Catalog Help Guide

2. Search for items using the search text box

The search text box allows you to enter specific text strings to search. You can search by keyword, supplier, part number, and so on.

If you type in a word or number, the search results will return items that match **and** items that are close. For example, if you type in product ID 110702, the results will include items with product IDs 110702, 110722, 110709, etc.

If you want an exact match for a single word or number, put a character, such as an asterisk (*), after the item you are searching for, for example, 110702*.

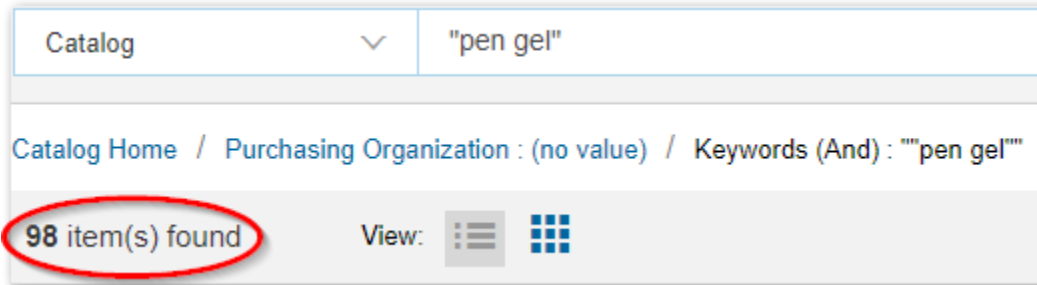

If you search for multiple words, the results will include items with all the words anywhere in the item. The words do not have to be next to each other. For example, search for *pen gel*.

Catalog Help Guide

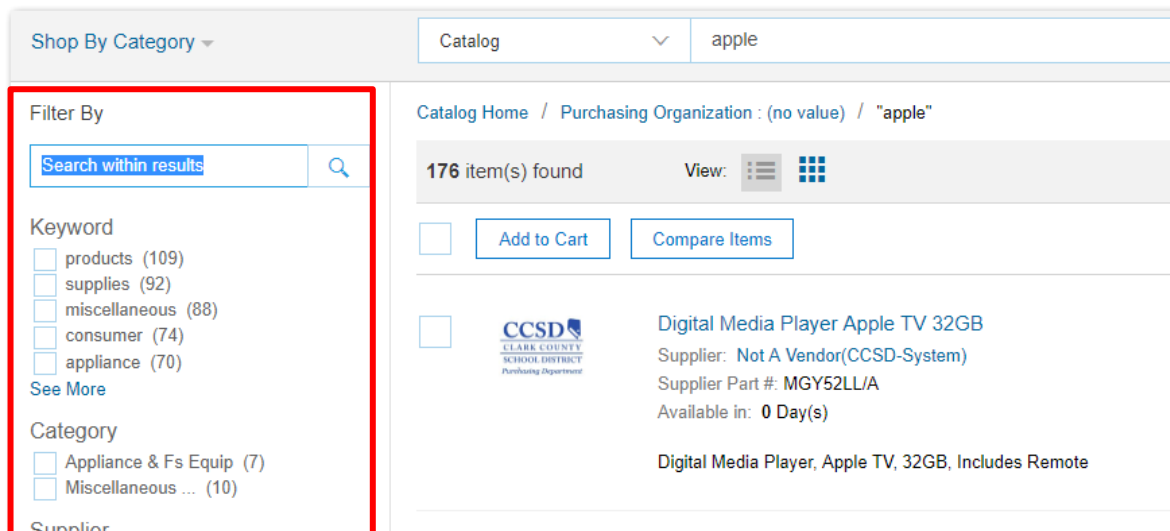

If you search for words with quotes, the results will only include items with the exact match.

Punctuation in search strings is treated as white space. This includes punctuation marks such as commas, dashes, and parentheses, as well as special characters such as asterisks and percent signs. There is no wildcard character for searches.

