## Attendance

### Board Policy 204 Attendance

The Board requires that school age students enrolled in district schools attend school regularly, in accordance with state laws. The educational program offered by the district is predicated upon the presence of the student and requires continuity of instruction and classroom participation in order for students to achieve academic standards and consistent educational progress.

Please reference the website [www.cdschools.org](http://www.cdschools.org) for the complete attendance policy or contact a school or the district office for a paper copy.

### Absences: Excused and Unlawful/Unexcused

Parents are encouraged to call the school office when their child will be absent from school but you must still send a written note as well.

**Excused** absence includes the absence of a pupil for any one of the following reasons: illness, quarantine, death in immediate family or a prior approved educational trip.

**Unlawful/Unexcused** (unlawful are for 16 years or younger based on compulsory school age per School Code and unexcused are for 17 years or older) absence is the absence of a pupil for any reason other than those classified above or failure to turn in a written excuse in a timely manner (see Required Notes below). Students will not receive credit for any school work assigned on unlawful/unexcused absences, unless within 3 school days that student voluntarily attends a staff determined make-up session and completes and submits the assignment at the end of the make-up session for a class they missed. In addition to measure taken based on district attendance policy and the PA School Code, other punitive measures will result when unexcused/unlawful absences accumulate.

**An accumulation of 18 unlawful/unexcused absences may result in a loss of credit for the year.**

**Required Notes** - After each absence a student is given three (3) days to turn in a written excuse to the office upon their return. If note(s) are submitted after three days, the absence becomes unexcused or unlawful. Although a phone call is encouraged to the school for each absence, a written excuse within 3 school days is still required. A doctor's certificate shall be required for absence due to illness, for three (3) or more consecutive days, or for a shorter period if requested by the school.

After three (3) days of unexcused/unlawful absence, an official three (3) day notice as required by Pennsylvania law, is served to the parents/guardians. This constitutes a first offense. This first offense notice is considered a warning.

After the first offense, any half (.5) days or more constitutes an additional offense. If additional offenses occur, the parent/guardian is

subject to a fine or imprisonment in accordance with the compulsory attendance laws of Pennsylvania. An accumulation of unexcused/unlawful absences may also result in other disciplinary measures.

After a student has accumulated a number of absences that exceeds the ten (10) absences for the current school year, the district shall require the student to submit a doctor's note for each subsequent absence within three (3) school days, or that day will be recorded as unlawful/unexcused. Any absences from school (tardy or early dismissal) that are not accounted for by an appropriate note are accumulated as unlawful/unexcused attendance.

### Tardiness

Tardiness is the late arrival (signed-in) to school without proper cause on or before 10:30 AM for secondary or 11:45 AM for elementary. A pupil is tardy if not in the homeroom/classroom when the bell signal for the opening of school session is given. In case of tardiness, the pupil must report to the office before going to homeroom or class. Any early dismissal that is unexcused will be recorded as a p.m. tardy.

At both the secondary and elementary levels, unexcused tardy time is considered unlawful absence time from school. Therefore, accumulated tardy time may be pursued in Truancy Court under compulsory education violations.

**At the Elementary Level** – After the third (3rd) unexcused tardy, a "Building Principal's Letter" will be sent to the parents/guardians. After the fifth (5th) unexcused tardy, a "District Official Tardy Letter" will be sent to the parents/guardians and a parent/guardian meeting will be scheduled with the school counselor. After the eighth (8th) unexcused tardy, parent contact will be made through a tardy letter, a parent/guardian meeting will be scheduled with the school principal to discuss possible interventions to address the tardy situation, and a counselor-student meeting will be scheduled.

**At the Secondary Level** – After the fourth (4th) unexcused tardy, a detention is issued. After the fifth (5th) unexcused tardy, an information letter is sent to the parents/guardians. Continued unexcused tardies will result in further disciplinary action.

Accumulated/Habitual tardiness to school will result in disciplinary measures up to and including suspension and parent/guardian notification.

### Early Dismissal Requests

**At the Elementary Level** – Physician/dental appointments may be considered an excused absence. Written notice from parent/guardian is required to permit the early dismissal. A written excuse is required upon the return of the student. This excuse may be provided by the physician/dentist or the parent/guardian. If a student has been placed on doctor's notice, a parent note will not be accepted.

**At the Secondary Level** – Physician/dentist appointments, college placement and job interviews may be considered an excused absence provided a written parent/guardian request, prior to the

appointment, is approved by building principal or designee. The request should state the reason for the visit, the name of the physician, dentist, college representative or potential employer, date and time of the appointment and how and by whom the pupil will be transported. A written excuse is required upon the return of the student. This excuse may be provided by the physician/dentist or the parent/guardian, college representative or prospective employer. If a student has been placed on doctor's notice, a parent note will not be accepted.

