Website: www.ayushakti.com

COMPANY PROFILE

Ayushakti Ayurved Pvt. Ltd. Has established itself in India as a leader for 15 years in the manufacture of Ayurved herbal food supplements and personal care.

The Ayushakti Ayurved Health Centre in Malad near Mumbai (the commercial capital of India) is the inspiration of Dr. Pankaj Naram and a tribute to the ancient medical science of Ayurveda. Dr. Naram is a world-renowned pulse diagnostician who received his in-depth training through a chance meeting with a Tibetan monk named Baba Ramdas Swami (who lived to the ripe old age of 124 years). Dr. Naram has treated over 500,000 people worldwide.

A fetish for perfection and high standards prompted Ayushakti to establish its own modern herbal factory at Palghar, a two-hour suburb of Mumbai. For the past 18 years, Dr. Smita Naram and her team have overseen quality control of all the Ayushakti herbs and to do so, they had to overcome several hurdles. First, to create the potent Ayurvedic medicines as prescribed in the ancient times, the Narams needed to find highly concentrated herbal extracts (ghana) for a base. They insisted on this for all their 350 herbal formulas. Thousands of years ago, herbs were more potent because the soil was more fertile. (there were no chemical fertilizers and no pesticides in use two thousand years ago!) So, maintaining authenticity for their herbs proved to be quite a challenge! Secondly, there was no uniformity in quality as suppliers had different benchmarks of quality. Therefore batches of the same medicine from herbal producers often varied in consistency. All this prompted Dr. Smita Naram to go on a nationwide hunt ten years ago for an herbal ingredient supplier with the necessary concentrated extracts. Only a couple of suppliers measured up to her meticulous standards and these were chosen to be the certified suppliers for Ayushakti. Dr. Smita Naram began to order specific herbal ingredients from them in concentrated measures. All of the Ayushakti herbal ingredients are carefully chosen, measured, and mixed according to ancient methods. The Ayushakti products are manufactured under the strict supervision of technically qualified personnel and tested for heavy metals, micro-organisms, and other international parameters according to authoritative health guidelines. Only ingredients carrying the Ayushakti quality seal are used. Ayushakti goes the extra mile to ensure quality control in manufacturing their wide array of authentic Ayurveda herbal remedies worldwide.

CLAAS INDIA

MR SHALLY GUPTA

Manager
Faridabad
Phone : 91-129-4044204
Fax : 91-129-
E-mail : shally.gupta@claas.com

COMPANY PROFILE

By increasing its holding in the previous joint venture with the Indian large combine company to 100 %, the CLAAS Group vastly expanded its commitment on the Asiatic continent. Alongside CLAAS India Ltd., CLAAS runs a combine factory as its own subsidiary company in Faridabad, not far from the capital Delhi. With this commitment to include the as yet mainly unmechanised Indian market for agricultural harvesting machinery, CLAAS hopes to profit from the enormous growth potential. Since around 90 % of worldwide rice production is cultivated in Asiatic countries, a manufacturing base in India, a country that can cover the entire Asiatic demand for rice, is a great advantage for CLAAS. At present, CLAAS India Limited builds around 350 combines a year. The functionality and equipment of these machines is adapted for the particular conditions of the Indian market. The export share in other Asiatic markets is currently 20 %. Since 1992, the production facilities have been building the CROP TIGER combine with a choice of tracking or wheel running gear.

Fax : 91-427-2318854
E-mail : vsil@vsnl.com

COMPANY PROFILE

Varalakshmi Starch is the only unit in India with accreditation of ISI certification for food grade tapioca starch. It is equipped with imported hi-tech machineries. The company is manufacturing various type of modified starches suitable for food, pharma, textile, paper and adhesive industries and their products are of international standards. Its paper grade modified starches have reduced the import of such type of starch to a large extent as the major paper industries in India are using its product for their entire requirements.

Presently, the company is producing around 20,000 tonnes of ISI edible tapioca starch and 15000 tonnes of modified starch per annum. Its products are well established in India and also abroad. The company exports around 25000 Mts of products to various countries.

