Program Description

Overview

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community.

The Connect and Protect: Law Enforcement Behavioral Health Response Program is part of the Justice and Mental Health Collaboration Program (JMHC). It is designated to support law enforcement-behavioral health cross-system collaboration and to improve public safety responses and outcomes for individuals with mental illness (MI) or co-occurring mental illness and substance abuse (CMISA) who come into contact with the criminal justice system. BJA is seeking applicants to design or enhance a law enforcement-behavioral health response to people with MI and CMISA who come into contact with law enforcement due to their illness.

For applicants that are interested in JMHC that are not law enforcement but are seeking to partner with mental health from another part of the criminal justice system, access the solicitation [here](#).

Statutory Authority:

This program is authorized by the Mentally Ill Offender Treatment and Crime Reduction Act of 2004 (MIOTCRA) (Public Law 108-414) and the Mentally Ill Offender Treatment and Crime Reduction Reauthorization and Improvement Act of 2008 (Public Law 110-416), as amended by the 21st Century Cures Act (Public Law 114-255), 34 U.S.C. 10651. Any awards under this solicitation would be made under statutory authority 34 U.S.C. 10651; Public Law 116-260, 134 Stat. 1182, 1259.

Specific Information

The applicant must propose programming that is consistent with the goals of the authorizing legislation above. Specifically, grants shall be used to:

- Increase cooperative efforts by public safety officials and mental health agencies (at the earliest intercept points in the criminal justice system) to connect individuals with MI or CMISA with treatment and social services. See Sequential Intercept Model at: <https://www.congress.gov/114/plaws/publ255/PLAW-114publ255.pdf>.
- Improve officer and public safety through specialized training for public safety officers and mental health agencies in order to respond appropriately to individuals with MI or CMISA.
- Increase intergovernmental cooperation between state and local governments to address enhanced support to individuals with MI or CMISA.

All applicants should be aware that under federal law, OJP may not award grant funds to procure or obtain any equipment, system, or service that uses "covered telecommunications equipment or services" as a substantial or essential component of any system, or as critical technology as part of any system. In general, with limited exceptions, "covered telecommunications equipment or services" includes telecommunications and video surveillance equipment or services produced by a foreign entity that is specifically designated by statute, or designated by the federal government pursuant to statute.

Applicants also should be aware that, in accordance with DOJ and OJP policy, and with few exceptions, OJP will prohibit use of award funds for Unmanned Aerial Systems (UAS), Unmanned Aircraft (UA), and/or Unmanned Aerial Vehicles (UAVs), absent advance submission of specific documentation of protections in place for privacy, civil liberties, and public safety, and of mitigation of cybersecurity risks. In addition, OJP will bar use of award funds for the purchase or use of UAS made by certain foreign entities designated by DOJ.

Goals, Objectives, Deliverables, and Timeline

Goals

The Connect and Protect: Law Enforcement and Behavioral Health Response Program offers grants to help entities plan, create, or expand comprehensive collaboration response programs that target preliminarily qualified offenders and promote public safety and public health. The definition of "preliminarily qualified offender" is outlined in The 21st Century Cures Act and codified at 34 U.S.C. 10651(9)(A).

Objectives

The objectives of the program are to:

- Design and adopt best practices in crisis response to assist law enforcement officers during encounters with people with MI and CMISA.
- Plan and deliver a law enforcement agency response program—in coordination with a mental health agency—advocacy, and services to improve or enhance the response.
- Pay salaries, as well as other expenses such as training (overtime) and coordination activities, to design and implement a police–mental health collaboration program (PMHC).
- Conduct an evaluation of the PMHC and community satisfaction.
- Engage citizens through officer outreach and education to improve public safety.
- Build positive community relations and trust through public communication strategies.
- Enhance officer knowledge and skills in responding to community members with MI and CMISA.
- Increase public safety agency capacity to develop and sustain the program by collecting data to inform practices, stakeholder groups, policy development, and ongoing professional development.

Examples of PMHC response models include: Embedded Clinicians/Social Workers in Law Enforcement Agencies, Co-responder Teams, Crisis Response Teams, Mobile Crisis Outreach Teams, Intensive Case Management Teams, and Law Enforcement/ Mental Health Integrated 911 Dispatch.

Potential applicants are encouraged to visit the [PMHC Self-Assessment tool](#) to begin the planning process. This tool provides applicants with the principles of a successful PMHC and contains resources to assist in the strategic implementation of a successful response program.

Deliverables

Per the authorizing statute above (34 U.S.C. 10651; Public Law 116-260, 134 Stat. 1182, 1259), The Connect and Protect: Law Enforcement Behavioral Health Response Program grant requires a two-phase process consisting of planning and implementation activities. Grantees will develop a coordinated approach to implementing or enhancing a response and services for individuals with MI and CMISA who have come into contact with the criminal justice system.

The planning phase is up to 12 months during which the grantee will have access to \$100,000 in award funds to complete it. The implementation phase will begin once the grantee has met the requirements of the planning phase, to include completion of the required “Planning and Implementation Guide,” and will continue for the remaining time of the grant.

Applicants must demonstrate that at least one public safety agency and one mental health agency will participate in the administration of the program by describing their established roles and responsibilities in an attached MOU.

