Turn your passion into a career

“Charles Darwin University let me customise a study plan. That was the moment I knew I was going to apply. Having studied with Charles Darwin University previously, I knew how supportive the university can be. The amazing people I’ve worked with have helped me balance the demands of study, work and family.”

– BP Bhandari, online Creative Arts student who is pursuing a new career path in filmmaking.

Join us to build the new world

We are a university that will empower and support you by offering an inclusive, flexible and online learning environment.

Whether you're looking for part-time online study, or you want to build face-to-face connections with a tight-knit campus community, there's a place for You at CDU.

You make CDU

100% flexible

Because we value your life experience, we offer flexible study options so you don't have to put your life on hold.

You can study online – in most cases, 100% online – or on campus, part time or full time, and you can switch between these options during your degree.

You'll have access to an easy-to-use online study platform, 24/7 academic and technical support, and lecturers and staff who know how to support you from a distance. After all, Charles Darwin University has been delivering online and distance education for more than 30 years.

Graduate job-ready with a salary to match

According to the 2021 Good Universities Guide, Charles Darwin University is ranked a top two university in Australia for graduate employment outcomes and starting salaries.

Through a combination of innovative online learning, practical placements, expert lecturers, strong industry links and student support, our degrees prepare you for the real world of work and beyond.

Personal and supportive

Charles Darwin University offers small class sizes, so you will be more than just a student number. Our lecturers and tutors give you the attention and support you need to succeed in your studies. They are never more than a phone call, email or appointment away. Rest assured, they'll work hard to get to know you and support your study goals.

"Being able to study a postgraduate nursing certificate in a short, intensive time frame was great for me. It only took 13 weeks to finish and was mostly online."

– Robyn Bennett - postgraduate Nursing student

Easy-to-use online classroom

Charles Darwin University is a national leader in online learning. Whether you study online or on campus, you'll have access to our online learning platform, Learnline. It's powered by world-class technology and a team of staff and academics who have been delivering and supporting online study for decades.

24/7 academic and technical support

Access your very own study-specific online tutoring service, including feedback on draft assignments to help you learn and improve. We also offer round-the-clock technical support via email, call and chat to ensure you stay connected.

Collaborate effectively

Find clear, simple and responsive learning tools to collaborate and manage your time more effectively.

Choose your format

Access your learning materials in text, video or audio.

Due date reminders

Stay organised with Learnline's calendar, which automatically keeps track of due dates for your assessments and exams. Choose how you'd like to be reminded of tasks, assessments, exams and grades.

Access on any device

Attend your lectures and access learning materials on desktop, laptop or mobile device. Upload your assignments from anywhere and on any device.

Stream live or catch up later

Take part in interactive lectures and group discussions live or download recordings or resources to access later.

Study support wherever you are

Whether you study online or on campus, you'll be surrounded by a network of study buddies and support services to help keep you motivated, focused and on-track with your studies.

Online study buddies

Enjoy seamless, interactive collaboration with your peers, tutors and lecturers on Learnline. Jump into forums, join discussion boards and chat online with your fellow students – any time of the day or night, across Australia and beyond.

Free career advice

The Careers and Employment team offer expert advice and online tools to help you find a job, understand your work style, build your CV, practice job interviews, and more.

Free academic skills programs

Peer Assisted Study Sessions (PASS) are online and on campus group study sessions run by students, for students. Students who have successfully completed the same unit will teach you new study skills, assessment techniques and exam preparation strategies.

The Academic Language and Learning Success Program (ALLSP) is a free, confidential academic skills service to help you improve your study skills and understand what your assignments require. Get advice at drop-in sessions, personal appointments, online tutorials, or workshops.

Support for Indigenous students

A dedicated Indigenous Student Services team provides multi-layered support to Aboriginal and Torres Strait Islander students all over Australia. This includes free tutoring, as well as support with travelling away from home, application processes, scholarship applications, and more.

Student Central dream team

Student Central is your one-stop spot for support and guidance. You can phone, email or visit them for advice on admissions, timetabling, enrolling, exams, course fees and payments, study plans, scholarships, and more.

Log on to the library

Online and on campus students have 24/7 access to library resources. Professional library staff are ready to help over the phone, via email, or face-to-face on most campuses.

Equal access

A dedicated Equity Services team provides free and confidential counselling, services and support for students with a disability and/or health condition. This may include providing adjustments to your study conditions, course materials in other formats, or assistive technology.

On Campus

Today, Charles Darwin University has more than 24,000 students spread across 10 campuses and centres spanning the Northern Territory, Sydney and all of Australia as they study online. A range of facilities are available on campus, these can also be accessed by online students who live nearby.

- cafes and dining options
- student lounges
- student advocacy
- childcare
- IT kiosk
- a range of accommodation options
- sports facilities, such as tennis courts and covered basketball courts
- gardens and green open spaces
- a well-equipped library with computers and plenty of books and DVDs for hire
- CDU bookshop for all of your textbook needs.

Convenient accommodation

On campus

- **International House Darwin**, located on the Casuarina campus, is a relaxed and vibrant community set within tropical gardens, with students from more than 40 countries calling it home.
- **Alice Springs Student Accommodation** offers single and twin-share rooms, with communal kitchens, a self-service laundry, and WIFI.
- **Katherine Student Accommodation** offers single rooms that can be inclusive of meal options if required. Residents have access to a recreation room, dining room, sports oval, and pool.

Off campus

- **UniLodge** offers modern student apartments located just 800 metres from our Casuarina campus.
- The Equity Services team can also help you find off-campus accommodation.

Travel while you study

With a study abroad program, you can see the world while completing your degree.

Our vast range of short and long-term international study experiences run across Northern America, Europe and Asia, with more than 40 partner universities.

Generous funding is available to eligible online and on-campus students. Learning abroad opportunities will be available once international borders open.

If you are interested in a learning abroad experience please contact: cduglobalengagement@cdu.edu.au

“I went from living in Darwin, a city of 150,000 people, to working for a law firm on the 34th floor of a skyscraper in Jakarta, with 20 million people. It was an incredible experience.”

– Max Stretton, Law student who spent a semester abroad in Indonesia.

Entry requirements that recognise your achievements

Perhaps you didn't ace Year 12, decided to start your career with a trade, parked your first degree to go travelling, or you already have great professional experience in your industry.

We welcome and celebrate unique paths like these, which is why we offer a range of non-traditional, flexible entry requirements. For most of our undergraduate degrees, you can apply on the basis of:

- ➔ An Australian Tertiary Entrance Rank (ATAR) of 60 or higher
- ➔ A Vocational Education and Training (VET) or TAFE Certificate IV or higher
- ➔ A score of 135 on the Special Tertiary Admissions Test (STAT)
- ➔ Successfully completing at least one semester of full-time study of a university degree or diploma
- ➔ Successfully completing a recognised university preparation course, such as our free Tertiary Enabling Program
- ➔ Your work or industry experience, outlined in a personal competencies or employment experience statement.

Some undergraduate degrees have higher admission requirements. Find out more at cdu.edu.au/study

Returning to study with us

If you've previously completed a VET Certificate IV or higher, Tertiary Enabling Program or Undergraduate degree at Charles Darwin University, you can apply for your next course directly rather than via SATAC or UAC.

MyNextCourse is an easy, online portal that allows you to apply faster, avoid SATAC or UAC application fees, and receive your offer sooner. Visit mynextcourse.cdu.edu.au.

English language requirements

To gain entry into Charles Darwin University, all Higher Education applicants must satisfy the University's English Language Proficiency Requirements for their chosen course of study. International applicants will be required to supply evidence of this at the time of application.

The minimum English language requirement varies for each course, but can generally be met by either:

- ➔ **providing a declaration that English is your primary language and you have attended and satisfactorily completed at least six (6) years of continuous education that is equivalent to secondary education taught and assessed in English in one of the recognised countries*, including at least two years between years 7 and 12.**

(*recognised countries include Australia, Canada, New Zealand, Republic of Ireland, South Africa, United Kingdom or United States of America)

- ➔ **undertaking one of the following English language tests and obtaining the minimum requirements listed for your course**
 - IELTS Academic Module
 - Cambridge Advanced English (CAE)
 - Common European Framework Certificate of English Proficiency
 - Pearson Test of English (PTE) Academic module
 - TOEFL Internet-based Test (iBT)

* All tests are valid for two years from the date of the test to the date of commencement at CDU, unless otherwise specified.

* Where applicable, international applicants must also satisfy the Department of Home Affairs (DHA) English language requirements for student visa applications.

For more information please visit your course page at cdu.edu.au/study

Do you have a question regarding English requirements at CDU?
Please email: international@cdu.edu.au.

How to apply

There are several methods of applying to study at Charles Darwin University. You can apply via a Tertiary Admissions Centre. If you live in the Northern Territory, South Australia, Victoria, Western Australia, Tasmania or the Australian Capital Territory, apply via the South Australian Tertiary Admissions Centre (SATAC). If you are a resident of New South Wales, apply via the Universities Admissions Centre (UAC).

If you're returning to study at Charles Darwin University, you may be eligible to apply directly via MyNextCourse. Visit

Apply through SATAC or UAC

1

Explore SATAC/UAC course search

Visit satac.edu.au or uac.edu.au to find information about entry requirements, selection processes and application dates for your preferred course.

2

Register with SATAC or UAC

To start your application, you will need to register with SATAC or UAC. You can find instructions for this on their websites.

Once you have registered as an applicant:

- SATAC will send you an acknowledgment email with a link to access your online application

or

- UAC will send you an acknowledgment email with your application number and UAC pin.

3

Complete your application

Follow the instructions from SATAC/UAC to start and finish your application. Remember to save as you go!

Although SATAC/UAC can access most of your Australian study records, it's helpful to upload your relevant registration, VET/TAFE and overseas qualifications when you apply.

SATAC/UAC may contact you for further information.

4

Accept and enrol

If your application is successful you will receive an offer to study at Charles Darwin University. This will arrive via email from SATAC or UAC.

Shortly after that, we will email you information on how to enrol and attend our orientation.

If you have received an offer for a quota course, you must enrol by the date specified in your offer. If you don't, the offer will lapse and your place may be offered to another applicant.

Application FAQs

Q What is the difference between applying and enrolling?

Applying is the first step towards university. It refers to submitting an application for a course.

Enrolling happens once your application has been processed, and you have received an offer and accepted a place. Enrolling generally requires you to activate your student account and choose your units.

Q When do I need to apply?

The application closing dates change from year to year, depending on the start date of each semester. Generally you can apply right up to the week before classes start, but don't leave it to the last minute! You should aim to apply by SATAC or UAC cut-off dates. This will give you the best chance at securing a place, and allow ample time for your application to be processed and to enrol in classes.

Q Do I have to pay an application fee when I apply for a course?

If you are applying to study with us via SATAC or UAC, there is an application fee. This fee is charged by SATAC or UAC.

If you are a returning Charles Darwin University student, you may be eligible to apply via MyNextCourse. There is no fee for this. Visit mynextcourse.cdu.edu.au to check your eligibility.

Q Who can apply for a scholarship?

Scholarships are not only for high achievers. All students at Charles Darwin University can apply for a scholarship as long as you meet the scholarship's eligibility criteria.

Q How do I apply for credit transfer?

You can request a credit transfer once you have applied for a course at Charles Darwin University and accepted an offer to study with us. Once this is done, you can lodge an application for credit transfer and supply the required documentation.

Choosing a course

This guide details the undergraduate and postgraduate courses on offer at CDU in 2021-22.

Courses are offered in the study areas of:

- Aboriginal and Australian Studies
- Business and Economics
- Computing and Information Technology
- Education and Teaching
- Engineering
- Environmental Studies
- Humanities and Social Sciences
- Law and Legal Studies
- Medicine and Health
- Science and Mathematics
- Tertiary Enabling Programs.

Each course offers a unique mix of components and varies in both the subject units and teaching mode. We offer online and on-campus study options, giving you the choice to study where, when and how it suits you.

What should I study?

There are many factors to consider when you're deciding what to study. What do you enjoy? Students who enjoy their subjects tend to do well at university.

What are your career goals? If you have a specific career in mind, research the qualifications you'll need to work in that field or role.

Take time to browse this brochure and consider your options.

Course key

The course key on each subject will help you understand the course components.

Muriel, now studying her second degree with CDU, was drawn to the flexibility and wide range of learning opportunities on offer with a Science degree.

“The course offered the professional aspect in science that I was looking for. It offered the chance to try a range of different electives and ticked all the boxes. I had no need to search for a course elsewhere.”

– Muriel Scholz, Health Science student

Enabling courses

Tertiary Enabling Program

COURSE CODE – ZTEP01

Alice Springs, Casuarina, Online

DURATION – 6 months full-time, 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Tertiary Enabling Program (TEP) is a free program that helps build your academic skills, knowledge and confidence for studying at university.

During the program, you will develop the skills and strategies for managing university life and study.

You will study key areas such as:

- > computing for tertiary study
- > academic language and learning
- > foundation maths
- > bioscience
- > historical and contemporary issues.

TEP is for you if:

- > it has been a while since you last studied and feel like you now need to refresh your skills
- > did not achieve an adequate Australian Tertiary Admission Rank (ATAR) or equivalent
- > have not completed other eligible qualifications that meet the minimum entry requirements for most CDU undergraduate courses.

TEP is free for Australian and New Zealand citizens, permanent residents and Humanitarian Visa holders. You can study TEP online or on campus.

ADMISSION REQUIREMENTS

To be eligible for the Tertiary Enabling Program (TEP):

- > you must be 18 or over by the census date of the relevant semester.
- > you must be an Australian or New Zealand citizen (residing in Australia), permanent resident or Humanitarian Visa holder
- > you must successfully complete an online writing task that will be used to determine your eligibility for entry into the program.

Preparation for Tertiary Success 1

COURSE CODE – ZPTS11

Casuarina, DPC Alice Springs

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

Preparation for Tertiary Success 2

COURSE CODE – ZPTS21

Casuarina, DPC Alice Springs

DURATION – 6 months full-time, 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

Preparation for Tertiary Success (PTS) is a tertiary enabling course providing Aboriginal and Torres Strait Islander students with a culturally supported pathway to university readiness. The course integrates Indigenous and Western knowledges and the development of life-long learning skills such as: coping with change, making meaningful links, asking critical questions, expressing creativity, strengthening learning relationships, building resilience and developing strategic learning awareness.

This program introduces you to the culture of higher education and builds the academic skills needed to achieve success in your studies.

This course is for you if:

- > you are Aboriginal or Torres Strait Islander
- > you have not completed year 12
- > you have completed year 12 but did not receive the required ATAR score
- > you have completed a Certificate III or IV course or can demonstrate sufficient skills and knowledge to undertake studies
- > you have not studied for a long time and want to refresh your academic skills.

