CACI USSOCOM IT EOM REQUIREMENTS

Database Administrator Tier 3	OCP MySQL 5.6 DBA or MCSE: Data Platform and DOD 8570 IAT 2 compliant (Sec+ or equivalent and enrolled in CE)	At least two years' experience in Tier 3 database administration. Database modeling and implementation. User interface development and user experience. Ability to produce visualization of data for leadership decision-making. Knowledge of a least one object-oriented programming language such as Java, C++ or .NET. Microsoft Office application skills; Microsoft Access knowledge is preferred. Microsoft SharePoint database integration experience is desired.
Deployed Systems Support Engineer	MCSA and CCNA and DOD 8570 IAT 2 compliant (Sec+ or equivalent and enrolled in CE)	At least eight years of previous Deployed Systems Support Engineer experience or equivalent.
DODAF/SIE Integration Architect	Relevant DoDAF Certification	At least three years of previous experience working with DODAF architectures.

CACI USSOCOM IT EOM REQUIREMENTS

Help Desk	DOD 8570 IAT 2 compliant (Sec+ or equivalent and enrolled in CE)	A minimum of five years of experience, of which at least three years must be specialized. General experience includes background in information systems development, network operations, application performance in a client/server environment, or related fields. Specialized experience includes the management of help desks in a multi-user environment, a comprehensive understanding of PC operating systems, a working knowledge of network and electronic mail operations, and prior supervision of help desk employees. The Help Desk Mid must have a demonstrated ability to communicate well both orally and in writing and have a positive customer service attitude.

CACI USSOCOM IT EOM REQUIREMENTS

Help Desk Sr.	DOD 8570 IAT 2 compliant (Sec+ or equivalent and enrolled in CE)	Requires a minimum of seven years of experience, of which at least five years must be specialized. General experience includes background in information systems development, network operations, application performance in a client/server environment, or related fields. Specialized experience includes the management of help desks in a multi-user environment, a comprehensive understanding of PC operating systems, an in-depth knowledge of network and electronic mail operations, and prior supervision of help desk employees. The Help Desk Sr. must have a demonstrated ability to communicate exceptionally well both orally and in writing, as well as have a positive customer service attitude.
Host Based Security System (HBSS) Administrator	Intel Security Certified Product Specialist—ePO, HIPs, DLPe, ACAS certifications and training and DOD 8570 IAT 2 compliant (Sec+ or equivalent and enrolled in CE)	At least four years of related technical experience.
Host Based Security Systems (HBSS) Engineer	Intel Security Certified Product Specialist—ePO, HIPs, DLPe and DOD 8570 IAT 2 compliant (Sec+ or equivalent and enrolled in CE)	At least eight years of related HBSS technical experience.

CACI USSOCOM IT EOM REQUIREMENTS

Incident Manager	ITIL Intermediate Release, Control, and Validation	Two years of experience in IT Operations support. Four years of hands-on experience in support to two or more of the following technical areas: Windows Servers Systems, Unix Systems, Networking, Storage, Citrix, server virtualization, Voice over Internet Protocol (VOIP), Database Administration (DBA), application software support, network and application monitoring.
Information Technology Manager	A Bachelor's Degree from an accredited college or university in an IT-related field. Candidates may not substitute experience for education for this position. PMI PMP	At least five years of experience with the specific types of business systems, hardware and networking services utilized by the Government is required. Demonstrated leadership also is required.
Instructor/Trainer	Master Trainer Certification	Five years intensive or progressive experience in the individual's field of study or specialization and a minimum of three years of experience in the development and delivery of training and instruction are required.
JR Computer Network Defense Analyst	8570.01-M CNDSP Analyst, or CNDSP Incident Responder, or CNDSP Auditor and DOD 8570 IAT 2 compliant (Sec+ or equivalent and enrolled in CE)	Four years of intensive and progressive experience in the candidate's field of study and specialization. Must have experience with SIEM, log analysis, vulnerability analysis, and some scripting experience.
