Campus Typologies

How can architecture and urban design being used to consciously stimulate social, cultural, and economic life in and around universities and corporate centres?

What kind of spatial and programmatic organizations promote internal knowledge transfer and social interaction while simultaneously integrating with surrounding urban environments?

What kind of urban strategies can best nurture the dynamic synergies needed to create sustainable centres of knowledge and learning – incubators of innovation that can flexibly respond to the fast changing demands of industry and society?

Arts, Culture, Conference

Possible Retail

- **urban, culture, economy, landscape**
- **catalytic conditions** (surrounding neighborhoods, business parks)
- **connectivity** (pedestrian, public and private transport)
- **balanced mix of uses** (specialized clusters + diversification)
- **accommodation** (housing, boarding, guest, hotel)
- **communication** (café-bars, plazas, parks, conference)
- **open/public ground floors** (services, retail, gastronomy, exhibitions)
- **high-quality and permeable public space** (accessibility, comfort)
- **strategic tectonic flexibility** (responsiveness to changing needs)
