HP Designjet Printers— Driving innovation in large-format printing for more than 30 years

For over three decades, HP has been in the business of providing innovation—transforming the way design professionals in Architecture, Engineering, Construction, Geospatial, and Graphics markets operate.

It all began in the late 1970s, with HP's first Pen plotter—and what's now become the industry-standard HP-GL Graphic Language. In the early 1990s, HP invented inkjet technology which was deployed to Designjet printers – making large-format printing in black-and-white easy, fast, and affordable. In that same decade, HP Designjet printers introduced color, higher printing speeds, and the ability to print high-resolution images and complex files in large format—helping portray information in architectural drawings more reliably than ever.

In the new millennium, HP Designjet printers brought faster printing speeds and UV-resistant pigmented inks, allowing Print Service Providers and Graphic Designers to create applications for both indoor and outdoor use. Photographers also adopted HP large-format printing to replace silver halide—demonstrating that   HP Designjet printers can deliver superior image quality, with prints lasting up to 200 years.

In 2010, with the rise of mobility and globalization, HP launched the first generation of Designjet ePrinters with web-connectivity features—and the first multifunction large format ePrinter that offered copying, scanning, and printing capabilities in a single device. Using HP Designjet ePrint & Share, AEC professionals are able to access, view, and print projects wherever work takes them.[1]

Up until today, more than three million HP Designjet printers have shipped to locations around the world, making HP Designjet the leader in the market with the widest range of large-format printers for design professionals, whether they're in single or multiuser environments.

Continuous innovation and established leadership in the large-format printing industry requires rigorous R&D and manufacturing processes, strong commitment to industry standards, and constant forward thinking, as well as regularly gathering customer insights to help improve products and introduce new innovations.

That's why HP Designjet printing is looking to the future—leveraging the cloud to find new ways to help design professionals do their jobs more effectively in a world that is becoming more digital, more mobile, and more social every day... but where paper remains the backbone of their workflows.

For more information, visit
hp.com/go/Designjet

[1]   Requires an HP Designjet ePrint & Share account, Internet connection to the printer, and connected Internet-capable device. When using the HP Designjet ePrint & Share mobile app, a compatible Apple® iOS or Android™ device and Internet connection are required. Data or connection charges may apply. Print times may vary. 5 GB of temporary storage per account. For more information, visit hp.com/go/eprintandshare.

Architecture, Engineering, and Construction

Print large-format drawings, schematics, renderings, and presentations with great ease, speed, quality, and low running costs.
HP Designjet printers—they help build and grow business.

Customer profile:

- Architecture studios
- MEP (Mechanical, Electrical, and Plumbing) engineering teams
- Construction—general contracting departments and trade subcontractors and suppliers
- Topography studios
- Public works departments
- Property management/real estate agencies

Printing applications:

- Site plans
- Elevations
- Renderings and presentations

- Project presentation panels
- Tender documents
- Black-and-white line drawings
- Color drawings
- Schematics
- GIS maps

Printing needs met:

- Excellent line quality
- Consistent and accurate color
- Digital archiving, printing, and copying
- Fast, unattended printing
- Ease of use
- High productivity
- Economical
- Low cost per copy
- Web connectivity

Recommended hardware:

HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet SD Pro MFP, HP Designjet T1500 ePrinter, HP Designjet T1300 Postscript ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T790 ePrinter, HP Designjet T520 ePrinter, HP Designjet T120 ePrinter, HP Designjet SD Pro Scanner

Manufacturing, Automotive, and Transportation

Print big, so even the smallest details get noticed. Produce large-format plans, drawings, renderings, and more—easily, quickly, and with clear and vibrant quality. That's HP Designjet printing.

Customer profile:

- Mechanical CAD software users
- Industrial product and packaging design, manufacturing, and engineering departments
- General equipment design and manufacturing
- Medical and scientific equipment design, and manufacturing
- Automotive and transportation design and manufacturing departments
- Aerospace design, engineering, and manufacturing departments
- Ship building design, engineering, and manufacturing departments

Printing applications:

- Product and piece detailed plans
- 3D exploded view drawings and assembly plans

- 2D and 3D mechanical drafts and detail views
- Renderings
- Project presentations
- Digital archiving
- Network utility maps

Printing needs met:

- High productivity, low cost per copy
- Real-time project delivery
- Grayscale and color line accuracy and definition
- Consistent color
- IT integration to CAD environments
- Large memory to process complex files
- Unattended intuitive printing
- Web connectivity

Recommended hardware:

HP Designjet T7200 Production Printer, HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet SD Pro MFP, HP Designjet T1500 ePrinter, HP Designjet T1300 PostScript ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T790 ePrinter, HP Designjet SD Pro Scanner

Infrastructure, Mapping, and GIS

Produce drawings, satellite and aerial photos, maps, and more that communicate clearly with excellent image and line quality. HP Designjet printers—see the big picture and everything in between.

Customer profile:

- Geographical data suppliers
- Commercial cartography services
- Environmental/conservation companies
- Oil & gas exploration companies
- Utilities companies (electricity, water/wastewater, gas distribution, telecommunication, etc.)

Printing applications:

- Civil engineering and construction documents
- Satellite and aerial photos

Recommended hardware:

HP Designjet Z6800 Photo Production Printer, HP Designjet Z6600 Production Printer, HP Designjet Z6200 Photo Production Printer, HP Designjet HD Pro MFP, HP Designjet Z5400 PostScript ePrinter, HP Designjet T7200 Production Printer, HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet SD Pro MFP, HP Designjet T1500 ePrinter, HP Designjet T1300 PostScript ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T520 ePrinter, HP Designjet HD Pro Scanner, HP Designjet SD Pro Scanner

- Orthophotos
- Maps
- Natural resources and topology plans
- Radiation diagrams

Printing needs met:

- Digital archiving, printing, and copying
- Consistent and accurate color
- Ease of use
- Excellent image and line quality
- Fast, unattended printing
- High productivity, low cost
- Reliable colors
- Wide selection of media

Public Sector and Corporate

Cope with the most demanding printing needs with HP Designjet large-format printing. From simple CAD drawings to complex color documents, high-speed HP Designjet printers deliver high-quality output and integrate easily into your IT infrastructure, taking the pressure off—big time.

Customer profile:

- SME businesses
- Corporate businesses
- Multinational corporations
- Banking institutions
- Associations
- Public institutions
- Government

Printing applications:

- Engineering documents
- Presentation panels
- Project schedules
- 3D prototypes

Printing needs met:

- Ease of use
- Quick ROI
- Educational support materials
- Facilities management diagrams
- High productivity, low cost per copy
- Professional presentations
- Real-time project delivery
- Digital archiving, scanning, and copying

Recommended hardware:

HP Designjet T7200 Production Printer, HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet HD Pro MFP, HP Designjet SD Pro MFP, HP Designjet T1500 ePrinter, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T790 ePrinter, HP Designjet HD Pro Scanner, HP Designjet SD Pro Scanner

Print Service Providers

Be ready to meet any customer demand with large-format HP Designjet printers optimized for production environments. With fast speeds and exceptional print quality you can respond quickly no matter the job, providing opportunity for increased revenues and margins.

