Capgemini's Oracle E-Business Suite (EBS) 12.2 Upgrade Offering

Oracle Premier Support for EBS 12.1 ends in December 2021
Do not miss out on upgrading your EBS System in time!

Why is now the time to act?

Oracle Premier Support for EBS 12.1 ends in December 2021

**Longer realisation duration depending on EBS landscape complexity**

Latest EBS Tech stack availability with EBS 12.2 and compliance till at least end of 2031

Launch pad for landscape transformation to Oracle Cloud

Capgemini's Oracle EBS Upgrade Offering
Are you ready to upgrade your EBS in time?

For organisations that have decided to take on EBS upgrade journey, Capgemini's upgrade offering underpinned by our proven accelerators and methodologies can reduce the time and effort of an EBS 12.2 upgrade ensuring their mission critical EBS system remains fully supported beyond Dec 2021. Often, in such scenarios, organisations adopt a hybrid co-existence model by retaining core functionalities within EBS and then adding fit-for-purpose strategic offerings in the cloud.

- ☑ **In-house assessment accelerator saves up to 50% effort and time in assessment phase**

- ☑ **Provides comprehensive report of impacted customisations**

- ☑ **1100+ re-usable test scripts for Oracle EBS 12.2**

- ☑ **Minimal business downtime during cut-over**

New in EBS 12.2

Enhanced UX for EBS and mobile applications

Intuitive business analysis using out-of-the-box **ECC (Enterprise Command Center)** dashboards

Online patching resulting in reduced business downtime

Functionality innovation

Planning to upgrade to Oracle EBS12.2? Looking for future steps?

Our offering fits your needs right from the **Evaluation stage to Delivery and even Future Roadmap.**

Current State - Evaluation → **Delivery – Upgrade Project Execution** → **Future Roadmap**

Pre-Assessment Accelerators

- Multiple test cycles (including unit testing, sanity testing, integration testing, user acceptance testing, performance testing and security testing) to minimise risk
- Capgemini Application Testing is ranked as the Global Leader in the December 2019 Gartner Magic Quadrant report

User Training Approach

- We ensure user community comes up to speed with EBS 12.2 environment through our Train-the-Trainer approach

Upgrade Experience

- Pool of certified Oracle consultants with abundant experience in EBS upgrades across industry sectors
- Highly collaborative and partnership driven approach that fosters transparency and trust
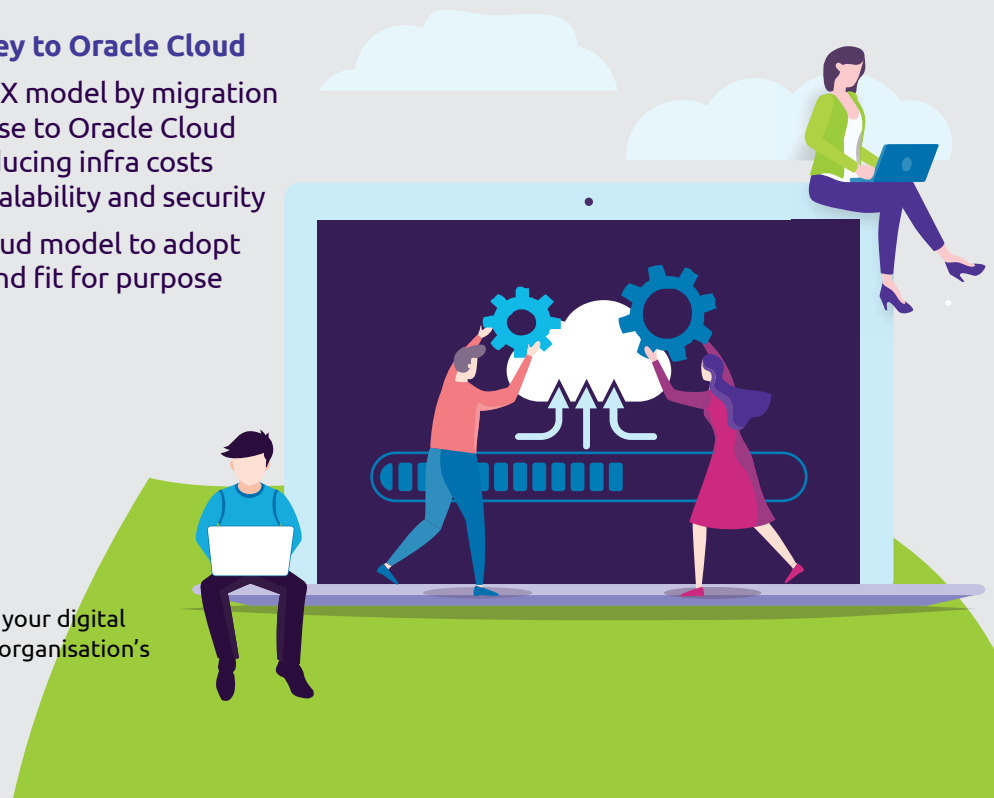

Flexible Delivery Model

- Post go-live HyperCare Support and Post-Production Support as per client's requirement
- Longstanding experience in providing managed services

Current State - Evaluation → **Delivery – Upgrade Project Execution** → **Future Roadmap****

Embark on your strategic journey to Oracle Cloud

- Transition from CAPEX to OPEX model by migration of EBS system from on-premise to Oracle Cloud Infrastructure (OCI), hence reducing infra costs while improving availability, scalability and security
- Implementation of Hybrid Cloud model to adopt modern best practice driven and fit for purpose offerings in Oracle SaaS Cloud
- Reduced technical debt

** Future Roadmap paves the path for your digital transformation journey depending on organisation's Cloud Strategy.
