The apprentice may use a supplemental page to log any arrangements or other competencies performed at an alternate facility as directed by their supervisor. Such page MUST be brought back and included in the log at the end of that specific assignment. The log book must be retained for a period of one year after full licensure as an embalmer, or, if not licensed as an embalmer, for six years after the last log entry and must include the following:

(A) Name of the deceased;

The application must be made on the most current form provided by the Board and be accompanied by the fee prescribed by OAR 830-020-0040, a certified copy of the applicant's birth certificate, and satisfactory proof of high school graduation or equivalency. If an applicant for an apprentice certificate does not have a high school diploma, he or she must present satisfactory evidence that he or she possesses the equivalent of a high school education received in a private, public, or trade school, or he or she must successfully pass the high school equivalency test (General Education Development Test) given by the local high school, or some similar equivalency test conducted by a similar agency. (4) It is the responsibility of the funeral service practitioner or person acting as a funeral service practitioner as that term is defined in ORS Chapter 432.005(11) to ensure that an identifying metal disc with a number assigned by the State Registrar's Office imprinted on the disc is attached to the casket or other receptacle containing human remains, or is attached to the remains if there is no receptacle.

(a) When human remains are to be cremated the identifying metal disc must be secured to the head end of the receptacle, or to the remains if no receptacle is used, at all times until the remains are placed in the cremation chamber.

(b) When human remains are going to be buried or entombed, the identifying metal disc must be attached to the head end of the casket or receptacle, or to the remains if no receptacle is used.

(c) The number on the identifying metal disc must be written or typed on the certificate of death and final disposition permit by the responsible funeral service practitioner or person acting as a funeral service practitioner as that term is defined in ORS Chapter 432.005(11).

(5) It is the responsibility of the Crematory Authority to see that the identifying metal disc accompanies human remains through the cremation process.

(6) It is the responsibility of the Cemetery Authority or Crematory Authority to see that the identifying metal disc is properly secured to each receptacle containing human remains, or, when no receptacle is used, to the remains, when remains are delivered to the facility and that the number on the identifying metal disc is the number recorded on the final disposition permit. The Cemetery Authority or Crematory Authority must sign the final disposition permit verifying this fact prior to accepting the remains. The Cemetery Authority or Crematory Authority may not accept remains without the proper identifying metal disc unless death occurred in a state other than Oregon.

(7) If, when the human remains are delivered to the crematory, cemetery or alternative disposition facility, no metal disc is attached to the receptacle or remains as required, or the disc number does not match the permit number as required, the funeral service practitioner or person acting as a funeral service practitioner as that term is defined in ORS Chapter 432.005(11) must retain responsibility for the proper care and storage of the remains until the correct disc is obtained and ensure it is affixed to the receptacle or remains. If the discrepancy cannot be resolved prior to any scheduled service, the funeral service practitioner or person acting as a funeral service practitioner as that term is defined in ORS Chapter 432.005(11), must take responsibility for notifying the person with the legal right to control final disposition that the disposition is postponed.

(8) If human remains or partial human remains, other than processed cremated remains, are discovered in a presumed unoccupied grave or crypt when opening the grave or crypt for purposes of an interment, the following is the responsibility of the cemetery authority:

(a) The cemetery authority must report the discovery to the Board on a form that has been approved by the Board.

(b) The cemetery authority must exercise diligence under the circumstances to identify the human remains.

(c) If positive identification of the remains is made, and if disinterment is not authorized pursuant to ORS 97.220 or 146.045, the human remains must not be further disturbed, the interment space must be immediately closed and the cemetery authority must update the cemetery records for that grave or crypt to include all relevant information known to the cemetery authority regarding the human remains, as outlined in OAR 830-040-0000 and ORS 97.720.

(d) If the human remains cannot be identified, and if disinterment is not authorized pursuant to ORS 97.220 or 146.045, the human remains must not be further disturbed, the interment space must be immediately closed, and the cemetery records must reflect that the interment space is occupied by unidentified remains, the date of discovery, and indicate that the space is not available for further interments.

(e) If the human remains are positively identified as remains that were originally interred in a grave adjacent to the opened grave but entered the opened grave during excavation or due to the operation of natural forces underground, the cemetery authority must make a reasonable effort to return all soil, human remains, and funerary objects to the interment space from which the material originated. The cemetery authority, if feasible, may then proceed with opening the unoccupied grave for interment.

(9) If processed cremated remains are discovered in a presumed unoccupied grave, crypt or niche when opening the grave, crypt or niche the following is the responsibility of the cemetery authority:

(a) The cemetery authority must report the discovery to the Board on a form that has been approved by the Board.

(b) If the cremated remains are identified, the cemetery authority must use reasonable diligence under the circumstances to determine if such cremated remains were placed with the permission of the cemetery authority. If no such permission was given, the cemetery authority must attempt to deliver the cremated remains to a person within the first applicable listed class in ORS 97.130(2).