Early dismissal for any other reason other than those listed above will be considered a tardy unless special arrangements are made and approved by the building principal.

### Observance of Religious Holidays

Pupils may be excused from school to observe major religious holidays. For the full or part-time excusal of a pupil from school or a session of school to observe a religious holiday, it is necessary that the pupil present a written request by the parent/guardian to the school office prior to the date of the absence.

### Educational Trips/Activities

**Policy** – Pupils will be permitted to take an educational trip and/or participate in educational activities, in accordance with district procedures. Parents must obtain and submit the proper district request form to the school office prior to the planned trip or activity.

Students must submit an educational trip form prior to "Take Your Child to Work Day" in order for the day to be excused. If students have already utilized their educational trip days then it will be an unexcused absence.

**TRIPS:** No educational trips will be approved the days PSSA tests are scheduled. Educational Trips must be educational in nature and the student must be supervised by one or more adult family members. Total number of days will not exceed more than five (5) days total for the year.

**ACTIVITIES:** No educational activities will be approved the days PSSA tests are scheduled. Three (3) excused absences (occasions) will be permitted for educational experiences that are through a district program or a district recognized educational program that provide enrichment, placement opportunities or acceleration in those areas identified within the school curriculum and/or encourage or reward individual achievement or special skills. The pupil must be an **active participant** in the event and provide documentation of his/her involvement upon returning to school. Parents must submit the appropriate documentation before the trip and receive approval from the principal prior to attending the educational activity.

**REQUEST:** Request for Educational Trips or Activities forms must be submitted prior to the trip. A total number of days missed cannot exceed 5 days total, separately or in combination for both Educational Trips or Educational Activities in any one school year.

## Leaving School Property

No pupil will be permitted to leave the school property during the school day without the permission of either the school principal or the school nurse. Leaving school property without permission may result in severe disciplinary measures.

## Public Announcements

Public announcements of school closings, delayed school openings or early school dismissals will be made over the following stations. **Television:** WHP 21, UPN 15. **AM Radio:** WHP 580. **FM Radio:** WRBT 94.9, WHKF 99.3, WRVW 97.3. Announcements also will be made using the Blackboard Notification System, posted on the district website ([www.cdschools.org](http://www.cdschools.org)) or by calling the *Patriot-News Inside Line* at 255-1201, mail box #2901.

## School Closing

Should there be an occasion when weather or some other emergency necessitates a school closing, the Blackboard Notification System will be activated and the guidelines below will be followed:

1. Notice of a school closing will be announced over local radio and television stations (see “Public Announcements” section) and posted on the district’s website.
2. It is important in an emergency situation to keep telephone lines open.

Please do not call the school office, homes of school officials or the Transportation Center.

## Delayed School Opening

On occasion when weather or some other emergency necessitates a delayed opening of school, the following procedures will be used:

1. Notice of a delayed school opening will be announced over local radio and television stations, posted on the district website at [www.cdschools.org](http://www.cdschools.org) and relayed via the district-wide parent notification system. Please do not call the school office or the Transportation Department.
2. The announcement that “the opening of the Central Dauphin School District” will be delayed by two (2) hours, indicates that the school staff and all pupils (both transported and walkers) are to arrive at school two (2) hours later than the usual start time. Afternoon dismissal will occur at the regular time.
3. In the event of a two (2)-hour delay, the following Modified Kindergarten Schedule will be in effect:  
AM Kindergarten – Arrive 10:45-11 a.m.  
Dismissed 12:45 p.m.  
PM Kindergarten – Arrive 1:45-2 p.m.  
Dismissed 3:45 p.m.

*No lunches will be served to kindergarten students. Please do not call the school office or the Transportation Center.*

## Early Dismissal from School

Should there be an occasion when weather or some other emergency necessitates an early dismissal from school, the Blackboard Notification System will be activated and the following guidelines will be followed:

1. Notice of an early dismissal from school will be announced over local radio and television stations (see “Public Announcements” section) and posted on the district’s website.
2. The announcement that “the Central Dauphin School District will have an early dismissal” indicates that your child’s dismissal will be earlier than normal, and that he/she could be arriving home early. The actual time of arrival may vary due to weather conditions.
3. “Bus riders” will be taken to their regular designated bus stops.
4. If parents or guardians are not at home at the time of an early dismissal, they are responsible to make provisions for the care of their children with friends or neighbors.
5. Latchkey programs do not operate in the event of an early dismissal.

## After-School Activity Cancellations

In the event of an early dismissal, or if schools are closed due to inclement weather, or any other emergency, it is the normal procedure to cancel all evening activities. There may occasionally be an exception to this rule, however, it is safe to assume that after-school activities will be cancelled.

