This is the story of the one-antlered deer called Vu "short for Vundabah", and his friends – the swallow Constance and the ladybird Vincent. It's an unusual friendship that helps him grow up and learn that life often gives us bitter lessons but only to show us that we can handle anything, should we only find the inner strength to see how we can benefit from every situation...

This is a story that teaches how important it is to never lose hope, to never fear the unknown, to never give up, to love yourself the way you are, and to remain optimistic no matter what.

"Oh, come on!" Constance tried to calm him down. "You are still handsome! You are well-built, you lose perfectly, you smile and hug..."

The Magician Has the Last Laugh

The enmity is over now. What we needed was some soup, onions, and vases, so let's all bow. It's true, the magic sometimes evades me, but thousands years of experience and a stick can praise me. Thus, call me not an ancient mott, be it a thousand years old. From this day on I'm a magician, and, oh, that is a wonderful transition! I am the one to end the war, to unite two worlds that were separate before. I am the one who played with magic, so that cleanliness and filth changed places, for those who faced that, was it tragic?

не е модерно. „Този пък заек какъв е смешен и страхлив“, смеели се децата. В класната стая никой не искал да стои до тях, все последни ги избирали за играта на народна топка. В столовата често настъпвали крокодила по опашката, кога неволно, кога нарочно. Зайчето пък все оставало гладно. Когато се нареждало за храна, всички животни го бутали и предреждали и храната обикновено свършвала, докато дойде неговият ред.

– Милчиците те! – натъжи се Магу.
– Но ето че един ден зайко си седял последен на опашката, а крокодилът се наредил зад него. Дошъл един наперен петел, качил се по гърба на крокодила и бунал зайчето да се отмести, че да застане пред него. Ядосал се крокодилът тогава и като отворил една уста и... АМ! Няколко вече петел! – Тъпчо направи драматична пауза.

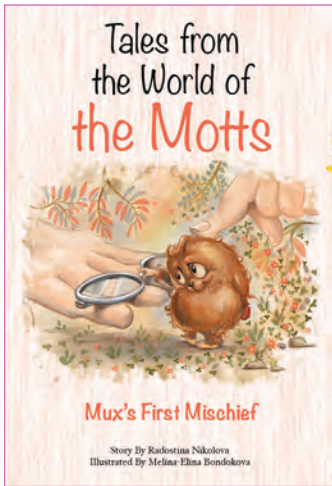

– Ауу! – извика Глупчо, който съвсем беше

купят пухкав крокодил. Ще го кръстя Ламя! – обади се Магу.
– Абе ти спомняш ли си к'во трябваше да напишем? – почеса се Глупчо.
– Нещо за пленника, че е при нас и такавата... да ги извикаме, а нашите през това време... сещаш се. Плюс лакомствата – Тъпчо опита да предаде на Глупчо заръките на Жал, но без Магу да заподозре за какво става дума.
– Нищо не разбрах – начумери се Глупчо.
– Добре, дай с приказката, пък като заспи малката, ще го направим набързо двамата – предложи Тъпчо.
– Става – веднага се съгласи Глупчо, на колгото май повече му се разказваха приказки, отколкото му се пишеха писма до врага. – И така, моят дядо навремето изкачил Северния полюс...

– Абе как ще катериш Северния полюс, това да не ти е планина – прекъсна го Тъпчо.
– Не, не! Той тръгнал за Северния полюс, но по пътя изкачил Еверест. Ей така, да посвикне със студеното...
...срещнал...

This picture book tells the story of Waldo – a playful dog who finds himself in the sky but instead of turning into a twinkling star he turns into a rather transparent version of himself.
