Clean Design – MK Express is designed to be as simple to use as possible.

Video Tutorials – Regular how-to videos explain new and existing features.

Updates – MK Express will automatically check for updates and simply notify you when it is ready to install.

How To Jumpstart Your Locksmith Business or Ten Ways To Increase Your Shekel Intake on CD by Jake Jakubowski

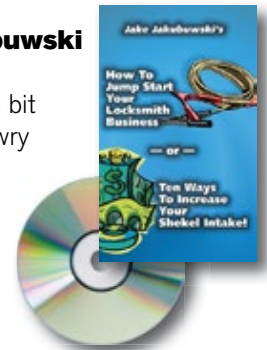

#DJ-JS-1-CD – \$35.00

Anyone who's ever read anything that Jake Jakubowski has written is familiar with his style... A little bit of humor, a little bit of "down home" wisdom and a whole lot of chutzpah. This book is just as witty, wry and pointed as everything else he had written. There's something in this book for the newbie, the seasoned 'smith and the person that's dreaming of the day when they can go out on their own.

Jake's advice on money making, building your business and customer relations is timeless.

This book is his foray into teaching the world of business concentrating on increasing shop profitability through an infusion of simple but effective marketing, sales and promotional techniques and products. Increase your profitability without a major addition of expenses or lost time, using the techniques Jake found to be effective.

Also available in print format. See the General Locksmithing Section.

Aluminum Stile Door Service & Repair on CD by Jake Jakubowski

#JJ-ASB-1-CD – \$90.00

• In Aluminum Stile Door Service and Repair Jake endeavored to take the mystery out of aluminum stile door service, repair, replacement and refurbishment.

• Jake outlines easy ways to replace a pivot, a lock or a concealed vertical rod. Jake shows how to diagnose, repair, adjust or replace an overhead concealed closer or Rixson floor check.

• In this book, you can: Learn the difference between a "stile" and a "style". Replace a surface mounted closer or deactivate a pivot with equal ease. Adjust a malfunctioning Jackson CVR or electrify a lock. Learn how to "take down a door" or replace a frame or add a mullion, or install a magnetic lock.

• In 423 pages, with 758 photographs and illustrations, Jake shows you how to make some really swinging profits by installing hinges, butts, closers, floor checks, over head concealed closers, panic hardware, locks, latches, dust-proof strikes, new doors, frames and electronic access control.

• Photograph-after-photograph, illustration-after-illustration and chapter-after-chapter makes, I believe, Aluminum Stile Door Service and Repair the book to have

Also available in print format. See the General Locksmithing Section..

The National Locksmith Digital Archives 1988-2014 issues

#TNLCD-SET (1988-2014) – \$195.00

#TNLCD-14 (2012-2014) – \$45.00

This multi-disc set, contains 27 years (1988–2014) of the Locksmith's favorite magazine. Over 23,000 pages of indexed and keyword searchable articles complete with photos. Use the index to locate any topic you want to read about. You'll get cool locksmith internet links allowing you to visit important sites with a single click.

Removable Cores: Large Format on CD

#RCLF-CD1 – \$55.00

"Removable Cores: Large Format" is packed with exploded views, photos, line art and various graphics, which will blow you away!

Why worry about Sargent, Kaba, Schlage, CorbinRusswin, Medeco or Yale again? Get this book and have an up-to-date resource at your fingertips.

Within its covers are a multitude of pictures, charts, drawings, exploded views, diagrams, line art, clipart, comments, etc. that will aid the reader in understanding and in solving individual RC problems on your job site.

Also available in print format. See the Lock Service Section.

Basic Electronic Access Control. Beginners Handbook on CD.

by Jake Jakubowski

#DJ-BE-1-CD – \$45.00

In this book, Jake introduces the reader to the basics of electronic access control system, largely concentrating on terminology and single door applications.

Many other books are full of charts and wiring calculations, etc. But Jake, in conversational tone covers the less technical side of the project and makes it easy to read and understand

Also available in print format. See the General Locksmithing Section.

Lockin' Up on CD by Jake Jakubowski

#DJ-LU-1-CD – \$29.00

Jake was one of America's most beloved and respected authors and educators.

Often strongly opinionated and less than "politically correct" on occasion, Jake's column was widely read.

He published the articles in book form so that other security professionals and locksmiths could use them as a template to promote their own business, as he had done

Over 100 articles in the book.

Also available in print format. See the General Locksmithing Section.

Total Door Service and Repair on CD by Jake Jakubowski

#DJ-TDS-CD – \$90.00

Doors are all around you. Shouldn't you be getting your share of the big profits from this type of work? Written by one of America's most respected and beloved instructors and authors.

This book is absolutely the best reference book available today for servicing the Aluminum Stile Door.

Also available in print format. See the General Locksmithing Section.

The 15 Minute Safe Opening Technique on CD

#JJ-CD1 – \$99.00

This book deals exclusively with round head lift out doors. Shows five ways to open a Major; three ways to find the Dog Pin on a Major; four ways to open a Star; four ways to open a LaGard style round head. Also covered are: Bolt shear, side punching, drilling false gates, finding Dog Pins, 'blowing bolts' and drilling perfect scope holes; How to make emergency dials; How to open most round heads in fifteen minutes or less; Open the most severely vandalized heads in a matter of minutes; How to bypass hardplate and relockers on lift-out doors; How to spindle drill older Majors; How to 'Blow the bolts' on a LaGard and many LaGard style round heads.