Now the company has further expanded its plant for producing some value added products suitable for pharma and food applications. The company is eco-friendly in all respects and taken utmost care in protecting the environment.

It has a well designed effluent treatment plant. IN a move to safe-guard the environment, the company has put up a bio-methanation plant to recover the renewable energy from the tapioca processing wastewater through treatment process.

YES BANK LTD.

Mr G K D KALYAN CHAKRAVARTHY

Country Head - Food & Agribusiness Strategic Advisory & Research

MUNISH DAYAL

President - Business Banking

48 Nyaya Marg
Chanakyapuri
New Delhi 110 021 (Delhi)
Phone : 91-11-66569072,
Fax : 91-11-41680144,
E-mail : kalyan.chakravarthy@yesbank.in,

YES BANK is an outcome of the professional entrepreneurship of its Indian promoters, Rana Kapoor and Ashok Kapur, two highly experienced bankers, who have held leadership positions in some of the world's prominent banks in India. In addition, the two promoters have a proven track record as professional entrepreneurs in successfully establishing and managing Rabo India Finance Private Limited, a joint venture with Rabobank, Netherlands. YES BANK is the only green-field license awarded by the RBI in the last 10 years. The two Indian promoters jointly hold 38.62% of the Bank.

One of the strengths and differentiating features of YES BANK is its Knowledge Banking approach that is the essence of all offerings to its customers. Knowledge has been institutionalized as a key ingredient in all internal and external processes and utilized to create customized solutions for clients' specific requirements. The Bank has already commenced its knowledge banking approach with respect to Food and Agriculture by mobilizing a team of experienced industry and banking professionals who have the necessary knowledge and skills sets in identified focus sectors and are actively working with the stakeholders in the food chain in various capacities.

Mr Munish Dayal is the President- Business Banking at YES BANK. His responsibilities include planning, directing and steering the Business Banking (Small and Medium Enterprises/Emerging Local Corporate relationship based) activities of the bank, defining the business strategy of the bank and effectively steering the bank through the implementation of the strategy. Munish also has a significant role in the management of the bank as a key member of the Management Committee and the Risk Management Committee.

Prior to joining YES BANK, Munish was the Business Head for the SME segment at Citibank and was responsible for developing and managing the business in Europe, Middle East and Africa. He worked with the Citigroup in various positions of responsibility in a career spanning 16 years. He has vast, cross-functional experience in banking, encompassing Transaction, Retail and Financial Institution Banking, apart from a sound product and operational knowledge.

Munish is a Commerce graduate from Sriram College, Delhi and a merit holder of the Business Administration degree from Faculty of Management Studies (FMS), Delhi.

YES BANK, India's new age private sector Bank, is the outcome of the professional commitment of its Indian promoters, Rana Kapoor and Ashok Kapur, to establish a high quality, customer centric, service driven, private Indian Bank catering to "Emerging India".

YES BANK has adopted international best practices, the highest standards of service quality and operational excellence, and offers comprehensive banking and financial solutions to all its valued customers. A key strength and differentiating feature of YES BANK is its knowledge driven approach to banking. The Bank has formed a specialized 'Development and Knowledge Banking Division' focusing on key sunrise growth sectors with predominant focus on Food and Agriculture.

The Bank's constant endeavor is to provide a delightful banking experience expressed with simplicity, empathy and totality.

