## Family-Owned Business Since 1986

Parks Coffee® is a privately owned Office Coffee Service company, with humble origins in the family garage. Back in 1986 Randy Parks had a vision of bringing gourmet coffee and professional equipment to the office dwelling masses. In the early days, Randy worked as sales and route delivery man, while his wife Debbie handled the paperwork and ran a home daycare service. Now thirty years later, you'll see them both in the office, still honing the dream that has created a multi-million dollar business, with locations throughout Texas, Oklahoma, Arizona and southern California.

## Entrepreneurial Spirit Drives Us

And it's a vision shared by over 250 Parks Coffee® employees, who are constantly thinking up new and exciting ways to keep our customers happy. We cherish this spirit, as it constantly drives us to find a better path forward. "Some of our best ideas come from our team in the field, solving problems they are up against every day," says Randy, "and these ideas transform not just our own company, but the entire industry. We are a better company today because of the people we have, and the innovation we create together."

## We Invest in Our People

At Parks Coffee®, we pride ourselves on exceptional service and industry knowledge. Our employees are background screened before hire, and attend regular training classes, covering new products and equipment, customer service, and the intricate history and art of tasting and enjoying coffee.

### *Coffee & Customer Service Training*

Our week-long training course, lovingly called “Coffee U”, is crafted to train new employees, and to revisit our best practices every six months for experienced employees, with regard to workplace and warehouse safety, driving regulations, lifting/back safety, product rotation and inventory, professional mannerisms and verbiage, and customer service expectations.

During the first three days, employees must demonstrate understanding through verbal testing and group discussion, as well as an on-site driving test. At the end of the week, each driver is sent into the field with our Corporate Trainer for a ride-along Training Review.

Additionally, each month Parks Coffee Routemen are shadowed by their Supervisor to ensure our customers consistently receive our best.

### *See What We’re Made Of*

Across our company, each Parks Coffee® field employee is fitted with a uniform emblazoned with the Parks Coffee® logo. From our New Account Sales team, to our Route Sales and Supervisors, to our Service Technicians, our brand is visible, wherever we go. We wear our uniform as a badge of pride, as it gives us a united identity toward our common goal of providing excellent customer service. Beneath this badge, we are all a part of the Parks Coffee® family.

The most common associate from our company to interact in your building will be your dedicated Route Salesman, who visits regularly to clean, organize and inventory your break room. Parks Coffee® field employees are well-groomed and uniformed, for a consistent and easily identifiable presence within your building.

## **We Believe in Accountability**

### ***Steady Growth and High Standards of Care***

Since 2013, we have added close to 30 new routes and routemen to our personnel roster, and still keep our routeman to supervisor ratio at 3:1 for clear oversight. We always promote from within, so that our Route Supervisors and Branch Managers are familiar with and have lived within the day-to-day coffee route world. This allows them to have a better perspective of the best way to address any stresses and situations that may arise with our fleet or customer experiences.

### ***Routes are Regularly Reviewed***

Our corporate Dashboard Analyst reviews the progress and stability of each route salesman, regularly scoring them on eight aspects such as Truck Inventory and Organization, monthly contests, number of FPP pots delivered, as well as their Fleetmatics score. Each company vehicle is equipped with Fleetmatics GPS to monitor vehicle speed and location. It also monitors hard driving, turning and handling to maximize safety and fuel efficiency. We have high standards for our employees, and hold them accountable to our expectations.

## We Invest in Our Customers

Our main goal in providing great customer service is to constantly strive for our customers' affection. We cultivate relationships, building trust and loyalty along the way. Know that when you need us, we will be there.

### *Specialized Equipment*

Our award-winning Office Coffee Service includes top of the line commercial-grade coffee, water, and ice equipment, professionally installed in your break room. Whether you are looking for a standard drip coffee brewer for the break-room, or a high-end espresso for executive offices, we have the equipment and products to please even the pickiest of palates. We are trusted distributors for manufacturers like Newco®, BUNN®, Wilbur Curtis®, Keurig®, TotalOne®, Nespresso®, MARS Drinks®, Douwe Egberts®, Hoshizaki®, Oasis®, Follett® and many more. If there is a specialty machine or product you have your eye on, chances are we can get it for you.