Over 100 specific photographs. Fifty clear illustrations. Dozens of specific drill points and a specific drill point locator, over 140 pages. Included are drill points for Diebold, Migh-T-Safe, Kingdom, Sentry, In-A-Floor and other round heads. Page after page, picture after picture, illustration after illustration—all designed to help you make money. Also available in print format. See the Safe Opening Section.

Basic Masterkeying Course on CD

#BMKC-CD1 – \$59.95

The Basic Masterkeying Course is designed for the Locksmith who wishes to become proficient in Basic Masterkeying. Includes 13 step-by-step lessons, and 12 self quizzes.

NLAA Auto Service Guide on CD

#CB-05 – \$99.00 • #NLAA (with Membership) – \$24.95

This CD contains over 3,0000 pages of automotive locksmith service.

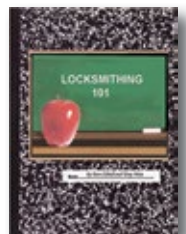

A multitude of articles give you complete service procedures for a wide variety of cars. Techniques covered include code locations, lock and column disassembly, lockouts, and much more. Hundreds of huge photos show you how to service domestic, foreign, and even high security vehicles with ease. All known key blanks are given, as are all details you would need to work on the vehicle. An easy index allows you to instantly locate the car you need, and one click transports you to the correct page. Read the data onscreen, or even print it out if you choose. The NLAA Auto Service Guide covers loads of specific vehicles with thousands of photos. For an additional \$24.95, receive a 1 year membership to the NLAA. See page 23 of this catalog for more information. Note that NLAA members will already have received these materials. See the Automotive Service Section.

Locksmithing 101 by Don O'Shall and Tony West

#DO-L101 – \$125.00

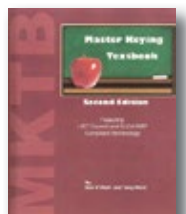

Written by two of the Locksmithing and Security Industry's most popular Instructors and most prolific authors, this book will take a person from Apprentice virtually to the Journeyman level of knowledge. Of course, the person will still need to apply the knowledge and gain the time in the trade, but this is perhaps the finest preparation for them to do so in a manner that makes them an asset, rather than a burden. This book will take the reader step by step into the important aspects of the Locksmithing skill sets. For the Apprentice without a Master, this book can provide the basis to make them a desirable candidate for training positions. While nothing in life can truly be guaranteed, this book is very probably the best way into the trade.

Master Keying Textbook Second Edition by Don O'Shall

#DO-MKT – \$60.00

This easy to read, comprehensive manual is intended to take you from beginner through intermediate in a matter of only a few days. Based upon the popular two day course and the original Practical Master Keying of Pin Tumbler Locks from 1981, but fully updated and using all approved terminology whenever possible.

Pure Jake - The Book! by Jake Jakubowski

#DJ-PJ – \$45.00

Jake was one of America's most beloved and respected authors and educators. Ever wonder what paths one might follow to get to that type of situation? In this auto-biography, Jake tells his life story and the paths he followed in his own down home style. Easy to read and understand, this is probably one of the most enlightening and entertaining books you may ever read.

**Total Door Service and Repair** by Jake Jakubowski

#DJ-TDS-BOOK – \$90.00

Doors are all around you. Shouldn't you be getting your share of the big profits from this type of work? Written by one of America's most respected and beloved instructors and authors.

This book is absolutely the best reference book available today for servicing the Aluminum Stile Door. Also available in CD format. See the Software Section.

**Advanced Master Keying Skills** by Don O'Shall, Greg Brockway and John

Truempy

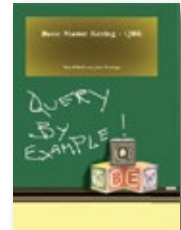

#DO-AMKS – \$60.00

This book is NOT for the beginner. The skills taught in this book should only be used by locksmiths who are well grounded in basic and intermediate master keying techniques and fully comfortable with the Standard Progression Format (SPF) charts and the development of standard master keying systems using them. But if you are ready for the next level, THIS BOOK IS FOR YOU!

**Basic Master Keying – QBE** by Don O'Shall and John Truempy

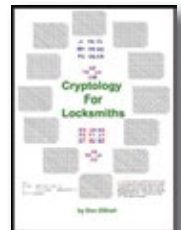

#DO-BMK – \$80.00

This book uses the amazingly effective teaching tool known as QBE or Query By Example to teach Basic Master Keying quickly and efficiently to move the beginner or apprentice to a reasonable skill level in the least time possible. If you are new to Master Keying, this is the book for you!