COMPANY PROFILE

Finolex Cables Ltd, the flagship company of the Finolex Group was established in 1956 in Pune. Today, it is India's largest and leading manufacturer of electrical and telecommunication cables with a turnover in excess of Rs. 6275 million (about US \$ 134 million). The company started its operation with the manufacture of PVC insulated electrical cables for the automobile industry. Since then, the Company has constantly endeavored to augment its product range to include, PVC insulated electrical wires and Flame Retardant Low Smoke electrical wires, PVC insulated single core and multicore industrial flexible cables, PVC insulated winding wires and 3 core flat cables, power and control cables, polythene insulated jelly filled telephone cables, Auto & Battery cables, Co-axial and CATV cables, LAN Cables, Switchboard cables, Fibre Optic cables and others. The company has manufacturing facilities at Pimpri and Urse in Pune as well as at Goa. The company has, over the years, established its reputation as an innovative leader and quality manufacturer by continuously upgrading technology, modernizing manufacturing facilities and maintaining highest standards of quality and services. Today, the name Finolex has become synonymous with Quality and enjoys overwhelming confidence of the customers. Investors have also fancied its stock in view of its phenomenal progress leading to a manifold increase on investment in stock through the years. The company has received the ISO 9002 systems certification across all product lines and plants. Besides ISO 14001-quality certification has been accorded to its plants in Urse and Goa. Similar certification for its Pimpri operations is in process. Every cable is manufactured using bright annealed electrolytic grade copper manufactured in house and is insulated with virgin grade PVC (manufactured by group company Finolex Industries Limited) that is formulated in-house.

The company with an exports turnover of over 10 million USD services the cable requirements in Africa, Middle East, USA, Nepal, Sri Lanka and Singapore. Finolex Cables with market capitalization of USD 230 million is listed at Bombay Stock Exchange, National Stock Exchange and others as well as its GDRs are listed on the Luxembourg stock exchange.

J B & BROTHERS

MUKESH CHAUDHARI

Marketing & Business Executive

702, 703, 704 Prasad Chambers
Opera House, Mumbai – 400 004 INDIA
Phone : 91-22-40342222
website : www.jbbrothers.com

COMPANY PROFILE

J.B. & Brothers, established in 1983 is a leading diamond manufacturer and exporter from India. The firm has achieved unparallel growth which can be attributed to its commitment, vision and unmatched quality. Today, the group has spread its wings and operates in all major centers in the world. J.B. & Brothers has made its presence in Belgium, Canada, USA, South Africa and Hong Kong through its associate concerns.

The group has manufacturing locations based in (Surat & Ahmedabad) India, in Belgium as well as in South Africa comprising of a strong force of 1350 employees. Equipped with state of the art technology, these units are in position to continuously perk up quality and supply of polished diamonds and at the same time ensure evenness of its supplies. In a relentless pursuit to further improve the quality and supply of its polished diamonds. The group has finalized its plan for construction of a huge factory in Surat under the name J.B. House. On the completion of the said factory, the group will have an incredible 1,75,000 sq.ft of working space which would house

more than 2000 employees & facilitate to bring its entire manufacturing process under one roof together with the latest & ultra modern technology.

Utterly conscious of 4Cs in diamond industry, the group has a built up strength of highly skilled and dedicated artisans. The complete team of artisans works persistently to deliver flawless quality and ensure watertight specifications. The entire manufacturing process from rough to polish stage is carved out in such a way that at every step, each diamond is subjected to stringent quality checks by a group of experts to eliminate errors. The efforts of continuous development and stringent quality control have resulted in optimum customer satisfaction.

AT J.B & Brothers, product categories range from 0.30 to 10 carats, D to N color, in round and all fancy shapes and IF to I3 clarity. Our craftsmanship is eminently reflected in 0.50 carats to 3 carats. Redefining the 4 C's of diamond trading to Confidence, Consistency, Creation and Commitment has made "J.B & Brothers" the leading name in NATURAL, NON CONFLICT diamond manufacturing and trading. We offer our customers an unlimited selection of polished diamonds along with an innovative open minded approach to the diamond business.

Our Jewellery section was started under the name of "Yael Jewellery" at the end of Year 2004. Yael means "God Strength".

Improving on its previous performance, the group has been awarded 1st Rank for outstanding export performance in Non DTC category of cut and polished diamond in 2003-2004. We have also been accredited with most coveted ISO 9002 certification in 2001.

COMPANY PROFILE

Radico, Export Import was established in 1992, with a mission to promote complete body decoration in the international market. Only few companies mark their progress the way Radico did in a short span of 8 years. Radico's growth chart is going upward year after year. The outstanding success has been achieved by following company's only vision to maintain consistent quality of its exquisite and premium items. Our receiving of the prestigious The Arch of Europe Gold Star Award is testimony to this fact.

