

# Building Trustworthy Systems for Childbirth

Neel Shah, MD

**A world in which every person can choose to grow their family with dignity.**

---

# The path to parenthood is complex, and many Americans are radically underserved

**1 in 4**

pregnancies  
results in  
miscarriage

**37%**

of Black mothers  
say they have  
been treated  
unfairly based  
on their race  
while getting  
healthcare for  
themselves or a  
family member  
in the past year

**1 in 2**

LGBTQIA+  
couples are  
planning to  
start a family

**1 in 5**

New moms  
suffer  
postpartum  
mood disorders

**28 deaths**

per 100k births in  
U.S. - the highest  
in developed  
world

# The pandemic has exacerbated gaps in care for women and families

## MENTAL HEALTH ISSUES

## SYSTEMIC BIAS

## PRODUCTIVITY LOSS

## POOR RISK MANAGEMENT

---

### SINCE THE PANDEMIC

---

**28%**

greater chance that working mothers will experience burnout than fathers

**37%**

of black mothers reported racial bias in healthcare this year

**1 in 4**

women are considering leaving their jobs or downshifting their careers

**Up to 60%**

of women are skipping their postpartum visits

# A Trustworthy System Requires

## COMPETENCE

the ability to  
produce  
positive and  
equitable  
outcomes

## CONSISTENCY

the ability to  
reliably provide  
expected care

## CONNECTION

the ability to  
affirm people's  
dignity by  
valuing lived  
experience

COMMENTARY

# The Rise of C-Sections – and What It Means

America's propensity for cesarean surgeries at childbirth has come with no clear benefit.

By Neel Shah Contributor Sept. 25, 2019, at 12:01 a.m.

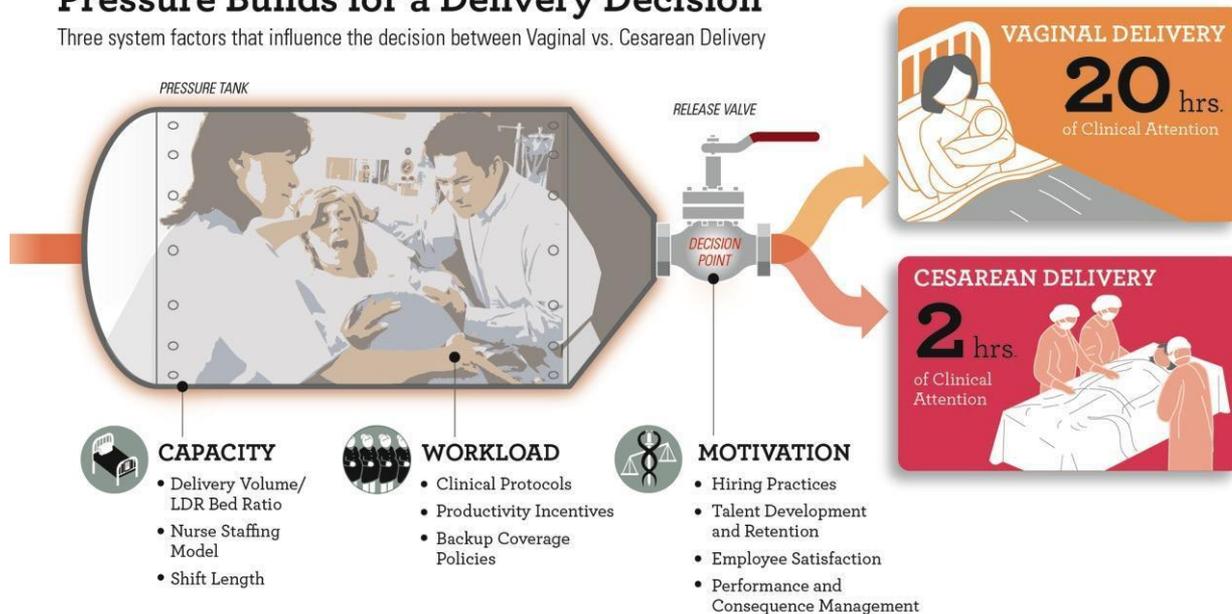

Everyone wants safety when giving birth, but most are expecting more.  (RACHEL WOOLF FOR USN&WR)