ADMISSION REQUIREMENTS

To be eligible for the Preparation for Tertiary Success Program (PTS), you must be 18 or over by the census date of the relevant semester and of Aboriginal or Torres Strait Islander descent. You will need Year 10 or Year 11 standard. If you are a mature person without Year 10 or 11, you can apply on the basis of your skills and experience.

Indigenous Pre-law Program

COURSE CODE – ZIPLP1
Waterfront Darwin

DURATION – 6 months full-time

DOMESTIC INTAKE – Summer Semester

On completing the program, students can continue their studies with a Bachelor of Laws at CDU. They may have the option to start their degree immediately after finishing the Pre-Law Program.

ENTRY REQUIREMENTS

This course is only available for Aboriginal or Torres Strait Islanders who would like to pursue a career in law and be supported through peer-to-peer learning and mentoring.

ABOUT THE COURSE

The Indigenous Pre-Law Program is a pathway and mentoring program for Aboriginal or Torres Strait Islander students who wish to pursue a career in law.

The program commences in January or February each year. It is made up of two components: a four-week, full-time intensive study block delivered on campus at Darwin Waterfront, and ongoing individual and group mentoring.

Undergraduate courses

Diploma of Indigenous Research

SATAC CODE – 116241

Casuarina, Online

UAC CODE – 591060

Casuarina, Online

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Diploma of Indigenous Research is designed for Indigenous students. It offers the opportunity to draw on your own knowledge, heritage and cultural traditions to carry out on-ground research work and learn about ways that research may contribute in positive ways to Indigenous people, places and futures.

If you are new to research, this course offers an introduction to key issues and themes, as well as the opportunity to develop practical skills informed by the place where you live and its law and knowledge.

If you are already exploring your own research projects, the Diploma of Indigenous Research offers supervision and support, as well as the chance to meet other students exploring their own projects in other places.

If you are an experienced researcher, the course offers a way to demonstrate this and be recognised for the skills and practices that are important in your workplace or community and to the people and places with whom you work.

This course includes an on-ground research project where you will be supported to develop your own research work in urban or remote Aboriginal communities. All units in the course are available online and can be carried out in the places where you live and work.

CAREER OPPORTUNITIES

You will graduate with the knowledge and skills that are useful for research within Aboriginal and Torres Strait Islander contexts, organisations and communities, government departments and agencies or private agencies and organisations that are involved in Indigenous research.

The course seeks to credential the Indigenous research knowledge and skills you already have and helps you apply it in other research settings.

ADDITIONAL ADMISSION REQUIREMENTS

Applicants will need to have the ability to draw on important cultural knowledge and experiences, and observe relevant cultural protocols in the use of that knowledge to successfully complete this course. Applicants must contact the College of Indigenous Futures, Education and the Arts by email cifea_qteam@cdu.edu.au to arrange a short interview to discuss suitability prior to applying.

Consideration will also be given to applicants that do not meet the University's minimum entry requirements who have relevant professional experience and knowledge in Indigenous work.

Bachelor of Accounting/Diploma of Laws

SATAC CODE – 184041
Waterfront Darwin, Online

UAC CODE – 590471
Waterfront Darwin, Online

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Accounting/Diploma of Laws is a unique course that prepares you to qualify as an accountant and teaches you about the legal issues affecting accounting practices. The course is an opportunity to gain two qualifications in three years (if you study full time) and expand your career prospects as a more sought-after accountant in the corporate world.

The Bachelor of Accounting will give you the employment and professional skills you need in a rapidly changing business environment. You will learn about financial accounting, management accounting, auditing, taxation, business law, corporate law, and finance. The course also develops your communication, presentation and problem-solving skills.

The Diploma of Laws is designed to give you an understanding of the law, without committing to a full law degree. You will gain a broad understanding of how the legal system and legal processes

impact corporate accounting. During the course, you will choose from a range of specialist units in law, so you can tailor your studies to suit your accounting interests and career goals. On completing the diploma, you can apply to study a Bachelor of Laws and transfer credits for the units you have completed, so you can finish your degree faster.

PROFESSIONAL RECOGNITION

On graduating, you will be eligible to apply for membership of CPA Australia, The Chartered Accountants Australia and New Zealand (CAANZ), and The Chartered Institute of Management Accountants in the U.K.

CAREER OPPORTUNITIES

Completing a Bachelor of Accounting/Diploma of Laws dual qualification can lead to a wide range of career opportunities in small, medium and large organisations. An accountant with knowledge of the law is better equipped to handle legal issues relating to money. As a dual qualification graduate, you may become a financial accountant, management accountant, financial auditor, tax auditor/preparer, business financial analyst, or work in a large multinational company or 'Big Four' accounting firm. Or, you could run your own businesses, work in a small local accounting firm, or work in other areas of business management. There can be other career opportunities due to the combination of knowledge of accounting and law giving you a unique advantage which a single qualification otherwise cannot offer.

Bachelor of Accounting

SATAC CODE – 184021
Waterfront Darwin, Online

UAC CODE – 590251
Waterfront Darwin, Online

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Accounting prepares you with professional skills to become an accountant or work in a range of roles that rely on accounting knowledge.

The course develops your communication, presentation and problem-solving skills. You will learn about financial accounting, management accounting, auditing, taxation, business law, corporate law, and finance.

You can also choose to study business units to complement your personal interests and career options. Or, you may choose electives from other areas, including language studies, anthropology, history, social science, indigenous studies, applied science and engineering.

PROFESSIONAL RECOGNITION

As a graduate of the Bachelor of Accounting, you will be eligible to apply for membership of CPA Australia, The Chartered Accountants Australia and New Zealand (CAANZ), and The Chartered Institute of Management Accountants in the U.K.

CAREER OPPORTUNITIES

Completing a Bachelor of Accounting can lead to a wide range of career opportunities in small, medium and large organisations. As a graduate, you may become a financial accountant, management accountant, financial auditor, tax auditor/preparer, financial/business analyst, or work in a large multinational company or Big Four accounting firm. Or, you could run your own businesses, work in a small local accounting firm, or work in other areas of business management.

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Business is a flexible qualification that develops your knowledge, skills and understanding of business and commerce in global and local contexts. The course fosters innovating thinking and will prepare you to meet the challenges of a changing business world.

The Bachelor of Business equips you with the career and professional skills you need to succeed. You will gain communication, presentation and problem-solving skills. With the support of CDU's lecturers and tutors, you will develop fundamental business knowledge and understanding. You will also have the opportunity to specialise in particular areas of interest by selecting from an exciting range of majors.

Build your own business degree

As part of your studies, you can choose majors that match your career goals.

You can opt to complete a single major in:

- > Strategic Marketing and Communication
- > International Management and Logistics
- > Entrepreneurship and Innovation.

Or do a double major in:

- > Strategic Marketing and Communication + International Management and Logistics
- > Entrepreneurship and Innovation + Strategic Marketing and Communication
- > International Management + Logistics and Entrepreneurship and Innovation.

If you hold a vocational education and training qualification in one of the following fields, you may be able to gain credit for your prior study and opt for a major in:

- > Tourism and Destination Management
- > Human Resource Management
- > Project Management
- > Work Health and Safety.

The course is fully flexible, with full or part time study options. You can study the Bachelor of Business online or on-campus. The course is suitable for a broad range of students who are seeking a successful career in business.

CAREER OPPORTUNITIES

The Australian Government predicts strong industry demand for business degree graduates from a wide range of sectors. As a Bachelor of Business graduate, you will be qualified to pursue a range of exciting domestic and international career opportunities, which include business planning and management, brand management, marketing, market research, business analysis, e-commerce, human resource management, and many others.

ADMISSION REQUIREMENTS

Entry requirements for the Bachelor of Business are dependent of the single or double major award streams you are applying for; these are listed in the two blocks below.

For the customised selection or the following majors, standard undergraduate entry requirements are required:

- > Strategic Marketing and Communication
- > International Management and Logistics
- > Entrepreneurship and Innovation
- > Strategic Marketing and Communication and International Management and Logistics
- > Entrepreneurship and Innovation and Strategic Marketing and Communication
- > International Management and Logistics and Entrepreneurship and Innovation.

For the following majors the entry requirements are as follows:

- > Tourism and Destination Management - successful completion of the VET qualification
 - SIT50116 - Diploma of Travel and Tourism Management or
 - SIT50416 - Diploma of Hospitality Management or
 - SIT50316 - Diploma of Event Management.
- > Human Resource Management - successful completion of the VET qualification
 - BSB41015 - Certificate IV in Human Resources or
 - BSB50618 - Diploma of Human Resources Management or
 - BSB50615 - Diploma of Human Resources Management.
- > Project Management - successful completion of the VET qualification
 - BSB51415 - Diploma of Project Management.
- > Workplace Health and Safety - successful completion of the VET qualification
 - BSB51319 - Diploma of Work Health and Safety or
 - BSB51315 - Diploma of Work Health and Safety.

Waterfront Darwin, Online

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ASSUMED KNOWLEDGE

Stage 2 Mathematical Methods or equivalent

ABOUT THE COURSE

The Bachelor of Digital Enterprise is a flexible, cutting-edge degree that combines management, marketing and information technology. It will give you a powerful, modern skillset in today's competitive, global business environment.

During the course, you will combine practical and theory-based learning to develop knowledge and skills in:

- > global management and marketing
- > social and mobile aspects of business
- > digital product innovation and development
- > data and business analytics.

This focused combination of skills will equip you to strategically design and manage successful businesses, and give you a unique professional advantage.

You will have the flexibility to tailor your studies to suit your goals. In addition to studying an important set of core subjects, you will choose from a wide range of elective subjects in business and IT.

PROFESSIONAL RECOGNITION

The Bachelor of Digital Enterprise will be accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

As a Bachelor of Digital Enterprise graduate, you will have the knowledge to pursue a career in digital enterprise, with specialised skills in innovation and the management of digital businesses. Career opportunities also exist within web design, programming, entrepreneurship, and ICT analytics.

ABOUT THE COURSE

The Diploma of Digital Enterprise is a flexible, one-year qualification that builds critical skills and knowledge in the business and information technology spheres. It equips you with a unique and powerful combination of skills, giving you a professional advantage in today's competitive business world.

During the course, you will complete core units and choose from IT and business subjects to develop your knowledge in:

- > global management and marketing
- > social and mobile aspects of business
- > digital product innovation and development
- > data and business information systems.

On completing this course, you will be eligible to transfer into the Bachelor of Digital Enterprise, or you may choose to specialise and move into the Bachelor of Business or Bachelor of Information Technology.

CAREER OPPORTUNITIES

As a Diploma of Digital Enterprise graduate, you will have the foundation to pursue further study, and the knowledge to take up an entry level career in digital enterprise, with specialised skills in software and business concepts.

Bachelor of Computer Science/ Master of Information Technology

-  **SATAC CODE** – 104492
Casuarina, Online
-  **UAC CODE** – 590130
Casuarina, Online
-  **DURATION** – 5 years full-time, 10 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Computer Science/Master of Information Technology is a combined degree that develops your skills and knowledge in a specialised area of information technology.

During the Bachelor's component of the degree, you will focus on computer science. You will learn how to improve the technologies that are vital to the modern world and educate your community about their importance.

You will develop skills and knowledge in the principles and applications of computer science. You will also strengthen your problem solving, decision making and communication skills, making you a confident and competent candidate for your dream job in IT.

During the Masters degree component of the course, you will focus on three specialisations in information technology: software engineering, cyber security, and information systems and data science. This is an opportunity to explore your interests in these fields.

PROFESSIONAL RECOGNITION

This course is designed to meet the accreditation requirements of the Australian Computer Society (ACS) at Professional Level. This course is also designed to meet the European Quality Assurance Network for Informatics Education (EQANIE) accreditation requirements at masters level.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as a computer scientist in government, private companies and non-government organisations (NGOs) as a web designer and developer, games developer, networking and application developer, analyst, consultant, UX specialist, programmer, SEO specialist, database administrator and business analyst.

Bachelor of Computer Science

-  **SATAC CODE** – 104491
Casuarina, Online
-  **UAC CODE** – 590260
Casuarina, Online
-  **DURATION** – 3 years full-time, 6 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Computer Science will prepare you to be part of a continually evolving and diverse field, developing new applications and systems to improve the modern world.

You will develop skills and knowledge in the technical principles and applications of computer science as well as strengthen your problem solving, decision making and communication skills making you a confident and competent candidate for a role in the IT industry.

PROFESSIONAL RECOGNITION

The Bachelor of Computer Science is accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as a computer scientist within the government sector, private companies and non-government organisations (NGOs) in areas such as web design and development, games development, networking and application development, analyst, consultant, UX specialist, programmer, SEO specialist, database administrator, or business analyst.

Bachelor of Information Technology

SATAC CODE – 104601

Casuarina, Online

UAC CODE – 590370

Casuarina, Online

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

Bachelor of Software Engineering Honours

SATAC CODE – 104741

Casuarina, Online

UAC CODE – 590120

Casuarina, Online

DURATION – 4 years full-time, 8 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ASSUMED KNOWLEDGE

Stage 2 Mathematical Methods or equivalent

ABOUT THE COURSE

The Bachelor of Information Technology will prepare you to be responsible for more than just systems or software; you will be developing creative and innovative technologies for the modern world.

Throughout your studies, you will develop knowledge and skills in areas such as web design and development, networking, application development and systems.

You will also be encouraged to be an open-minded problem solver, a creative thinker as well as an engaging communicator, which will help progress your career in the IT industry.

Study opportunities are also provided to assist students to undertake sought-after industry modules, including Cisco and Microsoft certificates.

PROFESSIONAL RECOGNITION

Graduates are eligible for membership of the Australian Computer Society (ACS) at Professional Level.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as an information technology specialist in government, private companies and non-government organisations (NGOs) as a web designer and developer, networking and application developer, system analyst, consultant, programmer, SEO specialist, database administrator and project manager.

ABOUT THE COURSE

The Bachelor of Software Engineering Honours will allow you to develop your understanding of the underlying principles and applications of software engineering. Additionally, you will gain professional knowledge and skills that will allow you to stand out from the crowd in the digital world.

Study opportunities are also provided to assist students to undertake sought-after industry modules, including Cisco and Microsoft certification.

PROFESSIONAL RECOGNITION

The Bachelor of Software Engineering Honours is accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

Your broad skill set prepares you to move into both small and large organisations, consultancy, startups, government and private companies.

Associate Degree of Information and Communication Technology

-  **SATAC CODE** – 115111
Casuarina, Online
-  **UAC CODE** – 592030
Casuarina, Online
-  **DURATION** – 2 years full-time, 4 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

Associate Degree of Network Engineering

-  **SATAC CODE** – 115121
Casuarina, Online
-  **UAC CODE** – 592050
Casuarina, Online
-  **DURATION** – 2 years full-time, 4 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Associate Degree of Network Engineering will provide you with the skills, knowledge and confidence required to design, operate and maintain networks that play a crucial role in the infrastructure of industry and government organisations.