### *Catering to Your Needs*

Brewing coffee is often the first morning task encountered when entering the office, easing you into the work day, and should never be frustrating. Parks Coffee® offers customers aid with brewer operation, by providing "How to Brew" cards and stands at every new installation. These "How to Brew" cards are simple to follow, with a small footprint and clean design. Other marketing materials, including wall signs, displays, and product merchandisers, are readily available.

Your friendly, uniformed Parks Coffee® routeman will visit your account on a regular basis to **Clean, Organize, Merchandize and Inventory (COMI)** your break room needs. Once your account is set-up, we work with you to create a listing of standard for items and set par levels. With this system in place, your routeman can assess and even foresee needs to keep your break room running smoothly.

Utilizing product merchandising and helpful assists, we spend more on our customers' happiness than our competitors do. Each Parks Coffee client is fitted with a customized breakroom layout, complete with brewing, water and/or ice equipment, and condiment caddies.

On installation, or as needed, "How to Brew" cards are implemented to introduce the new brewer technology to your office guests and employees. These cards are simple to follow, with a small footprint and clean design. Other marketing materials, including wall signs, displays and product merchandisers, are also available.

*Your breakroom is Cleaned, Organized, Merchandized & Inventoried (C.O.M.I.) with every visit*

*All pots go through the Fresh Pot Program (F.P.P.), to be washed, sanitized and hermetically sealed*

*Airpots from our Fresh Pot Program are washed and sanitized, then hermetically sealed.*

*Guardian Water Systems performs water filter replacements, and ice maker cleanings.*

## ***Fresh Pot Program (FPP)***

Most Office Coffee Service companies wash your coffee pots on site, creating noise, splashing water and perhaps breaking a pot in the process. This practice can be messy and distracting to your employees, and the pots typically still have specs of burned coffee or soap residue remaining, which can alter the taste of subsequent pots of coffee.

Parks Coffee® is the first and only Office Coffee Service company in the industry to develop and institute a program to provide customers with sanitized and sealed coffee pots, each time the routeman visits. This unique method, the Fresh Pot Program (FPP), calls for routemen to return each air-pot and glasspot or carafe to the Parks Coffee® headquarters, to be washed in a three-part, restaurant-style clean area, sanitized, air-dried, and hermetically-sealed using a heated oven to protect against dust and germs. We offer this service to all Parks Coffee® customers at no charge.

“We’re consumed with what happens when our people show up at your place, and create the ‘WOW’ effect,” says Randy Parks. “We’ve been obsessed with customer service since we’ve started... It’s a continual journey, as we get better and better with our customer service.”

## ***Ice Maker Cleanings & Filter Changes***

Guardian Water Systems is a Parks Coffee® company, dedicated to ice makers, water units and filter changes. Our service technicians are skillfully trained to install, service and sanitize all commercial ice and water machines. Service managers regularly attend conferences regarding the newest methods and equipment available.

Due to the moist environment, the inside of an ice maker can quickly become a cess pool for slime, mold, mildew and bacteria. To combat this potential harbor for bio-film, we recommend having your ice equipment professionally cleaned and sanitized, and filters changed, at least every 6 months depending on water conditions and needs.

## ***Innovative Break Room Solutions***

For an open-air approach to traditional vending, Parks Pantry® offers hundreds of satisfying, healthy, and delicious food choices to businesses in the Dallas, Fort Worth, Houston and Southern California areas. From our freshly made sandwiches and salads, to the snacks and beverages you crave, let Parks Pantry® cater to the taste-buds of each of your employees.

Each Parks Pantry® micro-market is tailored to fit the tastes and needs of your employees and space. We have mastered the art of customization, to approach your market setup and maintenance with the ease of a “turnkey” operation. Available to select locations in Dallas, Houston or Los Angeles. *Parks Coffee is roasted fresh, every day at our headquarters in Carrollton, TX*

## We Roast Our Own Coffees

### *Trace the Timeline of Freshness*

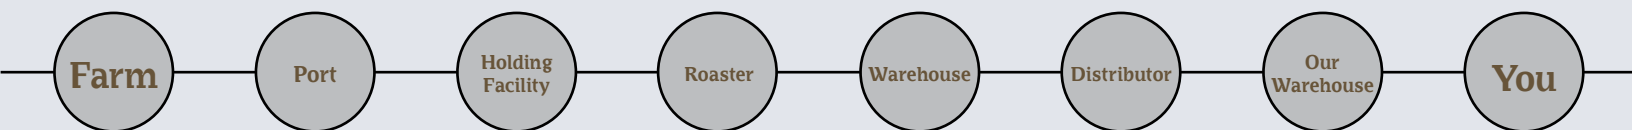

Coffee is at the heart of everything we do, and in 2003 we took a huge leap and began sourcing, blending and roasting coffee ourselves. This was a necessary step to ensure we put our name on a product that we know and understand completely, from bean to cup. “You care about the product because it has your name, and you want to be proud of what’s behind it, but also too, you know that you’re solely responsible for the customer experience at that end,” says Clay Parks. “I think we do a great job with that.”

