Back to School!

5 Fab E-resources for Youth & Teens

(details on page 2)

After the lazy days of summer and the smells of environmentally safe sunscreen, it's time to get back to school. I have always enjoyed shopping for the start of school...picking out folders and new crayons. DPL is a great resource for your students to help them with their homework all year long!

I'm sure I've mentioned before that I grew up appreciating libraries, learning, and books. I remember heading to our local library so that I could use a variety of resources, like encyclopedias, biographies, and almanacs, to work on school reports. I also remember taking my whole Saturday morning to do this research, with my parents dropping me at

the library and then going through all those resources! How much more convenient it would have been for me, and honestly my parents, if we were able to simply use an e-resource?

We offer a variety of online resources that supplement our print collection. All these resources are available with your DPL card. If it has been a while since you've updated your card, stop by the library during the 69 hours we're open each week and the staff will be happy to take care of that. After that, the resources are yours to use!

Amy Falasz-Peterson, *Library Director*

DPL is your online Answer Place!

School has started, which means the homework projects are lining up. We can help with that! While we love to see you in-person, you don't need to come to the library to take advantage of the online resources we offer for researching a topic for a paper, homework help, connecting with a tutor, or learning a new language.

Here is an introduction to a few of our dynamic online resources. You can find these, and many more, on the Library website at deerfieldlibrary.org/online-resources.

Research Projects

No more heavy (book) lifting required when researching for a paper, preparing for a classroom discussion, or lining up resources for the debate team.

Encyclopedia Britannica online gives you three sites in one: Children; Young Adults; and the Reference Center for older students and adults. Choose the level that works best for your research. This is a great resource for exploring the rich and varied history of the United States through speeches, historical accounts, memoirs, poems, images, and multimedia.

ScholasticGo: Every topic search provides results at four different reading levels. This easy-to-navigate resource includes more than 80,000 vetted websites, topographical, historical, and current interactive maps, videos, and multiple dictionaries. ScholasticGo was developed to help students strengthen content knowledge, vocabulary, and core proficiency skills.

Facts on File / Issues & Controversies:

Contains more than 800 articles on current events issues written for students, including pro/con articles, debate videos, guidance on evaluating online sources, and more. To ensure objective coverage and a wide range of competing viewpoints, the editors rely on hundreds of leading print and electronic news sources from the United States and around the world.

Homework Help

Everyone has a different learning style, and you'll be sure to find the right fit with this resource.

Brainfuse HelpNow: Come here for help from real, live tutors online! Assistance is available for math, science, social studies or English. Tutors are available for Kindergarten – 12th grade, college introduction level students, and adult learners, seven days a week from 2:00-9:00 p.m. CT. You can also take advantage of the Writing Lab for online writing assistance, and skills testing.

Learn a Language

Learning a foreign language contributes to cognitive development and also offers an advantage in the future of our global marketplace.

Mango Languages: You'll enjoy this interactive platform to learn one or more of over 50 languages including Hindi, Mandarin Chinese, Russian, and Urdu. ESL courses are available in 17 native languages.

Little Pim: This program is specifically designed to teach kids foreign languages at the age they learn best: birth to age 6. Languages offered include Arabic, French, German, Hebrew, Italian, Japanese, Russian, and Spanish. English is also available for Spanish speakers.

It won't take long to learn how to make the most of the Library's online resources. If you need help, just ask a DPL Librarian!

Eliot covers wide-ranging themes including the status of women, the nature of marriage, idealism, self-interest, religion, hypocrisy, political reform, and education. Couldn't Have Done it Without You!

Many thanks to the local businesses that supported the children's Summer Reading Program by donating reading incentives: **Baskin Robbins, California Pizza Kitchen, Campus Colors, Chick-Fil-A, Goldfish Swim School, and Il Forno.**

Hats off to the shining **STAR volunteers** who helped register reports for the Summer Reading Program, and to the **Book Buddies** who worked weekly with young readers on literacy activities. Thanks to our teens for their generosity and inspiration.

Thank you to the **Friends of the Deerfield Public Library** for sponsorship of the super cool beach towels for the Youth Summer Reading Program sign-up gift.