3. Refine the Search

If the catalog search has results, use the **Filter By** section to the left of the results. You can filter by clicking a link, or entering text in the **Filter By** text box.

4. Using Breadcrumbs

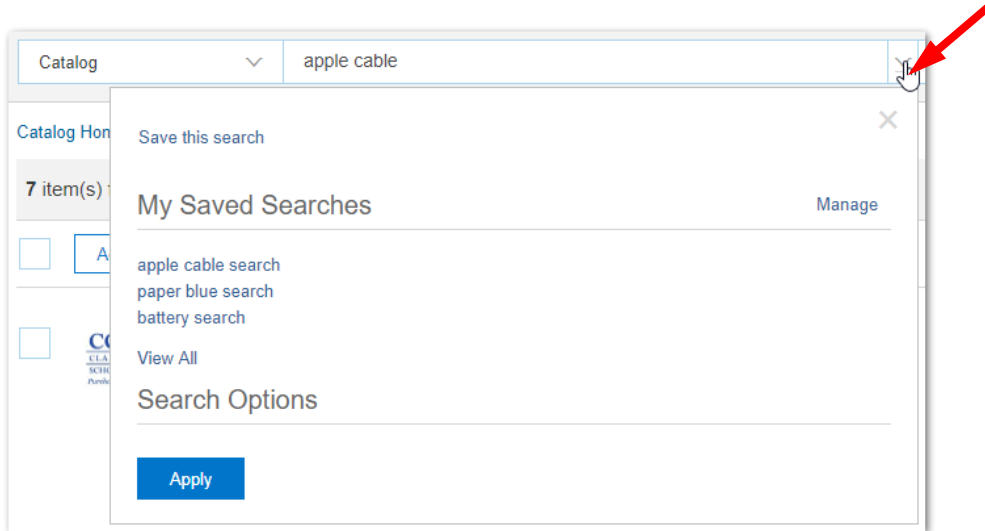

When you search for items and refine the results, your catalog search navigation path is displayed as a breadcrumb trail. Click a link in the breadcrumb trail to return to the search results from an earlier point in the path. Click Catalog Home to start your search over.

Catalog Help Guide

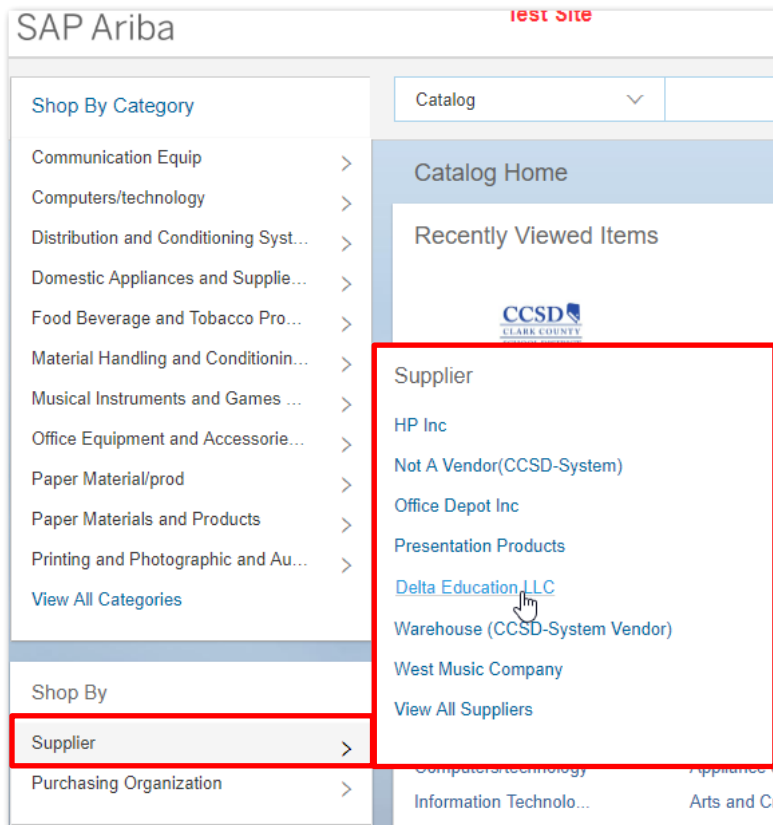

5. Saved Searches

Click the search pull-down menu to display or manage saved searches. Search Options is not used.