**Cesarean rates reflect quality of labor management**

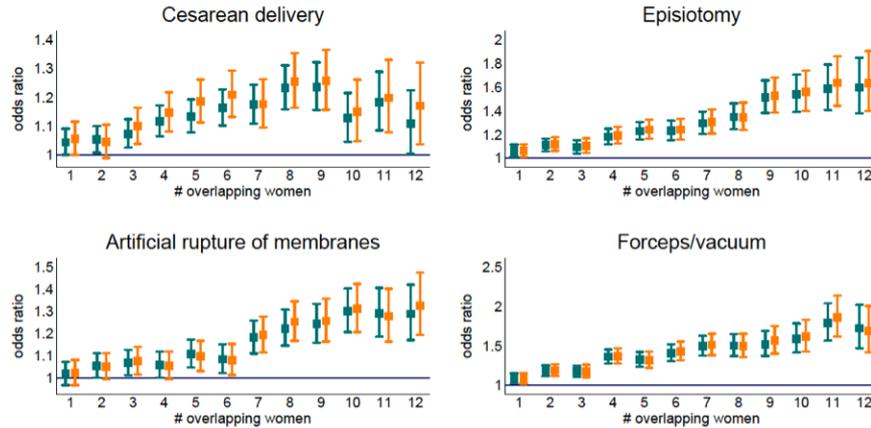

## Pressure Builds for a Delivery Decision

Three system factors that influence the decision between Vaginal vs. Cesarean Delivery

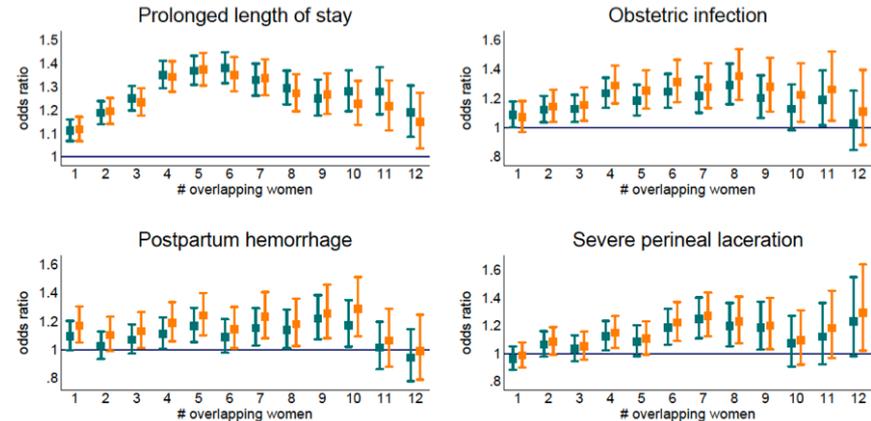

We developed a “pressure tank” hypothesis to understand levers leading to variable quality.

Figure 1. Association between busyness and **interventions**

**We found evidence that “pressure” may impact childbirth outcomes, and that this is helped or hindered by design.**

Figure 2. Association between busyness and **maternal health outcomes**

■ full sample ■ low risk

Placeholder text for citation for the research on the left hand side of this page to go here.

## Relieving the “Pressure Tank” requires solutions that...

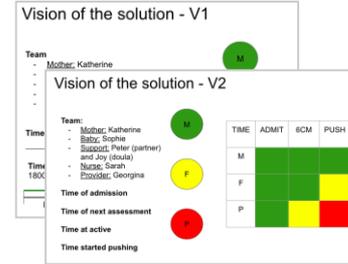

1. Make the right thing to do also the easier thing to do
2. Supports shared decision making under uncertainty (ie teamwork)

# TeamBirth was intentionally designed as a solution that could have **impact at scale**

## Evidence-Based

Rooted in research, including peer-reviewed literature and professional guidelines

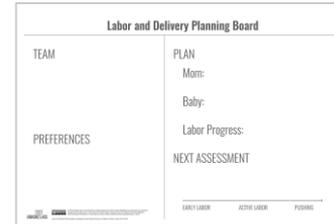

## Human-Centered

User-centered process for iterating on ideas and translating strategies into effective point-of-care tools