**Cryptology For Locksmiths** by Don O'Shall

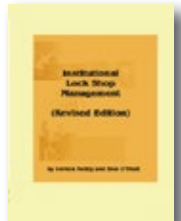

#DO-CL – \$60.00

Don's cryptology skills are legendary in the locksmithing and security industry, and date back to specialized military training in 1968. He is also known for his attention to detail and is a recognized expert on Master Key Systems and Institutional Key Control. This book is a fast and efficient way to put these skills to work for you, and will enable you to seriously exceed the legal requirements to provide reasonable security for customer information, offering your customers and clients the comfort of knowing their valuable information is not just lying around written in plain English for anyone who finds it to read and compromise the data. This instructional and reference guide provides many easy to learn and use techniques to encode confidential data such as safe combinations, Master Key Information, TMK Logs, and other customer related files. Includes many techniques for key stamping and key serialization for Key Control Management.

**Institutional Lock Shop Management** by Don O'Shall and Vernon Kelley

#DO-ILSM – \$60.00

Both authors are legendary for professional management of an institutional Lock and Access Control Shop and for attention to detail. Together they have created the fastest and easiest way to get you fully up to speed on professional Institutional Lock Shop Management!

**Master Key System - Specification, Application and Management** by Don O'Shall, John Truempy and Tony West

#DO-MKS – \$60.00

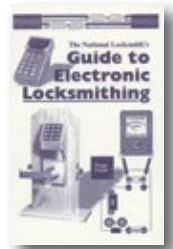

You understand and can read or generate standard master key charts. You have a Master Keying client or a Master Keyed Facility to manage or need to place a factory order. How do you put it all together? This book will show you how.

The National Locksmith Guide To Electronic Locksmithing

#EL-1 – \$39.95

Everyone knows there's big money in selling, installing and servicing electronic security such as mag locks, electronic strikes, and simple access control. But how can you learn all the skills needed to make the profits? This book starts with all the basics that every locksmith needs to know about electricity, and teaches you every step of the way. You'll learn everything from closed circuit TV, simple access control, wireless security, and electronic locks.

Basic Electricity by Richard Allen Dickey

#RD-BE-1 – \$29.95

If you are interested in how basic electricity will affect you in the Locksmith Industry, this book is for you. Inside you will find... • Basic AC & DC electricity • Voltage, current, resistance & impedance • Series & parallel circuits • Mystery of wire • How to use a multimeter • Static electricity.

If you have no idea of how electricity works, you will after reading this book. If you already have an understanding of the basics, this book will teach you more. Electricity is in the Locksmith Industry and it is here to stay. Don't be afraid, be amazed with what you can do.

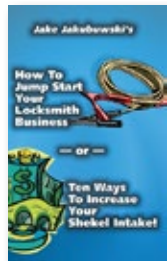

How To Jumpstart Your Locksmith Business or Ten Ways To Increase Your Shekel Intake by Jake Jakubowski

#DJ-JS-1-BOOK – \$35.00

Anyone who's ever read anything that Jake Jakubowski has written is familiar with his style... A little bit of humor, a little bit of "down home" wisdom and a whole lot of chutzpah. This book is just as witty, wry and pointed as everything else he had written. There's something in this book for the newbie, the seasoned 'smith and the person that's dreaming of the day when they can go out on their own. Jake's advice on money making, building your business and customer relations is timeless. This book is his foray into teaching the world of business concentrating on increasing shop profitability through an infusion of simple but effective marketing, sales and promotional techniques and products. Increase your profitability without a major addition of expenses or lost time, using the techniques Jake found to be effective.

How to Shake the Shekel Tree! by Jake Jakubowski

#DJ-SST – \$29.00

In this book Jake concentrates on simple but effective sales techniques and products to increase your shop's profitability.

This book concentrates on sales without the need to become a sales type individual.

Certification Program

Welcome to **The National Locksmith Certification program**. This testing certification program consists of multiple specific test topics that you can choose at random. Each test contains 50 multiple choice questions of which 40 correct answers are needed for a passing score. Each completed and passed test is designated with a certificate of completion. For every five tests completed and passed, a framable certificate with accomplished letter designation is received.

For example:

TNL-CL – Certified Locksmith designation after a total of 5 tests are passed.

TNL-CLA – Certified Locksmith Advanced designation after a total of 10 tests are passed.

TNL-CLM – Certified Locksmith Master designation after a total of 15 tests are passed.

TNL-CLM II – Certified Locksmith Master II designation after a total of 20 tests are passed.

Tests are available online electronically - An email will be sent to you within 72 hours with a link to take the test.

Cost per test is \$35.00 for Subscribers to TNL and their Bonded Employees. Non subscriber pricing per test is \$75.00.

The Ultimate Technitips Collection

#TIPS-2 – \$39.95

Here's one of the most useful books ever available to the locksmith!

Three hundred pages filled with tips and tricks from veteran locksmiths. You'll learn all the secrets other locksmiths use to save time and make extra money on the job. You're GUARANTEED to make back the cost of this book in no time flat.

Categories of tips include: Car Opening, Domestic and Foreign Auto Service, General Automotive, Making & Modifying Locksmith Tools, Padlock Tips, Mortise Lock Tips, Lockout Tips, Door Control, Safe Procedures, Picking & Impressioning, Modifying Key Machines and much, much more.

The Ultimate Technitips Collection is worth its weight in gold! In this one volume, you'll have the tricks and secret methods developed over many years by HUNDREDS of locksmiths. Order your copy today.

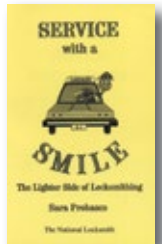

Service With A Smile by Sara Probasco

#SWS – \$14.95

To tickle the funnybone of anyone in a service oriented business.

