**\*Requires Inset Rims**

Combination Buckets are not approved for use with the Tilt-Tatch.  
Combination Buckets may interfere with tracks at extreme roll-back position on some loaders. Use of lift-arm stop is required if this occurs.  
It is recommended that a port relief be installed for use with the Combination Buckets. Installation instructions are included in the Operation Manual.  
Optional Open/Close Restrictor is available to slow down the open/close functions of the combination bucket.