Study opportunities are also provided to assist students to undertake sought-after industry modules, including Cisco and Microsoft certification.

This course was designed in consultation with and is supported by network engineering industry leaders.

CAREER OPPORTUNITIES

Graduating from this course may lead to various career opportunities including roles as a technician, helpdesk support and network and systems administrator.

ABOUT THE COURSE

The Associate Degree of Information and Communication Technology (ICT) will prepare you to be part of a rapidly evolving field and continually develop new applications to enhance the world we live in.

You will develop your knowledge of the principles and applications in the ICT field and strengthen your personal skills in areas such as problem-solving, decision making, effective communication and teamwork.

This course was developed in consultation with and is supported by ICT industry leaders and directly aligns with industry requirements.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as an information technology specialist within government, private companies and non-government organisations (NGOs) as an analyst, technician, web designer, developer or system administrator.

Diploma of Network Engineering

SATAC CODE – 116121

Casuarina, Online

UAC CODE – 591080

Casuarina, Online

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

CAREER OPPORTUNITIES

Graduating from this course may lead to entry-level roles in network systems, helpdesk support, information technology and telecommunications.

ABOUT THE COURSE

The Diploma of Network Engineering will prepare you for entry-level network engineering roles by providing the skills and knowledge required to design, operate and maintain networks that play a crucial role in the infrastructure of industry and government organisations.

Your coursework will cover key areas of network engineering, including data networks and their implementation. You will combine academic studies with practical experience allowing you to further develop your skill set and provide you with the opportunity to stand out from the crowd in a competitive industry.

You can also use this qualification to move into our other degree programs such as the Bachelor of Information Technology or Bachelor of Software Engineering Honours.

Study opportunities are also provided to assist students to undertake sought-after industry modules, including Microsoft certification.

Bachelor of Education in Early Childhood Teaching (Birth-12 Years)

 **SATAC CODE** – 104641
Casuarina, Online

 **UAC CODE** – 590290
Casuarina, Online

 **DURATION** – 4 years full-time, 8 years part-time

 **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Education in Early Childhood Teaching is an innovative course that prepares you to become an early childhood teacher and/or a primary school teacher. This gives you flexible and versatile employment options.

During the course, you explore issues, concepts and practices which are common and specific to both early childhood education (including before school settings) and primary school education.

You will learn about:

- > play and learning sciences
- > language and literacy
- > preparation for teaching
- > health and physical education
- > science in education
- > technology and design for education
- > curriculum and programming
- > maths
- > leadership and advocacy in early childhood contexts
- > humanities, social science and the environment.

This unique teacher education course offers two career options for graduates. It is an initial-teacher education qualification that encompasses working with children from birth to age 12 in both early childhood settings and primary schools.

The course is designed to:

- > develop professional knowledge and skills for teaching children from birth to 12 years
- > prepare you for new and changing educational roles in early childhood and primary schools
- > develop your skills as a reflective teacher
- > explore the connection between theory and practice in early childhood and primary school education
- > ensure continuing awareness of the environmental and cultural influences on teaching and learning in early childhood and primary schools
- > better understand the needs of learners and communities with diverse linguistic and cultural orientations, including Indigenous learners.

PROFESSIONAL RECOGNITION

This course has been accredited through the Teacher Registration Board of the Northern Territory consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

This program is approved with the Australian Children's Education and Care Quality Authority (ACECQA). On graduating, you will be recognised as an Early Childhood Teacher by ACECQA.

On graduating from this course, you will be eligible to register as a teacher across all Australian State and Territory jurisdictions (subject to meeting other eligibility criteria, such as National Literacy and Numeracy test for Initial Teacher Education as per Teacher Registration Requirement, English proficiency and suitability to teach).

CAREER OPPORTUNITIES

Graduating from this course prepares you to teach in a prior to school setting, primary school or work in associated educational areas such as:

- > curriculum development
- > educational planning
- > educational research
- > policy development.

ADDITIONAL ADMISSION REQUIREMENTS

Applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.

ESSENTIAL REQUIREMENTS

Criminal History Check

You must have cleared a Police Check and/or Working with Children Check before you can undertake your practical placements. If your Police Check and/or Working with Children Check are not cleared by the education sector, you will not be able to undertake practice teaching placements and therefore, will not meet the requirements of the course.

Bachelor of Education Primary

SATAC CODE – 104501

Casuarina, Online

SATAC CODE – 144111

Batchelor (only available to Indigenous students)

UAC CODE – 590300

Casuarina, Online

UAC CODE – 590304

Batchelor (only available to Indigenous students)

DURATION – 4 years full-time, 8 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Education Primary prepares you to become a primary school teacher and teach Transition to Year 6/7.

As a primary school teacher, you will be vital to a student's learning process. You will guide and develop their skills through the various key learning systems of education during their early years at school.

In this course you will learn about:

- > the school curriculum
- > contemporary approaches to issues in education, such as inclusivity
- > child and adolescent development
- > promoting positive behaviour
- > improving the teaching-learning relationship in the classroom
- > raising awareness of issues surrounding Indigenous education
- > Indigenous perspectives on teaching and learning
- > developing an informed, evidence-based approach to learning and teaching in primary settings.

During this course, you will gain a combination of academic and practical experience.

You can study a Bachelor of Education Primary online or on campus, part-time or full-time. Should you choose to study online, you will complete your placements close to home.

When you graduate, your levels of personal literacy and numeracy will be broadly equivalent to the top 30% of the population.

You are encouraged to review the employer eligibility requirements as they can vary state to state.

PROFESSIONAL RECOGNITION

The Bachelor of Education Primary has been accredited through the Teacher Registration Board of the Northern Territory. It is consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

CAREER OPPORTUNITIES

Graduating with a Bachelor of Education Primary prepares you to teach in primary schools. It also prepares you to work in associated educational areas, such as:

- > curriculum development
- > educational planning
- > educational research
- > policy development.

When you graduate, you will be eligible to register as a teacher in schools across all Australian State and Territory jurisdictions (subject to meeting other eligibility criteria such as the National Literacy and Numeracy Test for Initial Teacher Registration Requirement, English proficiency and suitability to teach).

ADDITIONAL ADMISSION REQUIREMENTS

Applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.

You must have cleared a Police Check and/or Working with Children Check before you can undertake your practical placements. If your Police Check and/or Working with Children Check are not cleared by the education sector, you will not be able to undertake practice teaching placements and therefore, will not meet the requirements of the course.

Bachelor of Education Secondary

SATAC CODE – 104511
Casuarina, Online

UAC CODE – 590310
Casuarina, Online

DURATION – 4 years full-time, 8 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Education Secondary prepares you to become a secondary school teacher, and teach year 7 to year 12. In this role, you will be responsible for educating and guiding students as they prepare for the real world. If you are a good communicator, love having fun with children and are passionate about sharing a love of learning, then this may be the career for you!

At CDU, you can study a Bachelor of Education Secondary online or on campus, part time or full time (for a majority of specialisations). This makes it easier to fit study into your existing commitments. When you graduate, you will be qualified to register as a teacher anywhere in Australia.

The course focuses on the skills and knowledge and you will need to teach in high schools, as outlined by the Australian National Curriculum. It meets both the national and local need for teachers committed to improving educational outcomes for children in year 7 to year 12.

You will learn about:

- > the school curriculum
- > contemporary approaches to issues in education, such as inclusivity
- > child and adolescent development
- > promoting positive behaviour
- > improving the teaching-learning relationship in the classroom
- > indigenous perspectives
- > raising awareness of issues surrounding Indigenous education
- > developing an informed, evidence-based approach to learning and teaching in secondary school settings.

As a secondary teacher, you will specialise in teaching certain subjects. As part of your degree, you will choose two specialisations: a major and a minor. You can choose from a range of options, including:

- > digital technology
- > health and physical education
- > humanities
- > indigenous knowledges
- > languages
- > mathematics
- > music
- > science
- > visual arts.

The course is a mixture of discipline-specific curriculum and pedagogical studies, general education studies and professional experience.

When you graduate, your levels of personal literacy and numeracy will be broadly equivalent to the top 30% of the Australian population.

Students are encouraged to review the employer eligibility requirements as they can vary state to state.

PROFESSIONAL RECOGNITION

This course has been accredited through the Teacher Registration Board of the Northern Territory consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

When you graduate, you will be eligible to register as a teacher in schools across all Australian State and Territory jurisdictions (subject to meeting other eligibility criteria such as the National Literacy and Numeracy Test for Initial Teacher Registration Requirement, English proficiency and suitability to teach).

CAREER OPPORTUNITIES

Graduating with a Bachelor of Education Secondary prepares you to teach in high schools. It also prepares you to work in associated educational areas, such as:

- > curriculum development
- > educational planning
- > educational research
- > policy development.

ADDITIONAL ADMISSION REQUIREMENTS

Applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.

ESSENTIAL REQUIREMENTS

Criminal History Check

You must have cleared a Police Check and/or Working with Children Check before you can undertake your practical placements. If your Police Check and/or Working with Children Check are not cleared by the education sector, you will not be able to undertake practice teaching placements and therefore, will not meet the requirements of the course.

Bachelor of Educational Studies

 **SATAC CODE** – Non-SATAC
Casuarina, Online
Batchelor (only available to Indigenous students)

 **UAC CODE** – Non-UAC
Casuarina, Online
Batchelor (only available to Indigenous students)

 **DURATION** – 3 years full-time, 6 years part-time

 **DOMESTIC INTAKE** – Course Transfer

ABOUT THE COURSE

The Bachelor of Educational Studies is a flexible three-year undergraduate degree that offers a range of non-teaching career opportunities.

This course will equip you with knowledge and skills to work in general educational settings and roles, such as vacation care, homework centres, tutoring in private colleges, home tutoring and more.

Note: This course will not qualify you to register as a teacher. If you wish to become a teacher, consider CDU's Bachelor of Education or Master of Teaching degrees.

ADMISSION

There is no direct entry into this course. This course is only available as an internal course transfer from the Bachelor of Education Primary or the Bachelor of Education Secondary. Students must complete a minimum of 40 credit points in the Bachelor of Education Primary or the Bachelor of Education Secondary to be eligible to apply for transfer.

Diploma of Educational Studies

SATAC CODE – Early Childhood Education and Care
– 116271
Casuarina, Online

 **SATAC CODE** – Primary Education – 116281
Casuarina, Online

SATAC CODE – Secondary Education – 116291
Casuarina, Online

UAC CODE – Early Childhood Education and Care
– 591120
Casuarina, Online

 **UAC CODE** – Primary Education – 591150
Casuarina, Online

UAC CODE – Secondary Education – 591160
Casuarina, Online

 **DURATION** – 1 year full-time, 2 years part-time

 **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Diploma of Educational Studies is a versatile one year qualification that provides you with opportunities to undertake a range of roles in diverse educational settings. Depending on State and Territory requirements, these may include supporting teachers in school-age education (as an education aide, teacher's aide and assistant teacher) or working as an educator in out-of-school-hours care.

This course will prepare you to work as an:

- > Aboriginal and/or Torres Strait Islander education officer/worker
- > Homeland teaching assistant
- > Aboriginal and/or Torres Strait Islander language and culture teaching assistant
- > Inclusion supports facilitator
- > Education assistant
- > Support worker (children with disabilities)
- > Education assistant (special needs)
- > Teacher aide
- > Education support worker
- > Teacher assistant.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas such as vacation care, homework centres, teaching assistant/teacher's aide/education assistant.

Bachelor of Engineering Science/ Master of Engineering

SATAC CODE – Civil and Structural – 104451

Casuarina, Online

SATAC CODE – Electrical and Electronics – 104461

Casuarina, Online

SATAC CODE – Mechanical – 104471

Casuarina, Online

UAC CODE – Civil and Structural – 590140

Casuarina, Online

UAC CODE – Electrical and Electronics – 590150

Casuarina, Online

UAC CODE – Mechanical – 590160

Casuarina, Online

DURATION – 5 years full-time, 10 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

Specialise in Mechanical Engineering

As a professional mechanical engineer, you are involved in the design and build of large and small devices which improve transportation, provide affordable manufacturing and production solutions. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

PROFESSIONAL RECOGNITION

The Bachelor of Engineering Science (Civil and Structural) of this combined course is accredited by Engineers Australia at the level of engineering technologist and therefore recognised internationally under the Sydney Accord.

The Bachelor of Engineering Science (Electrical and Electronics), and Bachelor of Engineering Science (Mechanical) of this combined course are provisionally accredited by Engineers Australia at the level of engineering technologist.

Note: Engineers Australia initially gives provisional accreditation for new engineering courses - full accreditation can be obtained only after the first students have graduated.

The Master of Engineering of this combined course is accredited by Engineers Australia at the level of professional engineer and therefore recognised internationally under the Washington Accord.

CAREER OPPORTUNITIES

Graduating from the civil and structural engineering major of this course may lead to professional opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to professional opportunities in areas such as electronics, renewable energy, power generation and distribution, manufacturing, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical engineering major of this course may lead to career opportunities in areas such as design, machinery, manufacturing and fabrication, process control, mining, oil and gas, consultation, and project management.

ABOUT THE COURSE

The Bachelor of Engineering Science/Master of Engineering is an internationally-accredited combined course that, upon completion, qualifies you to be recognised as a professional engineer. This course is developed with global industry leaders, for industry, so you will graduate job-ready.

You can choose from three specialisations: civil and structural engineering, electrical and electronics engineering, or mechanical engineering.

The Bachelor's component of the course develops the necessary core skills and knowledge for your specialisation. You then move to the more advanced masters level of study, and finish the course with a research thesis and design project. The Bachelor's degree will provide you with a sound base of fundamental engineering principles, followed by specific learning in the theory and practice of your specialisation.

The Masters degree will expand your engineering specialist knowledge, with an emphasis on the themes of sustainability, creativity, teamwork, design, research and leadership.

The Bachelor of Engineering Science/Master of Engineering was developed in consultation with and is supported by industry leaders. You graduate with a sound foundation of engineering knowledge which directly aligns with international industry requirements.

Specialise in Civil and Structural Engineering

As a professional civil and structural engineer, you will continuously challenge traditional construction methods with creativity and innovation to help design and manage structures for the modern world. Key areas include structures, water resources, roads and traffic, bridges and marine structures.

Specialise in Electrical and Electronics Engineering

As a professional engineer in the electrical and electronics industry, you are responsible for the design, automation and control of the devices which make modern life convenient. Key areas include electronics, telecommunications, biomedical applications and power generation and distribution, including renewable energy.