Service With A Smile accounts the humorous escapades of Don and Sara Probasco. You've been entertained by Sara's column in the past, now you can have an entire collection of her finest tales.

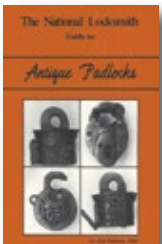

Antique Padlocks by Jack Roberts

#PAD-1 – \$29.95

Finally there is a book to give you all the information you need about old interesting locks.

Our manual shows you a photo of the lock and gives you data on the manufacturer, age, construction materials, and even the value of the padlock! Plus, we tell you how to make an operating key, as well as information on which blanks to use, etc. A "Notes" section gives a history of the lock as well as any technical information needed to help you make a working key. Hundreds of types of locks are covered including iron, steel and brass padlocks.

Flat Rate Manual by Janice Pate

#FRM-1 – \$34.95

Now you can easily "Price for Profit!"

Chapters allow you to price jobs in all these categories: Domestic and foreign autos, code keys, conversions, duplicate keys, first key or rekey, installations, key-in-knob locksets, lockouts, masterkey systems, miscellaneous, safe and vault work and trip charges.

Aluminum Stile Door Service & Repair by Jake Jakubowski

#JJ-ASB-1-BOOK – \$90.00

- In Aluminum Stile Door Service and Repair Jake endeavored to take the mystery out of aluminum stile door service, repair, replacement and refurbishment.
- Jake outlines easy ways to replace a pivot, a lock or a concealed vertical rod. Jake shows how to diagnose, repair, adjust or replace an overhead concealed closer or Rixson floor check.
- In this book, you can: Learn the difference between a "stile" and a "style". Replace a surface mounted closer or deactivate a pivot with equal ease. Adjust a malfunctioning Jackson CVR or electrify a lock. Learn how to "take down a door" or replace a frame or add a mullion, or install a magnetic lock.
- In 423 pages, with 758 photographs and illustrations, Jake shows you how to make some really swinging profits by installing hinges, butts, closers, floor checks, over head concealed closers, panic hardware, locks, latches, dust-proof strikes, new doors, frames and electronic access control.
- Photograph-after-photograph, illustration-after-illustration and chapter-after-chapter makes, I believe, Aluminum Stile Door Service and Repair the book to have.

Also available in CD format. See the Software Section.

15 Minute Simplex Install & Other Neat Stuff on CD

by Jake Jakubowski

#JAKE15SIMPLEX – \$69.00 (only available on CD)

The 15 Minute Simplex Install and Other Neat Stuff shows you how to quickly put a Kaba/Ilco installation behind you. Jake draws on his own experience from the time he first saw his first Simplex 1000 to his installation of Kaba/Ilco's 3100! Like his other books and articles, this one is loaded with photographs, illustrations, tips, tricks and short-cuts to help the beginner and the seasoned 'smith save time, make money and have a little fun doing it! If you've ever mumbled in frustration while working on one of these locks – this is the book you won't want to miss.

Wafer Lock Reading by Robert Sieveking

#WLR-1 – \$19.95

- Easy to learn. • No Codes needed.
- Faster and safer than impressioning. • Easy to learn principles will have you reading locks fast. • Make keys for foreign auto without codes, disassembly or impression. • Reading wafer locks is one of the special skills every locksmith should master.

Revised GM Steering Column Course

by Thomas A. Mazzone & Tom Seroogy

#GM-2 – \$115.00

Here's what the course contains... • Comes complete with take-home test so you can become certified on GM steering column service! • Authoritative training on every domestic GM column from 1967 to 1995. • Includes the collapsing GM steering shaft, avoid the \$165 GM 10-cut mistake, A to Z airbags, square columns made easy, Alpha Tech Service without fear, the truth about VATS variable timing and more. • Written and photographed by GM Master Technician, Tom Mazzone, and 10 year Auto Locksmith Expert, Tom Seroogy. • In-depth information drawn from actual field experience. • Large clear photos highlight commonly found problem areas and take you step by step for clear, easy and concise service procedures. • Dangers & Warning section alerts you to costly and time consuming problems before you start. • A tool guide shows exactly what tools are necessary for servicing each column. • Written using the same strict GM service guidelines used for training GM technicians.

Sieveking Auto Key Guide & Illustrated Cross Reference by Robert Sieveking

#AK-1 – \$27.00

The Sieveking Auto Key Guide lists over 2,600 automotive and motorcycle keyways, covering makes from Acura to Zundapp, and listing fourteen popular key manufacturer numbers. Every listing has a clear illustration of the keyway. This allows the locksmith to compare the "key-in-hand" to the listed number. If the key blank number is not known, the "Maker" section of The Sieveking Auto Key Guide will allow the locksmith to search through all the listed keyways for a particular auto maker "by the illustration of the keyway". When the correct keyway is found, you will also find all the manufacturers numbers for that keyway. The keyways are also identified as pin or wafer, and the number of pins or wafers given. Whether the illustrated key is 6 wafer or 8 wafer, 5 pin or 10 wafer, you'll know at a glance.