Customer profile:
• Large quick printers, sign shops, and copy shops
• Small PSP
• Medium and large PSP

Printing applications:
• POP/POS
• Light boxes
• Color proofing
• Canvas, decorative vinyls, and other indoor decoration applications
• Indoor exhibition and events banners and applications
• In-store signage for retail
• Fine art gallery-quality and canvas

Printing needs met:
• Color accuracy
• Quick ROI
• Faster turnaround times
• High quality at production speeds
• Media versatility
• Easy maintenance
• Safe to be used for indoor environments like, education, hospitality, heath care, restaurants, and home

Recommended hardware:
HP Designjet Z6800 Photo Production Printer, HP Designjet Z6600 Production Printer, HP Designjet Z6200 Photo Production Printer, HP Designjet HD Pro MFP, HP Designjet T7200 Production Printer, HP Designjet SD Pro MFP, HP Designjet HD Pro Scanner, HP Designjet SD Pro Scanner

Recommended software:
HP Designjet SmartStream

Repro Houses

Print high-quality color plans and renderings at a low cost. Enjoy high-speed unattended printing and offer more application options to your customers.

Customer profile:
• Architecture, engineering, and construction companies
• GIS
• Infrastructure planning and public sector enterprises
• MCAD
• Architecture and engineering students, and education institutions

Printing applications:
• Black-and-white/color line drawings
• AEC sets of project/construction plans
• CAD drawings
• Project presentation panels
• Renderings and presentations

Printing needs met:
• Large memory capacity for printing sets of plans in high-volumes both quickly and unattended
• Faster turnaround times
• Full solution integration with folder, stacker, scanner, and software
• Low cost production
• Quick ROI
• IT integration
• Web connectivity to attend and deliver remote jobs
• Print multiple jobs on a variety of media types and sizes. Select printers with two (or three) rolls and smart switching.

Recommended hardware:
HP Designjet T7200 Production Printer, HP Designjet Z6800 Photo Production Printer, HP Designjet Z6600 Production Printer, HP Designjet Z6200 Photo Production Printer, HP Designjet HD Pro MFP, HP Designjet Z5400 PostScript ePrinter, HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet SD Pro MFP, HP Designjet HD Pro Scanner, HP Designjet SD Pro Scanner

Recommended software:
HP Designjet SmartStream

Quick Printers

Do and offer more with HP large-format printing solutions that are easy, flexible, fast, cost-effective, and—best of all—big. They also deliver stunning results that can keep your customers coming back for more.

Customer profile:
- Local business and retailers applications, pricing, and communications
- Walk-in non-professional photography and seasonal decoration requests (posters, banners, small signage)

Printing applications:
- On-demand miscellaneous jobs
- Posters
- Backlit prints
- Photos
- Canvas and home décor applications
- Business POP and retail applications

- Banners
- Small signage
- Pricing signs and menus

Printing needs met:
- Wide variety of substrates available
- Consistent color reproduction
- Low cost per copy
- Longevity
- Ease of use
- Fast turnaround
- Quality print

Recommended hardware:

HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript ePrinter, HP Designjet Z5200 Photo Printer, HP Designjet T3500 Production eMFP, HP Designjet T2500 eMultifunction Printer, HP Designjet T1500 ePrinter, HP Designjet SD Pro Scanner

Graphic Design Studios

Show off your digital design with large-format proofs and presentations that mirror the image on your screen. HP Designjet printers—pushing the limits of design.

Customer profile:
- Graphic Design Studios
- Advertising and marketing agencies and departments

Printing applications:
- Project bids
- Concept development
- Visual presentation
- Design competitions and mock-ups
- Final presentations
- Digital concept proofing
- Posters

Printing needs met:
- Ease of use with graphic software applications
- Mac compatibility
- Image quality
- Color accuracy and management
- Media flexibility
- Fast turnaround
- Low-risk investment
- Low cost per copy
- PANTONE® emulation

Recommended hardware:

HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript ePrinter, HP Designjet Z5200 Photo Printer, HP Designjet Z3200 Photo Printer, HP Designjet Z2100 Photo Printer, HP Designjet HD Pro MFP, HP Designjet HD Pro Scanner

Professional Photography

Bring your vision to life with large-format photographs and displays. HP Designjet printers make it easy to share and promote your work—with quality and accuracy that remains true to your vision.

Customer profile:

- Social, wedding, and portrait photographers
- Commercial photographers
- Fine art photographers

Printing applications:

- Photo printing
- Proofing
- Portfolio

Printing needs met:

- Enables adoption of digital technology
- Flexibility for different workflows (portfolio, final print, and proofing)

- Fast turnaround
- Photo quality (brilliance, saturation, and sharpness)
- Longevity
- Color fidelity
- Rich blacks and neutral greys
- Ease of use
- RGC, CMYK emulations
- Color consistency

Recommended hardware:

HP Designjet Z6200 Photo Production Printer, HP Designjet Z3200 Photo Printer, HP Designjet Z2100 Photo Printer, HP Designjet HD Pro MFP, HP Designjet HD Pro Scanner

Fine Art

Produce fine art prints and reproductions that demonstrate strict color accuracy and very high quality. HP Designjet printers—because artistic integrity is a big deal.

Customer profile:

- Artists
- Photographers
- Fine art reproduction
- Museum shops
- Graphic designers
- Interior designers

Printing applications:

- Exhibition prints for museums and art galleries
- Canvas prints
- Portfolio work
- Fine art reproduction
- Design competitions
- Posters and display
- Giclée

Printing needs met:

- Outstanding quality
- Color accuracy across printers and across lighting conditions
- Faithful fine art reproduction
- Wide color gamut
- Grainless pale and light tones
- Rich black and neutral greys
- Fade-resistant prints
- Ease of use with graphic software applications
- Mac compatibility[1]
- Media flexibility
- Low cost per copy

Recommended hardware:

HP Designjet Z6200 Photo Production Printer, HP Designjet Z3200 Photo Printer, HP Designjet Z2100 Photo Printer, HP Designjet HD Pro Scanner

[1] Mac compatibility for the HP Designjet Z6200 Photo Production printer requires the purchase of a PostScript® upgrade accessory.

In-store signage

Tailor your message to customers in each and every store with fresh, relevant large-format promos and displays delivered on-demand. HP Designjet printers—for signage that speaks to customers in a big way.