National brand coffees may sit in more than seven steps before arriving at your office (from the farm, to port, holding facility, roaster, warehouse, distributor, our warehouse, then on to you). And the product can sit in any one of these locations for a while before it is sold. In contrast, the coffees roasted by Parks Coffee see no more than three steps before being delivered to your cabinet, ready to brew (from the farm, to port, our roaster, then straight to you). It’s a model of freshness that just can’t be beat.

### *Parks Coffee*

### *National Brands*

Coffee is grown along the “Bean Belt”, which is the area just around the equator, between the Tropics of Cancer and Capricorn. Arabica coffees are grown at elevations above 3,000 feet, with more aroma and flavor than the inferior low-land grown Robusta coffees, which are typically used by mass roasters to reduce costs. Today we roast over 25 varieties of coffees, blends and flavors, every single day, and each of our offerings are made of only Grade A, 100% Arabica beans.

## Parks Coffee® Around the World

At Parks Coffee, we share your passion for exquisite blends and bold flavors. All Parks Coffee blends are made with 100% Arabica beans. Arabica coffee is grown at higher elevations and produce higher quality beans with more aroma and flavor than the inferior Robusta bean, which is typically used by mass roasters to reduce costs. All coffee is grown in the “Bean Belt”, which is the area around the equator, between the Tropics of Cancer and Capricorn. So where exactly do the beans we use come from?

Blended Coffees	Roast Profile	Countries of Origin
Sunny Side Up® Breakfast Blend*	Mild	Brazil, Nicaragua, & Mexico
Parks House Blend	Medium	Honduras, Brazil, & Costa Rica
Donut Time®	Medium	Nicaragua, Brazil, & Mexico
French Café	Dark	Brazil, Nicaragua, & Mexico
Papa’s Prime Roast™	Dark	Mexico, Brazil, & Nicaragua
Darker Than Dark®	Intense	Honduras, Mexico, & Nicaragua