# Registration

## General Registration

Parents or legal guardians may register a child. Registration is completed in the Administration Building, central registration office. Parents/legal guardians are required to furnish a birth certificate, immunization records, a copy of their real estate tax bill or lease as proof of residence and photo identification. Parents/legal guardians moving into the district after July 1 may substitute a copy of their rental lease or residential deed for the tax bill.

Transfers from other districts also should present a transfer card or report card from their former district at the time of registration, if one has been furnished.

Registration for first graders who have not attended kindergarten are encouraged to do so in the spring to facilitate assignments for the next school term.

Registration and enrollment can be made at any time in the Administration Building. Parents should call to schedule an appointment.

## Kindergarten Registration

Kindergarten classes are held in each elementary building for eligible children of the district. Enrollment is limited to the first ten (10) days of school.

Kindergarten pupils must be five (5) years old before September 1. Children entering first grade must be six (6) years old before September 1.

Registration will be conducted for kindergarten in March and April (see the February and March calendars for specific dates).

Advance notice will be given to parents via news release notices from the buildings and the district website. Assignment to a kindergarten session shall be based on geographical area depending upon the needs or peculiarities as determined by the school principal.

## Pupils Moving Within the District

Pupils whose parents move from one attendance area to another within the district will be permitted to finish the school year in which the move takes place in the building to which they were originally assigned. If in the following year the pupil would be in the highest grade in the building, he/she would be permitted to remain for that one additional year. Parents would be responsible for providing transportation.

## Withdrawal Procedure

**Elementary** – Pupils moving from Central Dauphin School District should inform their teacher and the school office at least three (3) days in advance. Test data, report cards and other information kept by the school system will be mailed to the pupil’s new school when a request for the release of these records (which includes the parent’s signature) is received from the school to which the pupil transferred.

**Secondary** – Any pupil who plans to withdraw from school shall discuss this matter with a School Counselor as soon as possible.

The last day a pupil plans to be in school, he or she shall report to the School Counselor to secure a withdrawal form. Pupils should then observe the following procedure:

1. Submit all books, money owed, equipment, etc., to each teacher concerned and secure teacher’s initials to signify that clearance has been completed. Money owed must be submitted to the sponsor of the organization involved.
2. Go to a School Counselor for a final interview.
3. Return completed form to the office secretary who will obtain principal’s signature indicating that permission is granted for the pupil to withdraw from school on the date indicated. Final obligations shall be transacted at this time.

# School Health Programs

## Introduction

Health services are provided by certified school nurses, health room aides, dentists and physicians. These services include:

- Health education/counseling
- Annual screenings
- Referral service
- Emergency care

The school health program consists of certain required screenings such as vision, hearing, growth and weight measurements of all students. The nurse maintains the student's permanent health record, recording the results of all screening and medical information. Interpretation of the results is made to both parent and teacher, as necessary. Other services, including emergency care of students and medical guidance for students and parents, are available during school hours.

## Medication Policy and Procedure

Parents may request that the school district administer medication to their children WHEN IT IS NECESSARY for the medication to be administered during the school day:

1. A written physician's order listing medical diagnosis must accompany each medication to be dispensed. NO MEDICATION IS ADMINISTERED BY SCHOOL PERSONNEL WITHOUT SPECIFIC WRITTEN INSTRUCTIONS FROM A PHYSICIAN.
2. Parent/guardian must sign a Parental Authorization Form requesting the administration of medication.
3. Medications must be delivered in pharmacy containers clearly labeled with the student's name, name of physician, date of prescription, name and telephone number of the pharmacy, name of medication, dosage and frequency of administration.

## Emergency Care and Illness

There is a health room in each school. The school nurse or the health room aide provides emergency care for illness and injuries occurring in school while the pupil is under jurisdiction of the school.

Treatment of injuries or illnesses occurring at home is not the responsibility of the teacher or school nurse.

**Please do not send a child to school if he/she is ill.** If he/she has had a fever, he/she should remain at home until his/her temperature has been normal for twenty-four (24) hours.

The school should always be notified of any change in home or work telephone numbers. If an emergency situation should arise, valuable time can be lost in trying to locate a parent. It is highly recommended that you have a family physician and list his/her telephone number as well.

Automated External Defibrillators are available in all elementary and secondary buildings, the Administration Building and the Transportation Center. School nurses and selected staff are trained in the administration of the defibrillators and in cardio pulmonary resuscitation (CPR) at each of these locations.

## Required Medical Examinations

A medical examination is required for all students upon original entry to school (kindergarten or first grade), sixth grade and eleventh grade. Parents are encouraged to have the physical done by their family physician because he/she is familiar with the student's medical history. Private physician report forms are provided at the appropriate times.

Pupils not examined by the family physician will be scheduled for an examination by the school physician. Times for these examinations will be scheduled in advance and parents are welcome to be present during the examination.