Customer profile:

- Small and medium local businesses and shops
- Large department stores
- Hypermarkets/supermarkets
- Furniture/DIY stores
- Clothing, furniture, and grocery stores
- Garage forecourts
- Garden centers
- Restaurants and pubs

Printing applications:

- POP/POS
- Decorative graphics
- Price signs
- Sales and promotions
- Information signs

- Window and door signage
- Promotional/event signage
- Advertisements
- Super-sized menus

Printing needs met:

- Short- and long-term indoor signage
- Short print runs
- Seasonal change of message (monthly, weekly, daily)
- Personalization/regionalization of message
- Ease of use
- Flexibility of output – different media types and sizes
- Fast turnaround, quick ROI

Recommended hardware:

HP Designjet Z6800 Photo Production Printer, HP Designjet Z6600 Production Printer, HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript ePrinter, HP Designjet Z5200 Photo Printer, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T790 ePrinter, HP Designjet T520 ePrinter

Education

Growing minds think big. Encourage learning with large-format signs used for teaching, everyday communications, and more. HP Designjet printers—helping students make the grade.

Customer profile:

- Associations
- Schools
- Colleges and universities
- Youth groups
- Special needs

Printing applications:

- Banners
- Signage
- Decoration
- Vocational (arts) presentations
- Presentations
- Weekly, monthly, and yearly planners
- Posters and displays

- Design competitions
- Portfolio work
- Educational support materials

Printing needs met:

- Intuitive and easy to use
- Web connected[1]
- Compact
- Affordable
- Easy, cost-effective maintenance
- Short print runs
- Seasonal change of message (monthly, weekly, daily)
- Cross-platform compatibility
- Low investment
- Time and cost savings

Recommended hardware:

HP Designjet Z6200 Photo Production Printer, HP Designjet Z5400 PostScript ePrinter, HP Designjet Z5200 Photo Printer, HP Designjet T2500 eMultifunction Printer, HP Designjet T920 ePrinter, HP Designjet T795 ePrinter, HP Designjet T790 ePrinter, HP Designjet T520 ePrinter, HP Designjet T120 ePrinter, HP Designjet SD Pro Scanner

[1]   These printers are not web connected: HP Designjet Z6200 Photo Production Printer and HP Designjet Z5200 Photo Printer.

HP Designjet Portfolio

Office - CAD & GIS

For AEC, GIS, and MCAD professional users and workgroups who want
to print maps, technical drawings, posters,
and renderings with precise, accurate line quality and crisp text.

HP Designjet T2500
eMultifunction Printer series
Newly designed, two-roll, web-connected ePrinter
with scan and copy capabilities

HP Designjet ePrint & Share[1]

[1] Requires an HP Designjet ePrint & Share account, Internet connection to the printer, and connected Internet-capable device. When using the HP Designjet ePrint & Share mobile app, a compatible Apple® iOS or Android™ device and Internet connection are required. Data or connection charges may apply. Print times may vary. For more information, visit hp.com/go/eprintandshare.

[2] The HP Designjet Z6800 Photo Production Printer does not print borderless.

[3] Compared with large-format inkjet printers under $25,000 USD for graphic applications. Based on the fastest-rated color speeds as published by manufacturers as of October 2013. Test methods vary.

[4] Compared to large-format inkjet printers under $25,000 for graphic

applications. Based on the fastest rated color speeds as published by manufacturers as of January 2010. Test methods vary.

[5] The 12-ink HP Designjet Z3200 Photo Printer is the most advanced printer compared with other HP Z-series printers.

[6] Compared with large-format color MFPs under $25,000 USD. Based on the fastest-rated color speeds as published by manufacturers as of January 2014. Test methods vary.

[7] Conclusion based on an HP internal test measuring the time required to extract pages from a 50-page document and print them using several printers compared with using equivalent software programs.

Graphics

For quick printers, digital print service providers, professional photographers, and graphic designers who want to create high-impact indoor prints consistently and accurately.

Production

For large workgroups and departments, print service providers, repro houses, and quick printers who want to print anything from simple CAD drawings to complex color documents with high speed and outstanding image quality.

HP Designjet Z5400
PostScript® ePrinter
The first multi-roll ePrinter for graphics to produce high-quality, long-lasting prints efficiently

44 inch (1118 mm)

HP Designjet Z6800
Photo Production Printer[2]
Fastest 60-inch graphics production printer with unrivaled print quality[3]

60 inch (1524 mm)

HP Designjet Z6600
Production Printer
The fastest 60-inch graphics production printer with efficient operation[3]

60 inch (1524 mm)

HP Designjet Z5200
Photo Printer
Professional 8-ink PostScript printer designed for outstanding graphic applications

44 inch (1118 mm)

HP Designjet Z6200
Photo Production Printer
Fastest 42-inch graphics production printer[4] with unrivaled print quality

42 inch (1067 mm)

HP Designjet T7200
Production Printer
Proven color production solution with low cost of ownership

42 inch (1067 mm)

HP Designjet Z3200
Photo Printer series
The most advanced 12-ink printer[5] for gallery-quality prints

24 inch (610 mm) / 44 inch (1118 mm)

HP Designjet T3500
Production eMFP
The most productive large-format color MFP[6]—prints up to size E/A0

Up to A0

36 inch (914 mm)

HP Designjet
SmartStream
Professional software that cuts job preparation time by up to 50%[7]

HP Designjet Z2100
Photo Printer
HP's affordable 8-ink printer to produce durable prints

24 inch (610 mm)

Scanners

For enterprises, repro houses, GIS firms, and AEC professionals who want to scan and copy photos, documents, and maps, fast and accurately.

HP Designjet HD Pro Scanner
High-definition scanner for excellent color accuracy and image reproduction

42 inch (1067 mm)

HP Designjet SD Pro Scanner
High-productivity scanner for fast and detailed document reproduction

44 inch (1118 mm)

Choose a printer depending on the type of application

**Line drawings
(color and black-and-white)**
Print anything from simple CAD drawings to complex color documents with high-speed and outstanding image quality. Bring your vision to life with drawings full of fine detail, enabled by precise line accuracy.

Maps and orthophotos
Communicate clearly with excellent image and line quality on all your prints from drawings to satellite and aerial photos, maps, and more.

Exhibition and event graphics
Grab attention at exhibitions and events with eye-catching top-quality graphics. Print on a variety of applications, from roll-up banners and pop-up banners to backlit signs and posters with outstanding print quality.

Retail POP/POS
Create appealing advertising posters, displays, window graphics, and backlits that can influence shoppers' decisions. High-quality printing on a wide variety of media can help you gain a competitive edge.

Renderings, posters, and presentations
Print large-format drawings, schematics, renders, and presentations with great ease, speed, clear and vibrant quality, and low running costs.

**Professional photography and
digital fine art**
Produce dazzling fine art reproductions for galleries and artists with high-quality digital printing. Long lifespan and fade resistance keep prints in top viewing condition on a range of printing materials from canvas to high-end professional photo and fine art papers.