Bachelor of Engineering Honours

SATAC CODE – Civil and Structural – 104391

Casuarina, Online

SATAC CODE – Electrical and Electronics – 104401

Casuarina, Online

SATAC CODE – Mechanical – 104411

Casuarina, Online

UAC CODE – Electrical and Electronics – 590210

Casuarina, Online

UAC CODE – Mechanical – 590220

Casuarina, Online

DURATION – 4 years full-time, 8 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Engineering Honours will provide you with an advanced conceptual understanding of the science and its application to engineering, followed by an advanced specialist knowledge of the theory and practice of civil and structural, electrical and electronics or mechanical engineering.

The course will help you to develop skills for the planning and execution of engineering projects or research to advance the scientific basis of the discipline.

The course specifically offers you hands-on practical experience, which will assist you in your future career as a professional engineer. This course also focuses on essential engineering skills including innovation, creativity, research, management, teamwork and leadership.

This course was developed in consultation with and is supported by industry leaders. You graduate with the foundation of engineering knowledge which directly aligns with international industry requirements.

As a professional civil and structural engineer, you will be able to combine traditional and current construction methods with creativity and innovation including the design and management of structures for the modern world. Your studies will focus on developing sustainable and ethical civil and structural solutions in areas such as structural engineering, water and roads and traffic and its uses and principles of sustainability.

As a professional electrical and electronics engineer, you will be able to fulfil major roles in the design, automation and control of devices which make modern life convenient. You will be involved in electronics, telecommunications, biomedical applications and power generation, storage and distribution, including renewable energy. You will develop skills in communication methods, electronic control systems and power engineering, together with a background of sustainable engineering principles.

As a professional mechanical engineer, you will be able to have a major role in the design and construction of equipment for improved transport, and to provide affordable manufacturing and production solutions for the manufacturing industry. Key areas include biomechanical applications, aeroplanes, cars, pumps, pipelines and air conditioning systems.

PROFESSIONAL RECOGNITION

Graduates are eligible to apply for membership with Engineers Australia.

CAREER OPPORTUNITIES

Graduating from the civil and structural engineering major of this course may lead to professional opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to professional opportunities in areas such as electronics, renewable energy, power generation and distribution, manufacturing, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical engineering major of this course may lead to career opportunities in areas such as design, machinery, manufacturing and fabrication, process control, mining, oil and gas, consultation, and project management.

ASSUMED KNOWLEDGE

Stage One Mathematical Methods or equivalent

ABOUT THE COURSE

The Bachelor of Engineering Science will provide you with the necessary scientific knowledge that underpins your engineering discipline, followed by a specialist knowledge of the theory and practice of civil and structural, electrical and electronics, and mechanical engineering.

The course will help you to develop skills for the planning and execution of engineering projects.

The course specifically offers extensive hands-on practical experience, which will help you in your future career as an engineering technologist. Essential engineering skills including innovation, creativity, management and teamwork are also features of the course.

This course was developed in consultation with and is supported by industry leaders. You graduate with a thorough foundation of engineering knowledge which directly aligns with international industry requirements.

You can combine this course with the two-year Master of Engineering as an accredited pathway towards becoming a professional engineer. This pathway is similar to engineering programs offered in Europe and is an alternative to the traditional four-year Bachelor of Engineering Honours course.

As a civil and structural engineering technologist, you will be able to work with other engineers and technologists on the design and maintenance of structures for the modern world. Key areas include water resources, roads and traffic, bridges and marine structures. Your studies will focus on developing sustainable and ethical civil and structural solutions in areas such as structural engineering, water and its uses and the principles of sustainability.

As an engineering technologist in the electrical and electronics industry, you will be able to work together with engineers and technologists on the design, automation and control of the devices which make modern life convenient. You are involved in electronics, telecommunications, biomedical applications and power generation and distribution, including renewable energy.

As a mechanical engineering technologist, you will be able to collaborate with other engineers and technologists in the design and build of large and small devices which improve transportation and provide affordable manufacturing and production solutions. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

PROFESSIONAL RECOGNITION

The Bachelor of Engineering Science (Civil and Structural) is accredited by Engineers Australia at the level of engineering technologist and therefore recognised internationally under the Sydney Accord.

The Bachelor of Engineering Science (Electrical and Electronics), and Bachelor of Engineering Science (Mechanical) are provisionally accredited by Engineers Australia at the level of engineering technologist.

Note: Engineers Australia initially gives provisional accreditation for new engineering courses - full accreditation can only be obtained after the first students have graduated.

CAREER OPPORTUNITIES

Graduating from the civil and structural major of this course may lead to career opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to career opportunities in areas such as electronics, renewable energy, power generation and distribution, manufacturing, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical engineering major of this course may lead to career opportunities in areas such as design, machinery, manufacturing and fabrication, process control, mining, oil and gas, consultation, and project management.

Associate Degree of Engineering

Casuarina, Online

UAC CODE – Mechanical – 592080

Casuarina, Online

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Associate Degree of Engineering will provide a sound basis of fundamental engineering concepts, followed by the application of civil and structural, electrical and electronics or mechanical engineering theory and practice.

The course will help you to develop skills for solving common engineering problems as well as prepare you for further study of more advanced engineering concepts in the Bachelor of Engineering Science and Bachelor of Engineering Honours.

As a civil and structural engineering associate, you will contribute to the design, operation and maintenance of structures and systems for the modern world. Key areas include water resources, roads and traffic, bridges and marine structures.

As an electrical and electronics engineering associate, you will assist with the design, automation and control of devices which make modern life convenient. You are involved in electronics, telecommunications, biomedical applications and power generation, storage and distribution, including renewable energy.

As a mechanical engineering associate, you contribute to the design and construction of devices which improve transportation and provide more affordable manufacturing and production solutions. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

In addition to specific engineering knowledge, essential engineering skills including innovation, creativity and teamwork are developed.

This course was developed in consultation with and is supported by industry leaders. It provides a thorough foundation of engineering knowledge which can lead to further engineering study or to employment as an engineering associate.

CAREER OPPORTUNITIES

Graduating from the civil and structural specialisation of this course may lead to paraprofessional engineering opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics specialisation of this course may lead to paraprofessional engineering career opportunities in areas such as electronics, renewable energy, power generation, storage and distribution, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical specialisation may lead to paraprofessional engineering career opportunities in areas such as design, manufacturing and fabrication, mining, oil and gas, consultation, and project management.

Diploma of Engineering

SATAC CODE – 116211

Casuarina, Online

UAC CODE – 591030

Casuarina, Online

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Diploma of Engineering is ideal if you are curious about studying engineering and would like to learn more, though are unsure about committing to a full undergraduate degree.

During your engineering studies, you will explore some of the general concepts, principles and practices of engineering, develop your technical skills and build upon your maths and science knowledge.

With the diploma, you qualify for entry-level engineering roles, or you can continue onto other engineering degree courses such as CDU's Associate Degree in Engineering, Bachelor of Engineering Science or Bachelor of Engineering Honours.

CAREER OPPORTUNITIES

Graduating from the Diploma of Engineering may lead to entry-level engineering roles.

Bachelor of Environmental Science

SATAC CODE – 104531
Casuarina, Online

UAC CODE – 590450
Casuarina, Online

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

CAREER OPPORTUNITIES

Graduating from this course prepares you with the skills and knowledge to work within the government sector, private companies or community organisations, in areas including environment and heritage, biodiversity conservation, land and water resource management, mine site rehabilitation, nature-based tourism, Aboriginal land management, wildlife and reserve management, land-care, teaching, consultancy or environmental research.

ABOUT THE COURSE

With the Bachelor of Environmental Science your academic studies will be combined with practical experience, allowing you to play an active role in the protection and conservation of the environment.

Foundation knowledge including biology, ecology and spatial analysis will be the base from which you learn to solve complex environmental problems. You will explore human-impact, social and cultural perspectives, identify solutions to environmental challenges, and learn how to effectively communicate information for positive environmental outcomes. Training in critical and systems thinking will empower you to tackle the environmental challenges of today and the future.

Bachelor of Humanitarian Aid and Development

SATAC CODE – 104631
Casuarina, Online

UAC CODE – 590460
Casuarina, Online

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Humanitarian Aid and Development is an inter-disciplinary degree that will teach you to understand, critically analyse and apply concepts of community development, humanitarian practice and development aid.

During the course, you will study culture studies, sociology, ethics, indigenous knowledge, community development, international humanitarian assistance and development, project management, and language studies. You will learn from academics and industry practitioners with a focus on national and international community work, disaster relief and development.

Hands-on experience matters in the industry, which is why you will complete a two-week intensive unit at our Casuarina campus in Darwin. This will give you the knowledge and practical skills to work in humanitarian assistance.

In your final year, you'll also complete a 400-hour placement with a community-based, humanitarian or development aid organisation in Australia or overseas. International placements are available with industry partners, including in the Asia Pacific.

With an unprecedented number of displaced people across the world seeking life-saving relief, there is a growing need for skilled and trained humanitarian and development aid workers. This degree will give you the knowledge and skills to provide support for those affected by man-made and natural disasters, poverty and social injustice.

CAREER OPPORTUNITIES

Graduates exit the program with a foundation in community work, human service delivery and international humanitarian practice.

Career opportunities include working for non-government organisations (NGOs) and government agencies in the field of community development and international humanitarian assistance and development aid.

ESSENTIAL REQUIREMENTS

You will require a National Police Clearance from the Australian Federal Police, a Working with Children Card (OCHRE Card or equivalent) and a first aid training certificate (in time to start your placements).

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Arts is a highly flexible, new-age degree featuring a choice of nine majors, each offering a unique perspective on the world around you and your role in it. You will learn how to improve your decision making, generate new ideas, and think critically and creatively. At a time when some jobs are disappearing, others are evolving and new jobs are emerging, these are the transferable skills that will future proof your career.

CDU's Bachelor of Arts develops both the breadth and depth of your knowledge. It gives you the freedom to focus on your area of interest, while also studying other subjects from a wide range of fields. At CDU, you will benefit from a unique focus on Indigenous leadership and the issues and opportunities facing Northern Australia and South-East Asia.

You will also have the flexibility to study online, on campus or a mix of both, part time or full time. With 24/7 access to learning materials and online collaboration tools, you can study when it suits you.

Choose from nine majors:

Architectural Design: Explore the concepts and theories of architectural design, focusing on Australia's north, the tropics and South-East Asia. Learn how to represent your ideas, understand space and the built form, and use industry-standard tools, technologies and architectural techniques.

Communications, Literature and Digital Media: Explore how the digital age is changing communication, interaction and the way information is shared. Learn about social media, media ethics, creative and professional writing and multi-screen communication.

Contemporary Indigenous Australia: Gain the skills and knowledge to work with Indigenous cultures and communities in a culturally-competent way. This major focuses on developing your inter-cultural practice, with an emphasis on the role of Indigenous languages, cultural sites, land rights and resources, community engagement and advocacy.

Creative and Digital Arts: Gain the skills, knowledge and portfolio to succeed in the creative and digital arts industries. Learn about creative theory and business practices and complete a range of creative projects using new and emerging design technologies.

Global Humanities in a Digital Age: Examine the impact of today's digital environment on politics, public policy and government decision making in Australia and South-East Asia, and understand how lessons learned from the past can inform the government decisions of the future.

Indigenous Governance and Policy: Develop the knowledge and skills to develop meaningful policy and implement change for Australia's Indigenous peoples. You'll learn about the sociological, economic, historical and cultural drivers that impact Australia's Indigenous policy making and governance.

Languages and Linguistics: Learn a new language and examine the role of language and linguistics in our communities - Chinese, Greek, Indonesian or one of three Indigenous languages (Yolngu, Arrernte or Bininj Kunwok). Explore the mechanics of language, the role of languages in our socioeconomic and political lives, and how languages shape our identities and strengthen communities. Opportunities exist to advance your language skills with an in-country study program.

Music Making, Production and Performance: Learn to make, produce and perform music. You will complete a combination of theory-based and hands-on subjects using new and emerging technologies, and gain industry experience through community-based projects.

Society and Culture: Learn how philosophy, sociology and Indigenous knowledge traditions influence the way we think about the world and make decisions. You will explore the social issues facing Northern Australia and Southeast Asia and the cultural drivers that impact change.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in a wide range of fields. The knowledge and skills you acquire through this degree will prepare you for work in a range of government and statutory authorities such as land councils, museums, training and research organisations, diplomacy, policy, communications, media, or consultancy particularly where these organisations engage with Central and Northern Australia and Asia. Study with a focus on creative endeavours will support your career as an artist, writer, designer or performer, particularly if you can combine your study with work in entrepreneurship and business management.

Bachelor of Psychological Science

 **SATAC CODE** – 104361
Casuarina, Online

 **UAC CODE** – 590410
Casuarina, Online

 **DURATION** – 3 years full-time, 6 years part-time

 **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

In the Bachelor of Psychological Science, you will develop an integrated understanding of human behaviour including social-cultural perspective, motivations, health and psychopathology as well as the fundamental premise of psychology as an empirically based science.

Key study areas include:

- > research methods
- > abnormal psychology
- > social-cultural psychology
- > learning and motivation
- > cognitive psychology
- > the biological bases of behaviour
- > introduction to forensic psychology counselling.

The Bachelor of Psychological Science will also prepare you for the Honours program, as well as postgraduate professional coursework or supervised training in psychology.

PROFESSIONAL RECOGNITION

This course is accredited by the Australian Psychology Accreditation Council (APAC) and prepares you for entry into an Honours year in psychology. During your studies, you can also join the Australian Psychological Society.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in child and family services, child protection, community health and welfare, drug and alcohol services, disability and rehabilitation services, health service management, research and evaluation, policy and planning, human resources management and marketing.

Bachelor of Social Work

-  **SATAC CODE** – 104611
Casuarina, Online
-  **UAC CODE** – 590440
Casuarina, Online
-  **DURATION** – 4 years full-time, 8 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Social Work is a professionally-recognised course that prepares you to pursue a career as a social worker, where you will work with people to achieve changes to improve their lives. You will guide and support the individual client, family, or community to meet their goals.

You will do this by providing support, counselling, case management, and/or community development. You will be an advocate for social change to create a more socially just society. You will walk beside those who are vulnerable, identifying their strengths and capacity for making change.

With the Bachelor of Social Work, you will gain the knowledge and skills required to work with individuals, families, groups and communities. You will develop practical skills to work effectively and safely with those who are vulnerable, in crisis or impacted by poverty and social disadvantage.

Key areas of your coursework include multi-disciplinary practice, cross-cultural practice and working in virtual contexts and with practical skills based on the entry/application requirements of organisations.

PROFESSIONAL RECOGNITION

Graduates of the Bachelor of Social Work qualify for membership to the Australian Association of Social Workers (AASW).

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas including child protection, income support, community health, community development, counselling, youth work, mental health, hospital social work, education and corrections.