Physical problems discovered or suspected by the examining physician or a private physician are reported to the parents. Fees incurred for examinations by private physicians are the responsibility of the parent/guardian.

School physicians are provided for examination of candidates for athletic squads. According to school district policy, each student must have a physical examination by the school physician or a private physician for each sport in which he/she wishes to participate. The physical examination must be done before the student may attend practice. Fees incurred for examinations by private physicians are the responsibility of the athlete.

## Communicable Diseases

The policy for recommended length of absence for specific diseases and infectious conditions is as follows:

1. **Acute contagious conjunctivitis (pink eye):** Twenty-four (24) hours from institution of appropriate therapy.
2. **Chickenpox:** Six (6) days from the last crop of vesicles.
3. **COVID-19:** At least 3 days (72 hours) have passed since recovery, defined as resolution of fever without the use of fever-reducing medications, and improvement in respiratory symptoms (e.g., cough, shortness of breath); and, at least 10 days have passed since symptoms first appeared. There is also a 14 day quarantine period for anyone living with someone who tests positive or has a significant positive exposure.
4. **Impetigo:** Until judged noninfective by the nurse in school, or by child's physician.
5. **Measles:** Four (4) days from the onset of rash.
6. **Mumps:** Nine (9) days from the onset or until subsidence of swelling.
7. **Pediculosis capitis:** Until judged noninfective and nit free by the nurse in school, or by a child's physician.
8. **Pediculosis corpora:** Until judged noninfective by the nurse in school, or by child's physician.
9. **Respiratory streptococcal infections, including scarlet fever:** Not less than seven (7) days from the onset if no physician is in attendance or twenty-four (24) hours from institution of appropriate therapy.
10. **Ringworm (all types):** Until judged noninfective by the nurse in school, or child's physician.
11. **Rubella (German measles):** Four (4) days from the onset of rash.

12. **Scabies:** Until judged noninfective by the nurse in school, or by child's physician.
13. **Tonsillitis:** Twenty-four (24) hours from institution of appropriate therapy.

Written excuses by parents are acceptable following uncomplicated childhood illnesses. A doctor's excuse will be required in unusual cases.

Children showing symptoms of a communicable disease or condition transmissible to others (red eyes, unusual skin eruptions, head lice, etc.) are not permitted to attend school and will be excluded. No child shall be readmitted until the nurse in the school is satisfied that the condition for which he/she was excluded is not communicable or until the child presents a physician's certificate of recovery or noninfectiousness.

## AIDS

To safeguard the school community from the spread of certain communicable diseases, including Acquired Immune Deficiency Syndrome (AIDS), the school district has adopted procedures consistent with those recommended by the Department of Education and guidelines promulgated by the Centers for Disease Control. Cases reported/suspected as being HIV positive or having AIDS will be referred to the director of pupil services who shall refer to a medical advisor named by the superintendent.

Attendance at school shall be considered on an individual basis and in accordance with medical and legal practice and findings.

Instruction about the AIDS disease is a part of the district's health curriculum in grades 5, 6, 7 and 11. Parents of students in those grades will receive information about the program prior to the instruction.

## Annual Screening

Every pupil is weighed, measured and screened for visual acuity once each year. All students in kindergarten, grades 1, 2, 3, 7 and 11 are given a hearing test. Pupils in other grades who are known to have hearing loss or show evidence of hearing difficulty will be tested. Pupils who demonstrate vision or hearing problems are referred for further follow-up.

All sixth and seventh grade students are screened for scoliosis by the school nurse. A second screening of students identified by the school nurse is performed by the school physician. Parents are notified if the school physician detects a curvature of the spine.

Physical examinations are provided for students in kindergarten, and grades 6 and 11 by a school physician for students who do not have one performed by their family physician.

Parents of children who do not meet or exceed the Department of Health guidelines for the Basal Metabolic Index (BMI) will receive notification from the school nurse.

## Parent-Nurse Conference

Parents are urged to report any health problem to the school nurse. Every consideration will be given to the health needs of each child. Certain information may be shared with other staff members when the school nurse deems it necessary for the health and safety of the pupil. Otherwise, information shared with the school nurse will be considered confidential.

## Counseling and Health Teaching

The school nurse provides counseling for pupils on matters of health. The school nurse also serves as a health resource person in the classroom.

## Dental Health Program

Dental examinations are state mandated for students upon original entry to school, in third grade and seventh grade. Dental records are maintained on students every year they are in attendance in the public school system. The dental health program is coordinated by the office of pupil services and is directed by the school nurse in each building.

## Immunizations

Pennsylvania law requires that every child attending any school kindergarten through twelfth grade must be properly immunized. Please refer to the PA Department of Health Website: <http://www.health.pa.gov>. These requirements allow for medical reasons and religious beliefs. If your child is exempt from immunizations, he/she may be removed from school during an outbreak.