Office – CAD & GIS

For individual or multiuser environments, HP Designjet printers help streamline your workflow with features like automatic media-roll alignment and an integrated output stacking tray[1] that delivers flat, collated prints. Also, scan and share with simplicity, complete work efficiently with true print previews, and quickly produce a range of high-quality applications—from black-and-white CAD drawings to color presentations.

Print when you want, the way you want with the HP Designjet technology. HP offers the industry's widest range of large-format printers for design professionals.

HP Designjet T2500 eMultifunction Printer series

Newly designed, two-roll, web-connected ePrinter with scan and copy capabilities
Medium to large workgroups

Printer size:	36 inch (910 mm)
PostScript versions available:	✔
Print resolution:	Up to 2400 x 1200 optimized dpi
Scan/copy resolution:	Up to 600 dpi
Print speed line drawings[2]:	21 sec/page on A1/D, 120 A1/D prints per hour
Scan speed:	**Color:** up to 3.81 cm/sec (1.5 in/sec) **Grayscale:** up to 11.43 cm/sec (4.5 in/sec)
Memory:	128 GB (virtual)[3], 320 GB hard disk
Connectivity[4]:	**Interfaces (standard):** Gigabit Ethernet (1000 Base-T) **Print languages (standard):** Basic eMultifunction Printer: HP-GL/2, HP-RTL, TIFF, JPEG, CALS G4, HP PCL 3 GUI, URF; PostScript eMultifunction Printer: Adobe PostScript 3, Adobe PDF 1.7 Extension Level 3, HP-GL/2, HP-RTL, TIFF, JPEG, CALS G4, HP PCL 3 GUI, URF **Drivers (included):** HP-GL/2, HP-RTL drivers for Windows®; HP PCL 3 GUI driver for Mac OS X; PostScript Windows, Linux, and Mac drivers[5]
Printing paths:	Printer driver, HP Designjet ePrint & Share, HP Embedded Web Server, HP Instant Printing, direct printing from USB flash drive, email printing
Web connectivity:	✔
Wi-Fi certification[6]:	▬
Media handling:	**Input:** two automatic front-loading roll feeds, smart roll switching, sheet feed **Output:** integrated output stacking tray (from A4/A to A0/E, with up to 50 A1/D-size capacity), media bin, automatic cutter **Scanner:** straight-through scan paper path for sheet and cardboard originals (up to 0.5 mm/19.7 mil in thick)
Ink types and drop size:	Dye-based (C, G, M, pK, Y); pigment-based (mK) 6 pl (C, G, M, pK, Y); 9 pl (mK)
Recommended HP large format printing materials:	C1861A HP Bright White Inkjet Paper (FSC® certified)[7] ♻[8] 914 mm x 45.7 m (36 in x 150 ft)
	C6020B HP Coated Paper (PEFC™ certified)[7] ♻[8] 914 mm x 45.7 m (36 in x 150 ft)

[1] Not all T-series printers have this feature.
[2] Mechanical printing time. Printed in Fast mode, using HP Bright White Inkjet Paper (Bond) and Original HP inks.
[3] Based on 1.5 GB RAM.
[4] Includes an embedded Jetdirect print server.
[5] Included with PostScript printers only.
[6] Wireless performance is dependent on physical environment and distance from access point, and may be limited during active VPN connections.
[7] BMG trademark license code FSC®-C115319, see fsc.org. HP trademark license code FSC®-C017543, see fsc.org. BMG trademark license code PEFC™/29-31-261, see pefc.org. HP trademark license code PEFC™/29-31-198, see pefc.org. Not all FSC®- or PEFC™- certified products are available in all regions. For information about HP large format printing materials, please visit HPLFMedia.com.
[8] Can be recycled through commonly available recycling programs. HP Universal Satin Photo Paper can be recycled according to region-specific practices. In North America recyclable in consumer collection systems that can accept mixed paper (may not be recyclable in your area).
[9] Requires an HP Designjet ePrint & Share account, Internet connection to the printer, and connected Internet-capable device. When using the HP Designjet ePrint & Share mobile app, a compatible Apple® iOS or Android™ device and Internet connection are required. Data or connection charges may apply. Print times may vary. 5 GB of temporary storage per account. For more information, visit hp.com/go/eprintandshare.
[10] Trade Agreements Act (TAA) compliant, available US & Canada only.
[11] Availability of service packages and specifications may vary by product and country. For more information visit hp.com/go/designjetsupport.

HP Designjet HD Pro MFP

High-definition 44-in MFP for excellent color accuracy and high productivity
Medium to large workgroups

Printer size:	44 inch (1118 mm)
PostScript versions available:	✔ (only version available)
Print resolution:	Up to 2400 x 1200 optimized dpi
Scan/copy resolution:	9600 dpi
Maximum print speed[1]:	53 m²/hr (570 ft²/hr)
Scan speed:	**Color:** up to 15 cm/sec (6 in/sec) **Grayscale:** up to 33 cm/sec (13 in/sec)
Memory:	**Printer:** 64 GB (virtual)[2], 320 GB hard disk
	Scanner: 2 GB memory, 500 GB hard disk
Connectivity:	**Printer:** Interfaces (standard): Gigabit Ethernet (1000Base-T), Hi-Speed USB 2.0 certified, EIO Jetdirect accessory slot Print languages (standard): Adobe PostScript 3, Adobe PDF 1.7, TIFF, JPEG, CALS G4, HP PCL3 GUI, HP-GL/2[3], and HP-RTL[3] **Scanner:** Interfaces (standard): Gigabit Ethernet (1000Base-T), Hi-Speed USB 2.0 certified
Printing paths:	Printer driver, HP Embedded Web Server, HP Instant Printing PRO, direct printing from USB flash drive, email printing
Web connectivity:	✔
Wi-Fi certification[4]:	▬
Media handling:	**Input:** two automatic roll feeds; smart roll-switching; sheet feed; **Output:** media output bin; automatic cutter[5] **Scanner:** Straight-through scan paper path for sheet and cardboard originals, adjustable paper pressure for very thin media up to 15 mm original thickness
Ink types and drop size:	Pigment-based 6 pl (Cyan, light gray, magenta, matte black, photo black, yellow)
Recommended HP large format printing materials:	C6810A — HP Bright White Inkjet Paper (FSC® certified)[6]♻[7] 914 mm x 91.4 m (36 in x 300 ft)
	C6030C — HP Heavyweight Coated Paper (PEFC™ certified)[6]♻[7] 914 mm x 30.5 m (36 in x 100 ft)
	Q7996A — HP Premium Instant-dry Satin Photo Paper (FSC® certified)[6]♻[8] 1067 mm x 30.5 m (42 in x 100 ft)
	C0F29A — HP Everyday Adhesive Gloss Polypropylene, 2 Pack 1067 mm x 22.9 m (42 in x 75 ft)

[6] Can be recycled through commonly available recycling programs. HP Universal Satin Photo Paper can be recycled according to region-specific practices. In North America, recyclable in consumer collection systems that can accept mixed paper (may not be recyclable in your area).
[7] HP Large Format Media take-back program availability varies. Recycling programs may not exist in your area. See HPLFMedia.com/hp/ecosolutions for details.
[8] Requires an HP Designjet ePrint & Share account, Internet connection to the printer, and connected Internet-capable device. When using the HP Designjet ePrint & Share mobile app, a compatible Apple® iOS or Android™ device and Internet connection are required. Data or connection charges may apply. Print times may vary. 5 GB of temporary storage per account. For more information, visit hp.com/go/eprintandshare.
[9] Trade Agreements Act (TAA) compliant, available US only.
[10] Only available in selected US channels.
[11] Availability of service packages and specifications may vary by product and country. For more information visit hp.com/go/designjetsupport.

