## Advanced made simple for you.

# MORE
# POWERFUL.
## YET SIMPLER THAN EVER.

That's the way your business communications should be. Direct, intuitive, and most of all, user-centric. This is why we have built the next generation of multifunctional devices: the **imageRUNNER ADVANCE C5000 series**.

We believe that documents can be printed in an easier, faster, better, safer and greener way. Being advanced is about continually improving every possible facet so we get maximum efficiency.

Imagine a printer that does its part to reduce waste while raising productivity. A machine smart enough to remember individual preferences and increase output without compromising on quality. A multifunctional device capable of accessing the world of Cloud computing – while simplifying business processes.

This is the new **imageRUNNER ADVANCE C5000 series**.

The **imageRUNNER ADVANCE C5000 series** has been designed from the onset to offer you the following:

## TECHNOLOGY REACHES NEW HEIGHTS

Cloud computing is gaining acceptance with more and more companies across the globe. Businesses today look to Cloud computing for on-demand scalability. Costly infrastructure, setups and administrative burden are a thing of the past with proper implementation of Cloud Computing technology.

Canon's imageRUNNER ADVANCE maximizes office productivity by allowing users to access Cloud services right from imageRUNNER ADVANCE devices. Users can scan and store their paper documents, or choose to retrieve and print their documents stored in their Cloud service.

Scan-to-Cloud and Print-from-Cloud is simple with Canon's imageRUNNER ADVANCE - all that is needed is an imageRUNNER ADVANCE multifunctional device (MFD); no drivers, additional software or personal computers are required. With the Cloud Scan and Cloud Print support of Google™ Docs and Microsoft™ SharePoint Online, imageRUNNER ADVANCE systems are the perfect way to scan and print through Cloud services.

*Important Note:*

\*   *Machine upgrades may be required to support Google™ Docs and Microsoft™ SharePoint Online Cloud services via the imageRUNNER ADVANCE devices. Internet connectivity is required.*

\*\*  *Users of Google™ Docs and Microsoft™ SharePoint Online Cloud services are advised to evaluate the benefits and risks of Cloud services and their data security needs.*

\*\*\* *Availability of the Google™ Docs and Microsoft™ SharePoint Online Cloud services on the imageRUNNER ADVANCE devices varies by country or region. For more information, please contact your local Canon Sales Office.*

## USABILITY AND CONVENIENCE

Meet the multifunctional device that is optimized for convenience and speed - your way.

### Intuitive User Interface

The new imageRUNNER ADVANCE C5000 interface provides you with a more pleasant navigation experience on an 8.4" full color, high-resolution TFT touchscreen.
### Configurable Quick Menu

Complex, frequently used settings can be easily configured to run at the touch of a button. This streamlines every individual's workflow, and increases productivity by letting you accomplish more in less time.
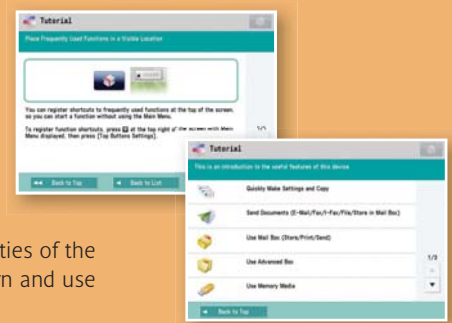

### Customizable Menu

The size, the number of icons, and even the wallpaper displayed on the menu can be changed to suit individual or workgroup needs and preferences.

The Canon imageRUNNER ADVANCED C5000 series
is simply *simpler* to use.

### Step-by-step Tutorial

The inbuilt onscreen tutorial helps you explore the full capabilities of the imageRUNNER ADVANCE C5000 series, and enables you to learn and use more advanced functions with ease.

### Plug and Print Capability

With standard USB input and optional media connectivity options such as Secure Digital (SD) or CompactFlash (CF) Cards, you can walk up to any imageRUNNER ADVANCE C5000 series with your thumbdrive or memory card to scan and print on the spot.