Fast Facts by Robert Sieveking

#RS-FF-11 – \$99.00

Written by a Locksmith for Locksmiths. Model index contain vehicles from 1965-2011. New to the business or over 30 years experience, you cannot afford to be without Fast Facts™. No batteries required. Faster, Simpler and Easier to use than any other computer program. Fast Facts™ is a "must have" item for motorcycle work. Whether you are simply duplicating keys or making first keys for auto or motorcycles, the Fast Facts™ encyclopedia index of auto and motorcycle keys will make your job faster and easier by eliminating wasted keys cut on the wrong blank. There are 179 motorcycle key plates, 526 auto key plates and many new transponder Facts. The model index lists over 3300 autos and 1400 motorcycles. The exclusive lay-flat plastic spiral bound desk size adds to the ultimate convenience.

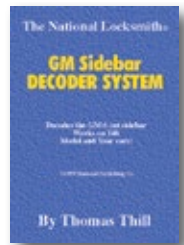

GM Sidebar Lock Decoder System by Tom Thill

#TT-1 – \$99.95

Author Tom Thill, has invented an amazing new way to make keys for six cut GM Sidebar Locks. The book describes a method which allows you to use a set of specially cut keys in the ignition. By turning the keys in the lock, one will become trapped. The key will only be removed when you release the turning pressure. Then you use a second set of keys until the second key traps.

Each key is specially coded. In just a few minutes you will have identified the two keys which trapped in the lock. Simply look on the provided chart until you find the section that lists the two specific keys which trapped for you. Right there on the chart, you will be given several codes. One of those codes is the correct one for the key. In many instances you will be given only one code, which will be the exact one for the lock. His system will save a great deal of time and trouble in those instances. The average time it takes to decode the lock with his system is about 10 minutes, and sometimes faster.

The book includes full details of all the methods, and all the charts needed to insure that you may never have to tear down a GM column again with complete instructions and specifications which enable you to cut 130 of your own keyblanks using the precise specifications needed. Do not confuse this decoder method with tryout keys. You are not creating tryout keys. You are creating carefully specified keys which exploit the sidebar lock to decode it by trapping a wafer. Then, knowing which two keys become trapped using the system, we give you the correct code for the lock.

Guide to Motorcycles Volumes 1, 2, 3, 4, 5, 6 & 7 by John Blankenship

Vol. 1 #MOT-1 – \$99.00 • Vol. 2 #MOT-2 – \$99.00 • Vol. 3 #MOT-3 – \$99.00

Don OShall has been a recognized expert on Interchangeable Cores and Master Keying for over thirty years. This book puts his knowledge at your fingertips, including the current crop of patent protected products

Pen Parties on DVD by Dave McOmie

#DM-PEN-DVD – \$150.00

The Pen Parties is Dave's 110 minute DVD.

It shows you live action of safe opening and trouble shooting at its finest in cities all over America. Years in the making, Dave travels to Chicago, Phoenix, Seattle and Toledo opening dozens of locked and damaged safes. See what is inside and outside of these containers. Our tiny cameras even take you right down the hole into the wheel pack! Sections on trouble shooting, dial pulling, hardplate drilling, defeat methods and tools round out this amazing film. The production is top notch.

This is not your amateur safe video. Plus see the Bloopers Reel. It's a scream when Safe Techs Go Wild!

Here's a note from Dave on the concept of the movie...

We focus on techniques which are universally applicable. For example, there is a section on Seven Defeat Methods, which cover virtually all safes using mechanical locks. In truth, in any given year, I use maybe five of the seven on all the safes that I open. That is the beauty of taking a conceptual approach to safecracking. The trick is choosing the right method for the right safe.

The 15 Minute Safe Opening Technique by Jake Jakubowski

#JJ-1 – \$99.00

This book deals exclusively with round head lift out doors. Shows five ways to open a Major; three ways to find the Dog Pin on a Major; four ways to open a Star; four ways to open a LaGard style round head. Also covered are: Bolt shear, side punching, drilling false gates, finding Dog Pins, 'blowing bolts' and drilling perfect scope holes; How to make emergency dials; How to open most round heads in fifteen minutes or less; Open the most severely vandalized heads in a matter of minutes; How to bypass hardplate and relockers on lift-out doors; How to spindle drill older Majors; How to 'Blow the bolts' on a LaGard and many LaGard style round heads.

Over 100 specific photographs. Fifty clear illustrations. Dozens of specific drill points and a specific drill point locator, over 140 pages. Included are drill points for Diebold, Migh-T-Safe, Kingdom, Sentry, In-A-Floor and other round heads. Page after page, picture after picture, illustration after illustration—all designed to help you make money. Also available on CD. See the Software Section.

Bread & Butter by Dave McOmie

#BB-01 – \$85.00

Now here is one amazing value!

This book runs well over 300 pages and is bursting with photographs, drill points, relocker drill point and opening details for dozens of the most popular safes in the industry. Not only do you get all the opening specs and measurements, you also get a very complete rundown on opening procedures. This book actually walks you through every opening from the first step until the door swings open!

Included among many other safes are: Hamilton Square Door, Knight TL-15, Electronic Safe Locks, Pacific Security Products, Diebold, Mosler, LaGard, GSA, Side and Bottom Drilling, York, Kumihara, Sentry, and more. You'll find this very hefty book to be an indispensable aid when you have a safe to open. While this thick, monster book may be heavy to carry, it won't break your bank at only \$85!

