INTRODUCTION TO CAMPAIGNS

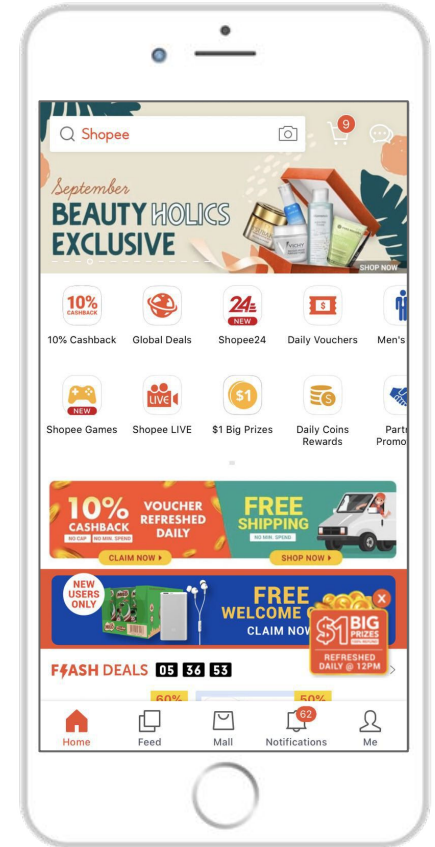

What are “Campaigns”?

“**Campaigns**” is a powerful tool in Seller Centre, designed to help you get more orders.

- Shopee Campaigns are featured in highly visible banners on homepage or category pages
- There are 2 ways that you can join Campaigns:
 1. Nominate your products relevant to the Campaign, or
 2. Approve your products recommended by Shopee for a Campaign

Participating in Campaigns will help you to:

- Be more visible and accessible to shoppers
- Attract more clicks
- Increase sales

Which Campaigns should I join?

Join Campaigns relevant to your product category.

Shopee creates various campaigns periodically. You can check Seller Centre for upcoming campaigns relevant to your product category.

For example:

- If you have great offers for beauty products, you can join a Beauty campaign
- If your shop specialises in Electronics, you can join a Home & Lifestyle campaign

Nominate your best products and offers.

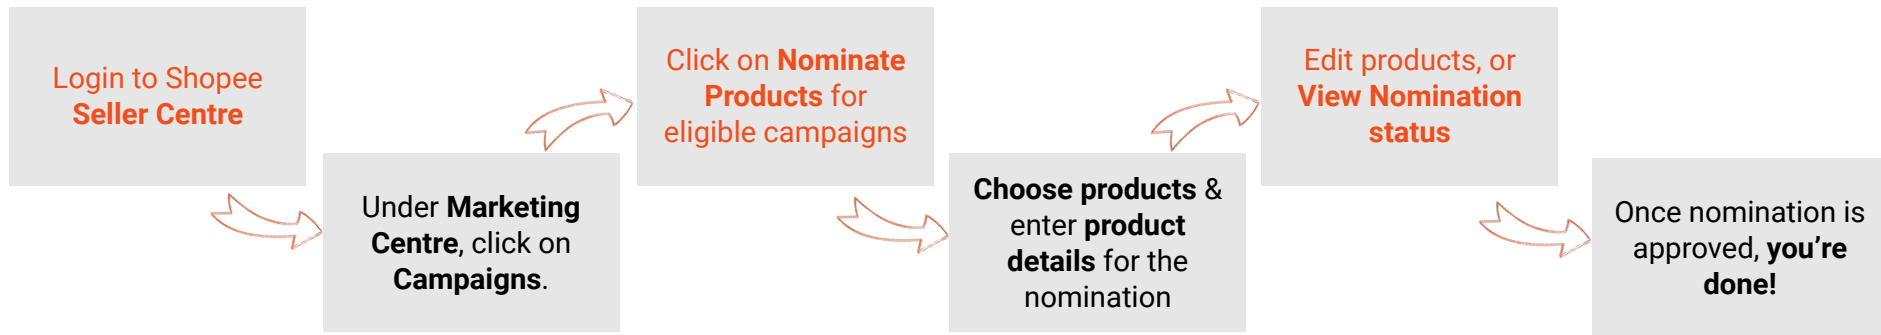

- Nominate products that meet Campaign criteria such as discount range and stock to increase your chances of being selected.
- Approve products recommended by Shopee for easy nomination.