HP Designjet T3500 Production eMFP

The most productive large-format color MFP[1]—prints up to size E/A0

Printer size:	36 inch (910 mm)
PostScript versions available:	✔ (through PostScript upgrade)
Print resolution:	Up to 2400 x 1200 optimized dpi
Print speed line drawings[2]:	21 sec/page on A1/D, 120 A1/D prints per hour
Memory:	Intel Core i5M-260 processor, 128 GB (virtual)[3], 500 GB hard disk (AES-256 encrypted, FIPS 140-2 Level 2 certified)
Connectivity:	**Interfaces (standard):** High-Speed USB 2.0 certified host connector. Gigabit Ethernet (1000Base-T), supporting the following standards: TCP/IP, BootP/DHCP (IPv4 only), DHCPv6, TFTP (IPv4 only), SNMP (v1, v2c, v3), Apple Bonjour Compatible, FTP, WS Discovery, Embedded Web Server(HTTP), IPSec, SMTP (e-mail), Raw IP printing (9100, 9101, 9102), LPD, IPP, WS print, NTLM, NTLM v2, SSL/TLS, 802.1X authentication (WEP, WPA, WPA2, LEAP, PEAP, EAP-TLS) **Print languages (standard):** HP-GL/2, HP-RTL, TIFF, JPEG, CALS G4, HP PCL 3 GUI **Drivers (included):** HP-GL/2, HP-RTL drivers for Windows; HP PCL 3 GUI driver for Mac OS X; PostScript Windows and Mac drivers with optional PostScript/PDF Upgrade Kit. Compatible with HP Designjet Universal Print Driver for HP-GL/2 and HP Designjet PostScript/PDF Upgrade Kit
Web connectivity:	✔
Wi-Fi certification[4]:	▬
Media handling:	**Input:** Two automatic front-loading roll feeds; smart roll switching; rolls up to 200 m (650 ft) each; sheet feed **Output:** integrated output stacker (from A4/A to A0/E, with up to 100 A1/D-size capacity); basket; automatic cutter **Scanner:** straight-through scan paper path for sheet and cardboard originals
Inks:	Dye-based (C, G, M, pK, Y); pigment-based (mK) 6 pl (C, M, Y, G, pK); 9 pl (mK)
Recommended HP large format printing materials:	C1861A — HP Bright White Inkjet Paper (FSC® certified)[5] ♻[6] 914 mm x 45.7 m (36 in x 150 ft)
	C6020B — HP Coated Paper (PEFC™ certified)[5] ♻[6] 914 mm x 45.7 m (36 in x 150 ft)
	C6030C — HP Heavyweight Coated Paper (PEFC™ certified)[5] ♻[6] 914 mm x 30.5 m (36 in x 100 ft)
	Q1421B — HP Universal Satin Photo Paper (FSC® certified)[5] ♻[6] 914 mm x 30.5 m (36 in x 100 ft)

Scan input modes:	**On the touchscreen:** scan preview, scan to file, scan to email, scan to USB, scan to print, scan to FTP, copy, batch scanning, batch copying
Copier settings:	Type of original image crop and align preview, lightness, saturation and RGB controls, white point and black point adjust, sharpen/blur, mirror copy, enlarge/reduce, paneling, tiling, nesting, accounting, batch, multipage PDF generation
Media types:	Non-abrasive paper, vellum, Mylar, sepia, blueprints, plastic, film, plastic laminate, foam board, cardboard, newspaper, tracing paper (no plywood, stone plates, metal plates or abrasive, dirty, rough, sharp edged, metal clamped, or burned surfaces or transparencies)
Media handling:	Straight-through scan paper path for sheet and cardboard originals
Memory:	2 GB[2] memory, 500 GB[3] hard disk
Connectivity:	**Interfaces (standard):** Gigabit Ethernet (1000Base-T), Hi-Speed USB 2.0 certified **Drivers (included):** Windows drivers for compatible HP Designjet Printers
Product information:	G6H50A#B1K HP Designjet SD Pro Scanner[4]
Warranty:	One-year limited hardware warranty

Service and support Care packs[5]:		
	H4518E	HP Designjet Installation Service with Network Set Up
	U5AC7PE	HP 1 year Post Warranty NBD* with DMR** Onsite Support
	U5AC8PE	HP 2 year Post Warranty NBD* with DMR** Onsite Support
	U5AC4E	HP 2 year NBD* with DMR**
	U5AC5E	HP 3 year NBD* with DMR** Onsite Support
	U7VB6E	HP 4 year NBD* with DMR** Onsite Support
	U5AC6E	HP 5 year NBD* with DMR** Onsite Support
	U1XV4E	Preventive Maintenance HW Support (Per event)

Supported printers:	HP Designjet 500 Printer series, HP Designjet 510 Printer series, HP Designjet 1050C/1055CM Printer series, HP Designjet 4000/4020 Printer series, HP Designjet 4500/4520 Printer series, HP Designjet 5000 Printer series HP Designjet 5500 Printer series, HP Designjet T520 ePrinter series, HP Designjet T610/T620 Printer series, HP Designjet T770 Printer series, HP Designjet T790 ePrinter series, HP Designjet T795 ePrinter, HP Designjet T920 ePrinter series, HP Designjet T1100 Printer series, HP Designjet T1120 Printer series, HP Designjet T1200 Printer series, HP Designjet T1300 ePrinter series, HP Designjet T1500 ePrinter series, HP Designjet T2300 eMultifunction Printer series, HP Designjet T2500 eMultifunction Printer series, HP Designjet T3500 Production eMFP, HP Designjet T7100 Printer series, HP Designjet T7200 Production Printer, HP Designjet Z2100 Photo Printer series, HP Designjet Z3100 Photo Printer series, HP Designjet Z3200 Photo Printer series, HP Designjet Z5200 Photo Printer, HP Designjet Z5400 PostScript® ePrinter, HP Designjet Z6100 Printer series, HP Designjet Z6200 Photo Production Printer, HP Designjet Z6600 Production Printer, HP Designjet Z6800 Photo Production Printer

