ABOUT HILTI

Building Construction

At Hilti, we make and design leading cutting-edge technology, software, and services, empowering the professional construction industry. With a global presence in over 120 countries and more than 23,000 employees, we offer a 360 degrees service for your build – from software for design, products, and tools for work onsite to training, repairs, testing, and consultancy. We create technologies, software, and services, which are aimed to drive innovation and stand out from the competition. Our technologies are known to support the achievement of many admirable feats in the field of engineering across the world.

Our commitment to our customers is the epitome, and that is why two-thirds of our Hilti team members are focused on working directly with our customers every day. With our one-of-a-kind services, the industry’s best warranty, and specialists in areas like structural engineering and fire protection, we have become a brand to be reckoned with among Construction professionals.

SDS-MAX COMBIHAMMERS: TE 70 / TE 50

- Best in their weight class with up to 40% faster drilling than the competition.
- Unmatched operator safety and comfort with advanced Active Vibration Reduction (AVR) technology and Active Torque Control (ATC)

[More Info](#) →

SDS-PLUS COMBIHAMMERS TE 30-ATC / AVR

- Brushless motor for exceptionally high performance
- Drilling holes for rebar doweling diameter holes 4 - 28mm, optimum 10 - 20mm

[More Info](#) →

CORDLESS COMBIHAMMER TE 60-A36

- Active Torque Control (ATC) stops the tool body from spinning uncontrolledly if the drill bit jams – helping to reduce a common safety hazard
- Drilling anchor and through-holes in concrete and masonry (recommended diameter range 18-80 mm)

[More Info](#) →

[Watch Now](#) ▶

Battery pack B 36/9.0 Li-ion

- All demanding applications requiring corded power and extreme run time
- Compatible with the entire Hilti 36 V cordless tool range

[More Info](#) →

CONCRETE DRILL BITS SDS-MAX: TE-YX / TE-Y SDS-PLUS: TE-CX / TE-C

- Heat-treated helix for less wear and maximum durability guarantees the best lifetime in its class
- Innovative TE-YX & TE-CX solid carbide head for easy drilling through steel rebars

[More Info](#) →

DUST REMOVAL TE DRS-Y

- Removes up to 99% of fine dust for a clean workplace
- Dust removal for concrete drilling and chiselling with Hilti SDS-Max combihammers

[More Info](#) →

VACUUM CLEANERS

- Universal and sturdy vacuum cleaner for use with all Hilti tools
- Hilti AirBoost automatic filter cleaning technology for consistently high suction

[More Info](#) →

[Watch Now](#) ▶

REBAR DOWELING

Concrete &
Foundation

CORDLESS DISPENSER HDE 500-A22

- Extremely fast & accurate dispensing with no mortar wastage, perfect for serial injection with the same amount
- Up to 40,000 ml of injection with one battery (80 packs x 500ml / foil)

[More Info](#) →

MANUAL DISPENSER HDM 500

- Easy & fast foil pack loading
- Ruggedly built to withstand tough jobsite conditions

[More Info](#) →

INJECTABLE ADHESIVE ANCHORS: HIT-RE 500 V3 & RE 100

- Suitable for use in wet and water-filled holes
- Highest bond strength of RE 500 V3 provides opportunity for reduced hole depth

CORDLESS IMPACT WRENCH SIW 6AT-A22

- High-efficiency brushless motor means the tool lasts longer and gets more work done per charge
- Tightening and releasing nuts and bolts in sizes M8 to M16

[More Info](#) →

CORDLESS DRILL SF 8M-A22

- Extremely durable 4-speed, all-metal gearing providing the optimum speeds for various drilling applications in metal
- Drilling in metal with HSS bits up to 20 mm diameter

[More Info](#) →

DIAMOND CORING MACHINE DD 30-W

- Fast drilling through rebar thanks to the unique TopSpin technology
- Compact, light diamond drilling machine for handheld coring of heavy-duty anchor and rebar holes in diameters up to 35 mm

[More Info](#) →

DIAMOND CORING MACHINE DD 120

- Power control LED – shows even inexperienced users how to achieve the optimum drilling speed and maximise core bit life
- Extremely compact, light and mobile diamond drilling for installing railings and barriers