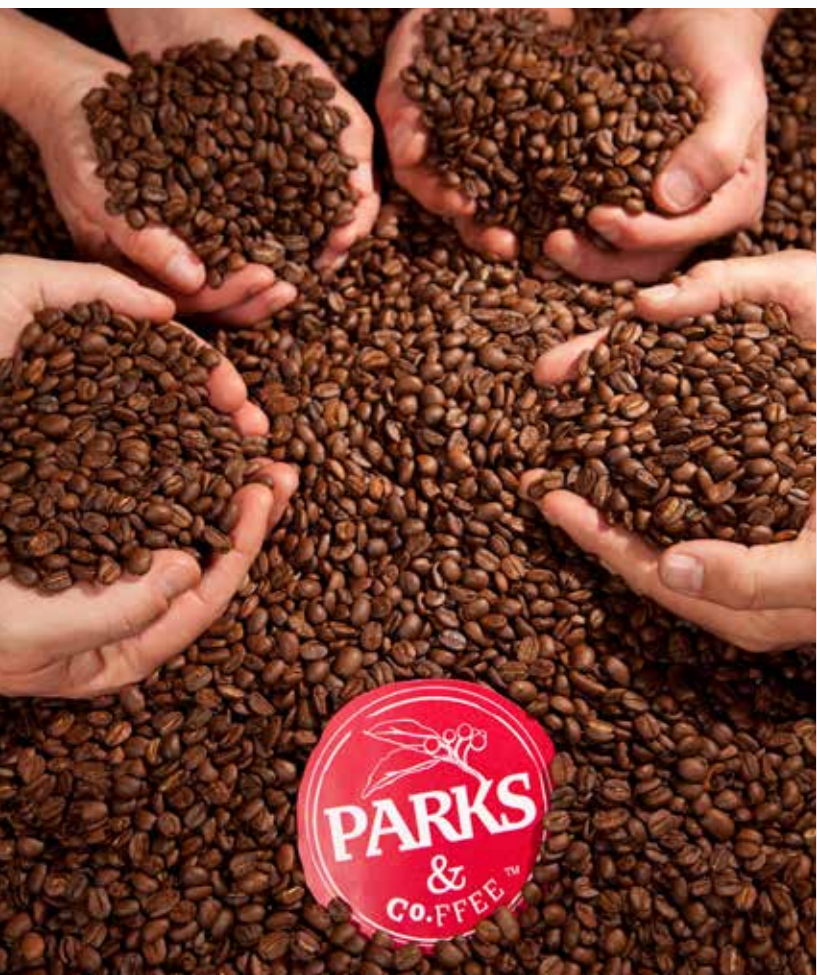

## What is “Single-Origin”?

Many coffees are blends using beans from different regions or countries to layer and compliment flavors and notes. “Single-Origin” is a descriptive term meaning the beans used come from a single country or territory, or it can be narrowed to indicate beans from a specific farm or coffee estate. Some coffee enthusiasts believe that single-origin roasts offer flavor profiles that are more pure and precise than those that are blended from different locales.

<b>2650</b> \$7.20	<b>Calm™</b> (herbal tea) 1 Box / 24 Bags For a tea as relaxed as Tazo® Calm™, there’s a surprising amount of stuff going on behind that wonderful apple-like aroma. It’s a blend of soothing chamomile blossoms, fragrant lemon balm leaf, pink rose petals, spearmint and sarsaparilla. Tazo says there’s also a bit of magic involved, but it’s really nothing they can talk about.
<b>2651</b> \$7.20	<b>Zen™</b> (green tea) 1 Box / 24 Bags Created using select full-flavored, pan-fired green teas from China, long fabled for their legendary properties. These teas converge with lemon verbena leaves, lemongrass and spearmint leaves in a blissful state.
<b>2652</b> \$7.20	<b>Awake™</b> (black tea) 1 Box / 24 Bags This finely balanced blend contains bold, malty teas from India and bright, flavorful teas from Sri Lanka. One sip and you’ll find it to be more flavorful than your typical breakfast tea. It may also help you find your car keys, but no promises.
<b>2653</b> \$7.20	<b>Earl Grey</b> (black tea) 1 Box / 24 Bags Tazo® Earl Grey includes some of the world’s most sought-after teas, grown in the high-elevation gardens of Sri Lanka and northeast India. Following the original recipe, Tazo adds the essence of bergamot, a citrus fruit with subtle lemon and spicy lavender notes. We think the aromatic result would have curled the Earl’s stiff upper lip into a smile.
<b>2654</b> \$7.20	<b>China Green Tips</b> (green tea) 1 Box / 24 Bags Every spring, as it has been for thousands of years, the first flushes of high-grown Mao Feng teas are plucked and quickly steamed to preserve a creamy, vegetative taste that heralds the return of life after the cold winter. Some of these teas are lucky enough to become Tazo® China Green Tips.
<b>2655</b> \$7.20	<b>Chai Organic</b> (black tea) 1 Box / 24 Bags An authentic blend of rich, black Indian teas and aromatic spices in the style of the hill-dwellers of the Himalayas. Medium-bodied yet full-flavored, with the spicy kick of cinnamon, ginger, cardamom, and black pepper.
<b>2656</b> \$7.20	<b>Wild Sweet Orange</b> (herbal tea) 1 Box / 24 Bags Tazo Wild Sweet Orange tea is an herbal infusion, caffeine-free tea. Enjoy its juicy blend of lemongrass, citrus herbs, licorice root and orange essences. Imagine the invigorating bite of a succulent orange in a Marrakesh market, and you get a sense of the taste of Tazo Wild Sweet Orange tea. It’s a blend of blackberry leaves, lemongrass, spearmint, orange peels and ginger that is quite wild indeed.
<b>2657</b> \$7.20	<b>Passion®</b> (herbal tea) 1 Box / 24 Bags A tantalizing, incredibly bold infusion of exotic botanicals and tropical flowers. Like nothing else on earth. One sip of Tazo Passion brings a luscious explosion of flavorful hibiscus, subtle citrus, tart rose hips and a kiss of mango and passion fruit.

### Eco Glossary:

**Bagasse** is made from sugarcane, and are strong, grease and cut resistant. Safe for microwave use and compostable.

**PLA** (polylactide) is made from corn. PLA products look and feel like plastic, but are 100% biodegradable and compostable.

