

# CATALOGUE DE FORMATIONS COMPÉTENCES DIGITALES & IT

## Édito

### *Vodecllic est la nouvelle génération du Digital Learning dans le Cloud qui a compris que l'Utilisateur est le « vrai » client !*

Les grandes tendances du Cloud Computing, des nouvelles technologies, des Réseaux Sociaux d'Entreprises, du BYOD... ne sont-elles pas toujours présentées sous les angles technique, juridique ou économique ?

Mais qu'en est-il de l'usage, de la performance et de la productivité des utilisateurs avec ces outils ?  
Comment les entreprises gèrent-elles le changement ?  
Comment s'assurent-elles que leurs collaborateurs, qu'ils soient de la génération « Y » ou non, s'approprient rapidement et efficacement ces nouveaux environnements de travail ?

La solution Vodecllic, avec un catalogue de 70 000 modules de formation en 7 langues (français, anglais, portugais, espagnol, mandarin, néerlandais, et allemand), propose aux utilisateurs des nouvelles technologies pour augmenter leurs performances digitales et IT.

La solution comprend des formations exclusives et des services pédagogiques pour les utilisateurs ainsi que des outils de reporting et d'intégration pour les entreprises.

Nos clients ont choisi la nouvelle génération du Digital Learning dans le Cloud pas seulement pour la richesse de ce catalogue, mais pour beaucoup plus :

- Un catalogue de formations exhaustif
- Une ergonomie plébiscitée par les utilisateurs
- Des outils de reporting performants
- Une intégration simple et rapide dans le Cloud
- Une tarification unique par utilisateur
