# Let's begin with Introduction

Cloud Computing is among the most popular and sought-after career options. This field has grown immensely over the last decade with AWS, Azure, and Google Cloud Platform (GCP) leading the market. Along with these, DevOps tools like Docker, Kubernetes, Splunk, Ansible, Puppet, etc. have increased in popularity, all of which are proving to be skill sets that have acquired a very high demand in the industry, currently. At Intellipaat, you will receive proper training on Cloud Computing and its tools.

Here, we have compiled a list of professionals along with their career transition stories that were possible with the Cloud Computing courses offered at Intellipaat. After completing the courses, they were able to transform their careers successfully in Cloud Computing and land promising roles at high positions with sharp hikes in salaries.

This guidebook comprises various career switch stories that will help you understand your worth and capabilities and take the steps required to reach your professional end goal.

## Students **Reviews**

**Anil Sharma**

Cloud Architect Associate, India

Lucky for me, I came across Intellipaat and I enrolled in their Cloud DevOps Architect course. I landed my dream job with their assistance and could successfully transition with a salary hike from a non-technical profession.

**Mustafa Sartaj**

IT Consultant, Kuwait

As I am a working professional I wanted specific timings for my DevOps training and Intellipaat gave me just that. I am very happy with the training and the services they provided. I got individual attention.

**Nitin Goyal**

DevOps Engineer, India

I was desperately looking for a career change to a tech job role from a non-technical profile. After completion of a course I landed a job as a DevOps Engineer at IBM with a good salary hike. Thank you, Intellipaat!