## Interdisciplinary

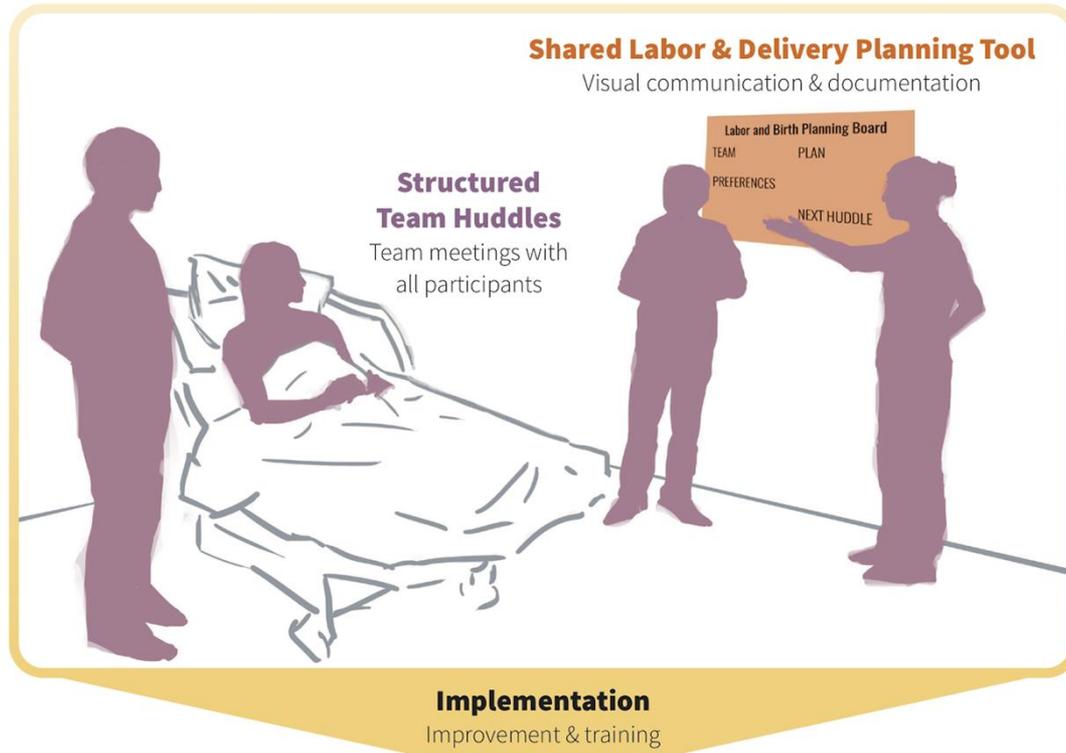

Guided by a wide range of stakeholders, including obstetricians, midwives, nurses, doulas, patient advocates, implementation scientists, and health services researchers

## Adaptable

Simple, testable solution with core, flexible, and add-on components to promote local adaptation and ongoing improvements

# TeamBirth Core Components

# TeamBirth Pilot Trial Hospitals

# TeamBirth Pilot Trial: empowers clinicians and birthing people to create dignified birth experiences

## Patients

97%

Had their **desired role** in the birthing experience

98%

Reported **clear communication** with providers and ability to share care preferences

90%

Felt their **preferences made a difference** in their care

## Clinicians

93%

Felt TeamBirth **improved care for their patients** through better communication, teamwork, and shared decision-making

90%

**Would recommend** TeamBirth to another L&D Unit

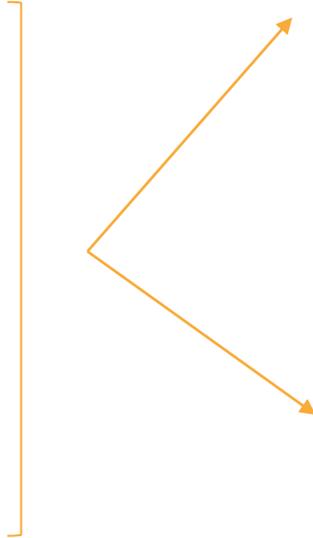

84%

Clarified **C-section decision-making** in non-urgent clinical situation

# TeamBirth Scaling Efforts 2022-2025

## Ariadne Labs: Next Steps

- “Package” TeamBirth into a toolkit for state-level implementers
- Provide technical assistance to states seeking to replicate “commercial” and “public” scaling models
- Develop community-informed methods to translate TeamBirth principles for childbirth education and prenatal engagement of birthing people