More Bread & Butter by Dave McOmie

#BB-02 – \$85.00

Another great value!

This book runs over 200 pages.

If you own Bread and Butter, you have to have More Bread and Butter. Still more photographs drill points, relocker drill point and opening details for dozens of the most popular safes in the industry. Not only do you get all the opening specs and measurements, you also get a very complete rundown on opening procedures. This book actually walks you through every opening from the first step until the door swings open!

Included in this edition are: Sentry, Gardall, Diebold ATM, Art Metal fire Safes, Wico, Diebold's CashGard, LaGard Locks, Bischoff, Mosler, HH, Gary, Kumihara, Securall, Schwab, Meilink, Fire Fyter, Star and a whole bunch more information. Make you collection complete.

Penetration Party by Dave McOmie

#PP-1 – \$110.00

Uncensored! • The Safes! • The Tools! • The Action! • The Perfect Openings!
• The Bloopers and Blunders! • The Slick Tricks!

No one knows safes and safecracking like Dave McOmie. When it comes to drill points, he is the master of all masters. This book takes you inside Dave's mind, and allows you to follow his thought process as he analyzes each opening. Dave gives you his thoughts on the best opening method, then the opening is performed. And then Dave honestly appraises each method and offers improvements where he feels his original methods were less than perfect.

Modern Safe Opening by Robert G. Sieveking

#MSO-1 – \$59.95

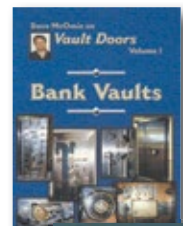

This book is a step-by-step how-to course in safe penetration. Opening safes is one of the most profitable aspects of the locksmithing business. Now, with Modern Safe Opening you'll learn: the theory of operation through troubleshooting and combination changing to logical penetration site selection and methods. Nearly all possible drill points are defined and illustrated by original photos and accurate drawings. Drill and transfer, drill for the drop, drill for the fence, drill for a relock trigger, or drill to solve a specific lock malfunction. Each method is defined, and you get step-by-step procedures. Back, side, top or face drill, under the dial or outside the dial. You'll learn it all!

Dave McOmie on Vault Doors Vol. 1 – Bank Vaults

#BV-1 – \$110.00

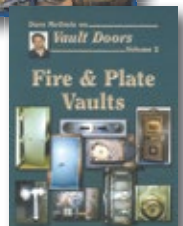

Dave McOmie has done it again! Here is the definitive new book on Bank Vault opening made easy! These openings can be a nightmare, but not when you bring Dave McOmie along with you on the job. You get amazing photos and opening details as usual.

Dave McOmie on Vault Doors Vol. 2 – Fire & Plate Vaults

#FPV-1 – \$110.00

Featuring Dave McOmie's extraordinary level of detail, opening techniques, and clear photographs, this new volume makes Fire & Plate Vaults easy to open. Your investment in this book will pay for itself many times over in saved headaches and time.

Gun Safes by Dave McOmie

#GS-1 – \$110.00

Need a drill point or relocker drill point on a gun safe?

Then this is THE book for you, with superb photos and precise information on gun safes made by Amsec, Blue Star, Browning, Cannon, Centurion, Cobalt, Fort Knox, Frontier, Gardall, Gold Coast, Goldfield, Granite, Hall's, Kodiak, Liberty, Treadlok, ValueLok, Winchester and Zanotti. PLUS, Dave has included an invaluable section on how to defeat the most popular locks currently on the market, both mechanical and electronic. Mechanical locks include: Ilco P67; LaGard 3330; S&G 6730. Electronic locks include: Amsec KPL-100, KPL-2000, ESL-10; LaGard Swingbolt, Old-Style 33E, New-Style 33E, S&G 6120. This is the first book in a brand new series, in which each volume will be dedicated to a particular type of safe.

10 Years of Dave McOmie

#DM-10 – \$199.95

Every single National Locksmith article by Dave McOmie from August 1986 through August 1996 under one cover!

- This book has a magnificent and durable casebound hard cover!
- Over 500 high-gloss pages—our biggest safe book ever!
- Each page is numbered and labeled by month and year for easy reference.
- Dave has written an extensive Index, which categorizes each safe by manufacturer and type, and lists the corresponding page numbers and month/year. This is an indispensable aid to the technician who needs to locate information NOW!
- Where appropriate he has written Retrospective Comments at the end of the articles. These are sometimes information-loaded, sometimes humorous, but always worthwhile.

10 More Years of Dave McOmie

#DM-20 – \$199.95

In this second installment – Every single National Locksmith article by Dave McOmie from September 1996 through September 2006.

This book contains 327 pages. The index categorizes each safe by manufacturer and type, and lists the corresponding month / year. This book contains extensive information on a wide variety of safe opening techniques and styles. A must have for any Safe Tech.

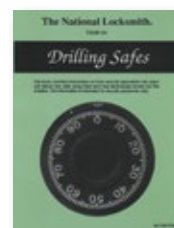

Drilling Safes by Carl Cloud

#DS-1 – \$95.00

Carl Cloud has written a very important book on safe opening.

