# Bingo for Skype in the Classroom (SITC)

## Instructions:

### Cards for Students

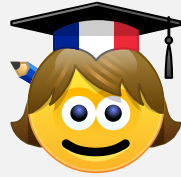

Download our Bingo Cards and use them with your classroom. By using our Bingo cards, you will be able to keep track some of the wonderful learning that occurs during a Skype call and keep kids engaged. After each call, ask your students to fill in the cards with new things they learned and places they "travelled". You can use individual cards (there are 30) or one version for the whole classroom. When you complete the Bingo card, it is up to you to decide on the prize!