# Student Services

## Protected Handicapped Services (Section 504 Compliance)

In compliance with state and federal law, the Central Dauphin School District provides to each protected handi-capped student without discrimination or cost to the student or family, those related aids, services or accommodations which are needed to provide equal opportunity to participate in and obtain the benefits of the school program and extracurricular activities to the maximum extent appropriate to the student's abilities. In order to qualify as a protected handicapped student, the child must be of school age with a physical or mental disability that substantially limits or prohibits participation in or access to an aspect of the school program.

These services and protections for "protected handicapped students" are distinct from those applicable to all eligible or exceptional students enrolled (or seeking enrollment) in special education programs protected by Individualities with Disabilities Education Act. Students eligible as protected handicapped students require accommodations or interventions only. IDEA-eligible students require specially designed instruction.

## Bullying/Cyberbullying Policy

The Central Dauphin School District recognizes that bullying has a negative effect on the educational environment and overall climate of its schools. The district administration is committed to providing staff development opportunities to all professional and support staff enabling them to recognize acts of bullying and the proper procedure to report an incident. The school district strives to offer to all students an enriched educational experience free from bullying or acts of harassment. The Bullying/Cyberbullying Policy (249) may be found on the district web site.

## Directory Information

Directory information includes a pupil's name, address, telephone number, date and place of birth, major field of study, participation in officially recognized activities and sports, weights and heights of the members of athletic teams, dates of attendance, degrees and awards received, the most recent or previous educational agency or institution attended by the pupil and other similar information.

Directory information **may** be made available to authorized representatives of governmental agencies, health and safety officials, and other school officials responsible for obtaining such information in the performance of their duty. The purpose of providing directory information is to help the pupil or protect others. Requests for such information by the general public may be granted if, in the opinion of the school official in charge of maintaining records, there is a clear indication that the information requested is to be used to serve the general welfare of the pupil. Under no circumstances will directory information of this type be released or made available for the purpose of creating lists for any other purpose than those deemed necessary for the operation of school business. Two federal laws require local educational agencies receiving assistance under the *Elementary and Secondary Education Act of 1965* (ESEA) to provide military recruiters, upon request, with three directory information categories – names, addresses and telephone listings – unless parents have advised the school district that they do not want their student's information disclosed without their prior written consent. Parents not desiring directory information of this type released to the public, should submit their request in writing to the building principal at the beginning of each school year, but no later than September 15.

Under the conditions and intent listed above, directory information concerning former pupils may be released by the school official or his/her designee in charge of the security of records.

## Pupil Records

Pupil records are an inherent part of one's education. Reasons for collecting information vary from pupil identification and accounting purposes required by state laws for reimbursement and tax purposes, to providing parents, pupils and professionals appropriate data in which to monitor and/or, when necessary, define more clearly causes for individual problems.

Therefore, the pupil's record may include, but is not limited to, personally identifiable information (such as name, address, phone numbers of parents), pupil's school grades, date of birth, attendance record, test results and evaluation reports, progress reports, health and dental records. All information is collected and maintained under such confinements of privacy as may be obtained through informed consent, verification of accuracy, limited access and appropriate use.

Should your child transfer to another school district, his/ her permanent record, cumulative folder information, testing record and health record will be forwarded to the new school district upon receipt of written notification of admission. Upon written authorization from the parent or eligible pupil, a high school transcript will be released to persons having a legitimate educational interest, such as postsecondary educational institutions and/or prospective employers.

Should you have concern or reason to believe some portion of the record is in error, or handled in a way that may violate the pupil's privacy, you should discuss the matter with the building principal. If the matter is not resolved, a request in writing stating intent and

reason for contesting the record should be directed to the director of pupil services. A decision will be made and you will be notified of your rights should you desire to appeal further.

Once a student graduates the cumulative record will be purged. Records maintained for 99 years will be demographic information, standardized test scores, transcript, final report card and special education records. A parent may submit a written request to the building principal to collect additional records to be purged from the file.

A copy of the District Records Policy and Procedures is on file in the school principal's office.

## Transfer of Disciplinary Records

The *Family Educational Rights and Privacy Act* (FERPA) provides specifically that Central Dauphin School District as an educational agency may disclose education records, without parent consent, to a school in which the student intends to enroll, subject to conditions in FERPA. FERPA allows disclosure of appropriate information regarding specified disciplinary actions to teachers and school officials, including those in other schools, who have legitimate educational interests in the behavior of the student.

Central Dauphin School District has procedures in place to facilitate the transfer of disciplinary records, with respect to a suspension or expulsion, by Central Dauphin School District, to any private or public elementary school or secondary school for any student who is enrolled or seeks, intends or is instructed to enroll, on a full or part-time basis in the school.

## Employment Certificates (Working Papers)

General/vacation employment certificates may be obtained from the school office. Parents must apply in person for Promise of Employment papers. No employment certificates may be issued until the pupil has furnished legal proof of age.

