Brand Leaders Income Fund

CORPORATE OVERVIEW

Harvest Portfolios Group Inc. (“Harvest”) is a Canadian Investment Manager focused on unique income generating investment products. Harvest was founded in 2009 and is focused on developing investment products that follow three investment criteria:

1. Clear investment objectives
2. Transparency
3. Income generation

Harvest endeavours to develop investment products that are clear in their mandate and easy for our investors to understand. We strive to be transparent, so that our investors can open their financial reports and know exactly what they own. Our funds are also invested to provide investors with consistent monthly or quarterly income; therefore, we seek to invest our fund portfolios in well managed companies that have a history of steady cash flow and pay dividends.

INVESTMENT PRODUCT

The Brand Leaders Income Fund (the “Fund”) invests in an equally-weighted portfolio of fifteen of the world’s top one hundred rated brand companies, each with a market capitalization of at least US\$10 billion. As the US and global economy generally expands, Harvest believes that a diversified portfolio invested in these blue chip companies will provide investors with an attractive yield and strong capital appreciation potential.

PRESIDENT'S MESSAGE

Brand Leaders Income Fund

Unitholder letter March 2016

Dear Valued Unitholder,

2015 can be characterized as a year of volatility in global markets. The continued and prolonged slump in commodity prices, in particular oil prices, put further pressure on economic growth in Canada. The lower oil prices have led to a lower dollar which will benefit exports, but has not currently translated into a rebound in manufacturing.

These macro factors will continue to impact our energy producing provinces, with Ontario, BC and Quebec maintaining moderate growth and therefore balancing overall national GDP. We do however expect the new Federal Liberal government to stimulate economic growth with a spending package as 2016 progresses.

Looking globally, many other nations are facing similar challenges due to slowing growth and lower commodity prices. Though the US Federal Reserve raised interest rates a quarter of a point in December we are of the opinion that further increases will be modest, if any at all during 2016, as world economic growth levels remain moderate. Japan and the European Union continue to provide fiscal stimulus and subsequently have lowered interest rates into negative territory.

The investment philosophy we have adhered to is, "if we don't understand it or can't value it, we won't buy it". With all the geo political and economic uncertainty in the world, we remain committed to our core guiding principles as set out below.

Keep it Simple: A complex product does not mean it is a better product. We want investors to understand exactly what they are investing in and are comfortable that it meets their objectives.

Transparent: A portfolio should reflect what an investor thought they were buying. Investors can check their statements and our website to verify and most importantly to "know what you own".

Consistent Income: All of our funds provide consistent monthly or quarterly income. We want to provide income from diverse sources.

In the latter half of 2015, we experienced turbulent markets and declines in value, but we know and are comfortable with what we own and are confident that returns will turn positive again. Investors who remain patient will see the benefits in the long term as evidenced by the strong bull market that emerged subsequent to the 2008 financial crisis.

I have personally and professionally experienced market declines as far back as 1987 and they always pose challenges and are difficult to navigate. Despite those challenges markets eventually rebounded. At Harvest we believe in our mandates in providing growth and income and we will continue to stay invested and own companies that are long term leaders in their respective industries.

Harvest continues to remain committed to its philosophy and we appreciate the confidence and patience you have placed in us by investing with us.

Sincerely,

Signed "Michael Kovacs"

Michael Kovacs
President and Chief Executive Officer

ANNUAL MANAGEMENT DISCUSSION OF FUND PERFORMANCE

The annual management report of fund performance contains financial highlights but does not contain the complete annual financial statements of the Fund. For your reference, the annual financial statements of the Fund are attached to the annual management report of fund performance. You may obtain additional copies of these documents at your request, and at no cost, by calling toll free at 1(866) 998-8298; by writing to us at Harvest Portfolios Group Inc., 710 Dorval Drive, Suite 209, Oakville, Ontario, L6K 3V7; or by visiting our website at www.harvestportfolios.com; or on SEDAR at www.sedar.com.

Unitholders may also contact us using one of these methods to request a copy of the Fund's proxy voting policies and procedures, proxy voting disclosure record, or quarterly portfolio disclosure.

INVESTMENT OBJECTIVES AND STRATEGY

The Fund has been created to provide investors with exposure to a portfolio ("Portfolio") of Equity Securities of issuers selected from the world's top 100 rated brand companies, as recognized by Interbrand in its annual study of the best global brands (the "**Brand Leaders**"), from the Brand Leaders Investable Universe. "**Brand Leaders Investable Universe**" means those Brand Leaders that are eligible to have options written on their Equity Securities and where such Equity securities and options are traded on a North American stock exchange.

