ShoreStation® is a registered trademark of Midwest Industries and SVI International, Inc. does not sell ShoreStation® brand products of any kind.

Dock Pole Caps

NEW! # 4043-025 2" Dock Pole Cap

For any Dock / Piers that uses Standard 2" Poles

- Black Round Cap for Standard 2" Dock or Pier Round Poles
- SVI's Glide Caps are easy to install.
- Featuring Gripper Fins, which insert easily and stay in place!
- Fits .088" to 0.125" Wall Thickness
- Outdoor use rated with UV stabilizer

Augers

NEW!

Composite Augers

Ideal for Dock Installers, Marinas, and Home Docks!

Add extra security to your lightweight aluminum dock if you plan to moor a boat directly to the dock. Use these Composite Augers to prevent the dock from being flipped over with your boat yanking on it.

Features a tapered shank to allow them to fit common 2" O.D. dock poles with a standard wall thickness of 0.088" and also heavy duty 2" O.D. pipe with 0.120" wall thickness. Auger for 1-5/8" OD Poles fits 0.130" wall thickness.

Easier installation!
Suitable for use in extreme muck when you need to grip the bottom below it.

Top Quality!

4043-020 Composite Auger for 2" OD Poles

4043-021 Composite Auger 1-5/8" OD Poles

The best alternative to cast aluminum augers.

Finally, an auger that doesn't break in half like the cast aluminum augers, or add senseless weight to an install!

Pontoon / Tritoon Kits

Pontoon / Tritoon Kit with Hardware for ShoreStation® Steel Cradle Boat Lifts
 For 2000 to 6000 lb. lifts Prior to 2010 with a Steel Cradle / V-Frame
 3025-071 (Ref HA0088-10)

NEW
 from SVI!!

Pontoon / Tritoon Kit with Hardware for ShoreStation® Manual SSV Aluminum Frame Boat Lifts Models
 For Weights 2000 to 6000 lbs.
 3025-072 (Ref HA0096)
 Attaches to New Style Aluminum Cradle Cross Members. Lumber not included.

ShoreStation® is a registered trademark of Midwest Industries and SVI International, Inc. does not sell ShoreStation® brand products of any kind.

Boat Lift Step Over

NEW! Boat Lift Step Over

4043-012 Boat Lift Step Over

UNIVERSAL STYLE FOR MANY BOAT LIFT MAKES / MODELS

Ideal for Dock Installers, Marinas, Home Docks, More!

The Boat Lift Step Over requires a V-cut lift frame (the outer boat lift frame itself, not the cradle, as pictured) on the dock side to avoid interference as the step travels up and down with the cradle. The vertical mounting tubes measure 32" tall, and has 20" of space between the angled support gussets and the bottom of the tube, so theoretically you can have 12-13" of vertical adjustability depending on the size of your lift cradle. The TITAN gray composite tread is 1' x 3' and provides a grippy surface for confident loading and unloading.

IMPORTANT NOTE:

The boat lift step over will NOT work on ShoreStation®* Brand lifts or any other brand which has a horizontal bar on the side of the lift frame itself.

The universal 4043-012 Boat Lift Step Over comes with U-bolt brackets and have two hole options which allows it to fit either a 2"x 5" or 2"x 6" side cradle beam.

Made in the USA

THREE EXCELLENT FABRIC CHOICES FOR YOUR BOAT LIFT CANOPY COVER:

Shelter-Rite® by Seaman Corporation Premium PVC-Coated Polyester

 TAN	 MARINE	 ROYAL	 BLACK
 RED	 MAROON	 GREEN	 ORANGE
 GRAY	 YELLOW	 BROWN	 WHITE

Most Popular!

This "Made-In-America Premium Fabric" is engineered to meet and exceed extensive performance criteria. Shelter-Rite® is an 18 oz. PVC-coated high-tenacity polyester material that will not rot, shrink or stretch and offers unparalleled adhesion (to reduce wind whip), color match and colorfastness. This is the best PVC-coated fabric we've found from anywhere in the world. It outperforms all others. These covers are also constructed by using heat-welded seams in the main body of the cover to create a waterproof environment for your boat.

Note: Shelter-Rite® fabric is the most consistent in color year-to-year, roll-to-roll and cover-to-cover. Seaman Corporation uses computerized pigment formulation equipment that all but eliminates this issue. (Occasional sheen variation can create the appearance that colors vary ever so slightly). Covers made of Shelter-Rite® are covered under the canopy manufacturer's 7-Year Limited Warranty.

Shelter-Rite® by Seaman Corporation SLT13 13 oz. Lightweight Polyester

 TAN	 WHITE	 ROYAL	 GREEN
 GRAY	 MAROON		

NEW!
Lightweight Version
of Shelter-Rite
Above

The foundation of this new LIGHTWEIGHT Shelter-Rite SLT13 is identical to the Shelter-Rite 18oz fabric except the underside coating was reformulated and reduced to 1.5 ounces. We are able to reduce the weight of the fabric while maintaining the same tear resistance, ultra violet and anti-fungal protection, and water tightness as SR18. All cross seams are heat welded (not sewn). SLT 13 will not stretch, shrink or rot.

Note: Shelter-Rite® fabric is the most consistent in color year to year, roll to roll and cover to cover. Seaman Corporation uses computerized pigment formulation equipment that all but eliminates this issue. (Occasional sheen variation can create the appearance that colors vary ever so slightly.) Covers made of Shelter-Rite® are covered under the canopy manufacturer's 7-year limited warranty.

Harbor-Time™ Premium Woven Polyester

 BEIGE	 NAUTICAL	 SHALE	 PUTTY
 MALLARD	 CORDOVAN		

Harbor-Time™ is a "Premium Woven Polyester, American-Made Fabric" that has an extremely durable "pigment-stable" acrylic coating on both sides of the material. An acrylic coating retains a beautiful soft cloth appearance and insures a long lift cover life. Harbor-Time™ fabric was designed for high-UV and high-moisture environments and is superior to all other leading fabrics we have tested. With a Harbor-Time™ canopy, you will get compliments on the inviting appearance.

Covers made of Harbor-Time™ are covered under the canopy manufacturer's 5-Year Limited Warranty.

Boat Lift Wheel Crank Knob

NEW! Wheel Crank Knob

4043-030 Boat Lift Wheel Crank Knob (1)

Full Spinner Knob—The ergonomic design makes it gentle on the hand and easier to crank than most OEM knobs. The long neck on this rugged boat lift knob helps to eliminate bloody knuckles from scraping the wheel as you spin!

Back-to-Back Flange Nuts Recommended.

Rated for outdoor use with UV stabilizer.