Other deliverables and tasks include:

- Develop a coordinated and documented approach to implementing or enhancing law enforcement–behavioral health responses for individuals with MI and CMISA who are involved with the criminal justice system.
- Engage in regular training and technical assistance activities with the BJA training and technical assistance partner, to include completion of the planning and implementation guide.
- Outline plans for obtaining the necessary support to sustain and continue the proposed collaboration program following the conclusion of federal support.

The Goals, Objectives, and Deliverables are directly related to the performance measures that demonstrate the results of the work completed, as discussed under the Application and Submission Information section.

Evidence-Based Programs or Practices

OJP strongly emphasizes the use of data and evidence in policymaking and program development in criminal justice, juvenile justice, and crime victim services. For additional information and resources on evidence-based programs or practices, see the [OJP Grant Application Resource Guide](#).

Information Regarding Potential Evaluation of Programs and Activities

OJP may conduct or support an evaluation of the programs and activities funded under this solicitation. For additional information, see the [OJP Grant Application Resource Guide](#) section entitled “Information Regarding Potential Evaluation of Programs and Activities.”

Priority Areas

The Department of Justice is committed to advancing work that promotes civil rights, increases access to justice, supports crime victims, protects the public from crime and evolving threats, and builds trust between law enforcement and the community. In FY 2021, OJP will give priority consideration in award decisions to applications that demonstrate ways in which their projects will advance one or more of these areas.

To receive priority consideration for advancing one or more of the Department's priorities, the applicant must provide a sufficient narrative explanation as an attachment, that specifies how the project will advance the promotion of civil rights, access to justice, support to crime victims, protecting the public from crime and evolving threats, or building trust between law enforcement and the community.

In addition, OJP will give priority consideration, if applicable, to applicants that demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent-poverty counties.

To receive priority consideration under the poverty priority, the applicant must provide information to demonstrate that the individuals who are intended to benefit from the requested grant reside in high-poverty areas or persistent poverty counties. For purposes of this priority consideration, the term "high-poverty area" means any census tract with a poverty rate of at least 20 percent as measured by the 2013–2017 5-year data series available from the American Community Survey of the Census Bureau (applicants may search by census tract at <https://www.census.gov/acs/www/data/data-tables-and-tools/narrative-profiles/2017/>) and the term "persistent poverty counties" means any county that has had 20 percent or more of its population living in poverty over the past 30 years, as measured by the 1990 and 2000 decennial censuses and the most recent Small Area Income and Poverty Estimates (applicants may search by county at <https://www.census.gov/data/tables/time-series/dec/census-poverty.html> and at <https://www.census.gov/programs-surveys/saipe.html>).

Priority consideration is one of many factors that OJP considers in making funding decisions and is not a guarantee of an award.

Program-specific Priority Areas:

In FY 2021, and in addition to the "Priority Areas" above, priority consideration will be given to applications that:

- Promote effective strategies by law enforcement to identify and reduce the risk of harm to individuals with MI or CMISA and to public safety.
- Promote effective strategies for identification and treatment of female offenders with MI or CMISA.
- Propose interventions that have been shown by empirical evidence to reduce recidivism.
- When appropriate, use validated assessment tools to target offenders with a moderate or high risk of recidivism and a need for treatment services.

To receive priority consideration under any of these areas, applicants must identify, in the proposal abstract, each area for which priority consideration is being sought, and describe, in the proposal narrative, how they will address each priority.

Priority consideration is one of many factors that OJP considers in making funding decisions and is not a guarantee of an award.

In addition, applicants proposing a third program year must identify the source of the 40 percent nonfederal portion and describe how it will use match funds.

If a successful applicant's proposed match exceeds the required match amount, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit. Application Review Information

Review Criteria

a. Merit Review Criteria

Applications that meet basic minimum requirements will be evaluated by peer reviewers. Applications will be evaluated on how the proposed project/program addresses the following criteria:

1. Statement of the Problem/Description of the Issue (15%) - evaluate the applicant's understanding of the program/issue to be addressed.
2. Project Design and Implementation (40%) - evaluate the adequacy of the proposal, including the goals, objectives, timelines, milestones, and deliverables.
3. Capabilities and Competencies (30%) - evaluate administrative and technical capacity of the applicant to successfully accomplish the goals and objectives.
4. Plan for Collecting the Data Required for this Solicitation's Performance Measures (5%) - evaluate the applicant's understanding of the performance data reporting requirements and the plan for collecting the required data.
5. Budget (10%) - evaluate for completeness, cost effectiveness, and allowability (e.g., reasonable, allocable, and necessary for project activities).

b. Other Review Criteria/Factors

Other important considerations for BJA include geographic diversity, strategic priorities (specifically including, but not limited to, those mentioned above relating to priority areas), available funding, past performance, program-specific priorities, and the extent to which the Budget Worksheet and Budget Narrative (web-based form) accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Review Process

Applications submitted under this solicitation that meet basic minimum requirements, will be evaluated for technical merit by a peer review panel(s) in accordance with OJP peer review policy and procedures using the stated review criteria above.

OJP screens applications to ensure they meet the basic minimum requirements prior to conducting peer review. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items necessary to meet the basic minimum requirements.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed \$250,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

Important note on FAPIIS: An applicant, may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and BJA's recommendations, but also other factors as indicated in this section.
