## Overview

The Boston University Extension Campus at Kaiser Permanente Silicon Valley hosts 3<sup>rd</sup> year core clerkships up to one year in duration. It is an integrated program where student rotations occur at both Kaiser San Jose and Santa Clara medical centers. This clerkship program offers Boston University medical students an opportunity to train within the nonprofit, integrated, managed care system that is often viewed as the health care model for the future.

Our medical centers are currently training residents from affiliated university, community-based programs, and our own Kaiser Residency programs. The Kaiser Permanente Northern California residency programs have been in existence since 1947. Our goal is to train the finest quality physicians in the setting of the nation's largest and highly regarded integrated health care system. Our graduates are highly sought after and many become leaders in our own and other health care organizations and associations. Further information can be found at the follow web link:

# Getting Started

## Medical Student Onboarding

All medical students will receive a copy of the Medical Student Handbook, compliance training information, and request for student information form, computer system training, and other pertinent information. Please review them ahead of time and return the requested forms and attestations to us as soon as possible for processing of student identification badge, and to obtain Health Connect (Kaiser Health Information System) user id and login.

## Orientation

All incoming medical students are required to attend a 2 day medical student orientation/training. It will be held jointly at San Jose and Santa Clara to give students the chance to learn both campus layouts and to meet the Clerkship Directors and Medical Center Leadership.

## Identification Badge

The Kaiser Identification badge will be issued to the medical students at the orientation. It must be worn at all times in an easily seen location above the waist while the students are rotating at the Kaiser medical centers.

## Kaiser Medical Student Dress Code

All Medical Students and Residents are expected to dress professionally. Business casual attire is appropriate. Please check in with your Clerkship Director for more information regarding department specific policies.

## Illness/Emergency

If for any reason that you cannot attend the assigned rotation, please notify the medical student coordinator and the attending faculty for that date.

Students who require emergency services or are involved in an accident, needle stick, fall, etc., while rotating at a Kaiser facility must immediately notify the supervising attending/clerkship director. The student will then be sent to Employee Health during clinic hours or the Emergency Room for after-hours care. Students should also notify Sandeep Tumber, Operations Specialist, (408) 972-3807 in the Graduate Medical Education (GME) Office.

To report blood/body fluid exposure, needle stick injury:

## Employee Assistance Program

Transitions can be difficult. At times it can be helpful to have the opportunity to speak with a mental health professional. Similar to what is available at Boston University, here at the Kaiser Permanente Silicon Valley sites, there are psychiatrists who are available to speak with about any mental health issues or questions you may have.

1. The primary Point of Contact is Dave Hensley, M.D. The best way to reach him for non-urgent questions or concerns is through his Lotus Notes email, david.a.hensley@kp.org or his office phone 408-972-7629.
2. If Dr. Hensley is out of the office or if for some reason the student would like to contact one of the back-up Points of Contact with non-urgent questions or concerns, they can contact Rex Huang, M.D

at rex.w.huang@kp.org or 408-360-2340 or Manasi Rana, M.D. at manasi.rana@kp.org or 408-360-2316.

3. After communicating by phone or email, an in-person visit may be arranged. There should not be a payment required for the office visit. If the student is informed there is a fee, they should inform the reception staff that the copay should be waived and they will inform the provider about the mistake.
4. The Point of Contact and the student will work together to come up with a plan to best address the student's concerns.
5. If a student has an urgent concern and they are unable to reach Dr.'s Hensley, Huang or Rana immediately, it is recommended that they contact the Kaiser San Jose Adult Psychiatry Clinic at 408-972-3095 and ask to speak with a member of the Triage Team. The students also have the option of working with their own insurance provider to obtain mental health treatment. For emergency situations, students can call 911 or the national suicide hotline at 800-273-8255.

Medical professionals are not immune from physical or psychological illness or chemical dependency. If you are concerned, take action to receive help. In San Jose, you can reach Dave Hensley, M.D., Office of Student Affairs at 408-972-7629. In Santa Clara, you can reach Lennon Smith, M.F.T., CEAP at (408) 851-4440.

## BU Shelf Exam Information

At the end of the each clerkship, students are required to take a Shelf Exam. Exams are usually held on Fridays. All exams begin at 8:00am and are held in the training lab on the San Jose or Santa Clara campus. (See note below for Radiology exams)

On the day of the Shelf Exam, arrive to the Training Classroom at 8:00am. Before the exam begins, be sure you do not have any unauthorized personal items and/or devices in the testing room. These items include, but are not limited to the following:

- Cell phone
- iPods/iPads
- Watches with alarms, computer or memory capability
- Calculators
- Paging devices
- Recording/filming devices
- Reference materials (book, notes, papers)
- Backpacks, briefcases, or luggage
- Beverages or food of any type
- Coats, outer jackets, or headwear

You will be provided with one laminated erasable note board and one dry erase marker. You are permitted to make calculations or notes only on this note board once the exam begins. You can use both sides. If you need additional space for making notes, a proctor will collect the “filled” laminated note board and replace it with a new one. The laminated erasable note boards will be collected at the end of the examination session.

If you need to take a restroom break during the examination, click the **Pause** button at the bottom of your screen. A screen saver will appear. However, this pause does not stop the timer for the exam. You will be escorted one at a time on breaks. If your screen freezes, raise your hand and a proctor will assist you.