General/vacation employment certificates will be secured from the administration office only in unusual circumstances.

Any minor of the age of seventeen (17) who is a high school graduate need not apply for an employment certificate upon furnishing proof of graduation to his/her employer.

## Guidance and Counseling

**Elementary** – Counselors assist pupils, teachers, other related support staff and parents by helping to identify and provide appropriate programs designed to meet individual pupil needs. This is accomplished through developmental programs, assessment, intervention, consultation and coordination of services.

Counselors work with parents and teachers to help children acquire behavior patterns and social/personal skills necessary for developing to his/her potential. The counselor's efforts are directed toward helping pupils be successful in school by developing decision-making skills and assisting the pupils in dealing with everyday problems that are part of human growth and development.

**Secondary** – Guidance and counseling services are an integral part of the school program. The goal of guidance and counseling is to provide support services that afford each pupil the opportunity to achieve maximum growth and development in obtaining self-realization, social/personal skills, economic efficiency,

academic excellence and civic responsibility. Counselors assist pupils in identifying and implementing educational and vocational decision making. Information services, scheduling and placement, individual and group evaluations, orientation programs, pupil/parent consultation, and group guidance activities are available at appropriate times throughout the school year. Middle and high pupils are assigned to counselors by grade level and/or alphabetically.

Services include:

- Individual counseling
- Group counseling

## Home Schooling

Central Dauphin School District authorizes a Home Education Program after the district superintendent or his/her designee receives appropriate documentation and assurance that a Home Education Program will occur/is occurring in accordance with the Public School Code 1949, 24 P.S. Section 13-1327.1 (Act 169 of 1988).

## Homebound Instruction

In the event your child needs to be out of school because of illness or physical incapacitation for an extended period [twenty (20) consecutive school days], arrangements can be made for homebound instruction at no expense to the parents. Instructors will be provided for only those subjects required for graduation and/or promotion. Homebound instruction is only provided on the favorable recommendation of the attending physician. Students requesting homebound instruction for more than four (4) consecutive weeks are required to submit an additional request from the attending physician. The maximum hours of homebound instruction are three (3)-five (5) hours/week.

## Home and School Visitors

Home and school visitors are employed by the Central Dauphin School District to work with pupils, parents and agency personnel in areas of attendance, employment, homebound instruction and residency requirements.

Home and school visitors are responsible for verifying residency regulations, notifying and addressing poor attendance patterns that disrupt a child's educational progress. This will include notification of unlawful unexcused absence to the District Justice.

## Homeless Students & McKinney-Vento Act

The McKinney-Vento Homeless Education Assistance Act guarantees a free and appropriate public education for all homeless children and youth. "Homeless" is defined as anyone lacking a fixed, adequate, regular nighttime residence. The law makes sure that these students receive a free and suitable public education by removing barriers to school enrollment and daily participation in school activities. If you are experiencing homelessness or feel you qualify as homeless based on the definition listed above, please contact the Central Dauphin School District homeless liaison for more information and to discuss your situation to determine if you qualify for additional support/services. The Central Dauphin School District homeless Liaison can be reached at 717-545-4703, x70509.

## Instructional Support Team

The purpose of the Instructional Support Team is to provide each student with the opportunity for a successful school experience. The IST utilizes the Response To Intervention (RTI) model of service delivery. This process is being implemented throughout the elementary schools in the district.

Through progress monitoring data, the team is constantly checking to ensure that students are reaching benchmark levels of performance in reading and math. When students do not make benchmark, the IST works to provide additional levels of intervention services to meet the student's need. The IST utilizes research-based interventions to meet the needs of the student. An increase in the frequency or intensity level of intervention may occur if a child does not make expected progress. Once a student meets their expected progress goal, they are dismissed from the IST process.

The team also receives requests for assistance for academic, emotional and/or behavioral concerns. This request can be made by parents, classroom or itinerant teachers, the counselor, the principal, or the nurse. Parents may also request a special education evaluation at any time.

## Student Assistance Program

The Student Assistance Program is a statewide initiative operating in all secondary schools and is administered by the Department of Education in collaboration with the departments of Health and Public Welfare. Student assistance is designed to help educators identify students who show signs of experiencing mental health or drug and/or alcohol problems which interfere with the student's learning and school success. Through a systematic process, students are identified, interviewed, and, if appropriate, referred for an informal assessment by an outside agency.

It is the parent's right to be involved in the student assistance process. Involvement of parents in all phases of the Student Assistance Program emphasizes the parent's role and responsibility in the decision-making process affecting their student's education and a successful resolution of problems.

