Minutka: The Bilingual Dog (Chinese + Pinyin-English)

Anna Mycek-Wodecki

Summary

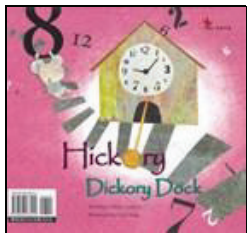

With beautifully expressive, witty illustrations and an appealing contemporary design, this book shows kids how much fun it is to be bilingual by introducing them to a teeny-tiny dog who is fluent in English and Chinese—and even dreams in both languages. Anyone who has ever known and loved a pet will instantly recognize Minutka's favorite activities: she shakes paw, snatches socks, runs in circles, and has fun around the house and garden with her family and friends. Readers don't need to know Chinese (or even be children) to be entranced by this lovable dog. The Chinese translation is in simplified characters and Pinyin.

The Horse Race

Zhang Qiu, Wang Lifu

Summary

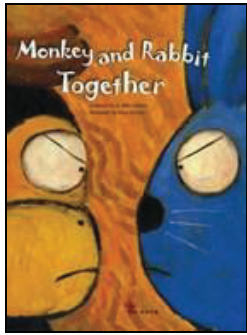

Based on a beloved 2,000-year-old Chinese classic, this tale, set in the ancient Chinese kingdom of Qi, chronicles a competition between King Qi Wang and Tian Ji, one of his subordinates. More than a simple equestrian story, the narrative explores the relationship between a king and his subordinates, revealing what can happen when the ruler abuses his rank and privilege. Incorporating Chinese history, culture, and especially language, this bilingual tale helps kids sound out the Chinese characters, offering them a friendly introduction to a difficult language. Truly comprehensive, the charming account also functions as a military allegory, a math lesson in bipartite matching, and a semantic exercise that helps children interpret rules.

Learn to Read Chinese Fast! Simplified Characters (2nd Edition)

Master 2,197 Characters in No Time

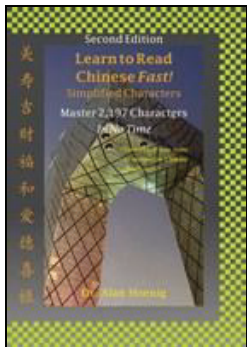

Dr. Alan Hoenig

Summary

The memory technique pioneered in this book removes the major obstacle to learning modern Mandarin Chinese: how to remember the meanings of more than 2,000 of the most common simplified Chinese characters (those in use in mainland China)—enough to read more than 96 percent of the characters in any Chinese text. Like the previous edition, this essential guide teaches how to learn new character definitions at a breakneck pace, how to build up new characters using characters already learned, and how to fix meanings and characters forever in the mind. Now boasting an all-new, clearer layout, this version has been updated to include stroke-order diagrams for drawing every character, all meanings and pronunciations for each character, revision of many narratives for increased clarity, and inclusion of a number of new characters.
