Stile® Porcelain slabs work almost anywhere a stunning surface is desired. This includes interior and exterior projects for both residential and commercial properties, as well as for aircraft, boats, and RVs.

## FEATURES AND BENEFITS OF STILE® PORCELAIN SLABS

Stile® Porcelain slabs are large-format, porcelain panels that are suitable for virtually every interior and exterior design project including flooring, accent walls, countertops, showers, backsplashes, and fireplace surrounds. Lightweight, yet durable, Stile® Porcelain slabs are ideal for both new installations and remodeling projects because they can be installed over existing surfaces. The material allows you to create a beautiful new look, in a fraction of the time and for a fraction of the cost associated with buying and installing stone slabs and tile.

If your home, commercial property, RV, or boat needs a quick and cost-effective way to spruce up walls, countertops, showers, flooring, or other surfaces, Stile® Porcelain Slabs from BIGBROTHERSMG provide the perfect solution. The 6mm thickness weighs a fraction of traditional tile. The porcelain slabs are significantly easier to cut and install than standard tile; the slab's light weight makes it suitable for a wide range of design projects.

The 118"x59" and 126"x63" slabs add low-maintenance, easy-clean style to kitchens, baths, and outdoor rooms. MSI's Stile® Porcelain slabs are smooth, impervious to germs and bacteria, and are rated for food safety. In addition, Gauged porcelain resists stains from nail polish, food coloring, wine, coffee, and tea.

One of the drawbacks of standard tiles is the distracting number of grout lines that can disrupt a surface's streamlined appearance. With these large format gauged porcelain slabs, you can create a near seamless appearance that promotes a sense of overall elegance.

# Specifications

**S**leek. Seamless. Sophisticated. The revolutionary Stile Thin Porcelain Collection offers the beauty of natural stone with the brilliance of porcelain. Stile transforms surfaces with high-style, lightweight and ultra-thin porcelain panels in six exceptional colors. Take your pick and design your dream space with Stile.

## TECHNICAL INFORMATION

**Primary Colors:** White, Ivory, Beige, Brown, Black

**Material Type:** Glazed Porcelain

**Country of Origin:** Italy

**Finish:** Polished and Matte

## FEATURES AT A GLANCE

- Unique large format 118"x59" and 126"x63" tile
- Available in 18 unique colors (18 6mm, 16 12mm)
- Ink Jet Glazed Porcelain
- Popular natural stone looks

## INSTALLATION

1/8" Grout Size is recommended on all tile installation. All floor and wall applications require lippage prevention system (leveling spacer).

**Large format tiles:** It is mandatory that the mortar coverage on the floor surface and tile be greater than 95% coverage to be fully supported. Voids due to insufficient coverage will result in cracking and tile displacement.

**APPLICATIONS:** Flooring, Counters, Wall

**PEI RATING:** 4

**VARIATION:** V3

**COF:** Matte SCOF - > 0.6 Wet, DCOF - > 0.42 Wet

Polished SCOF - < 0.6 Wet, DCOF - < 0.42 Wet

**FREEZE/THAW:** Resistant

**BREAKING STRENGTH:** >275 lbs

**WATER ABSORPTION:** < 0.5%

**HARDNESS:** 7

**CHEMICAL RESISTANCE:** Resistant

**BIGBROTHERSMG FLOOR VISUALIZER**

Scan & see Stile® on your own floor.

The background of the image is a light-colored, marbled tile pattern with intricate, organic veins in shades of grey and green. The pattern is symmetrical and repeats across the page. In the bottom portion of the image, there is a dark, textured area that resembles a wooden floor or a different tile material.

**Disclaimer:**

Variation in shade is an inherent attribute of porcelain tile. To ensure customer satisfaction: Make sure to look over all tiles before installing. Please select tile from same lot: same size, and numerical shade. Intersperse tiles throughout your job from different boxes. Rotate the tiles so there won't be repetitive patterns.

**\*No claims accepted after tile installation.**