The program is an identification and referral process, not a treatment program. The core of the program is the Student Assistance Team comprised of school and agency personnel specially trained to work with at-risk students. Student assistance team members are trained to identify problems, determine whether or not the presenting problem lies within the responsibility of the school, and make recommendations to assist the student and the parent. There are presently teams operating in both high schools and all four middle schools.

## Standardized Testing Program

1. The Central Dauphin School District shall provide a testing program that meets both student and district needs, in accordance with the following design:

### Pennsylvania State System of Assessment (PSSA)

Pennsylvania school districts are required to administer the PSSA in grades 3 through 8 (English Language Arts and Math) and grades 4 and 8 (Science).

### Pennsylvania Alternate System of Assessment (PASA)

The PASA, or Pennsylvania Alternate System of Assessment,

measures the attainment of knowledge and skills of children with significant cognitive disabilities. Like the state-wide standardized test (the Pennsylvania System of School Assessment or PSSA), the purpose of the PASA is to provide information to school districts and other educational service providers that will aid them in improving instruction. The PASA was developed in response to the 1997 amendments to the Individuals with Disabilities Education Act (IDEA '97). States are required by IDEA '97 to develop alternate assessment systems for students who cannot participate in the regular state assessment, either with or without accommodations.

2. The results of these tests are considered part of the student's school record.
3. Additional tests may be given by designated school personnel to assist students and staff in making appropriate educational decisions.
4. Policy and procedures governing the collection, maintenance, dissemination and destruction of data is outlined in the Central Dauphin School District Student's Records Policy.
5. **No educational trips will be approved during the scheduled testing days.**

## Wellness Policy

The Central Dauphin School District recognizes that student wellness and proper nutrition are related to students' physical well-being, growth development, and readiness to learn. The Board is committed to providing a school environment that promotes student wellness, proper nutrition, nutrition education, and regular physical activity as part of the total learning experience. In a healthy school environment, students will learn about and participate in positive dietary and lifestyle practices that can improve student achievement.

# Special Education Services

## Introduction

Central Dauphin School District provides a variety of programs to students who meet the criteria to be identified as eligible and in need of special education and related services. Eligibility is determined through an evaluation conducted by a Multidisciplinary Evaluation Team. This team prepares an Evaluation Report (ER) which is based on a student's strengths and needs as shown by educational performance levels, rate of acquisition and retention, interpretation of assessment results, classroom observations and information from parents and teachers.

If the Multidisciplinary Evaluation Team recommends the student is in need of special education services, an Individual Education Program (IEP) team is developed. The IEP is a written plan

that describes the student's present levels of functioning, goals and objectives, specially designed instruction and resources necessary for the student to experience success within the education environment.

Once the IEP is developed, specific educational programs are available in the district to meet the unique need of students.

Central Dauphin School District provides the following supports for students:

- Supplemental/Full Time Learning Support
- Life Skills Support
- Emotional Support
- Deaf or Hearing-Impaired Support
- Blind or Visually Impaired Support

### Psychological Services

The decision to refer for a psychological or psychoeducational evaluation is usually made when considerable evidence exists that the pupil has an emotional or academic exceptionality.

Initial referrals for psychological testing require written and informed parental consent. Findings are shared with parents and appropriate staff members. Individual reports called Evaluation Reports are retained at the Administration Building, office of special education services and in the pupil's cumulative folder.

Evaluations administered are:

The behavior specialists are available to assist staff with the functional behavioral assessment process, the development and implementation of targeted interventions, and school-wide utilization of effective behavioral management strategies.

### Occupational/Physical Therapy Services

Occupational/physical therapists are professionals who may provide services to children receiving special education. In some instances, children in regular education may also require occupational/physical therapy assistance if they are in some way health impaired. This service will be provided as a 504 Service Plan when children qualify for this service. Services provided by the school therapist are:

- Evaluation
- Consultation
- Direct treatment
- Training
- Integrated therapeutic programming

### Social Work Services

The primary role of the school social worker is to assist eligible students in resolving personal, social and/or emotional problems that interfere with their adjustment to school and their capacity to enjoy and experience the fullest benefits of the educational process. The school social worker's role and function encompass a range of duties and responsibilities to the overall education, health and welfare of exceptional students.

Services may be provided to parents or guardians of eligible students to increase their knowledge and utilization of community resources. The school social worker can facilitate the referral of exceptional students to outside agencies, i.e., Children and Youth, MH/ID, Juvenile Probation, residential treatment facilities, etc. The responsibility of tracking all students who are hospitalized or residentially placed for mental health and/or drug and alcohol issues, students placed into foster care, and court-ordered placements is also part of the school social worker's role.

Collections include Reference materials, fiction and non-fiction books, magazines, newspapers, as well as up-to-date internet resources. Books may be checked out at any time and are expected to be returned by the date due.