### Innovative Toner System

To maintain the ongoing productivity of your business, the imageRUNNER ADVANCE C5000 series features a toner system that can be replaced - even when your device is delivering printouts.

### Hassle-free Paper Loading

With an in-built auto paper sensor, the imageRUNNER ADVANCE C5000 series is intelligent enough to detect paper sizes accurately. This reduces paper jams and misfeeds, translating to higher productivity.
Quality prints that truly shine.

### ADVANCED imageCHIP System Architecture

To meet and exceed the demands of today's businesses, Canon has developed a dual processor system. The image processor board works with the scanner, adjust images, and ensures superior image quality and ultra-fast processing. The information processor boards controls user interface and coordinates device networking and connectivity. The result is higher quality printouts with lesser wait.

### High Resolution Brilliant Printouts

Combine the E-Drum imagePRESS technology with a 1200x1200 dpi printing resolution, and you will get sharp and vivid printouts, image consistency and high speed printing. Add to that the pQ Toner and an intelligent controller, and the imageRUNNER ADVANCE C5000 series truly brings you the crispest, most vibrant color printouts.

### Genuine Adobe PostScript 3

The imageRUNNER ADVANCED C5000 series supports Genuine Adobe PostScript 3 printing capability, enabling you to deliver the desired output quality without worrying about font compatibility. True PostScript capability means that you will work seamlessly with PostScript workflows to achieve faster and higher quality prints compared to emulations. You will also enjoy improved office productivity with direct PDF printing and full support of Adobe fonts. In addition, Genuine Adobe PostScript 3 also supports the Pantone Color System, which is essential in the creative and publishing industries.

### Fiery Print Controllers

For jobs that demand an exceptionally high level of productivity and advanced color management workflow control, Canon provides powerful Fiery print controller options – imagePASS-B1 and ColorPASS-GX300 (only for iR-ADV C5051). Both controllers are Variable Data Printing (VDP) ready and support a variety of VDP languages.

## PRODUCTIVITY

Advanced technology becomes simple with the Canon imageRUNNER ADVANCE. Simply add the modular units you need to further extend the functions of your device.

## Professional Looking Documents

With Canon's optional accessories, it is easy to impress and inspire with professional-grade reports and presentations. Simply select the settings you want, ranging from automatic stapling, punching, collating and even booklet creation functions. For a compact footprint, internal stapling and collating units are also available as options.
## High Speed Scanning

Canon's revolutionary Duplex Color Image Reader features a proprietary image sensor. This allows you to create 100 to 150 crystal-clear reproductions of black & white and color documents each time you press the button.

## 4-Line Fax

The imageRUNNER ADVANCE C5000 series supports optional Super G3 fax functionality for high-speed fax transactions. The 4-line fax feature is capable of handling large volumes of fax documents, while ensuring lesser busy signals and greater connectivity. You can also save cost and space by consolidating multiple fax devices into one shared device.

## Remote Fax Collaboration

With the optional Remote Fax Kit, you can also fax through other fax-capable imageRUNNER ADVANCE devices in the network, even if the one you are using does not have a fax-board installed. This translates to significant cost-savings and convenience.

# ADVANCED
## DOCUMENT WORKFLOW

A healthy document workflow means a healthy business. With imageRUNNER ADVANCE C5000 series, you will find the most advanced, yet simple workflow.

## Scan and Send

In one simple operation, you can distribute scanned documents to multiple destinations, such as email, fax destinations and network folders. The wide range of formats include standard High Compression PDF, Adobe PDF Reader Extensions, Searchable PDF, Encrypted PDF, XPS, and even the latest Office Open XML.
## Adobe Reader Extensions

Enjoy Adobe Reader functionality without the extra cost of additional software licenses. With its inherent Adobe Reader Extensions PDF capability, you can share and review documents electronically - free-of-charge.

## Advanced Box

Canon's new built-in document sharing solution simply makes sense. Multiple users can collaborate easily on a shared folder and access files from PCs or other networked imageRUNNER ADVANCE systems. Personal folders are also available for more sensitive documents. What's more, you can also preview the documents before printing them.