Diploma of Alcohol and Other Drugs

-  **SATAC CODE** – 116141
Casuarina, Online
-  **UAC CODE** – 591010
Casuarina, Online
-  **DURATION** – 1 year full-time, 2 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

Whether you are looking to broaden your awareness or build on your professional skill set, the Diploma of Alcohol and Other Drugs will expand your knowledge in these areas.

You will be introduced to modern issues, research and interventions in the Australian alcohol and other drug fields, with particular reference to the Northern Territory.

You can choose to study the Diploma of Alcohol and Other Drugs online or on campus.

CAREER OPPORTUNITIES

This course complements your current qualifications and may prepare you for advanced career opportunities within education, nursing, social work, indigenous studies, health sciences and related areas.

Diploma of Arts

-  **SATAC CODE** – 116301
Casuarina, Online
-  **SATAC CODE** – 146061
Batchelor (only available to Indigenous students)
-  **UAC CODE** – 591130
Casuarina, Online
-  **UAC CODE** – 591134
Batchelor (only available to Indigenous students)
-  **DURATION** – 1 year full-time, 2 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Diploma of Arts is an introduction to a diverse range of specialist and interdisciplinary themes. It will develop your core communication, critical and creative thinking skills, preparing you to participate in a multi-disciplinary and global workforce.

During the course, you can choose to specialise in:

- > Communications, literature and digital media
- > Society and culture
- > Global humanities in a digital age
- > Indigenous governance and policy
- > Contemporary Indigenous Australia
- > Languages and linguistics
- > Creative and digital arts
- > Music making, production and performance
- > Architectural design.

The Diploma of Arts is ideal for anyone who wants a taste of studying arts and would like to gain a qualification but may not be ready to commit to a full bachelor's degree.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in a wide range of fields. The knowledge and skills you acquire through this qualification will begin to prepare you for work in a range of government and statutory authorities such as land councils, museums, training and research organisations, as a policy advisor, or work in diplomacy, communications, media, or consultancy: particularly where these organisations engage with Central and Northern Australia and Asia. Study with a focus on creative endeavours will support your career as an artist, writer, designer or performer, particularly if you can combine your study with work in entrepreneurship and business management.

Diploma of Counselling

-  **SATAC CODE** – 116131
Casuarina, Online
-  **UAC CODE** – 591020
Casuarina, Online
-  **DURATION** – 1 year full-time, 2 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

Do you seek a career that will make a positive impact on the health and well-being of those in your community? Or perhaps you are wanting to build on your knowledge in human services? The Diploma of Counselling may be the course you are looking for.

During your course, you will explore key areas such as psychology, trauma assessment and intervention, alcohol and other drugs as well as build on your communication skills.

CAREER OPPORTUNITIES

This qualification will complement your existing professional career, or it may prepare you for career opportunities in counselling-related fields in government, private companies, non-government organisations (NGOs) and community groups.

Diploma of Psychology

-  **SATAC CODE** – 116161
Casuarina, Online
-  **UAC CODE** – 591090
Casuarina, Online
-  **DURATION** – 1 year full-time, 2 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

Diploma of Social Care

-  **SATAC CODE** – 116261
Casuarina, Online
-  **UAC CODE** – 591100
Casuarina, Online
-  **DURATION** – 1 year full-time, 2 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

Want to study psychology without committing a full undergraduate degree? The Diploma of Psychology is what you are looking for.

Psychology explores human behaviour and how humans make sense of the world, process, organise and store information. It looks at multiple factors that influence human development, human motivation and emotion such as: how biology influences things like learning, memory and behaviour, and vice versa, common and unique aspects of personality, behavioural dysfunctions, social and cultural diversity.

This course introduces you to the foundations of psychology, explores mental health, and builds essential counselling and behaviour modification skills.

You can choose to study the Diploma of Psychology online or on campus at Casuarina.

CAREER OPPORTUNITIES

This qualification will complement your existing professional career, or it may prepare you for career opportunities in various psychology-related fields in government, private companies, non-government organisations (NGOs) and community groups.

ABOUT THE COURSE

Whether you are seeking a new career, or looking to build on your existing experience, the Diploma of Social Care provides you with knowledge and skills for a range of community and human service roles. The social care and community sector is a rapidly growing field offering a wide variety of employment options.

You will learn about working with individuals, groups and communities to help people access the care, support and services they need. You will also learn to locate and analyse key information to help you make practice decisions.

As a graduate you will have the skills for employment in community work, residential care, support services, youth work and aged care. This course provides a direct pathway into the Bachelor of Social Work degree at Charles Darwin University, with full credit for the first year of study.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas such as youth services and support, aged care services and support, child and family programs, disability support and advocacy, refugee and asylum seeker support and advocacy, community service, support and advocacy.

Bachelor of Laws

SATAC CODE – 184051
Waterfront Darwin, Online

UAC CODE – 590381
Waterfront Darwin, Online

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Laws degree provides you with the academic foundation to become a lawyer or work in a range of industries that require legal expertise, including politics, policy, government, business and private legal practice.

At CDU, you can complete a Bachelor of Laws in just three years, with options to study your law degree 100% online, on campus or a mix of both. On graduating, you will be eligible to apply for admission to the legal practice anywhere in Australia.

The Bachelor of Laws teaches you about legal systems and principles in Australia and abroad. You will gain skills in legal research, analysis and communication, and learn theoretical perspectives on the law. The course also has a unique focus on transnational law (which looks at how laws are applied in more than one jurisdiction) and comparative law (which examines different legal systems from around the world), so you'll gain insight into the legal issues facing today's globalised economies and societies.

If you choose to study law online, you'll have 24/7 access to CDU's online learning platform, recorded lectures and tutorial assistance. You can study where, when and how it suits you.

As the Bachelor of Laws is a competitive course, you're also encouraged to apply for the Associate Degree of Legal Studies or the Diploma of Laws. These programs are an alternative pathway to the Bachelor of Laws.

PROFESSIONAL RECOGNITION

The Bachelor of Laws is accredited by the Legal Practitioners Admission Board of the Northern Territory and provides the academic foundation for admission to legal practice in the Northern Territory and elsewhere in Australia.

To be admitted to legal practice in Australia, you must also complete the Graduate Diploma in Legal Practice (GDLP). This can be taken through the College of Law, Sydney, and completed online.

CAREER OPPORTUNITIES

A Bachelor of Law prepares you for a wide range of jobs. You may choose to pursue a career as solicitor or barrister, or work in fields that benefit from legal expertise, such as politics, public service, industrial relations, community advocacy or commerce in general.

Associate Degree in Legal Studies

	SATAC CODE – 185001 Waterfront Darwin, Online
	UAC CODE – 592041 Waterfront Darwin, Online
	DURATION – 2 years full-time, 4 years part-time
	DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Associate Degree of Legal Studies is for anyone who is interested in broadening their understanding of the legal system without committing to a full law degree.

This course will give you a broad understanding of the law, legal processes and legal principles and introduce you to practical areas of the law such as torts, contracts, criminal law and transnational law.

It caters for two groups of students: those who have a general interest in legal issues without wishing to complete a full law degree, and those who wish to gauge their interest in legal studies and perhaps later seek to undertake a full law degree program.

STRUCTURE DESCRIPTION

The course will introduce students to the fundamental concepts and processes of law including criminal law, torts, contracts and constitutional law. Specialist elective units provide students the opportunity to pursue further study into special interest topics such as transnational law, property law, human rights and criminology.

External students have access to live online tutorials as well as online access to the recordings of all lectures, enabling them to complete the course from anywhere in the world.

CAREER OPPORTUNITIES

Completing the Associate Degree of Legal Studies may lead to career opportunities in administrative, secretarial or paralegal roles in government, corporate and private legal environments.

Diploma of Laws

	SATAC CODE – 186001 Waterfront Darwin, Online
	UAC CODE – 591071 Waterfront Darwin, Online
	DURATION – 1 year full-time, 2 years part-time
	DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Diploma of Laws offers you a general understanding of the law, legal processes and legal principles, as well as an opportunity to gain the specialist knowledge you may need for work or other reasons.

This program is also suitable for internationally qualified lawyers who need to complete some Australian subjects to qualify for admission to legal practice in Australia and is a recognised pathway to the Bachelor of Laws at Charles Darwin University.

CAREER OPPORTUNITIES

Completing the Diploma of Laws may lead to roles in politics, industrial relations and community advocacy in government, private companies and non-government organisations (NGOs).

Bachelor of Clinical Sciences

SATAC CODE – 104661
Casuarina

UAC CODE – N/A

DURATION – 3 years full-time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Bachelor of Clinical Sciences course is a direct pathway for CDU students to study medicine on campus in Darwin. This course is part of a double degree with the Northern Territory Medical Program (NTMP) offered by Flinders University. Australian citizen or permanent resident school leavers with year 12 qualifications, or higher education students who have studied for no more than one year, are eligible for consideration for entry.

The Bachelor of Clinical Sciences is the first award of this double degree. Completion of the first two years of the course to a specific grade point average standard and within the specified time frame guarantees entry into the NTMP which you will begin in your third year of study.

In your studies at CDU you will develop a strong foundation in fundamental health and medical-related sciences, building your knowledge, skills and confidence to move on to the NTMP. This course is accredited by the Australian Medical Council (AMC) as an entry pathway into medical studies.

CAREER OPPORTUNITIES

Graduating from this course completes the first part of the Bachelor of Clinical Sciences/Doctor of Medicine (CDU/Flinders University) double degree and may lead to career opportunities in medicine or medical research.

ADMISSION REQUIREMENTS

You are eligible to apply for the Bachelor of Clinical Science if you:

- > hold year 12 qualifications and have studied no more than one year of higher education; and
- > have completed the University Clinical Aptitude Test for Australia and New Zealand (UCAT ANZ) held in July.

Priority is given to Indigenous and NT residents.

The UCAT comprises of four sections; verbal reasoning, decision making, quantitative reasoning and abstract reasoning. Each section of the UCAT will contribute equally to produce the UCAT ANZ derived score. Your UCAT derived score (10%) will be combined with your Australian Tertiary Admission Rank (ATAR) (90%) to determine your ranking for a place on this course.

In order to be competitive, you will need to achieve an Australian Tertiary Admission Rank (ATAR) of 90 or above, 85 for indigenous students (after the addition of any applicable ATAR related adjustment factors).

Only Australian citizens and Permanent residents are eligible to apply.

ADDITIONAL ADMISSION REQUIREMENTS

This course has a two-step application process:

1. Registration to sit the University Clinical Aptitude Test (UCAT). Registration to sit UCAT opens 2 March 2021 and closes 17 May 2021. The test will be held early in July 2021. Only UCAT scores from 2021 will be used for 2022 applications.

ESSENTIAL REQUIREMENTS

Ranking for offers of positions requires an entry score combining ATAR (90%), and University Clinical Aptitude Test (UCAT ANZ) - derived score (10%).

All applicants must register to sit the University Clinical Aptitude Test (UCAT ANZ) and provide this information in their TAC application.

Bachelor of Exercise and Sport Science

SATAC CODE – 104851
Casuarina, Online

UAC CODE – 590590
Casuarina, Online

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Exercise and Sport Science is a professionally-recognised degree that will prepare you for a wide range of careers in the rewarding and exciting field of sports science.

Contemporary and innovative curricula that is delivered in the state of the art laboratory using virtual reality, as well as work integrated learning will prepare you to work with people who are healthy (including athletes) or physically challenged (including the aged and injured) to improve their health and fitness, enhance their physical performance and prevent and rehabilitate injuries.

You will combine your academic knowledge with practical sessions and real life examples to perform at the highest industry standards during your placement.

You can choose from six majors offered in this course. Specialising in one of these areas offers you a great career opportunities in rehabilitation, coaching, strength and conditioning, public health, sport psychology, business and management.

PROFESSIONAL RECOGNITION

As a graduate of this course you will be eligible to apply for membership with the Australian Strength and Conditioning Association (ASCA), Exercise and Sport Science Australia (ESSA), Fitness Australia, Sports Medicine Australia (SMA), Australian Health Promotion Association Australia (AHPA).

CAREER OPPORTUNITIES

Completing this course can lead to career opportunities such as a Fitness Centre manager, rehabilitation and therapy assistant, strength and conditioning coach, sport coach, personal trainer, health and fitness advisor, fitness and performance consultant.

ESSENTIAL REQUIREMENTS

Criminal History Check

If you are undertaking a course with clinical or fieldwork placements you must demonstrate compliance with their requirements. It is your responsibility to ensure that the correct documentation is obtained prior to the start of your placement.

Bachelor of Health Science

SATAC CODE – 104681

Casuarina, Online

UAC CODE – 590350

Casuarina, Online

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

A core part of the course is the community project which provides opportunity to put your knowledge into practice, supported by CDU academic staff. You will have access to international study opportunities and our course offers both an Indigenous and international support lecturer.

As a graduate, you will be ready to make a positive difference to health across local, rural and remote Australia and beyond.

PROFESSIONAL RECOGNITION

Students are eligible to apply for membership with the following professional associations: The Australian Health Promotion Association and the Public Health Association of Australia.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas such as health promotion, health services management, and public health.

ESSENTIAL REQUIREMENTS

As this course requires you to undertake a community project, you must demonstrate compliance with the following checks and requirements. It is your responsibility to ensure that the correct documentation is obtained prior to commencing the community project. A national and/or international police check and a current Working with Children check is required regarding suitability to undertake clinical/fieldwork placements.

ABOUT THE COURSE

With a goal to keep our populations healthy, the demand for more health professionals with a broad skill set is increasing.

The Bachelor of Health Science provides the skills to fill the gap in the Australian health care system and prepares you to work in a multidisciplinary health industry.

The Bachelor of Health Science has strong health industry connections and course content which leads to work in areas including health policy and research, health and wellbeing and health promotion. This course offers a pathway into master level studies so you can pursue a career in occupational therapy, nutrition, speech and language therapy, health research and public health.

Bachelor of Health Science/ Master of Nutrition

SATAC CODE – 104691
Casuarina, Online

UAC CODE – 590180
Casuarina, Online

DURATION – 4 years full-time, 8 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Health Science/Master of Nutrition is a combined course that qualifies you to pursue a diverse career in health, focusing on how food and nutrition impacts health across individuals, families, communities and industry.

CDU's Bachelor of Health Science/Master of Nutrition will prepare you for roles in a wide range of roles in food research, dietetic studies, food and health policy, or individual or community nutrition strategies and public health.

You will study mostly online, and complete 100 days of work-integrated learning during supported, relevant practical projects in food service, nutrition communication, a nutrition project and research. You will graduate with both an undergraduate and a postgraduate qualification, ready to work in nutrition-focused roles in food and nutrition policy, the food industry, community health organisations, acute care settings, or in public health and health promotion.

Aboriginal and Torres Strait Island students are encouraged to apply. CDU's Indigenous Student Support services are on hand to support you through your degree.