### Commercial Model (Michigan)

Start-up at hospitals funded by commercial payers and purchasers, maintained by pay-for-performance incentives

### Public Model (Oklahoma)

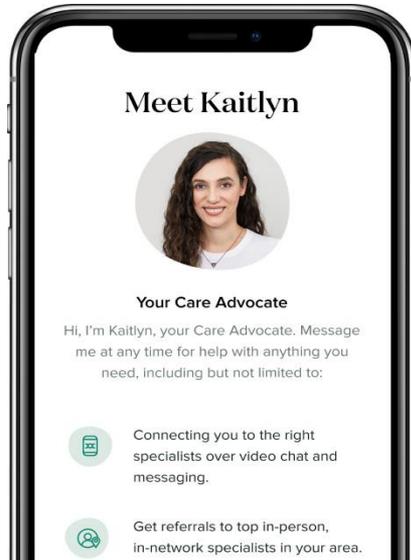

Start-up at hospitals funded by HRSA/state DPH grants, maintained by Medicaid Managed Care Organizations and state quality collaboratives

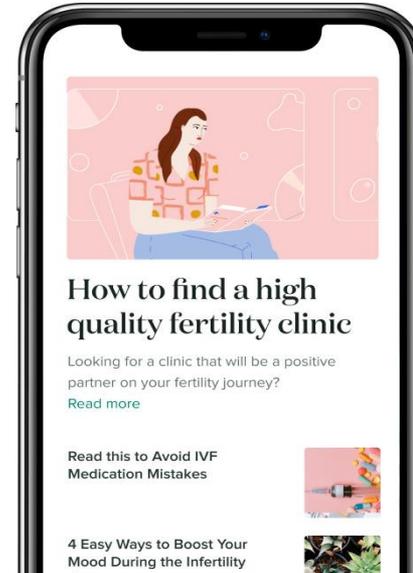

# In 2021, tens of billions of dollars are being invested in digital health

## Specialized telehealth

### Care & benefits navigation

### Content & community

# Maven's platform covers the entire family journey

## Fertility

- Preconception
- Egg freezing
- IUI & IVF support
- Adoption & surrogacy
- Partner track
- Employee reimbursements

## Maternity

- Pregnancy
- Postpartum
- Return-to-work
- Breast milk shipping
- Miscarriage & loss
- Partner track

## Parenting & Pediatrics

- Pediatric care
- Parent coaching
- Special needs support
- Childcare navigation
- Employee reimbursements

# Members take advantage of Maven's diverse provider network, available 24/7 with 30 min wait times

*Frequently utilized practitioner types by program*

Preconception	IUI/IVF; Egg Freezing	Adoption; Surrogacy	Pregnancy	Postpartum
 Fertility Awareness Educator	 Reproductive Endocrinologist	 Adoption Coach	 OB-GYN	 Lactation Consultant
 Nutritionist	 Mental Health Provider	 Surrogacy Coach	 Doula	 Pediatrician
 OB-GYN	 Nutritionist	 Mental Health Provider	 Mental Health Provider	 Career Coach
			 Physical Therapist	 Sleep Coach

Dedicated Care Advocate supports a member throughout their journey and as they transition between programs

# A diverse network of providers enables care matching

**30+**  
languages covered  
and provide culturally-  
specific care

**80%**  
opt in to care matching  
based on identity

**38%**  
identify as Black, Asian,  
Hispanic or other

**8%**  
identify as LGBTQI+  
and 1% as Trans

# Clinical Org Values: 3 components of trustworthiness at a time when trust in healthcare is at a record low

- **We will affirm the dignity of everyone we serve**
  - We value lived and embodied experience as a form of expertise in serving diverse populations
  - We will utilize best practices in shared decision making and ensure our members feel seen and heard
- **We will be reliable in following through on the expectations we set**
  - We will make good on public commitments by saying what we mean and meaning what we say
  - We will show up when and where people most need us
- **We will produce and demonstrate equitable outcomes**
  - Our measurement strategies will attend to the distribution as well as the mean
  - Our care models will ensure those who are most vulnerable are not left behind

**BLACK  
MATERNAL  
HEALTH  
MOMNIBU**
