

CCMC Update – August 2019

CCMC HIGHLIGHTS

- **Canadian Commission on Construction Materials Evaluation (CCCME).** The CCCME met from May 17 to 18, 2018. The CCCME is made up of members from all over Canada. The CCCME's purpose is to oversee the CCMC's work by supporting innovation and technology transfer and by enhancing public safety in the built environment. The CCCME advises the National Research Council (NRC) on the overall administration of the CCMC, and provides both policy direction and mechanisms to respond to the needs of Canada's provinces and territories. As a result of the meeting, several initiatives were undertaken or planned to continue to service CCMC stakeholders and ensure the health and safety of Canadians. For more information, please contact the CCCME secretary at 613-991-2437.
- **First Nations National Building Officers Association (FNNBOA).** FNNBOA held the Northern Technical Forum & Tradeshow from March 19 to 21, 2019. The CCMC gave presentations on building regulations and conformity assessments (for example: standards, building codes and CCMC evaluations), and thermal insulation and air barrier systems (CCMC evaluations).
- **Saskatchewan Building Officials Association (SBOA).** The SBOA met from March 27 to 29, 2019. The CCMC gave a presentation about the NRC, CCMC, Codes Canada, code change requests, research and product evaluations, and how they support Canadian regulatory systems and authorities having jurisdiction.
- **New Brunswick Building Officials Association (NBBOA).** The NBBOA met from April 3 to 5, 2019. CCMC gave a presentation on the relationship between alternative solutions and CCMC evaluations using examples and case studies. The presentation included a summary of changes to the National Building Code of Canada (NBC) 2015.
- **Alliance of Canadian Building Officials' Associations (ACBOA).** The ACBOA met from April 23 to 26, 2019. The CCMC was present at this meeting, where technical and training support to building officials across Canada was discussed and promoted.
- **Ontario Building Officials Association (OBOA).** The OBOA met on the following dates:
 - May 22, 2019: Land of the Lakes Chapter, Kingston
 - May 27, 2019: City of Toronto, Scarborough
 - May 27, 2019: Building Materials Evaluation Commission, Toronto
 - May 28, 2019: Greater Toronto Area Chapter, Brampton
 - May 28, 2019: Simcoe County and District Chapter, Minesing
 - May 29, 2019: Grand Erie Chapter, Paris
 - May 29, 2019: Wellington, Waterloo and District Chapter, Kitchener
 - May 30, 2019: Southwestern Chapter, London
 - May 30, 2019: Niagara Chapter, Niagara Falls
 - May 31, 2019: Durham Chapter, OshawaThe CCMC gave several presentations on the relationship between alternative solutions and CCMC evaluations using examples and case studies. The presentation included a summary of changes to the NBC 2015.
- The **Manitoba First Nations Housing Forum** was held from June 11 to 12, 2019. The CCMC gave a presentation on CCMC's product evaluation services, roofing products and innovative materials.
- **Building Official Helpdesk.** To better support building officials, the CCMC launched the Building Official Helpdesk to answer questions about the construction products included in the [CCMC registry of product evaluations](#). For more information, please contact 613-990-1678 or see the [press release](#) on the ACBOA website.

SPECIAL ANNOUNCEMENT

In the coming months, the CCMC will be transitioning to code compliance certification following the requirements of ISO/IEC 17065, "Conformity assessment – Requirements for bodies certifying products, processes and services." These changes will help us better serve Canadian construction regulators and manufacturers. The process will include the new CCMC mark. Additional information will be provided in the coming months.

New CCMC certification mark

CCMC's MANDATE

In 1988, at the request of the provinces and territories (PTs), the regulators of construction across Canada, the CCMC was created as Canada's official evaluation service for building officials and the construction industry. Formalizing this relationship was a memorandum of understanding between Canada's federal and provincial and territorial governments. At the request of the PTs, the CCMC was centralized at the NRC in Ottawa, ON, working closely with Codes Canada and research experts.

The CCMC's mandate is to provide a technical opinion that a product or system complies with the requirements of Canada's building codes as an alternative solution and to provide verification that a product conforms to a recognized product or material standards.

As a federal government organization, and as part of the NRC, CCMC's due diligence on all evaluations is impartial, neutral and science-evidence based, and intended to protect the health and safety of Canadians. The CCMC applies the same objective, factual and rigorous processes to all evaluations, and provides an expert, unbiased opinion on code and standard compliance without commercial interest in the products evaluated. As a federal government entity, the CCMC stands behind all its technical evaluations.

CCMC STAFF PROFILE

Hélène Roche, P.Eng., has been an evaluation officer at the CCMC for the past 14 years. Prior to working for the federal government, she worked for over 15 years as a building science engineer with various consulting firms in Vancouver, BC and Ottawa, ON. A professional engineer in the province of ON, Hélène has a degree in building engineering from Concordia University. Roofing, cladding, insulation, decking and below-grade waterproofing are Hélène's main focuses when evaluating product evaluations. Currently, Hélène is the secretary of the CCCME, the CCMC Scheme Committee and the CCMC Integrity Committee. She is part of the team responsible for developing the new tools and systems required to transition the CCMC evaluation process to certification.

Hélène is also the past president of the [Building Envelope Council Ottawa Region](#). She is also on the NRC Engineering Challenge Organizing Committee, which encourages students in grades five and six to use creative thinking and teamwork to develop innovative prototypes for classroom and city-wide competitions on a yearly basis.

PRODUCT EVALUATIONS

NEW⁽¹⁾/RE-EVALUATED⁽²⁾ PRODUCT EVALUATIONS

CCMC No.	Product Name	Report/Listing Holder
06292-R	Hambro Floor-Ceiling Assembly	Canam Bâtiments - Hambro / Canam Buildings – Hambro