6. Search by *Supplier Name*. The Supplier is who we buy the product from.

Hover over Supplier then select from the Supplier menu.

Search Limitations

The catalog will only display a maximum of 500 items, even if the search returns more items. For example, select Shop By Supplier and choose Office Depot. Although 4,552 items are found, only 500 will be displayed.

The dots after page 4 indicate there is another page of items to be displayed.

There are no dots and no more pages to display after page 5.

Narrow the search by using Filter By on the left or by adding additional search criteria in the search box.

Review Catalog Cart

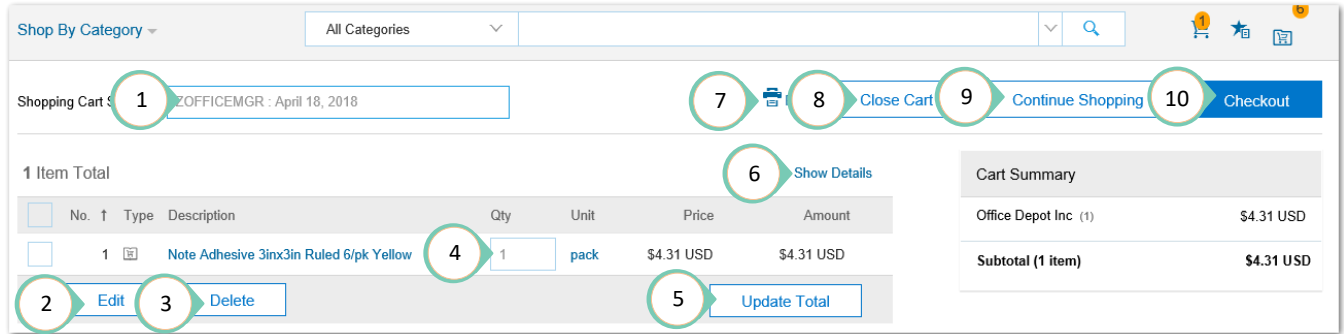

In the catalog, a cart is a holding area for the items you have selected for purchase. When you checkout a cart, you transfer the items to the SAP shopping cart, and that catalog cart goes away.

To view the contents of the current cart, click the Cart icon  and then click Review Cart.

Tips and Tricks

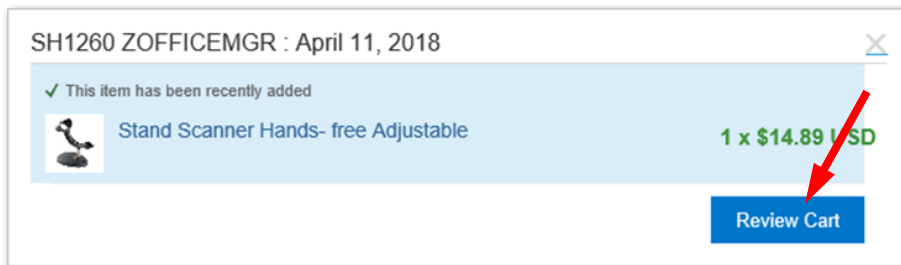

1. 15 minute rule

If SAP is idle for 15 minutes, it times out. When you are working in the catalog, SAP is idle. If you are in the catalog more than 15 minutes, SAP will time out underneath. To avoid this:

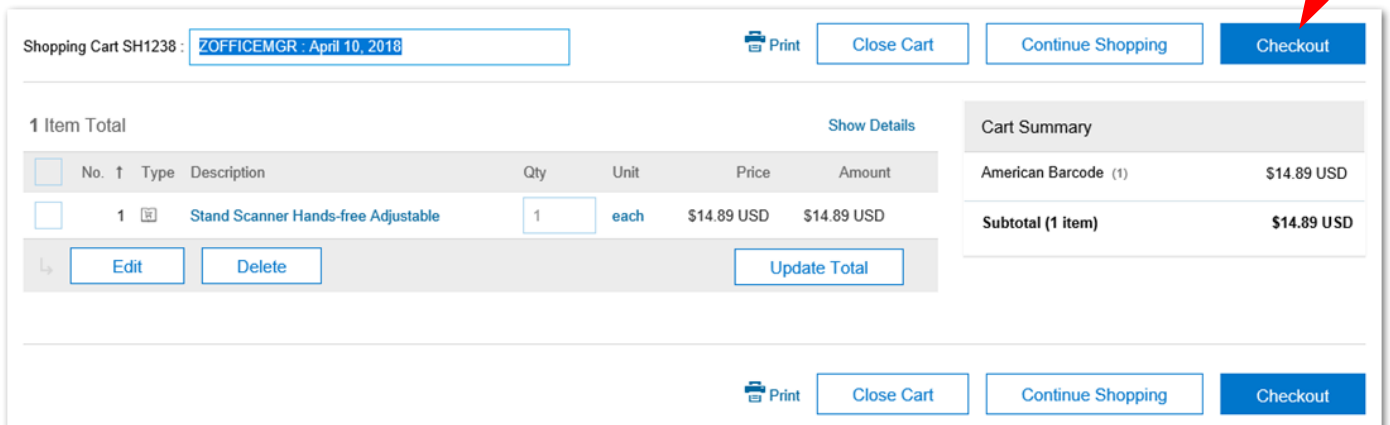

- a. When working in the catalog, be sure to Review Cart and Checkout (transfer items) every 5 minutes. Save the SAP shopping cart, then Edit it and go back to the catalog for more items. This will help keep the system active and avoid sessions timing out. Checkout and Save your work if you are interrupted.
- b. Select items and Add to Cart.

c. Review Cart

d. Checkout (Transfer items) from Catalog Cart every 5 minutes

New Features

The following applies for most users.

Favorites Folders or Saved Searches can be viewed, no matter which catalog you are working with. However, the items in the folders or searches are associated with specific catalogs and can only be used when you are working with that catalog.

For example, the name of a favorites folder of items from the Custodial catalog can be seen when you are working in the General catalog, but the custodial items in it cannot be used. You can only use those items when you are working in the Custodial catalog. Note: you can see all folders and items when you manage favorites folders.

Favorites Folders

You can use catalog favorite folders to organize favorite items in up to 12 different folders. For example, you might have a favorites folder for office supplies that you order frequently.

When working with favorite folders, you can:

- Add items directly to a folder
- Add the contents of a folder to the cart
- Manage favorites folders

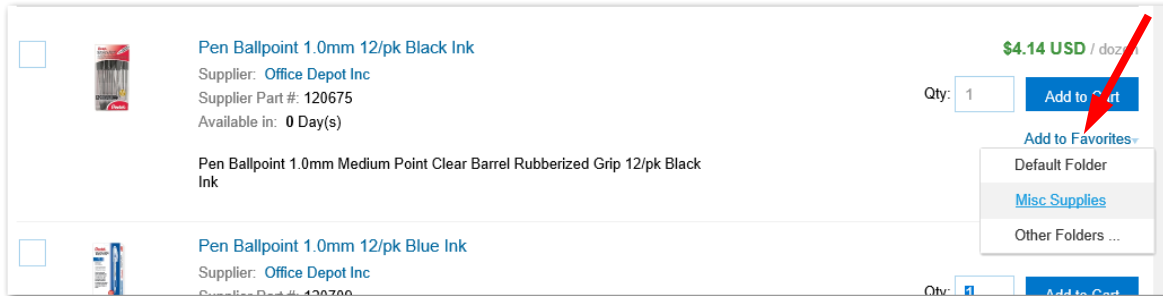

Note: You do not have permissions to share your favorites folders with other users.