Share stored documents

Built-in HDD Storage

Save documents from PC

Receive documents by fax

## iW Function Flow

iW Function Flow is an imageRUNNER ADVANCE series core MEAP application that can transform time-consuming, multiple step tasks into simple workflows for each user. Scanning, e-mailing, faxing, and archiving can be done in one operation, all from a single button on the device control panel. The imageRUNNER ADVANCE series supports a new version of Function Flow that supports MEAP Connectors.

## MEAP Connectors

MEAP Connectors bridge your Canon imageRUNNER ADVANCE and enable document transmission to external systems. The software development kit (MEAP SDK) also enables third party vendors to develop systems based on your requirements. You can even create your own workflow tasks using the MEAP Connector using the PC-based Function Flow Editor tool.

## Adobe LiveCycle® Rights Management

You can create a Policy Protected PDF document from the device by integrating it to the Adobe LiveCycle® Rights Management ES Server. When opened, a protected PDF file will contact the server to authenticate and update itself. What this does is to ensure that no unauthorized users will be able to open it, and that the latest updated version is always shown when opening the file.

**ADOBE® LIVECYCLE® RIGHTS MANAGEMENT ES**

# ADVANCED MANAGEMENT

Be in control, wherever you are. The imageRUNNER ADVANCE makes it easy to monitor and optimize your company's output.

## Centralized Remote Control

Using the Remote User Interface, your IT managers and system administrators will be able to control and manage output devices without having to travel to each machine to check or update their status.

## eMaintenance

Take control of your Canon devices while reducing administration burdens with eMaintenance. With less downtime and easy maintenance, you will have more uptime — and greater productivity.

*\* eMaintenance works with most Canon copiers, printers and multifunctional devices. For more information on what models are supported, please contact Canon.*

## SECURITY

Safeguard your business' sensitive documents without compromising on quality or speed.

**Card Authentication** controls access of devices in the office to authorized users with the use of optional ID cards.

**Document Scan Lock** embeds hidden tracking information in a document to restrict unauthorized copying or scanning, and track the origin.

**Department ID** restricts machine usage to those users with a valid ID and password.

**Access Management System** allows restriction of various features of copy, print, fax, scan, Mail Box by user, group or job function. You can even limit access for specific functions such as Color Copying.

**HDD Encryption and Erase** encrypts information before it is written to the hard drive, and permanently removes it by overwriting when the job is complete.

**iEEE2600 Standard Conformity** meets the industry requirements for hardcopy security in medical, finance, and other office environments.

**Removable HDD Option** enables hard disk drive to be removed and placed in a secure location when not in use.

# ADVANCED RESPONSIBILITY

Much of the above features are geared towards efficiency and waste reduction. At Canon, we believe in doing our part for the environment.

**Higher efficiency for lower emissions.** Through the Life Cycle Assessment (LCA) System, Canon has reduced $CO_2$ emissions by more than 30% over previous models. From manufacturing to energy use and even transportation, every aspect is optimized for efficiency.

**imageRUNNER ADVANCE uses 100% recycled plastic in certain parts of machine.** In addition, we subject ourselves to the most stringent standards, restricting the use of 24 hazardous substances (where EU RoHS directives restrict only six).

**Changing our behavior to change our environment.** By encouraging digital previews, we reduce unnecessary prints and reduce mistakes. Administrators can also help encourage use of duplex settings and control color usage easily.

**The imageRUNNER ADVANCE consists of green technologies.** Our pQ toner lowers energy consumption by minimizing heat and power requirements. Our RAPID fusing technology saves 75% more power usage than previous models. In Sleep Mode, power consumption is at a low 1.5W, or less. Even when a USB card reader is installed, the machine is able to go to deep sleep to save energy. The list goes on.

With a Canon imageRUNNER ADVANCE C5000 series multifunctional device, you will see a significant advancement in the way your business communication is performed.

So move your business forward. Make it faster, smoother, and safer with an imageRUNNER ADVANCE.

To arrange for a demonstration, simply contact any of our sales staff in the relevant contact overleaf. It's that simple.
