THE LONDON SOUND

One of the most unique CD series available, *The London Sound* features the incredible sounds of ensembles of a type seldom heard or recorded.

In 1993, Cala's Artistic Director, Geoffrey Simon, decided to indulge himself in the sound of his own instrument by recording an orchestra of 40 cellos playing a mixture of classical and popular music, much of it especially arranged for the occasion.

What started as a whim has developed into a 10-CD series, famous for its combination of ear-catching arrangements written by top London arrangers and played by the cream of London's orchestral, theatre and session musicians.

Enjoy the thrilling massed sound of these large single-instrument ensembles of London virtuosi.

NEW YORK LEGENDS

The New York Philharmonic is one of the very few orchestras in the world whose principals collectively possess the character and excellence to produce a series such as *New York Legends*. An "orchestral snapshot" of this dimension has never before been undertaken.

These twelve musicians are legends in their own right or legends in the making, renowned both for their prominent work with this great orchestra and their individual contributions to music as soloists, educators, visionary leaders and role models on their respective instruments.

The music presented by these players reflects their personal tastes and convictions as musicians and New Yorkers. In several instances, works have been composed especially for the performer. The very wide variety of music to be heard over the twelve releases embodies a dynamic spirit of discovery which reflects the musicians' vital involvement with today's American musical life.

ORCHESTRAL DISCOVERY

Cala's Tenth Anniversary, 10-CD orchestral series boasts 21 World Première and 24 First Digital recordings. They feature the Philharmonia and London Philharmonic Orchestras under conductor Geoffrey Simon performing Debussy, Ravel, Saint-Saëns, Borodin, Mussorgsky, Respighi and Grainger.

The cornerstone of the Tenth Anniversary Series is a fascinating body of forgotten works by well-known classical composers, which have escaped the public eye in recent years.