(c) If the cremated remains cannot be identified or if the cemetery authority is unable to deliver the cremated remains to a person within a listed class under ORS 97.130(2), the cemetery authority must hold the cremated remains indefinitely and at a minimum, place the cremated remains in a common grave, crypt or niche, and record the specific location of the remains therein.

(d) The cemetery authority must retain a permanent record of the known circumstances of the cremated remains including at a minimum: The original location where the cremated remains were discovered, the steps taken to identify and deliver the cremated remains, and the ultimate re-disposition of the cremated remains.

(10) When a licensee arranges for the scattering of cremated remains, the licensee must include in the licensee's permanent records the final location of the cremated remains and make the identifying metal disc a part of the licensee's permanent record.

(11) It is the responsibility of the funeral establishment or immediate disposition company licensee handling the disposition of human remains to pay the death certificate filing fee as required in ORS 432.312(1). This fee must be paid within 30 days after the billing and, in no case longer than 90 days after the billing. Failure to pay death certificate filing fees is cause for disciplinary action by the Board.

(12) It is the responsibility of each licensed facility to assign a manager for each facility and to notify the Board in writing within 30 days of the assignment. In the case of funeral establishments and immediate disposition companies, the manager must be an Oregon licensed funeral service practitioner.

(13) Upon providing written notification to the Board, a funeral service practitioner may be permitted to manage two funeral establishments or two immediate disposition companies, or one of each. A funeral service practitioner may be authorized by the Board to manage more than two funeral establishments or immediate disposition companies, or a combination of same, upon providing a written request to the Board that describes the basis for the request. The

Board may approve the request after consideration of relevant facts or circumstances including, but not limited to, information that the Board may request from the funeral service practitioner.

Care of Human Remains

(1) All human remains that will be embalmed must be disinfected by approved disinfecting solutions in such manner to help eliminate the danger of spreading diseases or infection. All human remains that are not going to be embalmed must be wrapped in a sheet. If human remains are to be held longer than 24 hours, the remains must, at minimum, either be embalmed or refrigerated at 36 degrees F. or less until final disposition.

(2) It is the duty of funeral service practitioners and embalmers to see that every precaution is taken to prevent the spread of infections from persons who have died of or with communicable diseases.

(3) An embalmer must not embalm human remains without obtaining written or oral permission of a person who has the right to control the disposition of the remains. When oral permission is received to embalm, the licensee obtaining the oral permission must document the oral permission in writing. Documentation must include the name and phone number of the authorizing agent, relationship to the deceased, date and time oral permission was obtained, and printed name and signature of the licensee or facility representative acquiring the oral authorization. An authorizing agent must confirm the oral permission on a written, signed embalming authorization form as outlined in OAR 830-040-0000(7).

(4) All human remains must undergo final disposition within ten days after a licensed funeral establishment takes possession of the remains. Misleading Business Practices

The following practices are prohibited and are considered misrepresentation in the conduct of doing business:

(1) Any sales presentation or practice that conceals or misstates a material fact is considered a misrepresentation in the conduct of doing business.

(2) Any guarantee or representation that the prospective purchase would realize a profit by reselling at a later date.

(3) Any use of interment space used for the interment of human remains including cremated remains, other than those of the owner of that space or interment rights thereto, or placement of other materials belonging to a person other than the owner, without the prior written authorization by the owner of such space or interment rights. If the person authorizing such interment or placement of materials represents that he or she has authority to direct the interment or placement, a licensee is not in violation of this rule if, after due diligence, the licensee reasonably believes such person may direct the interment or placement of materials.

(4) Any failure to comply with the terms of the sales contracts or state or local law requirements, with respect to irrevocable permanent care, and failure to comply with any other applicable laws and regulations relating to cemeteries.

(5) Any advertising or other presentation or indication that a licensee is in any way connected with the federal government, any other government agency, or any veterans' or other organization. If a veterans' organization or government agency is referred to in any advertisement, sales program or presentation the licensee must include a disclaimer in bold type to the effect that "This facility is not financed or connected in any manner with any government agency or veteran's or other organization".

(6) Any use of advertisements, printed materials, forms, or any other materials that resemble or suggest official government documents or publications.

DIVISION 40

FUNERAL ESTABLISHMENTS, IMMEDIATE DISPOSITION COMPANIES, CREMATORIUMS, CEMETERIES, ALTERNATIVE DISPOSITION FACILITIES AND OPERATORS OF SAME

830-040-0000

General Principles

(1) Every licensee is responsible for complying with the provisions of ORS Chapter 692 and rules adopted thereunder, and any other law pertaining to the duties and responsibilities of the funeral service practitioner or the operation or licensing of funeral establishments, immediate disposition companies, cemeteries, crematoriums and alternative disposition facilities.

(2) Alternative Disposition Facility Authorities must comply with the requirements in this division (division 40) for Crematory Authorities and cremated remains, as if alternative disposition remains are cremated remains, as if the facility is a Crematory Authority, and as if dissolution is cremation.

(3) The Board may refuse to allow use of any facility name that is misleading as to the nature of the facility's purpose.