[1]   The HP Designjet Z6800 Photo Production Printer does not print borderless.
[2]   This product is also available as part of the HP Designjet Pro Multifunction Printer.
[3]   Compared to large-format inkjet printers under $25,000 for graphic applications. Based on the fastest rated color speeds as published by manufacturers as of October 2013. Test methods vary.
[4]   Compared to large-format inkjet printers under $25,000 for graphic applications. Based on the fastest rated color speeds as published by manufacturers as of January 2010. Test methods vary.
[5]   The 12-ink HP Designjet Z3200 Photo Printer is the most advanced printer compared with other HP Z-series printers.
[6]   Cuts all media except canvas and banners.
[7]   Cuts all media except canvas.
[8]   Mechanical printing time. Printed in Fast mode with Econofast on, using HP Bright White Inkjet Paper (Bond) and Original HP inks. Measured on a 60-in printer.
[9]   Mechanical printing time. Printed in Fast mode on HP Bright White Inkjet Paper (Bond) with Original.
[10]   Based on 1 GB RAM. Expandable to 1.5 GB RAM through a Designjet qualified SODIMM included only in the optional HP Designjet PostScript®/PDF Upgrade Kit accessory.
[11]   Based on 768 MB RAM.
[12]   Based on 640 MB RAM.

HP Designjet Technologies

HP Designjet ePrint & Share[1]

Experience cloud printing from virtually anywhere—a conference room, the job site, or even home—using HP Designjet ePrint & Share. This free web service makes it easy to access, view, and print large-format documents, using your tablet, smartphone, laptop, or even your ePrinter's touchscreen from virtually anywhere.[1]

- Automatically save a copy of your print in your online print history so it's easy to retrace the progress of your work.
- Access, view, and reprint files from your online print history.
- Email projects to your ePrinter and print.
- Conveniently share files stored in your online print history with an automatically generated hyperlink.
- Use your email to send print-ready files to print on your HP Designjet ePrinter.
- Access multiple FTP sites in one place, so it's easy to view and print all your files.
- Scan and share files through email from your HP Designjet T2500 eMFP's touchscreen using HP Designjet ePrint & Share.[1]
- Help keep your projects safeguarded with trusted HP security features.

HP Designjet Universal Print Driver

Provide IT teams with greater control and effectiveness, reduce printer-related costs, and improve IT and end-user productivity with the HP Designjet Universal Print Driver (UPD). This intelligent single-driver solution radically simplifies printer deployment and management, saving time and freeing IT to focus on innovation. HP Designjet UPD includes two drivers—HP-GL/2 and PostScript—and supports a broad range of HP Designjet printers.[2]

Simplify printing and management
- Remove much of the time and hassles associated with installing, updating, and testing multiple drivers.

Reduce fleet management costs
- Reduce costs associated with traditional print driver installation, updates, and testing.
- Save money by reducing the amount of time IT must spend on printer integration, management, and maintenance.
- Cut down on help desk-related costs with a simplified single-driver solution.

Focus IT efforts on innovation
- Keep your system up-to-date.
- Transition IT resources from integration to innovation.

Empower IT teams by dramatically reducing the number of drivers they have to manage. Give them the tools they need to improve efficiency and significantly cut costs. Simplify printing for end users and more effectively manage your overall fleet today.

HP Designjet Accounting tool

Build efficient accounting, facility management, and onsite services with HP certified accounting solutions for HP Designjet printers. Take advantage of advanced accounting features, remotely track ink and media use to help monitor costs on a print-by-print basis, and view customer accounts quickly and easily. Printers can automatically send usage reports via email that you can manage through a free Microsoft® Excel template provided by HP. You no longer have to contact customers or visit their sites to obtain the information needed for precise invoicing.

**hp.com/go/Designjet/accounting**

HP technology leadership

HP Vivid Photo Inks[1]

Create impressive long–lasting images in color and black-and white with rich optical density and smooth transitions using **HP Vivid Photo Inks**. Print on many substrates to deliver a wide range of jobs such as posters, canvas prints, and POP signs. HP Designjet printheads are designed together with Original HP Vivid Photo Inks to provide precise, accurate placement of smaller drops, and high speed. Each printhead prints two colors of ink with 1,056 nozzles per color.

Using **HP chromatic red ink**, your HP Designjet printing system provides the broad color gamut needed to produce vibrant color and deep, rich blacks and to achieve true photo-realistic image quality.

High **uniform gloss** provides a professional finish. With a wide range of blacks and grays with smooth, subtle transitions, true gray neutrality, and rich black density, you can produce remarkable B&W prints. And these prints provide lasting results with exceptional print permanence indoors in-window and away from direct sun.[2]

HP Vivid Photo Inks

Outstanding speed[1]

HP Double Swath Technology provides breakthrough speed and performance. The HP Designjet Z6200 and the HP Designjet Z6800 Photo Production Printer include two sets of four HP 771 Designjet Printheads, and the HP Designjet Z6600 Production Printer includes two sets of three HP 771 and HP 773 Designjet Printheads creating a wide print swath— up to 1.67-inches/42.5 mm—and a high firing frequency to deliver prints with amazing speed.

Eight bi-color printheads for the HP Designjet Z6200 Photo Production Printer and the HP Designjet Z6800 Photo Production Printer and six bi-color printheads for the HP Designjet Z6600 Production Printer feature 1,056 nozzles per color, 1,200 nozzles per inch, and small drop volumes for top photo quality.

The HP Optical Media Advance Sensor (OMAS) allows you to print at top speeds and still get great output results. This breakthrough technology improves paper-advance control and accuracy, so the printer can print at higher speeds across multiple environmental conditions without impairing image quality.

Amazing color[1]

The **HP Embedded Spectrophotometer**, with i1 Color Technology from X-Rite, is mounted on the printer carriage for accurate printer calibration measurements that deliver print-to-print and printer-to-printer color consistency and accuracy.

HP Optical Media
Advance Sensor (OMAS)

HP Embedded
Spectrophotometer

High productivity[1]

The **HP Easy Printer Care Tool** lets you easily navigate through color-management, printing, and job management workflows; and the **HP Color Center** provides easy-to-use, step-by-step instructions on how to add new media and calibrate the printer.

HP Instant Printing PRO allows you to quickly preview, crop, and print in large format using one simple tool, providing a quick and easy way for reprographic and copy shops to print in large format. You can easily manage your files from one single application. HP Instant Printing PRO enables true print confidence. Avoid printing on the wrong-sized media with a realistic print preview.

Certified RIPs

Our RIP certification program defines a comprehensive set of compatibility criteria aligned to the highest performance standards and the unique capabilities of HP Designjet printers. Only third-party companies that have demonstrated conformance with these criteria are awarded HP Designjet certified status.

HP has certified a number of third-party Raster Image Processors, enabling additional control over elements such as color management, ICC profile management, tiling and nesting, support of multiple printers and optimizing Pantone and spot color.

