About the Children's Board of Hillsborough County

The Children's Board of Hillsborough County has been investing in children and families for the past 30 years. Created by the voters in 1988, we grant funding for programs and services provided by local organizations. Children's Board investments ensure that:

Children are Healthy and Safe

- Every year, we help thousands of women deliver healthy babies; a baby's first years have an impact for life.
- We provide funding for children in need of access to health care, including vaccines for preventable diseases so they can start school and stay in school.
- We invest in programs that promote child safety and well-being.

Children are Developmentally on Track

- There are five areas of development that will help young children to be ready to learn and succeed: health and physical; social and emotional; language and communication; cognitive learning; and personal development.
- Our funding ensures that children are provided with early intervention services allowing the best possible long term outcome.
- We invest in programs to promote nurturing relationships, ensuring children are able to form secure attachments with caregivers, critical to their cognitive and social-emotional growth.

Children are Ready to Learn and Succeed

- Providing funding that allows young children access to the care and developmental support they need ensures they enter kindergarten ready to learn.
- The relationship between a child and his/her caregiver is essential to the developing brain; these relationships are critical as the brain forms visual, language, motor and social-emotional connections essential for later literacy learning.
- Our significant investment in early learning ensures that children are provided the early building blocks necessary for academic success. Research supports that success at ages nine and ten can be attributed to the amount of words they hear from birth through age three.

Children have Supported and Supportive Families

- The Children's Board Family Resource Centers offer support to all families that are at no cost to participants, from developmental playgroups to health services.
- Children's early experiences, particularly from birth to age five, are critical to their brain development and lifelong health. Family support services promote family involvement throughout a child's life which starts at birth.

Governing Board

The Children's Board is governed by 10 Board members from the local community. Five are "ex officio", meaning they serve by virtue of the office they hold. The remaining five members of the Board are Hillsborough County citizens appointed by the Governor of Florida. The Governing Board hires the Executive Director, who is responsible for the leadership and management of the agency.

Mission

The Children's Board of Hillsborough County invests in partnerships and quality programs to support the success of all children in Hillsborough County.

Vision

Hillsborough County will be recognized as one of the top places in the nation to raise children.

Conference Center

Our office building on Palm Avenue also serves as a conference center available at no cost to neighborhood, community, and civic organizations. With free parking, easy access to public transportation, and a central location close to major transportation routes, our building is a convenient conference space for community groups. For more information about using our conference center, call (813) 229-2884 or email reservations@childrensboard.org.

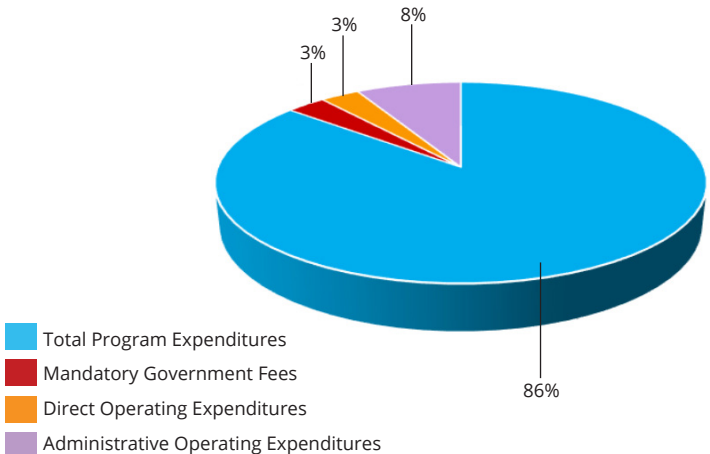

Our Budget

The Children's Board of Hillsborough County oversees a budget of \$39.3 million. The charts below represent total revenue and expenditures for Fiscal Year 2018.

Where the Money Comes From

Revenue Sources

Ad-Valorem Taxes	37,969,389

EARLY CHILDHOOD COUNCIL OF HILLSBOROUGH COUNTY, THE

Infant Mental Health / Inclusion Services

Program Description

The Infant Mental Health Project is focused on creating awareness within our parent and service provider community on the importance of secure, nurturing relationships in the healthy physical and emotional development of children birth to three years of age. This project offers professional development, consultation, evidence based parenting curriculums, and relationship focused clinical interventions.

Inclusion Support Services is a resource and training program for child care providers who are serving children in their early care programs with developmental and/or behavioral concerns. Inclusion Specialists provide on-site observations of children/teachers/ classrooms to determine strengths, needs, and accommodations for an inclusive setting. An individualized intervention plan is developed through a team planning process to assist the teacher, child, and families in maintaining childcare placement.

Target Population Served

Infant Mental Health - Families of children birth to three years of age and early childhood service providers

Inclusion Support Services - Children, birth to five years of age, who are experiencing difficulties in their private pay or VPK child care center or family day care home