(4) When a person, firm, partnership or corporation applies to the Board for a facility license, the name on the application must identify the primary activity of the facility. This name must be the registered name with the Board and must also be used as the advertised name of the facility.

(5) Each licensed facility must provide the Board with its true corporate, firm or individual name. Applications for all licensed facilities must be made on the most current application and specify the names of all principals. If the principal is a corporation, the application must include the names of all principals of that corporation.

(6) When there is a change in any principal of the licensed facility, the licensee must provide the Board with the name of the new principal(s) on the most current form provided by the Board within 30 days of the change. If the new principal is a corporation, the licensee must provide the names of the principals of that corporation to the Board on the most current form provided by the Board.

(7) All licensees and licensed facilities must keep a detailed, accurate, and permanent record of all transactions that are performed for the care, preparation and final disposition of human remains. The record must set forth as a minimum:

(a) Name of decedent and, when applicable, the identifying metal disc number provided by the State Registrar's office;

(b) Date of death;

(c) Name of person arranging for delivery of goods and services and the person authorizing the final disposition;

(d) Name of place of disposition. In cemetery records, the "name of place" means exact location of the interment of human remains by crypt, niche, or by grave, lot and plot;

(e) The name of the funeral service practitioner, cemetery, crematory or alternative disposition facility personnel responsible for making and executing the arrangements pertaining to the delivery of goods and services;

(f) The name of the embalmer and funeral establishment responsible for embalming (applies only to funeral establishment records); and

(g) Written permission for embalming, final disposition and scattering services from the person who has the right to control disposition of the human remains pursuant to ORS 97.130(1) and (2). The record of such authorization must include at a minimum: printed name, signature and phone number of the authorizing agent and relationship to the deceased, date and time permission was obtained, and printed name and signature of the licensee or facility representative acquiring the authorization.

(8) In the case of cremation, the licensee responsible for making the cremation arrangements must require the authorizing agent making the cremation arrangements to provide the licensee with a

signed statement specifying the action to be taken regarding delivery of the cremated remains. A copy of this statement must be retained in the permanent records of the responsible licensee.

(9) If cremated remains are not retained by the licensee accepting initial responsibility for the remains, the licensee must, upon delivery of such cremated remains to another individual, obtain a signed receipt from that individual. The receipt must include as a minimum: printed name of the individual receiving the cremated remains, the name of the deceased, and the date of delivery of the cremated remains, the receiving individual's signature and the printed name and signature of the licensee or the licensee's representative releasing the cremated remains.

(10) No licensee or operator of a licensed facility or a licensee's agent may:

(a) Fail to preserve required records for inspection by the Board; or

(b) Alter, cancel or obliterate entries in records required by law to be made, maintained or preserved.

(11) After human remains are released to the Cemetery Authority, they must be placed in their designated grave, crypt or vault within 24 hours after taking possession unless exigent circumstances exist. After human remains are released to the Crematory Authority, those remains must be cremated and processed within 48 hours unless exigent circumstances exist. In such exigent circumstances, the facility must notify both the funeral service practitioner responsible for the arrangements and the office of the Board. The licensed facility, funeral service practitioner, or person acting as the funeral service practitioner under ORS Chapter 432, responsible for the arrangements for that deceased, must notify the family of such exigent circumstances and, at the request of the cemetery or crematory, pick up and arrange for proper storage of the remains within 24 hours of notification.

(12) No licensee or employee or agent of a licensed facility, may pay, cause to be paid or offer to pay, and no person, firm or corporation may receive, directly or indirectly, any commission, bonus, rebate or other thing of value in consideration for recommending or causing human remains to be taken to any specific funeral establishment.

(13) Facilities must post their facility license and certificates of apprenticeship in a conspicuous location for public viewing. Other individual licenses will be available for inspection upon request.

(14) Every Cemetery Authority, Crematory Authority and Alternative Disposition Facility Authority must keep the Board's office informed of the location of their permanent records. These records must be made available for random inspections by the Board at any reasonable time.

Inspection of Licensed Facilities or Location Where Records Are Kept: Investigations

(1) Facilities must keep their premises sanitary at all times.
 (2) Every licensee must accommodate the inspector or investigator of the Board in making his or her inspections unless the licensee can clearly demonstrate that such accommodations will negatively impact the ability to provide scheduled services to consumers or that exigent circumstances exist. In such cases and upon the request of the Board, the licensee must make the reasons known to the Board in writing within ten days following the attempted inspection. When entry is refused under this section, the Board may obtain and execute warrant for inspection.

(3) No licensee or employee of a licensed facility may give false or misleading information to an inspector, investigator or any other member of the Board while investigating a possible violation of law or administrative rules.

(4) Every licensee must provide the Board inspector or investigator a copy of all documents as requested relevant to the inspection or investigation.

(5) No person, licensee, or any agent of a licensee, may interfere with any inspection or investigation conducted by an agent of the Board.

(6) The Board may inform a licensee of the nature of any complaint against the licensee that is being investigated except when the Board finds that disclosure of the potential violation would impede the effectiveness of the investigation, or that a serious danger to the public health or safety exists.