One of the most critical parts of opening a safe is knowing where to drill the holes. But what's the best way to drill a safe? How do you drill hardplate? What am I looking at through the hole? What tools do I need? What do all these safe terms really mean? Exactly how do I defeat a relocker? This book answers all those questions and many more!

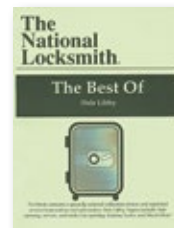

The Best of Dale Libby

#DALE – \$25.00

This book includes the best articles written by Dale Libby over the course of many years, going back well over ten years! Now you can have this terrific collection of safe opening articles, automotive articles, and more.

Safe Deposit Box Service by Robert G. Sieveking

#SDBS-1 – \$39.95

There is gold in safe deposit boxes!

Not just money stored inside them, but gold to be earned by opening and servicing these containers. But what should I look for? Where do I drill for the fence or gates? Can I refinish this door easily? Can I open this door without damaging the lock? Where can I find space and depth dimensions? I have a key, but why can't I retract the bolt? How do you make a drill pattern for these locks? I pulled the nose, now what do I do? There are a lot of questions, and Safe Deposit Box Service gives you all the answers! You'll learn the complete theory of the principles and operation of the lever lock, as well as the tools necessary to defeat them. You'll be able to open these locks with minimum damage to the lock and container. Original photos and accurate drawings on nearly every page lead you to quick and easy success when faced with lock boxes, safe deposit boxes and inner safe doors.

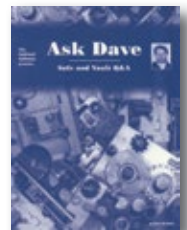

Ask Dave by Dave McOmie

#AD-1 – \$75.00

You asked. He answered. This is safe and vault Q&A with an attitude.

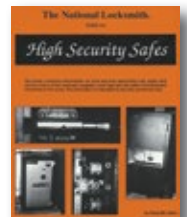

The material has breadth and depth, covering vault doors, round doors, square doors, fire safes, antique safes, Grasshopper safes, Salamander safes, electronic safes, dial removal techniques, drilling methods, scopes, tools and just about anything else you ever wanted to know...but were afraid to ask. A great addition to any safe library, Ask Dave is destined to be a cult classic. Order yours today!

High Security Safes Volume 1 by Dave McOmie

#HSS – \$175.00

Includes safes by the following... • Bernardini • Bischoff • Chatwood-Milner • Chubb • Fichet-Bauche • ISM • Kaso • Lord • Original • SLS • Opening jobs often start at \$1,000.00! • Over 225 pages of complete openings! • Each safe described with many photos! • Contains many FULL PAGE photos! • Very detailed opening procedures! • These are the world's toughest safes! Learn to open High Security Safes now!

High Security Safes Volume 2 by Dave McOmie

#HSS-2 – \$175.00

Dave McOmie's famous book, The National Locksmith Guide to High Security Safes, Volume 2 is here! Totalling 250 pages, it is packed with great information and photos of high security safes by Ambassador, Atlas, Bernardini, Bischoff, Bridgeman, Bumil, Diebold, Emo, Hadaikan, International, Kumahira, Mancini, Mosler, Original, Rosengrens, Securifort, and Vector. Included are many opening tips designed to make your life easier.

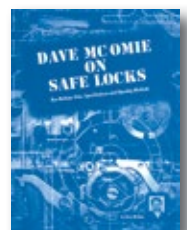

Dave McOmie on Safe Locks

#DMSL-1 – \$110.00

Dave McOmie on Safe Locks is one of the most important books ever published on safes!

Almost 300 pages of information, photographs and illustrations give you every scrap of information about a huge variety of safe locks. You'll have lock specifications, x-ray drawings, tons of Dave's famous photos and measurements, and his opening recommendations on a vast number of common, high security, modern, antique and electronic safe locks.

Included are locks made by: Alpine, Baum, Bernardini, Center, Chubb, Detroit, Diebold, Eagle, Federal, Fortronics, Giant, Halls, HHM, Ilco, Jackson, Kromer, LaGard, Lowe & Fletcher, Mas-Hamilton, Mauer, Meilink, Mosler, Pittsburg, Reliable, Remington-Rand, Rosengrens, S&G, SLS, SMP, Steel Safe, Stuv, Sun, Tann, Triumph, Victor and Yale. Comprised of information from the massive McOmie Files, this book covers safe locks in stunning detail to make identification and opening faster than ever.

Dave McOmie on Lift-Out Round Doors

#LRD-1 – \$125.00

This book contains 317 pages (not counting the lengthy introduction), 664 photographs, and more than 40,000 words of text. It covers just about every lift-out round door you will ever see, and a whole lot more (54 different manufacturers, to be precise). Included in the text are drill points, relocker drill points, depth to door bolts, door thickness, door diameter, and many, many tips and tricks.

Dave McOmie on Hinged Round Doors Vol. 1

#HRD-1 – \$125.00

A massive Dave McOmie safe book is ready for delivery to you! Dave McOmie On Hinged Round Doors is over three hundred pages of action packed photos, opening tips, instructions, drill points and more on a huge list of hinged round doors. In this MONSTER SAFE BOOK, Dave shows you many ways to open any one of these really common safes...yep tons of McOmie tricks! And these safes are ALL OVER THE PLACE! Four color covers, with 300 inside pages, show hundreds and hundreds of photos of the doors and the guts. With the Dave book under your arm, opening these babies just got a LOT faster and easier.