STEP-BY-STEP GUIDE : **Seller Nomination**

FREQUENTLY ASKED QUESTIONS

FAQ: Participating in Campaigns

Q: There is a campaign I want to join. Why can't I nominate products?

A: Campaigns will be unavailable for your nomination if:

- the nomination period is over (please check if there are sessions available for nomination)
- you have ≥ 3 seller penalty points
- your shop is ineligible as it does not meet certain criteria set by Shopee for the particular campaign. Other possible shop criteria include:
 - shop type
 - seller type
 - average preparing time
 - shop rating
 - pre-order %

Q: Why can't I participate in any campaigns at all?

A: Sellers with ≥ 3 seller penalty points will be unable to participate in any campaigns. To check your seller penalty points, please go to Seller Centre > My Shop > Seller Penalty Points System.

FAQ: Participating in Campaigns

Q: What happens to my nominated items if I get ≥ 3 seller penalty points after nomination?

A: If seller obtains ≥ 3 seller penalty points after campaign nomination, both items under review and previously approved items will be rejected automatically

Q: What is the difference between a Campaign and Session?

A: Campaigns are the main events that you will be nominating your products for. Under each Campaign, there can be multiple session time-slots.

Different sessions under the same campaign may have different product criteria, do select the session that your product is eligible for.

Q: Why do I not have campaigns that are “Pending Confirmation”?

A: You will only have Campaigns that are pending your confirmation if Shopee has recommended your product(s) for a specific campaign session. If not, you may also nominate your products for our campaigns if eligible.

FAQ: Nominating products for Campaigns

Q: Why can't I nominate certain products for campaigns?

A: Items cannot be chosen for nomination if they are:

- sold out
- suspended
- ineligible (based on the campaign session's product criteria set by Shopee, see pg 10)

Q: I have a few varieties for my products. Can I set a different discount % for each of the variety?

A: Yes, you can. You can set a different discounted price for each product variety.

Q: Why is there an error message when I try to save my product details?

A: You will be unable to save and submit product details if:

- Product already has a product promotion
- Product does not fulfill campaign session's product criteria set by Shopee (see pg 10)

FAQ: Editing products in Campaigns

Q: I want to offer XX% discount for my products. Why can't I input that discount?

A: Make sure the discount is within the 'Accepted Discount Range' of the campaign session's product criteria.

Q: Can I edit my products after submitting them for nomination?

A: Yes, as long as the campaign's nomination period has not ended. However, you will not be able to edit your products once the review period has started.

Q: Can I edit my nominated products during the review period?

A: No, you will not be able to edit nomination details (product name, campaign image, campaign stock, discount etc.) while your products are being reviewed.

However, you may still choose to remove your product from the nomination process or delete your product listing during the review period if you change your mind – only if product is still pending review or rejected.

FAQ: Editing Shopee-recommended Products in Campaigns

Q: Why can't I edit the Shopee-recommended product?

A: You will not be able to make edits to a Shopee recommended product if:

- The item has rebates
- You have already edited this product previously for the same campaign session

Q: If I have Approved or Rejected a product, can I change the status?

A: No, you will not be able to change the status of a product after you have Approved or Rejected it. If you would like to nominate a product that you've rejected, you may re-nominate it again on your own.

Q: How long does Shopee take to review nominated or edited products?

A: Shopee will be able to review your nominated or edited products during the review period before the campaign session starts. Do check back regularly to stay updated on your product nomination status.

FAQ: Campaign stock management

Q: How will campaign stock affect my normal product inventory/stock?

A: Once a product has been successfully confirmed into a campaign session, the campaign stock quantity will be immediately deducted from the product's normal stock.

e.g. Item A's total stock = 100. You commit 30 campaign stock to a campaign session so it will be reserved for the period. Item A's normal stock for non-campaign sale will now be 70 (100 - 30). Campaign stock not sold at the end of the campaign session will be added back to normal stock.

Q: Will I be able to adjust normal stock of a product confirmed into a campaign session?

A: You will only be able to adjust normal stock before or after a campaign session. You will not be able to adjust normal stock during ongoing campaign session. If campaign stock is sold out, you will be allowed to adjust normal stock after 30mins (from time of "Sold out").

Q: Will I be allowed to replenish campaign stock during a campaign session once it's sold out?

A: No, you will not be able to replenish or adjust campaign stock while campaign session is ongoing. Do plan campaign stock carefully before nominating your products.

Thank you