This course offers international study opportunities and welcomes international students with a dedicated academic to provide support to international students

PROFESSIONAL RECOGNITION

As a Bachelor of Health Science/Master of Nutrition graduate you will be eligible to register with the Nutrition Society of Australia as a Registered Nutritionist. You may also apply for membership with the Australian Health Promotion Association and the Public Health Association of Australia.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas such as community health centres, health promotion organisations, government and non-government organisations (NGOs), the food industry, acute health services, sporting organisations, universities and research organisations. Roles may include nutrition consulting, nutrition educator, health promotion officer, public health and policy advisors, food and nutrition programing.

ESSENTIAL REQUIREMENTS

Prior to commencing work integrated learning, all students are required to undergo a 'working with vulnerable people' check, and Australian Federal Police Record Check. Depending on the requirement of health and education departments, some organisations may request students to meet immunisation requirements.

It is your responsibility to ensure that the correct documentation is obtained prior to commencing work-integrated learning projects.

Bachelor of Health Science/ Master of Occupational Therapy

SATAC CODE – 104701
Casuarina, Online

UAC CODE – 590190
Casuarina, Online

DURATION – 4 years full-time, 8 years part-time

DOMESTIC INTAKE – Semester 1

ADDITIONAL ADMISSION REQUIREMENTS

English language requirements

Please refer to page 9 for further information.

ESSENTIAL REQUIREMENTS

If you are undertaking a course with clinical or fieldwork placements you must demonstrate compliance with the following checks and requirements. It is your responsibility to ensure that the correct documentation is obtained prior to commencing clinical/fieldwork placements. A national and/or international police check and a current Working with Children Check is required regarding suitability to undertake clinical/fieldwork placements.

ABOUT THE COURSE

Occupational therapy (OT) is a degree-based health profession, regulated by the Australian Health Practitioner Regulation Agency (AHPRA). Occupational therapists use a whole person perspective to work with individuals, groups and communities to achieve optimal health and wellbeing through participation in the occupations of life.

The Bachelor of Health Science/Master of Occupational Therapy equips you with the skills and knowledge to improve the lives of the clients, families and communities in which you will work.

During the course, you will gain invaluable practical experience by completing 1,000 hours of practice education through practical placements with the support of CDU academics and registered OT professionals. There are unique placement opportunities in the Northern Territory's regional, rural and remote areas.

Aboriginal and Torres Strait Island students are encouraged to apply. CDU's Indigenous Student Support services are on hand to support you through your degree. This course offers international study opportunities and welcomes international students with a dedicated international student support academic.

PROFESSIONAL RECOGNITION

All students within the occupational therapy program will be registered with the Australian Health Practitioner Regulation Agency (AHPRA). Under the National Law, all students are required to comply with a range of legislative requirements.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas such as community health centres, public and private hospitals, aged care facilities, paediatric facilities, education facilities, mental health settings, alcohol and drug services, private clinics, non-government organisations (NGOs), correctional institutions, universities and research facilities, corporate and industrial settings, supported employment and government departments.

Bachelor of Health Science/ Master of Speech and Language Therapy

SATAC CODE – 104711
Casuarina, Online

UAC CODE – 590170
Casuarina, Online

DURATION – 4 years full-time, 8 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Health Science/Master of Speech and Language Therapy is a professionally-recognised, four-year program that will qualify you to work as a speech pathologist within the Australian healthcare system.

You will study mostly online but you need to complete intensive on-campus residentials which will provide you with opportunities to develop and practise your clinical skills under the guidance of your lecturers, before attending external clinical placements. Students will also complete three clinical placements during the last three semesters of their study.

Upon graduating, you will be equipped to work in hospitals, rehabilitation centres, aged care facilities, community health clinics, schools or disability organisations. You'll be ready to assist people to achieve their highest quality of life at work, home and socially; irrespective of age, disability or illness.

Aboriginal and Torres Strait Island students are encouraged to apply. CDU's Indigenous Student Support services are on hand to support you through your degree.

This course offers international study opportunities and welcomes international students with a dedicated academic to provide support to international students.

PROFESSIONAL RECOGNITION

Graduates will be able to apply for membership with Speech Pathology Australia once the course is successfully accredited. The course will seek accreditation from Speech Pathology Australia prior to the first cohort graduating in 2023.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas such as hospitals, community health centres, residential and age care facilities, disability services, paediatric facilities, mental health facilities, education facilities, universities and research facilities, juvenile justice centres and private clinics.

ADDITIONAL ADMISSION REQUIREMENTS

English language requirements

Please refer to page 9 for further information.

ESSENTIAL REQUIREMENTS

If you are undertaking a course with clinical or fieldwork placements you must demonstrate compliance with the following checks and requirements. It is your responsibility to ensure that the correct documentation is obtained prior to commencing clinical/fieldwork placements. A national and/or international police check, up-to-date immunisation schedule and a current Working with Children Check is required regarding suitability to undertake clinical/fieldwork placements.

Bachelor of Health Services Management

SATAC CODE – 104721

Casuarina, Online

UAC CODE – 590360

Casuarina, Online

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

Bachelor of Medical Laboratory Science

SATAC CODE – 104671

Casuarina

UAC CODE – 590400

Casuarina

DURATION – 4 years full-time, 8 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ASSUMED KNOWLEDGE

Stage 2 Chemistry or equivalent

ABOUT THE COURSE

The Bachelor of Health Services Management offers a selection of units across health, business and information technology to prepare you to work within, and make a positive contribution to, the health service management industry.

You will graduate with an understanding of both business management and the diversity of health clients, importance of cultural safety, health promotion, and local and global health issues influencing the health care system.

The Bachelor of Health Services Management explores the challenges of working in diverse contexts of urban, rural, and remote communities, and offers opportunities to access scholarships, international study tours and student exchange programs.

You will study alongside students from business, social work, and other allied health areas to develop an understanding of multidisciplinary professions across the health industry. You will gain knowledge of health beyond illness and disease prevention and learn how to manage, coordinate and administer health infrastructure and resources.

Aboriginal and Torres Strait Island students are encouraged to apply. CDU's Indigenous Student Support services are on hand to support you through your degree. In the final year of study you will be supported by CDU academics to work with health agencies to complete your own community health project.

PROFESSIONAL RECOGNITION

Students are eligible to apply for membership with the following professional associations: The Australian Health Promotion Association and the Public Health Association of Australia.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas such as primary & community health centres, public and private hospitals, aged care facilities, paediatric facilities, policy development, health service planning, rural health settings, health administration, quality and patient safety management, operations management, health information management.

ESSENTIAL REQUIREMENTS

As this course requires you to undertake a community project, you must demonstrate compliance with the following checks and requirements. It is your responsibility to ensure that the correct documentation is obtained prior to commencing the community project. A national and/or international police check and a current Working with Children check is required regarding suitability to undertake clinical/fieldwork placements.

ABOUT THE COURSE

The Bachelor of Medical Laboratory Science qualifies you to work as a medical laboratory scientist in a range of areas in pathology, including haematology, clinical chemistry, microbiology, histology and serology.

This professionally-oriented, four-year, full-time course (or part-time equivalent), combines theoretical and laboratory-based study, along with industry placements in world-leading institutes.

This course is recognised by the Australian Institute of Medical Scientists (AIMS). Graduates enjoy employment opportunities in the identification and diagnosis of disease and pathogens, medical research, forensic pathology, public health and the pharmaceutical industry, both within Australia and Internationally.

You will graduate ready to perform tests on both human and veterinary specimens, such as blood, tissues and bodily fluids to assist in the diagnosis of disease and provide information about treatment options. The results of these tests provide physicians with the essential information they need to treat, monitor and prevent disease.

PROFESSIONAL RECOGNITION

The Australian Institute of Medical Science (AIMS).

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in the identification and diagnosis of disease and pathogens, medical research, forensic pathology, public health and the pharmaceutical industry.

ESSENTIAL REQUIREMENTS

Criminal history check

You must have cleared a Police Check before undertaking any placements. Students whose Police Checks are not cleared will not be able to undertake placements and will not be able to complete the requirements for this course.

Bachelor of Midwifery

SATAC CODE – 104481

Casuarina, Online

UAC CODE – N/A

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Bachelor of Midwifery is a recognised degree that qualifies you to register as a midwife in all Australian States and Territories and some overseas countries. It is an approved program of study by the Nursing and Midwifery Board of Australia.

At CDU, you can study a Bachelor of Midwifery online or on campus, full-time or part-time, as you learn from experts in the field.

As a graduate of the Bachelor of Midwifery, you will be ready to provide woman-centred, evidence-based care for women and babies throughout the childbearing journey in a variety of settings. You will help to promote the health and wellbeing of women and their families by supporting the woman's childbearing choices and providing expertise around pregnancy, birth, postnatal and the newborn period. You will also be prepared to collaborate with other health professionals to continue midwifery care in complex situations.

CDU's Bachelor of Midwifery is aligned with the International Confederation of Midwives' definition of a midwife, and is suited to motivated, determined and organised students.

Studying a Bachelor of Midwifery online

CDU is one of the largest providers of online nursing and midwifery degrees. We have been delivering distance education for more than 30 years.

As an online midwifery student, you will have access to 24/7 technical and academic support, an easy-to-use online learning platform, and a network of 4,000 nursing and midwifery students across Australia.

You will enjoy the flexibility of fitting study around your family and work commitments, and will need to be disciplined and committed in making time for your studies.

Practical placements

In order to complete the Bachelor of Midwifery, you are required to undertake placements. This provides you with invaluable practical experience.

Placement may occur during and outside of the semester period and you may be required to travel away from home at your own expense. It is important to be aware that:

- > In order to progress in the course, you are required to attend placements.
- > All placements are arranged by CDU.
- > As placements are subject to availability at healthcare facilities, dates may not be negotiable.
- > Placements may include morning, evening, night, weekend and public holiday shifts. They may be scheduled shifts or on-call shifts.

- > Non-attendance at placement may only occur in extenuating circumstances which, for the purpose of placements, do not include childcare and work commitments.

Safe practice

To study a Bachelor of Midwifery, you will need to have an inherent set of requirements. These are the essential abilities, knowledge and skills needed to achieve course learning outcomes and to be able to safely practise as a midwife. Midwifery requires a degree of physical strength and mobility, endurance, communication and cognitive abilities for safe practice.

Reporting obligations

Under the Health Practitioner Regulation National Law, CDU is required to register midwifery students with the Australian Health Practitioner Regulation Agency (AHPRA) and to notify AHPRA if a student has or develops a health impairment that may place the public at substantial risk of harm. Students have obligations under the National Law and are expected to understand their obligations prior to enrolling. More information on Student Registration is available on the Nursing and Midwifery Board of Australia website.

Places are limited

The Bachelor of Midwifery is a quota course, which means CDU receives more applications than there are places available. In assessing applicants, CDU will rank eligible applicants in order of academic merit.

PROFESSIONAL RECOGNITION

Graduates will be eligible to apply for registration with the Nursing and Midwifery Board of Australia (NMBA) to practice as a midwife in all Australian States or Territories and some overseas countries.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in roles including midwifery group practice, homebirth and working in public or private hospitals.

ADDITIONAL ADMISSION REQUIREMENTS

Midwifery students must meet a specific level of English language proficiency before they start in a course.

You can show English language proficiency by:

- > completing a declaration that English is your primary language, or
- > sitting an English language proficiency test.

All applicants are required to meet the English Language Skills Registration Standard as outlined by the Nursing and Midwifery Board of Australia (NMBA) at www.nursingmidwiferyboard.gov.au.

Residents of Sydney, NSW Central Coast and NSW North Coast are advised to call Student Central on 1800 061 963 prior to applying to discuss placement.

Please refer to page 9 for further information.

Bachelor of Nursing

SATAC CODE – 104841

Casuarina, Online

SATAC CODE – 164081

Sydney

UAC CODE – 590600

Casuarina, Online

UAC CODE – 590113

Sydney

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Nursing is a professionally-accredited degree that qualifies you to register as a Registered Nurse (Division 1) in Australia. It is recognised by the Nursing and Midwifery Board of Australia.

At CDU, you can study a Bachelor of Nursing online or on campus, part-time or full-time. You will join a cohort of more than 4,000 nursing students across Australia, enjoy flexible study, and learn from nursing experts.

As a graduate of the Bachelor of Nursing, you will be ready to work as a safe, collaborative, articulate and ethical registered nurse. This course will prepare you to be responsive to local, national and regional healthcare needs, and aware of emerging global healthcare trends.

Studying a Bachelor of Nursing online

CDU is one of the largest providers of online nursing degrees. We were among the first universities in Australia to offer a Bachelor of Nursing online, and we have been delivering distance education for more than 30 years.

As an online nursing student, you will have access to 24/7 technical and academic support, an easy-to-use online learning platform, and be supported with placements and practical training close to your home.

Online study is only available to domestic students (Australian and New Zealand citizens, Australian permanent residents, and holders of Australian humanitarian visas).

Practical training

In order to complete the Bachelor of Nursing and qualify as a Registered Nurse, you are required to undertake two types of practical training: simulation blocks and supervised clinical placements.

You will complete three one-week simulation blocks (one for each year of study). These must be completed full-time and on campus at one of CDU's many simulation suites located across Australia. We have a simulation suite in Darwin, Alice Springs, Sydney, Melbourne or Perth.

You will also complete 880 hours of supervised clinical placements across the three years of the course. These will take place in a variety of healthcare settings. If you are studying a Bachelor of Nursing online with CDU, we will endeavour to organise placements close to your home.

As Bachelor of Nursing student, you may also have the opportunity to broaden your global outlook with additional international study tours and exchanges.

English language requirements

In order to register as a nurse or midwife in Australia, you are required to meet the English language requirements laid out by the Nursing and Midwifery Board of Australia. This applies to all initial registrations, regardless of whether they qualified in Australia or overseas. Find out more:

www.nursingmidwiferyboard.gov.au. Please refer to page 9 for further information.

Safe practice

In order to study nursing and practice safely, you will need to have an inherent set of qualities. Nursing needs a degree of physical strength and mobility, endurance, communication and cognitive abilities. If you feel you may experience challenges in meeting these requirements, you are encouraged discuss these with the Bachelor of Nursing Course Coordinator before enrolling in the course.

Reporting obligations

Under the national Health Practitioner Regulation National Law, CDU is required to register nursing students with the Australian Health Practitioner Regulation Agency (AHPRA). We are also required to notify AHPRA if a student has or develops a health impairment that may place the public at substantial risk of harm. More information: www.nursingmidwiferyboard.gov.au

Please note, course transfer into the Bachelor of Nursing is not available. Students who wish to transfer into this course must follow the application process.

PROFESSIONAL RECOGNITION

Graduates of this course are eligible to apply for registration with the Health Licensing Authority (Nursing and Midwifery Board of Australia).