Radico's range of exclusive jewelry is versatile to suit different tastes women have. We present an exotic range of fashion jewelry for each class of the women. In our endeavor to expand the horizon of Indian women's ornamentation beyond the geographical boundaries, we have developed, experimented and innovated the age-old traditional jewelry items, which are in sync with the modern fashions, styles and trends. Our range of fashion jewelry includes beaded jewelry in wood, metal, glass and bone; metal jewelry and an entire array of bangles.

Established in year 1992, we are mfrs and exporters of **BEAUTY & BODY DECORATION** products with our works and national head quarter in India and distribution warehouse in California, USA. The company is expanding very fast in international market.

The company is ISO- 9001-2000 certified company, it supplies its products only in international market. The testimony of its quality work and timely delivery has been that it received "Arch of Europe Award for Quality" for year 2000-2001 and "Award for Best Performance" for year 2001-2002. And Niryat Shiromani award (Export award) fro year 2002-2003. We hope to continue adding more accolades to our company in future. Complete details about our company and products can be obtained at www.radico.com

E-mail : alok@jiwan.com

COMPANY PROFILE

The Jiwanram Sheoduttrai Group (JS) started its business operations way back in the year 1900. Hundred years have passed since then and the Group has grown from strength to strength.

The Group is dynamically active in the area of industrial marketing. With the concept of total service, the JS Group offers technology, plant equipments, raw materials, consumables and marketing assistance for the end products in the fields of iron & steel, aluminum, packaging – printing & converting, optical fibre cables, power and a host of other commodities. As further service to the relevant industries, the Group has forayed into manufacturing in association with some of its long established business partners and global players in the field of air pollution control, pneumatic conveying, furnaces, etc.

Traditionally the JS Group is in physical trading of carbon products, leather chemicals, polymers, water treatment and specialty chemicals with established brand leaders. The Group continuously explores these sectors for multiple-choice products as a part of horizontal and vertical expansion and better customer servicing.

Manufacture and export of work, safety & casual-wear are the Group's other main line of activity. In this field the Group is a leading name today. Manufacture of industrial gloves and garments is labour intensive and requires a very high level of skill. All JS products are end-results of skill, quality and consistency. Many of JS products have won the CE Cat II approval. Both with forward and backward integration the Group has total control from rawhide / yarn selection to final production to meet the end-users' needs.

Today the JS Group conducts business and has a network of offices, representatives, partners and associates in 40 countries across the globe.

Website : www.superhousegroup.com

COMPANY PROFILE

From a single tannery in the 80's producing finished leather, Superhouse Group has emerged as one of the biggest players in the industry. It started with a commitment to excel, achieve and deliver the very best. Here, we engineer, optimize and control every phase of manufacturing process from raw material to finished products to ensure that end products are of highest quality and also best value for money.

A US \$50 million group, Superhouse Group has 15 units, with workforce of over 3000 and has its presence in over 35 countries. Our commitment to quality is approved by ISO 9002 certification. Stringent norms of EN 345 make us one of the most respected manufacturers amongst the

importers from European countries. Being equipped with requisite infrastructure and strict adherence to high standard of quality, we are able meet CSA, ANZ & SABS standard.

A perfect blend of highly technical, skilled & semi-skilled work force and competent executives has helped us in carving an enviable position for ourselves in the global market.

Three state-of-art units involved in manufacturing of footwear are ably backed by our marketing offices strategically located in USA, UK, UAE & Australia.

To add on, we are approved vendors to world-wide brands such as Wal-mart, Filanto, Auchan, Andre, Shoe Fayre, Hudson Bay, Heckel Securite, Secura and many more.

Our existence in the trade for over three decades has given us a wealth of knowledge, which allows us to offer our customers the maximum in choice, value & quality.

It's our in-house tanneries sole division provide us with finest quality leather Soles for our foot wears. To meet the exacting demand of clients we also import leather from Brazil, Italy and Columbia.