Catalog Help Guide

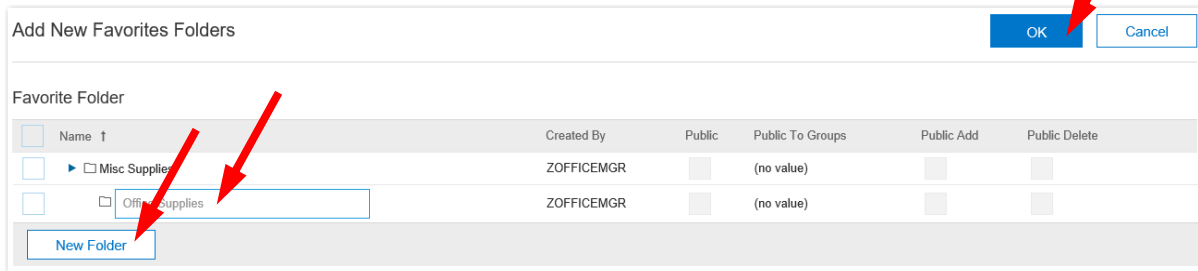

Add items to a folder

On the catalog search results page, click the Add to Favorites link for the item.

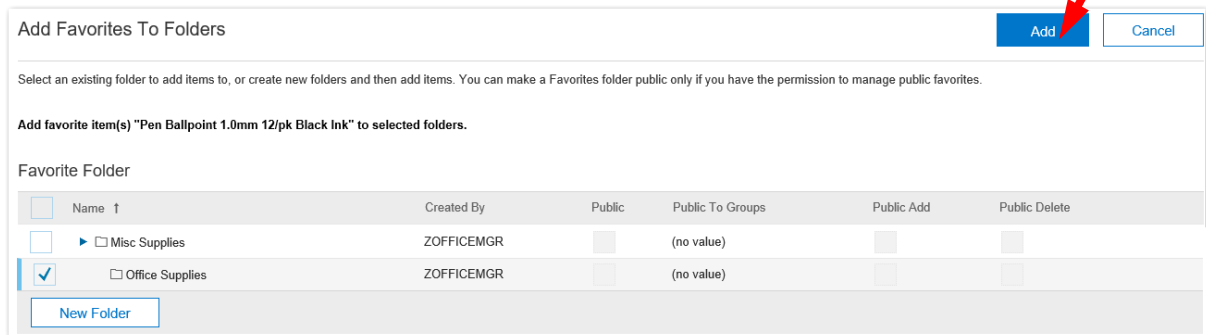

Click Default Folder to add the item to the default favorites folder, or click the name of the folder to which you want to add the item or click Other Folders to add item to a new folder.

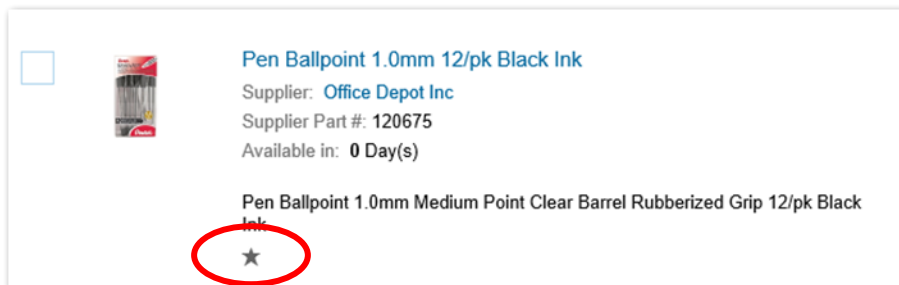

Click Other Folders, and then click New Folder, name the folder, and click OK.

Click Add.