The Fund's investment objectives are to provide Unitholders with:

- (i) monthly cash distributions;
- (ii) the opportunity for capital appreciation; and
- (iii) lower overall volatility of Portfolio returns than would otherwise be experienced by owning Equity securities of the Brand Leaders directly.

The Fund's manager, Harvest Portfolios Group Inc. ("Harvest") has retained Highstreet Asset Management Inc. ("Highstreet" or "Investment Manager") to provide investment management services to the Fund.

To achieve its investment objectives, the Fund invests in an equally-weighted portfolio of equity securities of 15 Brand Leaders from the Brand Leaders Investable Universe that have a market capitalization of at least US\$10 billion at the time of investment and meet the investment characteristics described below. In order to seek to generate additional returns, Highstreet will sell "at-the-money" call options each month on Equity Securities held in the Portfolio. The Investment Manager will not sell call options on more than 25% of the Equity Securities of each Brand Leader held in the Fund.

Highstreet will annually rebalance the Portfolio such that, at the time of the initial investment and immediately following each annual rebalancing, the Portfolio will have the following investment characteristics:

- Growth** – An average 5-year Annual Compound Earnings per Share growth rate greater than the average for the Brand Leaders Investable Universe;
- Value** – An average Price-to-Earnings ratio lower than the average for the Brand Leaders Investable Universe;
- Quality** – An average 5-year Return On Equity growth greater than the average for the Brand Leaders Investable Universe; and
- Yield** – An average Yield greater than the average for the Brand Leaders Investable Universe.

RISK

The risks associated with investing in the Fund are as described in the prospectus. There were no material changes to the Fund over the period that affected the overall level of risk of the Fund.

Brand Leaders Income Fund

RESULTS OF OPERATIONS

The Fund returned -5.38% compared to the S&P 100 Index return (in USD) of 1.94% for the year ended December 31, 2015. The relatively concentrated nature of the portfolio coupled with underperformance of select holdings is the primary reason for the divergence in performance.

Equity market volatility picked up during the 2nd quarter of 2015 and continued through the end of the year as the Fed made the decision to raise the benchmark interest rate by 0.25% sparked uncertainty regarding further rate increases. This weighed on investor sentiment and exacerbated the volatility. The Fund's exposure towards consumer staples benefited the performance during this volatility.

The Fund sold call options on underlying holdings held in the Portfolio during the year in order to meet its investment and income objectives. The Fund was invested in 15 Brand Leaders during the period.

RECENT DEVELOPMENTS

The Fund renewed its normal course issuer bid program for the period from August 25, 2015 to August 24, 2016, which allows the Fund to purchase up to 222,218 trust units of the Fund for cancellation by way of a normal course issuer bid through the facilities of the Toronto Stock Exchange. During the year ended December 31, 2015 no (2014 – 16,900) units were purchased for cancellation (2014 - \$201,095).

In December 2015, the Manager gave notice to Highstreet Asset Management Inc. terminating the investment management agreement effective March 31, 2016. On April 1, 2016 the Manager will assume the investment management responsibilities of the Fund.

RELATED PARTY TRANSACTIONS

There were no related party transactions during the reporting period, except for management fees and other expense reimbursements paid to Harvest, as noted below in Management and Other Fees.

MANAGEMENT AND OTHER FEES

The Fund pays its manager, Harvest, a management fee calculated based on the average weekly net asset value (“NAV”) and paid monthly in arrears, based on an annual rate of 0.90%, plus applicable taxes, of the NAV of the Fund. The Manager pays Highstreet, a fee for its portfolio advisory service, from the management fee received from the Fund, calculated on the basis of the Fund's NAV. The Fund also pays service fees to registered dealers at the rate on 0.40% of the average weekly NAV, plus applicable taxes, per annum of the Fund. Service fees are accrued daily and paid monthly to the Manager, who in turn pays the dealers quarterly.

At its sole discretion, the Manager may waive management fees or absorb expenses of the Fund. During the year there were no fees waived or absorbed. The management expense ratios of the Fund with and without the waivers and absorptions are reported in the Ratios and Supplemental Data table below.

Operating expenses

The Fund is responsible for operating expenses relating to the carrying on of its business, including custodial services, interest, taxes, legal, audit fees, transfer agency services relating to the issue and redemption of units, and the cost of financial and other reports, costs and expenses for the Fund's Independent Review Committee (“IRC”), including fees and expenses of the IRC members and compliance with applicable laws, regulations and policies. The Manager pays for such expenses on behalf of the Fund, except for certain expenses such as interest, and is then reimbursed by the Fund.