Daily, secondary libraries are busy places as teachers and librarians actively engage students in their learning. Projects that coincide with classroom instruction are completed in a variety of ways. Students are permitted to use the library during class periods as long as they follow proper procedure by obtaining a pass from their respective classroom teacher or by accompanying their entire class.

Elementary libraries are also staffed by a certified librarian who actively engages the students during their weekly instruction in library activities and procedures. Our elementary libraries offer an age appropriate collection of fiction and non-fiction books. These books may be selected on a weekly basis when the students come for library instruction.

## Payment for Industrial Technology Material

# General Information

## A Message to Parents

Education comes only from personal effort. The school can provide opportunity and assistance. The school cannot do its best work without the cooperation of the home. Parental cooperation involves:

1. Checking on the pupil's home study, providing a quiet place for it, and seeing that it is done well.
2. Giving attention to report cards. Report cards are distributed every nine (9) weeks.
3. Visiting the school.
4. Seeing that social functions do not interfere with the pupil's studies and rest.

## Accident Insurance

There is no reduction of premium for coverage during part of the year. While it is recommended that all pupils be protected by this accident coverage, it is a school requirement that a pupil must have purchased this protection, be covered by equivalent insurance, or sign a waiver before he/she may participate in any extracurricular activity.

The Central Dauphin School District Board has approved the following policy regarding school insurance and participation in extracurricular activities.

"All pupils, in order to participate in any of the extracurricular activities of the school program, must be covered by pupil insurance or parents must certify to equivalent coverage under private insurance policies, or sign a waiver." A form will be provided upon request to certify this coverage.

Coverage includes the regular school sessions, going to and from school and all school-sponsored and school-supervised activities except interscholastic football on the high school level.

The Central Dauphin School District will not be responsible for medical or dental expenses incurred by pupils participating in extracurricular activities, including athletics, that are in excess of the coverage provided by the required school insurance.

In the event of an accident, the pupil is responsible to notify the teacher in charge, so that an accident form may be completed and submitted to the school nurse. Failure to do so may result in loss of benefits.

## Appearance and Dress

1. Standards for personal grooming and dress shall respect the following requirements:
  - a. Accessories or items of apparel which distract from the educational program shall not be worn.
  - b. Clothing and hair shall never be worn in a fashion that presents a hazard to the safety of any pupil or groups of pupils.
2. It shall be the responsibility of the building principal to exercise fair and consistent judgment in determining when violations of Items 1 (a) and (b) have occurred.

## Admission to the Elementary School Building

Children are admitted to the school building fifteen (15) minutes prior to the beginning of classes. Parents are asked to cooperate in having their children arrive during this fifteen (15)-minute period. Pupils transported by school bus will be admitted to the building upon arrival. Kindergarten children who ride in private cars should be picked up promptly at dismissal time.

## Asbestos Hazard Emergency Response Act (AHERA) Notification

In the past, asbestos was used extensively in building materials because of its insulating, sound absorbing, and fire retarding capabilities. Virtually any building constructed before the late 1970s contained some asbestos. Intact and undisturbed asbestos materials generally do not pose a health risk. Asbestos materials, however, can become hazardous when, due to damage or deterioration over time, they release fibers. If the fibers are inhaled, they can lead to health problems, such as cancer and asbestosis.

In 1986, Congress passed the Asbestos Hazard Emergency Response Act (AHERA) which requires schools to be inspected to identify any asbestos containing building materials. Suspected asbestos-containing building materials were located, sampled (or assumed) and rated according to condition and potential hazard. Every three years, the Central Dauphin School District (CDS) conducts a reinspection by a Pennsylvania Department of Labor and Industry licensed asbestos inspector to determine whether the condition of the known or assumed asbestos containing building materials (ACBM) has changed and to make recommendations on managing or removing the ACBM. The last full inspection was done July 2020. Periodic surveillance of all asbestos containing materials occurs every six months.

The law further requires an asbestos management plan to be in place by July 1989. CDS developed a plan, as required, which has been continually updated. The plan has several ongoing requirements: publish a notification on management plan availability and the status of asbestos activities; educate and train its employees about asbestos and how to deal with it; notify short-term or temporary workers on the locations of the asbestos containing building materials; post warning labels in routine maintenance areas where asbestos was previously identified or assumed; follow set plans and procedures designed to minimize the disturbance of asbestos containing building materials; and survey the condition of these materials every six months to assure that they remain in good condition.

It is the intention of CDS to comply with all federal and state regulations controlling asbestos and to take whatever steps are necessary to ensure students and employees a healthy and safe environment in which to learn and work. A copy of the asbestos management plan can be reviewed in school district administrative office (600 Rutherford Road, Harrisburg, Pennsylvania 17109) or administrative office of the school during regular business hours. For all inquiries regarding the asbestos plan and asbestos-related issues contact The Director of Buildings and Grounds (Asbestos Program Coordinator) at (717) 545-4703.