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in public and private hospitals and medical clinics in areas such as mental health, community health, acute and chronic care.

Bachelor of Paramedicine

SATAC CODE – 104861
Casuarina

UAC CODE – N/A

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Bachelor of Paramedicine qualifies you to work as a paramedic in Australia. Delivered in partnership with St John Ambulance Australia (NT) Inc., the course offers guaranteed clinical student placements in the Northern Territory and hands-on learning from paramedic experts.

You will graduate ready to work in emergency ambulance and pre-hospital environments in regional, remote and urban settings.

During this three-year paramedicine degree, you will gain vital clinical decision-making, problem-solving and critical thinking skills. You will learn about anatomy and physiology, human development and Australia's health-care systems and policies. You will develop knowledge in clinical science areas including trauma and emergency-based response.

This course also has a strong focus on Indigenous Health perspectives, mental health and specific care of maternal, neonatal and paediatric patients.

Practical industry experience matters, which is why the Bachelor of Paramedicine includes three units of placements with the St John Ambulance Australia (NT) Inc., the Northern Territory's exclusive paramedic service provider, or other services across Australia.

Please note: Course transfer into the Bachelor of Paramedicine is not permitted. Students who wish to transfer into this course must follow the application process.

PROFESSIONAL RECOGNITION

This program is designed to transition university graduates into becoming qualified ambulance paramedics. Graduates can then work as Intern Paramedics for 18 months during such time they are required to be credentialed to obtain an Authority to Practice.

This course is undergoing accreditation by the Paramedicine Board of Australia (under Australian Health Practitioner Regulation Agency).

CAREER OPPORTUNITIES

You will graduate as a degree qualified paramedic and may apply for entry-level paramedic positions both nationally and internationally.

Other employment opportunities may include private, event or defence force paramedic services.

ESSENTIAL REQUIREMENTS

If you are undertaking a course with clinical or fieldwork placements you must demonstrate compliance with the following checks and requirements. It is your responsibility to ensure that the correct documentation is obtained prior to commencing clinical/fieldwork placements. A national and/or international police check and a current Working with Children Check is required regarding suitability to undertake clinical/fieldwork placements.

Bachelor of Public Health

SATAC CODE – 104731

Casuarina, Online

UAC CODE – 590420

Casuarina, Online

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Public Health will teach how you to connect with communities and work to develop innovative and evidence-based health strategies.

The Bachelor of Public Health focuses on addressing health disparities experienced by population and communities at a local, national and global level. This qualification will prepare you to work in areas of health promotion, policy making, research and disease prevention.

Available to study online or on campus, you will graduate with a broad skill set enabling you the opportunity to work in public health across local, rural, remote and global health settings. The Bachelor of Public Health has diverse and relevant unit offerings encompassing topics such as epidemiology, cultural safety, social media, global and environmental health.

In the final year of study you will be supported by CDU academics to work with health agencies and complete your own community health project. CDU offers a range of scholarships as well as opportunities to study abroad with international study tours.

PROFESSIONAL RECOGNITION

Students are eligible to apply for membership with the following professional associations: The Australian Health Promotion Association and the Public Health Association of Australia.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas such as primary and community health centres, as a health project officer or health promotion practitioner, in health policy development, education facilities, mental health settings, alcohol and drug services, non-government organisations (NGOs), universities and research facilities, as a research officer, in rural and remote health settings, corporate and industrial settings, supported employment and government departments.

ESSENTIAL REQUIREMENTS

As this course requires you to undertake a community project, you must demonstrate compliance with the following checks and requirements. It is your responsibility to ensure that the correct documentation is obtained prior to commencing the community project. A national and/or international police check and a current Working with Children Check is required regarding suitability to undertake clinical/fieldwork placements.

The majority of health facilities will also require you to present a complete immunisation schedule and First Aid certificate.

Associate Degree of Exercise and Sport Science

-  **SATAC CODE** – 115201
Casuarina, Online
-  **UAC CODE** – 592090
Casuarina, Online
-  **DURATION** – 2 years full-time, 4 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

Diploma of Exercise and Sport Science

-  **SATAC CODE** – 116311
Casuarina, Online
-  **UAC CODE** – 591070
Casuarina, Online
-  **DURATION** – 1 year full-time, 2 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Associate Degree in Exercise and Sport Science will give you the essential skills and qualifications to thrive in the sporting industry.

This course has a strong emphasis on practical skills, including developing the knowledge to work with individuals of all ages, fitness levels, skills and experience. The course draws from the knowledge and expertise of professionals in health and exercise science as well as coaches and fitness professionals.

This flexible course allows you to study how you wish, on-campus or online with part-time and full-time study options available.

On completion of the course you may also continue with further studies to the Bachelor of Exercise and Sports Science, gaining credit for units already completed.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in the Australian health, fitness and sports industry as a personal trainer, coach, or health and fitness advisor.

ABOUT THE COURSE

The Diploma in Exercise and Sport Science will give you the experience and qualification to fast-track your career in the fitness and sports industry. This course will enhance your experience, knowledge and skills to secure a position in the sporting industry.

This flexible course allows you to study when it suits you with both on-campus or online study options available.

On completion of the course you may also continue with further studies to Associate Degree in Exercise and Sport Science or the Bachelor of Exercise and Sports Science, gaining credit for units already completed.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in the Australian health, fitness and sports industries, or you may continue to further study in our Bachelor and Exercise and Sports Science course. Those already working in sports coaching, including those with a desire to work within sport, will enhance their career opportunities in the sector by completing this course.

Diploma of Health Care/ Bachelor of Nursing

SATAC CODE – 116321

Casuarina, Online

SATAC CODE – 166021

Sydney

UAC CODE – 590710

Casuarina, Online

UAC CODE – 590713

Sydney

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Diploma of Health Care/Bachelor of Nursing is a combined course that will see you graduate with two qualifications in the same time it takes to complete one.

The Diploma of Health Care is integrated into the Bachelor of Nursing and will be awarded after your first year of study, which means you will hold a qualification and can start working in the health sector while you finish your degree.

The Bachelor of Nursing will qualify you to work as a Registered Nurse (Division 1) in Australia and it is recognised by the Nursing and Midwifery Board of Australia.

Practical training

In order to complete the Bachelor of Nursing and qualify as a Registered Nurse, you are required to undertake two types of practical training: simulation blocks and supervised clinical placements.

You will complete three one-week simulation blocks (one for each year of study). These must be completed full-time and on campus at one of CDU's many simulation suites located across Australia. We have a simulation suite in Darwin, Alice Springs, Sydney, Melbourne or Perth.

You will also complete 880 hours of supervised clinical placements across the three years of the course. These will take place in a variety of healthcare settings. If you are studying a Bachelor of Nursing online with CDU, we will endeavour to organise placements close to your home.

As Bachelor of Nursing student, you may also have the opportunity to broaden your global outlook with additional international study tours and exchanges.

English language requirements

In order to register as a nurse or midwife in Australia, you are required to meet the English language requirements laid out by the Nursing and Midwifery Board of Australia. This applies to all initial registrations, regardless of whether they qualified in Australia or overseas. Find out more:

www.nursingmidwiferyboard.gov.au. Please refer to page 9 for further information.

Safe practice

In order to study nursing and practice safely, you will need to have an inherent set of qualities. Nursing needs a degree of physical strength and mobility, endurance, communication and cognitive abilities. If you feel you may experience challenges in meeting these requirements, you are encouraged to discuss these with the Bachelor of Nursing Course Coordinator before enrolling in the course.

Reporting obligations

Under the Health Practitioner Regulation National Law, CDU is required to register nursing students with the Australian Health Practitioner Regulation Agency (AHPRA). We are also required to notify AHPRA if a student has or develops a health impairment that may place the public at substantial risk of harm. More information: www.nursingmidwiferyboard.gov.au

Please note, course transfer into the Bachelor of Nursing is not available. Students who wish to transfer into this course must follow the application process.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in public and private health settings and speciality areas such as mental health, community health, acute and chronic care, primary health care, and emergency and trauma settings.

PROFESSIONAL RECOGNITION

Graduates of this course are eligible to apply for registration with the Health Licensing Authority (Nursing and Midwifery Board of Australia).

ADMISSION REQUIREMENTS

Applicants applying who are health care professionals with AHPRA registration (for example, those who hold Diploma of Nursing qualifications) must apply for the WNUR01 Bachelor of Nursing, and apply using either SATAC code 104841 or UAC code 590600 for Casuarina Campus and Online, or SATAC code 164081 or UAC code 590113 for Sydney Campus.

ADDITIONAL ADMISSION REQUIREMENTS

English language requirements

Please refer to page 9 for further information.

ESSENTIAL REQUIREMENTS

Pre-clinical requirements: Students must provide proof that they have met all university and State/Territory pre-clinical requirements before they can undertake those units that include clinical placements. These requirements include, but are not limited to, immunisation requirements, Senior First Aid qualification, annual criminal record checks and/or working with children clearances and/or fitness-to-practice requirements.

Diploma of Health Science

SATAC CODE – 116251

Casuarina, Online

UAC CODE – 591050

Casuarina, Online

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas such as health promotion, primary and community health centres, non-government organisations (NGOs), social services as a health clerk or as a therapy services officer.

ABOUT THE COURSE

The Diploma of Health Science will provide you with a range of skills and knowledge applicable to the Australian health care system, including health promotion, communication skills and cultural safety in healthcare. Graduates have the opportunity to access entry level health related roles across health services and organisations. Employment options include roles as health administrators, health promotion or public health workers.

PROFESSIONAL RECOGNITION

Students are eligible to apply for membership with the following professional associations: The Australian Health Promotion Association and the Public Health Association of Australia.

Bachelor of Science

-  **SATAC CODE** – 104551
Casuarina, Online
-  **UAC CODE** – 590430
Casuarina, Online
-  **DURATION** – 3 years full-time, 6 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Science will allow you to explore your curiosity and passion for knowledge within your chosen scientific field. Your study options are flexible and diverse with a focus on professional experience in various sciences including biology, ecology, spatial science, biomedical science, chemistry, or in other science fields.

You will combine academic studies with practical learning in distinctive environments and communities of Northern Australia and the region, and their associated challenges in environmental management and public health, including Indigenous health.

You will strengthen your problem solving, logical and critical thinking skills, apply an understanding of scientific and technological factors, and consider issues from various cultural, economic and other societal perspectives throughout your studies helping you to approach tasks informed and confident.

You will be able to demonstrate and apply an understanding of your chosen areas of science, including concepts, theories and principles to practise in real situations.

CAREER OPPORTUNITIES

Graduating from this course may lead you to career opportunities in industry, government, private companies, non-government organisations (NGOs) and the community sector as a biologist, ecologist, spatial scientist, biomedical scientist, chemist, consultant, laboratory assistant, project manager or advisor.

Diploma of Science

-  **SATAC CODE** – 116171
Casuarina, Online
-  **UAC CODE** – 591110
Casuarina, Online
-  **DURATION** – 1 year full-time, 2 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Diploma of Science is ideal if you are curious about studying science and would like to learn more though you are unsure about committing to a degree, or you already have a career in the sciences and want to upskill with a qualification in another discipline.

You will explore a variety of science concepts, theories and principles in different fields such as general science, geographic information science, environmental science and medical science until you find the one that resonates with you.

As you progress through your diploma, you will develop your knowledge in logical and critical thinking, and problem-solving from a scientific and technological perspective.

After completing your diploma, you have the option to move into our Bachelor of Science or Bachelor of Environmental Science courses.

Whether you are in the science field or looking to move into science, or perhaps you are a teacher or engineer wanting to gain knowledge about a specific science discipline, this flexible diploma will help you find what you are looking for.

CAREER OPPORTUNITIES

Graduating from this course may lead to a variety of science-related roles within government, private companies, non-government organisations (NGOs) and community sectors including positions as a technician, laboratory assistant, consultant, analyst, designer and developer, project manager or helpdesk support administrator, plus many more.

Graduate entry courses

Bachelor of Arts Honours

-  **SATAC CODE** – 1BH016
Casuarina, Online
-  **UAC CODE** – 820090
Casuarina, Online
-  **DURATION** – 1 year full-time, 2 years full-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Arts (Honours) is a one-year course for high-achieving Bachelor of Arts graduates. It is an opportunity to produce a research project that explores an area of your interest and it prepares you for a deeper contribution to knowledge making through doctoral studies.

During the course, you will work closely with your research supervisor to develop a high-quality research thesis or a sustained creative work project with exegetic analysis. At CDU, you will have the one-on-one support and flexibility to design a bespoke research project that aligns with and develops your talents and interests.

Critical thinking is one of the most important skills for the future workforce, which is why the Bachelor of Arts (Honours) is designed to hone your thinking skills and prepare you for independent research work. In a world where everyone has an opinion, you will learn to critically evaluate ideas, concepts and information to deliver a unique perspective on your research topic.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in a wide range of fields. The knowledge and skills you acquire through this degree will prepare you for a research role in a range of government and statutory authorities such as land councils, museums, training and research organisations, diplomacy, policy, communications, media, or consultancy particularly where these organisations engage with Central and Northern Australia and Asia. Completion of honours at the highest levels will open up possibilities of a research career by allowing you to enrol in a PhD.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification in an arts-related discipline or field with at least a credit average (GPA of 5.00).

ADDITIONAL ADMISSION REQUIREMENTS

You must contact CDU's College of Indigenous Futures, Education and the Arts by email to cifea_gateam@cdu.edu.au prior to submitting an application to discuss a potential project and supervision arrangements.

Bachelor of Psychological Science (Graduate Entry)

-  **SATAC CODE** – 1BG014
Casuarina, Online
-  **UAC CODE** – 820020
Casuarina, Online
-  **DURATION** – 1 year full-time, 2 years full-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Psychology (Graduate Entry) is a foundation course, introducing you to the concepts, practices and science of psychology.

You will develop your skills and knowledge in human behaviour, social-cultural perspectives, research methods and in the fundamental premise of psychology as an empirically based science.

This course acts as a pathway into the Bachelor of Psychological Science Honours program, which prepares you for specialist training and registration as a psychologist.

CAREER OPPORTUNITIES

This course will equip you with skills and knowledge in a range of psychology areas (e.g. abnormal psychology, personality, developmental). These skills could lead to career opportunities in:

- > human resources
- > preventative health education and training
- > community services
- > advertising and marketing, and
- > sport and rehabilitation.

ADMISSION REQUIREMENTS

Successful completion of:

- > a recognised bachelor degree or equivalent international qualification; and
- > successful completion of APAC accredited first year psychology units equivalent to PSY140 Introduction to Psychology A and PSY141 Introduction to Psychology B.

It is recommended that unit outlines of these completed units be submitted with your application if undertaken at an institution other than CDU.

Students who have completed an APAC accredited undergraduate degree are not eligible for entry.