**PSM** (plant starch) cutlery is made with 70% renewable materials that can be grown again and again, with a heat tolerance up to 200°.

**Recycled** paper items are made from post-consumer recycled materials that have been used, recycled and repurposed, meaning fewer virgin resources are required and less landfill waste is created.

## Guardian Water Systems

### ***Our Commitment to Clean Water is Clear***

Guardian Water Systems was created in 2005 and has become a major component in the Parks Coffee service model; a model that combines clean, crisp filtered water, with the rich aromatic flavor of Parks Coffee, delivered right to your breakroom using top of the line Point-of-Use technology.

### ***Coffee is 99% Water. And only 1% Bean!***

As a division of Parks Coffee, Guardian provides filtered water/ice service to all current Parks Coffee customers. Guardian ensures that, through regularly scheduled machine maintenance, cleaning and filter changes, you will always have clean, clear and refreshing water. Proper cleaning of your water cooler and ice units is imperative in keeping your water source free of bacteria and tasting great.

### ***Benefits of Point-of-Use Water Filtration***

- Less cost and hassle of transporting, storing and disposing of large bottles
- No heavy lifting required/less risk of injury due to bottle changing
- No risk of cross-contamination from dirty handling
- No creation of plastic waste from used bottles
- Elimination of bio-film slime enhances taste and minimizes risk of waterborne illness
- No more stacking, storing or lifting heavy, 43 lb / 5 gallon bottles
- Unlimited bottled-water-quality water
- Attractive styling
- The best health and wellness drinking water choice for business professionals

# Ice Cleaning & Sanitization

## *Clean, Clear, Refreshing Water*

Guardian offers installation, cleaning, and sanitization , as well as routine maintenance to insure your office has delicious, fresh ice, right when you want it. Should your ice and/or water system need maintenance or repairs, simply contact us at our toll-free number and we will address your ice maker issues within 24-hours with fast, friendly and efficient service.

Guardian premium filters provide sparkling clear, fresh and premium-quality water and ice for great tasting beverages. We use a unique filter blend that utilizes activated carbon to reduce chlorine and other offensive tastes and odors that can greatly affect the quality of your beverages.

Water should not taste stale. In fact it should have no taste at all. Guardian can customize a water filtration system to meet your needs, and leave you with just plain fresh water. In addition to changing filters, our technicians provide service and clean machines every 6 months, depending on your water conditions. Routine filter changes keep your water free from mineral build-up and unwanted water imperfections.

### **Before Service**

Limescale, slime, calcium deposits and more coat the inside of this ice machine. Dust covers the condenser coils, which can hinder freeze times. Storage bins are caked with grime, slime and calcium deposits.

### **After Service**

Fungus and scale have been scrubbed away, and machine is sanitized and ready to make clean ice. All dust and debris is removed from the coils. Storage bins are sparkling.

# We are the Office Refreshment Professionals.

Parks Coffee is a privately owned Office Coffee Service company based in Carrollton, Texas. Established in 1986, by President and Founder Randy Parks, Parks Coffee has evolved from a garage-based operation into a multimillion-dollar business. In only three decades, Randy has achieved what most small businessmen dream of: success.

Parks Coffee, in its 30th year of operation, has become a major player in the office coffee service industry. Starting as a meager one-man operation, Parks Coffee has grown exponentially, and now employs more than 300 professionals. We are headquartered in a 32,000 square foot, state-of-the-art facility, located in Carrollton, Texas, with eight branches total in four states.

Since our inception, Parks Coffee has gained ground in the OCS business by leaps and bounds. As a market leader in the coffee service industry we provide brand name products such as Starbucks, Seattle’s Best, FLAVIA, and Keurig, and we roast our own 100% Arabica bean coffees. Our company has won such awards as National Automatic Merchandising Association's (NAMA) Coffee Service of the Year award, as well the FLAVIA Outstanding Distributor Award, and Parks Coffee Owner/President Randy Parks has been named National Coffee Service Association's (NCSA) Operator of the Year.

With all of these premium coffee choices available, it can seem a little daunting to choose the perfect brew to fit your office. Our knowledgeable sales and service team are happy to help! With 30 years of coffee service experience, tastings and demos, we can help you select the brew options and blends that will best suit your office needs.
