CWI PROGRAM INFORMATION

The AWS Certified Welding Inspector (CWI) certification is widely recognized, both nationally and internationally, in the welding industry. Successful companies have come to rely on this AWS certification to ensure the highest level of quality workmanship.

The examination is based on three parts: *Part A – Fundamentals*, *Part B – Practical*, and *Part C – Code Application*. Please read the following important materials carefully before applying for the CWI exam:

- Welding Inspector Exam Application
- AWS Certification Schedule
- CWE Welding Instructor Credentials
- Certification Price List
- Visual Acuity Record
- AWS Exam Cancellation Refund Policies and other Fees
- CWI Body of Knowledge
- QC1:2007, *Standard for AWS Certification of Welding Inspectors*

To qualify for examination registration, a Welding Inspector Exam Application and the required supporting documentation must be submitted and approved. Applications with incomplete or missing information will be considered unqualified unless the missing documentation can be provided within two (2) week of being notified (via telephone or email) that their application is incomplete. If the applicant fails to meet the qualification criteria for the exam, the exam fee (or the exam portion of a seminar/exam package fee) will be refunded minus a processing fee.

Purchasing a seminar package that includes the cost of the exam **does not** automatically ensure registration for the exam. If applying for the seminar and the examination, applicants will automatically be registered for the seminar, but approval for the exam is contingent upon meeting the examination registration criteria.

The standard processing time is six weeks and applicants will be notified by an exam confirmation package.

AWS cannot guarantee space at an exam site if the application has not been received in a timely manner and has not been processed and/or approved by the Certification Department. When circumstances do not permit meeting the registration deadlines, fast track processing is available at an additional fee. Please contact the Certification Department regarding this procedure and its fees.

We recommend using priority mail with tracking options when mailing your application. If you choose to apply, please send your application package to:

**American Welding Society
Certification Department
550 NW LeJeune Road
Miami, Florida 33126**

PLEASE RETAIN A COPY OF ALL DOCUMENTS MAILED TO AWS.

All checks and money orders should be made payable to AWS. Payments must accompany your application.

- For questions regarding seminars, contact the Education Department, ext. 455.

CWE Program Information

The **Certified Welding Educator Program (CWE)** is geared for the welding professional specifically in the welding *education* field. This AWS certification confirms your ability, talent and knowledge to specifically direct and perform operations associated with welder training and classroom instruction. The **CWI** and **CWE** exams are identical; however the *Part C: Code Book* portion is ***not*** a requirement for the **CWE** certification. Both certifications (**CWI** and **CWE**) may be achieved simultaneously. Please check the appropriate box located on the top-left corner of the **CWI/CWE Exam Application** whether you applying for one or both certifications. It is *mandatory* that you also submit the **CWE Welding Instructor Credentials** form along with the ***completed* CWI/CWE Exam Application**.

Listed for your information are the following items. Please review these items carefully before applying for the **CWE** exam:

- QC5-91, *AWS Standard for Certification of Welding Educators*

- AWS Price List
- CWI/CWE Exam Application

If you are a current **SCWI**, **CWI** or **CAWI**, **and** you meet the Certified Welding Educator criteria outlined below, no testing is required for the **CWE** certification. Simply complete the **CWE Short Form Application**:

- Teach full or part-time in a classroom environment.
- Hold a valid welder certificate.
- Written recommendation from your teaching supervisor attesting to your teaching qualifications and ability.

The standard application processing time is (6) weeks. Please be advised that you will be notified (6) weeks **AFTER** your application has been submitted. We strongly urge applicants to please allow the (6) weeks processing time so that we at AWS may efficiently and accurately serve your certification needs.

We cannot guarantee space at an exam site if the application is received after the application submission deadline.