Amazingly crisp photos show you what's under the covers, see the lock, wheels, fence, lever. Know exactly what's on the other side of that cover, and exactly where everything is before you even touch the safe! This might just be Dave's finest work EVER. Learn how to deal with dials, opening methods, scoping the change key hole, work through the scope, transferring and more.

Manufacturers covered include: Amsec/Star, Armor, Cary, Chicago, Chubb, Diebold, Dominion, Eastern, Florida, Gary and more...

Dave McOmie on Hinged Round Doors Vol. 2

#HRD-2 – \$150.00

Volume 2 covers Hinged Round Doors, alphabetically Gross-Feibel thru York. Hinged round doors include lug doors, non-lug doors, depository doors, wall safes, and more!

The book includes a 55 page "Introduction to Safecracking" that alone is worth double the cost of the book.

Every safe in the book has Drill Points, Relocker Drill Points, Special Notes (where applicable), Identification Tips, and Much Much More. Hundreds and hundreds of actual hinged round door openings are covered in this series, with step-by-step documentation that walks the reader through each opening as if he were on the job with Dave.

This book is nearly 400 pages long.

Dave McOmie on Hinged Round Doors Vol. 3

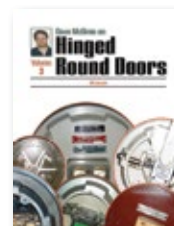

#HRD-3 – \$150.00

This book covers only Mosler Safes.

All types of hinged round door safes are covered: Combination-Operated Non-Lug, Key-Operated, Round Hoppers, Captain Wheel, Old and New Style Lug,, USPS/GSA and Mosler-Canada.

Extensive section on lock and relocker drill points. Lengthy section on dealing with the various mosler dials. Provides details regarding the importance of the use of proper removal techniques for each style of dial. Section on dealing with bearing plates, when and how to remove them and why.

40 years in the field and 9 years to assemble - 506 Pages - Thumbnails table of Contents.

Diary of a Safeman by C. L. Corey

#DIARY – \$25.00

This book is a real gem... the private safe diary of old time safecracker C.L. Corey.

Back in the days of Al Capone the crooks were blowing safes with nitroglycerin and C.L. Corey was out servicing and repairing those old safes. The book features an introduction by Dave McOmie.

Mr. Corey not only kept notes on all of his jobs, he also carefully photographed every safe he worked on. Here in striking detail, we have reproduced this diary from the most exciting era in safe work, the early 1930's. You'll see all the great old safes from the past and you'll learn how to open and repair them. Many of these beauties are still in use today!

Safe Opening Articles 1987 by Dave McOmie

#SA-1 – \$19.95

Now under one cover—all the informative safe opening articles by expert safeman, Dave McOmie.

This book contains articles reprinted from The National Locksmith issues, August 1986 through 1987.

Plus an all new introduction and new chapter on six-sided safes—not available anywhere else! Also features many enlarged photos for easy identification. This book is a must for all serious safemen!

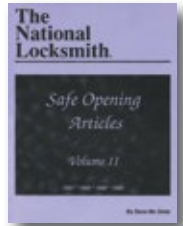

Safe Opening Articles by Dave McOmie

#SA-2 – \$23.95

Dave McOmie's original articles from when he first started writing for The National Locksmith are reprinted in this book.

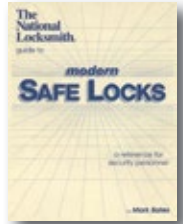

The first five years or so of Dave's work is presented here so if you don't have issues from the early 80's you will not want to miss a single drill point. Each article contains very valuable information to anyone who ever works on safes.

Modern Safe Locks by Mark Bates

#MSL-1 – \$95.00

You always wanted to make money servicing safes? You need this book! Even if you never touched a safe before, you'll be able to earn immediate profits with this easy-to-use book! The book details: • Original factory combinations • Dialing instructions • UL and VdS ratings • Changing instructions • Guide to change keys • Safe lock glossary • Safe lock compromises • Forbidden zones Learn how to service, troubleshoot and change combinations on over 100 modern key, combination and electronic safe locks. The procedures and photos are very detailed. Even a beginner can now make big profits in safe service!

Manipulation Home Study Course by Robert Sieveking

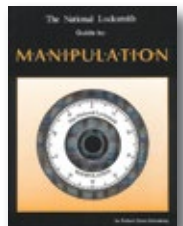

#MAN-1 – \$49.95

Our home study course guides you on a step-by-step process, teaching you everything there is to know about manipulation.

When you have learned this skill, you will be able to open locked safes by feel and touch alone!

Manipulation allows you to open the combination lock without drilling, and without doing any damage at all to the safe.

With our Manipulation Home Study Course you learn at your own pace, in complete privacy. After each step, you take a test to measure your understanding!

National Locksmith Automobile Association (NLAA) Membership

The big problem in automotive locksmithing is the tremendous amount of information you need to have at you fingertips.
