# BizMoms

## Who are we?

Biz Moms is a group of female small business owners within the Chesapeake Moms Club. CMC is proud to support these talented, hardworking entrepreneurs and showcase their thriving businesses.

Moms are the quintessential multi-taskers, and these Eastern Shore moms are no exception in their drive, passion and success. The CEOs of their households, as well as the owners of a business, these dynamic women contribute to their families' bottom line while loyally serving their clients and communities.

With years of experience both inside and out of parenthood, Biz Moms are efficient, organized, customer-friendly and highly qualified in their field. They love to work outside of the home helping people just like you solve personal and business needs.
