Type	Description	Part number	Price
Power distribution module	<p>Key features</p> <p>PDM32 and PDM08 Power Distribution Modules are designed to distribute power to multiple circuits on your vehicle, easily replacing traditional fuse and relay systems. Our PDMs, housed in an anodized billet aluminum case, are designed to handle the rigors of motorsport and include a complete professional data logger and internal dash controller.</p> <p>An AiM PDM at the center of vehicle electronics will greatly simplify your wiring harness and electronics installation while providing much more control.</p> <p>User manual & Race Studio 3 software freely downloadable from AiM web site.</p>
