

BRIGGS & STRATTON GENUINE PARTS CATALOG

As Briggs & Stratton Corporation moves through its ninth decade as the world's leading manufacturer of air cooled engines, we are proud and excited to present "The Briggs & Stratton Genuine Popular Parts Catalog." This catalog has been designed to assist Servicing Dealers and Trade Accounts in locating the most popular parts in an efficient and time-saving manner.

In this catalog, you will find Briggs & Stratton's popular Red Box parts, Shop Packs, Tools, Accessories, Do It Yourself (DIY) display packed parts and much more. To locate the suggested list price of a part, refer to the Master Price List MS-7299.

Briggs & Stratton Original Service Replacement Parts come with a ninety (90) day warranty which protects our mutual customers from product defects which may result from defective material and/or workmanship. The Briggs & Stratton warranty does not apply to failures caused by the use of defective non-genuine merchandise. Only Briggs & Stratton Original Parts keep The Power in Power Equipment™. Do not settle for substitutes. Non-genuine replacement parts can adversely affect engine performance and in some instances, can result in costly premature engine failures.

Individuals who may be interested in acquiring information regarding the Briggs & Stratton Authorized Service Dealer "family" should contact their regional Briggs & Stratton Central Sales & Service Distributor (CSSD). The location of these CSSDs is shown on the map in the back of this catalog. CSSD representatives will explain the benefits and requirements of various Authorized Service Center programs. Authorized dealers can perform warranty repairs, participate in Factory Service Schools and Technical Update Seminars. Dealers and Registered Trade Accounts are eligible to receive regular mailings of Service Bulletins, Information Bulletins, Microfiche Updates and information pertinent to new products, along with advances being made in air cooled engine technology.

We hope you will use this catalog to its fullest extent and we welcome any suggestions you may have regarding its improvement. Please use the Improvement Suggestion Form, located in the back of this catalog, as a means of submitting your suggestions to Briggs & Stratton.

All of us at Briggs & Stratton wish you the best of luck in your business and future sales.