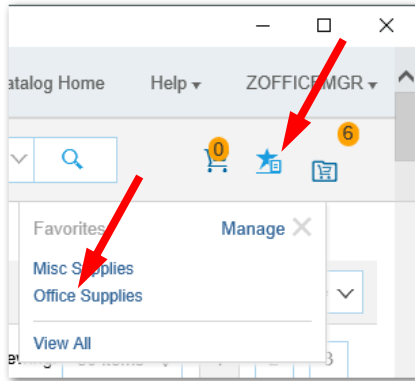

After an item has been added to a favorites folder, it will have a star ★ below the description.

Catalog Help Guide

Add the contents of a folder to the cart

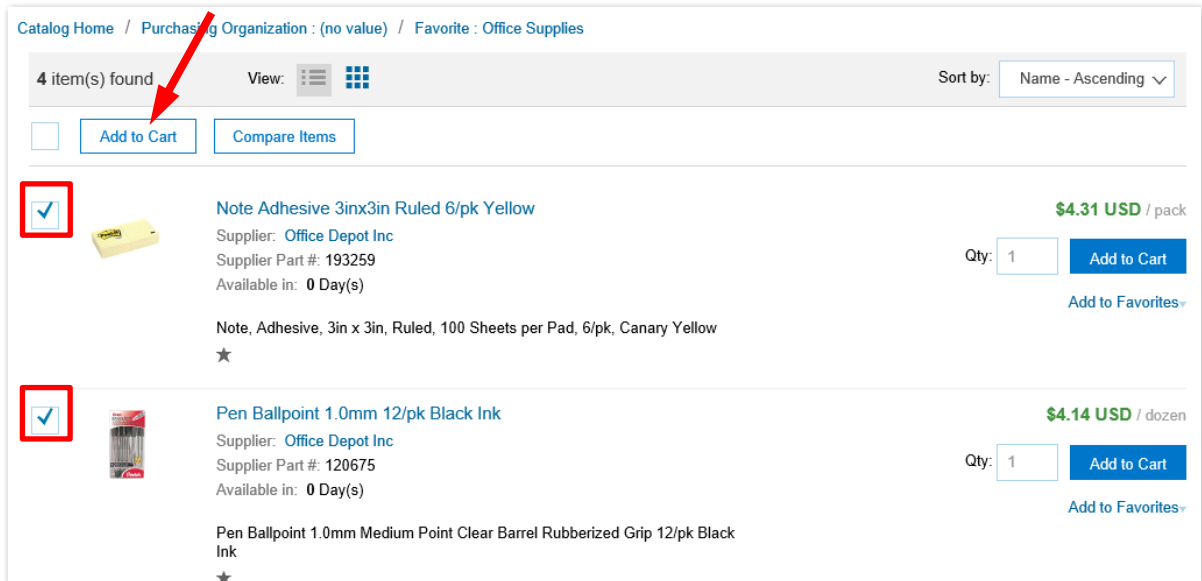

Click the Favorites icon  in the upper right corner and select a folder.

You can also click the favorites folder in the Favorites area on the Catalog Home page

Select the items you want and click Add to Cart.

Managing Favorites Folders

1. In the catalog, click the favorites icon  on the toolbar.
2. Click Manage.
The Organize Favorites page opens.

Catalog Help Guide

3. Perform any of the following actions:
 - To edit a folder, select its check box, click Edit Folders, make the changes, and click OK.
 - To delete a folder, select its check box and click Delete.
 - To delete an item from a folder, select its check box and click Delete.
 - To create a new folder, click New Folder, enter a name for the folder, select the desired options, and click OK.
 - To move an item from one folder to another, drag the item from its current location to its new folder.
4. To close the Organize Favorites page and return to the catalog, click Done.

Note: If an item's description or price has changed since it was added as a favorite, it is updated with current information when you add it to the cart.

Organize Favorites Done

Create, modify, or delete Favorites folders. Delete items from Favorite folders, or move items among folders by dragging the items. You can make a folder public only if you have the permission to manage public favorites.