To view RIP compatibility, please visit
hp.com/go/DesignjetRIPs

1 Features and availability vary by printer.
2 Display permanence rating for interior displays/away from direct sunlight by HP Image Permanence Lab, and by Wilhelm Imaging Research, Inc. on a range of HP media. For more information, see HPLFMedia. com/hp/printpermanence.

HP Designjet SmartStream

The most productive technical printing software designed for highly demanding environments that offers complete PDF management, creates accurate and error-free printouts, and reduces preparation time by up to 50% on complex jobs.[1]

True PDF management to boost productivity

Rely on true and correct PDF management. Increase productivity and efficiency with the high-speed rendering of complex PDF files, achieve consistently accurate and reliable results, and address potential problems before they arise.

Cut job preparation time by up to half[1]

Reduce preparation time by up to 50% on multipage jobs,[1] and manage your workflow from a single-screen view. Manage complex jobs with a user-friendly interface. Prepare and send jobs to all connected HP Designjet production printers in your fleet.

Gain total control of your technical printing workflow

Fully control your printing workflow and achieve consistent, accurate results with **HP Crystal Preview Technology**. Rely on continuous assistance from job preparation to printing, and easily integrate production accessories to keep business moving.

HP Designjet SmartStream offers true PDF management, providing reliable reproduction of your PDF files thanks to the latest native **Adobe PDF Print Engine 3.**[2]

HP Designjet SmartStream eliminates the need to convert PDF files into TIFF files and reduces the time operators spend solving PDF issues, achieving a higher speed of rendering, even for the most complex PDFs.

POWERED BY
Adobe PDF Print Engine

"Adobe welcomes the HP Designjet SmartStream solution as a major step forward for HP customers who need to manage their large-format production workflows. HP Designjet SmartStream's true PDF management harnesses all the strengths of PDF, the industry's most robust imaging model, in an end-to-end PDF workflow. At its core is the Adobe PDF Print Engine 3,[2] our market-leading rendering technology. We are confident that HP customers who deploy HP Designjet SmartStream can quickly capitalize on the benefits: more streamlined workflows, greater output speeds, and a high degree of predictability for even the most complex jobs."
– Raman Nagpal, Senior Director, Print and Scan Business at Adobe

HP Designjet SmartStream

+Professional software that cuts job preparation time by up to 50%[1]

Supported file types	PDF, TIFF, JPEG, and HP-GL/2
Supported HP printers	HP Designjet T7200 Production Printer. For documentation and other support, see hp.com/go/T7200/support. HP Designjet T7100 Printer (excluding the HP Designjet T7100 Monochrome Printer). For documentation and other support, see hp.com/go/T7100/support. HP Designjet T3500 Production eMFP. For documentation and other support, see hp.com/go/T3500/support. HP Designjet Z6200 Photo Production Printer. For documentation and other support, see hp.com/go/Z6200/support. HP Designjet Z6600 Production Printer. For documentation and other support, see hp.com/go/Z6600/support. HP Designjet Z6800 Photo Production Printer. For documentation and other support, see hp.com/go/Z6800/support. Note: HP Designjet SmartStream only supports PostScript printers. If your printer requires an accessory to handle PostScript, you must install the accessory to use the printer with HP Designjet SmartStream. For further up-to-date information, see hp.com/go/Designjetsmartstream.
Number of HP printers supported	Up to 10
Accessories supported	CQ742B HP Designjet 110V Stacker
	CQ742A HP Designjet 220V Stacker
Scanning integration	HP Designjet T3500 Production eMFP integrated scanner
	HP Designjet HD Pro Scanner (through hot folder)
Available languages	English, French, German, Spanish, Italian, Japanese, Korean, Polish, Portuguese, Russian, Chinese, Taiwanese, Catalan
What's in the box	Quick reference guide, dongle
Product	E2P02A HP SmartStream Preflight Manager for HP Designjet
	E2W15A HP SmartStream Print Controller for HP Designjet T7100/T7200 Production Printer
	E2W16A HP SmartStream Print Controller for HP Designjet T3500 Production eMFP
	K3L60A HP SmartStream Print Controller for HP Designjet Z6200/Z6600/ Z6800 Production Printers
Warranty service	90-day warranty
Computer hardware and software	Intel Core i3 2.4 GHz with 4 virtual cores/threads
	4 GB of RAM
	3.5 GB of free space on hard disk, plus 100 MB for each additional printer added
	Screen resolution of 1280 × 1024 pixels, tuned or calibrated to sRGB for optimal HP Crystal Preview performance
	Ethernet, IPv4, 100 Mb/s
	Microsoft Windows 7 or 8 (32- or 64-bit)

1   Conclusion based on an HP internal test measuring the time required to extract pages from a 50-page document and print them using several printers compared with using equivalent software programs.
2   Adobe PDF Print Engine 3 is the next generation rendering platform, optimized for end-to-end PDF workflows. Adobe PDF Print Engine 3 combines performance optimizations with a new scalability framework to power high-speed digital presses, large-format printers, and CTP platesetters. Adobe PDF Print Engine 3 is the fastest rendering platform for reliable reproduction of complex, graphically rich content. To learn more, visit: adobe.com/products/pdfprintengine.html.

Why PostScript?

Adobe PostScript 3™ the next generation of Adobe PostScript printing
Adobe PostScript is the technology that lets you print any document—text, graphics, images, and color—from any computing platform to any supported device, at the very highest quality possible.

Quality
Optimized quality for PANTONE ® color emulation

• The PostScript driver automatically emulates PANTONE colors to look as similar as the originals on a given printer/media combination

Performance
No more errors printing complex PDFs with different layers

• Correct processing of PDF commands from line drawings and maps, to high-resolution imagery and graphics
• Print correctly all Encapsulated PS images (.eps), especially used on Mac computers

Efficiency
No need to open any application or driver to print a PDF file

• Ability to queue and print PDF files without ever opening the file (via the embedded web server, HP Designjet ePrint & Share, or USB drive plugged directly into your HP Designjet ePrinter)

Why HP-GL/2?

HP-GL/2 is the standardized version of the Hewlett-Packard Graphics Language. It is designed to provide a set of consistent functions across a wide range of peripheral devices, both plotters and printers. It is designed to reduce programming effort and the future compatibility of your programs, while allowing great flexibility in creating images.

Both HP-GL/2 and its predecessor HP-GL were conceived for the needs of the CAD world and are constantly updated. HP-GL/2 has been the plot standard for more than 9 years. HP-GL/2 is the successor of the old-fashioned and restricted HP-GL formats. HP-GL/2 processes expanded vector and raster information using very little memory space. HP-GL/2 is a 1:1 display of a plot; plot information is in HP-GL/2. Every CAD system can create HP-GL/2, as its goal is a technical drawing in the form of a plot. According to the distribution, any CAD system supports HP plotter drivers.

