Health and Safety at Work etc. Act 1974 the
management of Health and Safety
at Work Regulations 1999.

We commit to operating the Association in accordance with the Health and Safety at Work Act 1974 and all applicable Regulations and Legislation made under the Act 'So far as is reasonably practicable'.

Our policy is to provide and maintain safe and healthy working conditions, equipment and systems of work for all our employees, volunteers and the general public, and to provide such information, training and supervision as they need for this purpose. We also accept our responsibility for the health and safety of other people who may be affected by our activities.

The Association encourages family participation and therefore acknowledges the increased risks to young and/or inexperienced volunteers.

The Board of Trustees acknowledge that Health and Safety responsibilities within the Association are of equal importance as other priorities.

Although the Board of Trustees accept responsibility for the implementation of this policy, it relies on individual employees/volunteers to accept their own duty and responsibility to themselves, fellow workers and others who might be injured/affected by their acts or omissions.

The allocation of duties for safety matters and the particular arrangements that we will make to implement the policy are set out below.

The policy will be kept up to date, particularly if the Association's activities change in nature and size. To ensure this, the policy and the way in which it has operated will be monitored and reviewed every year or more frequently if required.