Other expenses

The Manager will be reimbursed by the Fund for all reasonable costs, expenses and liabilities incurred by the Manager for performance of services on behalf of the Fund in connection with the discharge by the Manager of its duties hereunder. Such costs and expenses may include, without limitation: mailing and printing expenses for reports to unitholders and other unitholder communications; a reasonable allocation of salaries, benefits and consulting fees; independent directors of the Manager and other administrative expenses and costs incurred in connection with the Fund's continuous public offering and other obligations. These expenses were \$55,721 for the year ended December 31, 2015 (2014 - \$163,271) and are included in the unitholder reporting costs on the Statements of Comprehensive Income (Loss) in the annual financial statements.

Brand Leaders Income Fund

During the Fund's offerings, certain offering expenses such as costs of creating the Fund, issuance of warrants, the cost of printing and preparing the prospectus, legal expenses of the Fund and other out-of pocket expenses incurred by the agents together with the agent's fees payable by the Fund are included in the carrying amount of the Fund's obligation for net assets attributable to holders of redeemable units.

RECOMMENDATIONS OR REPORTS BY THE INDEPENDENT REVIEW COMMITTEE

As noted in the "Recent Developments" section above, effective April 1, 2016, the Manager will assume the investment management responsibilities of the Fund. This matter was brought to the attention of the IRC on December 11, 2015 and the committee resolved that the change provides a fair and reasonable result for the Fund.

Explanatory Notes:

- Net assets and distributions are based on the actual number of units outstanding at the relevant time. The increase (decrease) from operations is based on the weighted average number of units outstanding over the reporting period. It is not intended that the Fund's net assets per unit table act as a continuity of opening and closing net assets per unit.
- Net assets, at the commencement of operations on July 19, 2011 was \$11.17, net of agents' commissions and issuance costs of \$0.83 per unit.
- Distributions were paid in cash.
- Management expense ratio ("MER") is based on total expenses (excluding commissions and other portfolio transaction costs) of the stated period and is expressed as an annualized percentage of daily average net asset value during the period. The MER for the year December 31, 2014 includes agents' fees and issue costs of \$210,849 related to the warrants issued. The MER for 2011 (the year of inception) included agents' fee and issue costs of \$2,167,988. In both cases these costs are treated as one-time expenses and therefore were not annualized. The MER without these costs is 2.57% for 2014 and 2.93% for 2011.
- The trading expense ratio represents total commissions and other portfolio transaction costs expressed as an annualized percentage of daily average net asset value during the year.
- The Fund's portfolio turnover rate indicates how actively the Fund's portfolio advisor manages its portfolio investments. A portfolio turnover of 100% is equivalent to the Fund buying and selling all of the securities in its portfolio once in the course of the period. The higher a Fund's portfolio turnover rate, the greater the trading costs payable by the Fund and the greater the chance of an investor receiving taxable capital gains. There is not necessarily a relationship between a high turnover rate and the performance of a Fund.
- Amounts reported for 2015 to 2013 periods are reported in accordance with International Financial Reporting Standards. All other prior periods are reported under Canadian generally accepted accounting principles.

ANNUAL COMPOUND RETURNS

The following table shows the annual compound returns for the Fund. All returns are in Canadian dollars, on a total return basis, net of fees.

For comparison purposes the S&P 100 Index, in Canadian dollars (the “Index”) is used. While the Fund uses this benchmark for long-term performance comparisons, it is not managed relative to the composition of the Index. As a result, the Fund may experience periods when its performance is not aligned with the Index, either positively or negatively. The return of the Index is calculated without the deduction of management fees and fund expenses whereas the performance of the Fund is calculated after deducting such fees and expenses. Please see the “Results of Operations” section of this report for a discussion on recent performance.

CAUTION REGARDING FORWARD-LOOKING STATEMENTS

This document may contain forward-looking statements relating to anticipated future events, results, circumstances, performance or expectations that are not historical facts but instead represent our beliefs regarding future events. By their nature, forward-looking statements require us to make assumptions and are subject to inherent risks and uncertainties. There is significant risk that predictions and other forward-looking statements will not prove to be accurate. We caution readers of this document not to place undue reliance on our forward-looking statements as a number of factors could cause actual future results, conditions, actions or events to differ materially from the targets, expectations, estimates or intentions expressed or implied in the forward-looking statements. Actual results may differ materially from management expectations as projected in such forward-looking statements for a variety of reasons, including but not limited to market and general economic conditions, interest rates, regulatory and statutory developments, the effects of competition in the geographic and business areas in which the Fund may invest and the risks detailed from time to time in the Fund's prospectus or offering memorandum. We caution that the foregoing list of factors is not exhaustive and that when relying on forward-looking statements to make decisions with respect to investing in the Fund, investors and others should carefully consider these factors, as well as other uncertainties and potential events, and the inherent uncertainty of forward-looking statements. Due to the potential impact of these factors, the Fund does not undertake, and specifically disclaims, any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, unless required by applicable law.