[More Info](#) →

STUD ANCHORS

- Excellent edge and spacing distances
- Suitable for hammer-drilled and diamond-cored holes (such as from DD-30W and DD EC-1 diamond drilling tools)

[More Info](#) →

FLUSH ANCHORS HKD

- “Intelligent” stepped expansion cone allows easy, correct setting even in harder materials
- Features a lip for flush setting regardless of hole depth

[More Info](#) →

DIAMOND DRILLING INSERTS

- Diamond drilling inserts for a wide range of applications, different base materials and all tool power classes

[More Info](#) →

WATER MANAGEMENT SYSTEM DD-WMS 100

- Keeps jobsites clean – all slurry is collected with Hilti water collection systems
- Maintenance-free

WHAT ON!TRACK CUSTOMERS ARE SAYING

“We get to track our tools which gives us transparency on all our tools. Now we know exactly how many tools we have and where they are. It is cost saving.”

- Cliff Tan
Director,
THI Engineering &
Construction Pte Ltd

Some of the biggest jobsite efficiency killers are tools and assets that are broken, misplaced or mismanaged. These problems don't just slow you down, they also cost you money. Our ON!Track Asset Management can help you keep track of your tools and other assets and streamline your business.

HOW ASSET MANAGEMENT WORKS

Our specially trained team members will visit your worksite to understand your unique needs and design and implement a solution that's tailored just for you. We combine the latest technology with jobsite-friendly processes to make sure that you always know the answers to questions like, "Where is that tool?" and "Who was using it last?"

HARDWARE

WHY 2-1-3

We don't forget our customers after we make a sale. On the contrary, our relationship with our customers has just begun. Our 2-1-3 model is a way by which we nurture this relationship and assure our customers their money's worth. We deliver our customers the best quality in the engineering of products that guarantee top-notch standards of the tool-make. We are so confident of our products' caliber; we can give our customers an exemplary warranty model that leaves you worry-free for years.

DECODING THE 2-1-3 WARRANTY MODEL

2 Years No Cost Warranty on Heavy Duty Tools

- Hilti resolves to repair your tool free of cost for 2 years from the date of purchase. This includes replacement of defective parts, wear and tear parts, labor cost, etc. It also includes free pick-up and delivery.

1 Month Repair Warranty

- Hilti will repair your tool for free within a month after your last charged repair. This also includes parts for wear and tear.

3 Days or Free

- We'll collect, repair and return your tool to site, faster than any other tool repair service. We even guarantee 3 working days turnaround time. If we fail, your repair is free

*Conditions apply. Refer to T&Cs for details.

SOFTWARE SOLUTIONS & SERVICES

Customized support for engineers

Our engineering software and services support you to identify effective solutions for your complex design problems in a fraction of the time.

FASTENING SOFTWARE AND SERVICES

Simple, easy to use, and accurate solutions to meet your design requirements

Design Software

PROFIS Anchor

A downloadable software solution that lets you perform post-installed anchor design with Hilti's post-installed mechanical or adhesive anchors, that are in accordance with latest European Technical approval guidelines.

Download
Profis Anchor

PROFIS Rebar

A downloadable software solution that lets you perform post-installed rebar design with Hilti's post-installed rebar systems, that are in accordance with latest European Technical approval guidelines – Technical Reports and European codes.

Download
Profis Rebar

PROFIS Anchor Channel

Provides the best features to quickly model and design embeds for a variety of geometries, base materials, and loading conditions. It is the industry leader in Anchor Channel design providing the user a simple and intuitive way to apply design considerations.

Download Profis
Anchor Channel

Engineering Competence Center (ECC)

ECC is a competent and comprehensive team of technical specialists dedicated to resolving all your technical queries regarding anchors, rebar, firestop, and installation systems. Our team prepares a variety of reports on site testing, as well as Profis Anchor/Rebar and Installation System design reports.

On-site Testing Service

Whether it is testing anchors in unknown strata or evaluating the installation quality, our range of testers gives you the peace of mind by ensuring structural safety during execution.

Find Out More →

Firestop software and services

Document Manager

Document Manager enables documentation of firestop penetrations, joints, fire doors, and other custom categories. It is a Cloud-based software used by back office administrators in combination with a mobile device application for installers/documenters.