Standard
Any CAD system can create HP-GL/2, as the purpose of a CAD system is a technical drawing in the form of a plot. According to distribution any CAD system supports HP's plotter drivers.

Precise
This format was conceived primarily for CAD applications, and therefore it possesses the accurateness necessary for CAD.

Multitalented
HP-GL/2 processes vector information just as raster information. Within HP-GL/2, the format HP-RTL is integrated for raster interpretation. The definition of extended vector features is also possible, such as influencing line-end and line-join, etc.

Structured
In HP-GL/2, the pen assignments are saved clearly, and arranged according to the plot pen scheme. This is well **Multi-talented**: HP-GL/2 processes vector information just as raster information. Within HP-GL/2, the format HP-RTL is integrated for raster interpretation. The definition of extended vector features is also possible, such as influencing line-end and line-join, etc.

Structured
In HP-GL/2, the pen assignments are saved clearly, and arranged according to the plot pen scheme. This is well

The HP large format printing system: The complete solution

HP Designjet printers, Original HP inks and printheads, and Original HP printing materials are designed to work together as a complete, efficient system to provide productivity, quality, consistency, durability, and value—even when printing highly complex jobs—with every print.

Original HP inks

Printing problems put delivery at risk and can cost you time, money, and clients. Original HP inks are designed together with HP Designjet printers to get the job done right the first time, every time.

Lower costs

Original HP inks are designed together with your HP Designjet printer to produce consistent results. With reliable performance, you can minimize waste and downtime to lower your total cost of printing.

Protect your investment

Ink properties are critical to every part of the printing system. Non-HP inks can cause poor-quality prints that can waste time and money, and can increase printer downtime and maintenance.

Print responsibly

From our global recycling initiatives, to our specially engineered cartridges made of recycled plastic and water-based inks, Original HP inks are designed with the environment in mind.

HP large format printing materials

See consistently outstanding image quality. With a wide range to choose from, you can always find the right printing material for the job, or almost any printing application. HP Premium printing materials are designed to provide best-in-class performance on key attributes like display permanence. Or for lower-cost options, consider HP Everyday or HP Universal printing materials, providing the ideal combination of quality and cost for everyday printing.

No matter which one you choose, HP printing materials are designed to work with the complete system to deliver the results you need and to provide uncompromising quality, consistency, performance, durability, and value every time.

HPLFMedia.com

HP Designjet printers and the environment

Designed with the environment in mind
Take advantage of free, convenient return and recycling of most Original HP Designjet ink cartridges and printheads.[1] HP's "closed loop" recycling process uses recycled plastic from HP ink cartridges to create new Original HP Designjet ink cartridges.[2]

HP Designjet printers and energy efficiency
Energy-efficient printers can reduce environmental impact and reduce costs. They also produce less heat and reduce cooling loads, which can make your work environment more pleasant. Most HP Designjet printers are ENERGY STAR certified, which assures that they meet strict energy efficiency guidelines without sacrificing performance—or your productivity.

ENERGY STAR is a joint program of the U.S. Environmental Protection Agency (EPA) and the U.S. Department of Energy. As ENERGY STAR standards evolve, HP is committed to ensuring that HP Designjet printers continue to meet or exceed the standards.

ENERGY STAR

epeat BRONZE

[1] Visit hp.com/recycle to see how to participate and for HP Planet Partners program features and availability; program may not be available in your area. Where this program is not available, consult the Material Safety Data Sheet (MSDS) available at hp.com/go/ecodata to determine appropriate disposal.

[2] For HP ink cartridges that use recycled materials, up to 70% of the cartridge is made from recycled content. Percentage of recycled material is based on empty weight. HP uses recycled plastic from the HP "closed loop" ink cartridge recycling process when supplies are available. Recycled plastic is also sourced from other recycle streams.

HP Designjet Support Services:
Print with predictability so you can work with confidence

Enjoy
• Professional installation and setup of your HP Designjet large-format printer
• Up to five years of service and support with HP's Next Business Day Onsite Repair
• No support cost surprises
• Hassle-free printing of your projects at the quality you need, when you need it
• Lower total cost of ownership (TCO) of your HP Designjet printer

Maximize printer uptime and gain peace of mind
Secure the budget predictability you need by extending your warranty coverage. All support costs are covered for the full extended period—which can mean significant savings. For example, when purchasing a 3-year service and support package for the HP Designjet T520 ePrinter, you can protect your business from unplanned expenses, while saving up to 15% of the total support costs.

Choose the services that match your needs
HP Designjet Support Services include the following HP Care Pack Services:

• **Installation Service with Network Setup—**Onsite installation and network setup of your HP Designjet printer by an HP-authorized service technician. Includes basic printer orientation for your organization's key users.

• **Next Business Day Onsite Repair—**Extend the HP warranty for 2, 3, 4, and 5 years. An HP-authorized service technician will make the best effort to arrive at your site the next business day after the case is dispatched. Includes parts, material, and labor.

• **Post-warranty Services—**Provides continued protection after your standard HP warranty or HP Care Pack Service expires. Offered in one-year and two-year increments.

• **Preventive Maintenance Service—**Onsite maintenance by an HP-authorized technician. May include: cleaning printer parts, inspection of cables and connections, recommendations for updates, and replacement of parts (parts costs and replacement not included).

The bottom line: why buy HP Support Services?
• Reassurance on your investment
• Predictable printing
• No unexpected support costs
• Quick time-to-repair
• Best-in-class cost of ownership

HP Workstations

Boost productivity with HP Designjet printers and HP Workstations

HP Workstations and HP Designjet ePrinters work together to deliver one complete solution for Architecture, Engineering, and Construction. Benefit from high-performance HP computing with expandable memory capacities and superior printing solutions with mobile connectivity that accelerates collaboration. This is technology built to power your business.

Push the edge of your industry
HP Workstations are designed to meet the demands of professionals who work with large and complex datasets, intricate 3D models, need multiple displays, or simply need a stable computing platform. HP Workstations set the standard for innovation, performance, and reliability, in the office and on the road. HP Workstations are powered by Intel™ Core™ processors like the Intel® Core™ i7 vPro™ processor.

Meeting the demands of the most demanding
HP's partners work with some of the most complex information challenges out there. You can find our workstations exceeding demands and fueling innovation in the fields of architecture, engineering, education, financial services, government, life sciences, media, entertainment, and more around the globe.

Designed for brains and brawn
Every HP Workstation offers the ideal mix of form and function to deliver the highest level of performance and reliability that you can expect.

HP Z Workstations:
• High performance
• Expandable memory capacities
• Extreme reliability
• HP Performance Advisor
• HP Remote Graphics Software

HP Designjet ePrinters:
• Fast, high quality prints
• High reliability
• Mobile connectivity with HP Designjet ePrint & Share
• Easily scan and share documents with HP Designjet T2500 eMFP