Bachelor of Psychological Science Honours

-  **SATAC CODE** – 1BH013
Casuarina
-  **UAC CODE** – 820070
Casuarina
-  **DURATION** – 1 years full-time
-  **DOMESTIC INTAKE** – Semester 1

ABOUT THE COURSE

The Bachelor of Psychological Science (Honours) is for high-achieving Psychology students, who want to distinguish themselves from other graduates and pursue a rewarding career. The honours program is a critical stepping stone towards becoming a registered Psychologist as it gives you eligibility to apply to masters programs; it also opens the door to an exciting range of other valuable specialised graduate and postgraduate studies, such as to Higher Degree Research (PhD), and health-related professions.

The Bachelor of Psychological Science (Honours) is a one-year course that is accredited by the Australian Psychology Accreditation Council (APAC) and recognised by the Australian Psychological Society (APS). This honours program gives you an opportunity to acquire expertise and skills that are highly valued by employers in human-centred professions, including developing an in-depth understanding of psychological theories and practice, and having the opportunity to design, conduct, interpret and communicate research.

The expertise and skills that you can gain in the honours program will assist you to better understand yourself, grow and enhance your well-being, help you to create healthier and more empowering relationships and adapt to changes in your personal and professional environments, and assist you in empowering other people; thus, preparing you for careers in a wide range of areas in private and government organisations.

PROFESSIONAL RECOGNITION

Eligible to pursue a Masters of Psychology (Clinical).

CAREER OPPORTUNITIES

After graduating from honours, you will have the knowledge and skills to work in areas relevant to human health and wellbeing, such as health, counselling, education, sport, marketing, policy, forensics, youth work, justice systems, service delivery, human resource management and research. Depending on your chosen area, you could work in a wide variety of contexts, including private practice, state/territory and federal government agencies, community organisations, hospitals, businesses, schools and universities. Completing the honours program gives you access to exciting specialised graduate and postgraduate studies. If you complete your honours with at least a high 2A, you can also continue your studies by undertaking specialised postgraduate courses, including the Masters of Psychology (Clinical), choose a career in research by embarking on a PhD, or combining both practice and research by pursuing a combined PhD/Masters of Psychology (Clinical).

ADMISSION REQUIREMENTS

Successful completion of the following within the last 10 years: an APAC accredited three-year undergraduate psychology sequence or the CDU Bachelor of Psychological Science degree; and a GPA of at least 5.50; and credit in second year and third year research design and analysis or equivalent units.

Bachelor of Laws Honours

SATAC CODE – 1BH020
Waterfront Darwin, Online

UAC CODE – 820041
Waterfront Darwin, Online

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Bachelor of Laws Honours is a one-year course for high-achieving Bachelor of Laws' graduates. It may provide you with a pathway to a PhD, enhance your career prospects and advance your legal research and writing skills.

During the course, you'll undertake a substantial legal research project in an area relevant to your career. This is an opportunity to deeply explore a legal topic of your interest, as well as develop a sound understanding of the research methodologies relevant to law and legal scholarship.

With the support of CDU's academic staff and your research supervisor, you will be encouraged to produce quality research and develop your project to a publishable level.

If you successfully complete the Bachelor of Laws Honours, you may be eligible for admission to a PhD.

PROFESSIONAL RECOGNITION

This course is recognised by the Legal Profession Admission Board in the Northern Territory.

CAREER OPPORTUNITIES

Law prepares you to pursue the pathway towards a career as a solicitor or barrister, however, it may also provide career paths into areas where an in-depth understanding of the law is advantageous, including politics, the public service, industrial relations or community advocacy.

ADMISSION REQUIREMENTS

Successful completion of a Bachelor of Laws degree or a related discipline with a minimum GPA of 5.50.

ADDITIONAL ADMISSION REQUIREMENTS

Applicants must contact the Asia Pacific College of Business & Law by email at law@cdu.edu.au to discuss a potential research project and supervision prior to application. In addition to minimum GPA of 5.50, applicants are required to have a research project topic and supervisor who has agreed to supervise your project before admission is approved.

Bachelor of Laws (Graduate Entry)

SATAC CODE – 1BG015
Waterfront Darwin, Online

UAC CODE – 820011
Waterfront Darwin, Online

DURATION – 3 years full-time, 6 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Laws program (Graduate Entry) provides you with the academic foundation for admission to legal practice. In that context, the course provides you with knowledge of the law, legal processes and legal principles and cultivates a capacity for legal research, analysis and communication.

There is a focus on the analysis, interpretation, evaluation and application of various sources of legal authority to construct solutions to legal problems. The course also deals with theoretical perspectives on the law and encourages an appreciation of transnational law and of legal issues of special significance to the Northern Territory, including Aboriginal legal issues.

PROFESSIONAL RECOGNITION

The Bachelor of Laws (Graduate Entry) is accredited by the Legal Practitioners Admission Board of the Northern Territory and provides the academic foundation for admission to legal practice in the Northern Territory and elsewhere in Australia.

To be admitted to legal practice in Australia, you must also complete the Graduate Diploma in Legal Practice (GDLP). This can be taken through the College of Law, Sydney, and completed online.

CAREER OPPORTUNITIES

Law prepares you to pursue the pathway towards a career as a solicitor or barrister. It may also provide career paths into areas where an in-depth understanding of the law is advantageous, including politics, the public service, industrial relations or community advocacy.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree (other than law) or equivalent international qualification.

Bachelor of Health Science Honours

	SATAC CODE – 1BH019 Casuarina
	UAC CODE – 820030 Casuarina
	DURATION – 1 years full-time, 2 years part-time
	DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Health Science Honours is an additional year of undergraduate study which will provide you with the opportunity to build on your knowledge and gain specialised skills in your area of interest.

You will develop skills in research design, sample collection, critical analysis and interpreting data, while understanding the importance of ethical and professional issues pertaining to the field of research.

During the course, you will complete coursework in research methods, writing and/or health, and also complete an independent research project. This will include writing a thesis which showcases your research achievements.

This course will give you transferable skills in the areas of critical thinking, time management, writing, communication and team work, while contributing to the knowledge of your specified health field. An honours year also provides a pathway to postgraduate studies and a rewarding career in research.

ADMISSION REQUIREMENTS

Successful completion of a recognised Bachelor degree or equivalent international qualification in a health science-related area with at least a credit average (GPA of 5.00). Consideration will also be given to applicants who are below a GPA of 5.00 who can demonstrate a suitable level of technical skills.

ADDITIONAL ADMISSION REQUIREMENTS

You must contact the College of Health and Human Sciences at hhs@cdu.edu.au to discuss a potential project and supervision prior to submitting an application. In addition to a credit average (GPA of 5.00), you are required to have a project topic and project supervisor who has agreed to supervise your project before admission is approved.

Bachelor of Medical Laboratory Science Honours

	SATAC CODE – Non-SATAC Casuarina
	UAC CODE – Non-UAC Casuarina
	DURATION – 4 years full-time, 8 years part-time
	DOMESTIC INTAKE – Course transfer

ABOUT THE COURSE

The Bachelor of Medical Laboratory Science Honours is available to existing CDU students as an internal course transfer.

This professionally oriented, four-year, full-time course (or part-time equivalent), combines theoretical and laboratory-based study along with industry placements in world leading institutes.

The course will prepare you to work as a medical laboratory scientist in a range of areas in pathology, including haematology, clinical chemistry, microbiology, histology and serology. You will be skilled in performing tests on both human and veterinary specimens, such as blood, tissues and bodily fluids to assist in the diagnosis of disease and provide information about the treatment options. The results of these tests provide physicians with the essential information they need to treat and prevent disease.

PROFESSIONAL RECOGNITION

This course is recognised by the Australian Institute of Medical Scientists (AIMS).

ADMISSION REQUIREMENTS

There is no direct entry into this course. This course is only available as an internal transfer from the Bachelor of Medical Laboratory Science for students who have successfully completed 3rd year (all compulsory common and core units totalling 240 credit points) with a GPA of credit or above (5.00). Offers may be limited and will be made on the basis of invitation and interview.

Bachelor of Midwifery Honours

-  **SATAC CODE** – 1BH014
Online (Commonwealth Supported)
-  **UAC CODE** – 820052
Online (Commonwealth Supported)
-  **DURATION** – 1 year full-time, 2 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Midwifery Honours is designed to extend knowledge gained through your undergraduate midwifery education. You will undertake the program in partnership with an experienced midwife academic who will provide mentoring and an introduction to research with a midwifery focus of your choice. The course addresses foundation research concepts required for higher level research studies.

This encompasses:

- > acquisition of knowledge and skills
- > critical thinking
- > decision making
- > complex problem solving.

You will use these skills to produce a registerable and potentially publishable systematic review of the literature on a topic nominated by you.

CAREER OPPORTUNITIES

Completion of a high quality honours degree can lead directly to entry to Doctor of Philosophy programs or prepare students for career opportunities as a research midwife. An honours degree extends clinical knowledge in a specific area and can enhance your practice in your chosen clinical area.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification in midwifery with at least a credit average (GPA 5.00).

Bachelor of Nursing Honours

-  **SATAC CODE** – 1BH015
Online (Commonwealth Supported)
-  **UAC CODE** – 820062
Online (Commonwealth Supported)
-  **DURATION** – 1 year full-time, 2 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Bachelor of Nursing Honours is designed to extend knowledge gained through your undergraduate nursing education. You will undertake the program in partnership with an experienced nurse academic who will provide mentoring and an introduction to research with a nursing focus of your choice. The course addresses foundation research concepts required for higher level research studies.

This encompasses:

- > acquisition of knowledge and skills
- > critical thinking
- > decision making
- > complex problem solving.

You will use these skills to produce a registerable and potentially publishable systematic review of the literature on a topic nominated by you.

CAREER OPPORTUNITIES

Completion of a high quality honours degree can lead directly to entry to Doctor of Philosophy programs or prepare students for career opportunities as a research nurse. An honours degree extends clinical knowledge in a specific area and can enhance your practice in your chosen clinical area.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification in a nursing related field with at least a credit average (GPA of 5.00).

Bachelor of Science Honours

SATAC CODE – 1BH017

Casuarina, Online

SATAC CODE – 1BH018

Alice Springs

UAC CODE – 820080

Casuarina, Online

UAC CODE – 820085

Alice Springs

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

This one-year honours course includes a major research project, advanced level coursework and research skills training in a number of science disciplines including:

- > environmental science
- > health and clinical science
- > information technology.

Key areas you could base your research on include:

- > biology
- > ecology
- > spatial science
- > analytical chemistry and molecular modelling
- > exercise and sports science
- > medical laboratory science
- > pharmacy
- > information systems
- > mobile networking
- > software development.

Honours qualifications prepare you for professional positions requiring higher level project management, effective written and oral communication, analysis and problem-solving and research skills. You are encouraged to pursue in-depth research under the guidance of experienced researchers, and through targeted coursework and generic research skills training.

Honours qualifications are also a pathway to further study in masters or PhD programs.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in industry, government, private and community sectors as a biologist, ecologist, spatial scientist, biomedical scientist, chemist, consultant, laboratory assistant, academic, project manager or advisor.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification in a science, biomedical science, environment or information technology discipline with at least a credit average (GPA of 5.00).

ADDITIONAL APPLICATION REQUIREMENTS

Applicants must contact the College of Engineering, IT & Environment at eiteadmin@cdu.edu.au to discuss a potential project and supervision prior to submitting an application. In addition to a credit average (GPA of 5.00), you are required to have a project topic and project supervisor who has agreed to supervise your project before admission is approved.

Postgraduate courses

Graduate Diploma of Indigenous Policy Development

SATAC CODE – 1GD021

Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1GD521

Casuarina, Online (Full Fee)

UAC CODE – 822050

Casuarina, Online (Commonwealth Supported)

UAC CODE – 872050

Casuarina, Online (Full Fee)

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Diploma of Indigenous Policy Development will build on your professional knowledge and experiences by providing you with a critical understanding of important aspects of Indigenous economic and policy development in modern Australia.

You will examine key issues of Indigenous policy development and implementation, economic development and participation, traditional and modern governance structures, and intellectual and cultural property rights in current social and political contexts.

This course is an essential foundation for respectful and accountable engagement with Indigenous people and the current social and political issues they face in Australia and internationally.

This is an important course if you want to develop your knowledge and understanding of:

- > the workings of government and policy
- > the structures and functions of governance in relation to Indigenous people
- > the practice of cultural engagement with and between Indigenous and non-Indigenous people
- > the culture and language of Yolngu people.

CAREER OPPORTUNITIES

A Graduate Diploma of Indigenous Policy Development will open up opportunities for you by adding a new dimension of knowledge and skills to your existing qualification. Graduates from this course working in a range of different government and other professional roles enhance their employability by strengthening and deepening their understanding of the interface between policy-related aspects of their work and the needs and aspirations of the broader Indigenous community.

Graduates can credit their studies in the graduate diploma towards a Master of Public Policy.

Potential employment opportunities include roles in government and non-government organisations (NGOs) related to Indigenous affairs in areas such as research, policy development, or media and communications and academia.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in a relevant field.

Consideration will also be given to those who do not have one of the above qualifications, but who have at least five years relevant professional experience, for example in policy development, research, governance or service delivery. Applicants must provide further documentation in the form of a curriculum vitae (CV) with their application.

Master of Business Administration

SATAC CODE – 1CM569

Waterfront Darwin, Online (Full Fee)

UAC CODE – 873011

Waterfront Darwin, Online (Full Fee)

DURATION – 1.5 years full-time, 3 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Business Administration (MBA) develops the key attributes and skills you need to move into senior and middle management positions in business, industry and the public sector. It complements your existing qualifications and experience, giving you an opportunity to learn more about:

- > accounting for managers
- > business research
- > decision making
- > communication
- > negotiation and conflict resolution
- > economics for managers
- > organisational behaviour
- > organisational strategy and leadership
- > fundamentals of management.

At CDU, you can study an MBA online or on campus to suit your lifestyle. You can also tailor your studies to suit your goals, with options to design your coursework around your areas of interest.

CAREER OPPORTUNITIES

The Australian Government predicts strong industry demand for business degree graduates from a wide range of sectors. As a Master of Business Administration graduate, you will be qualified to pursue a range of exciting domestic and international career opportunities, which include business planning and management, brand management, marketing, market research, business analysis, e-commerce, human resource management, and many others.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in a business or related field.

OR

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in an unrelated field plus a minimum of 6 months full-time employment experience in a managerial role. Applicants must provide documentation detailing their employment experience in the form of a curriculum vitae (CV) and two written referee reports in their application.

If you have no undergraduate or post graduate qualifications, you should apply for entry into one of the following programs:

- > Graduate Certificate of Global Marketing
- > Graduate Certificate of Human Resource Management
- > Graduate Certificate of Strategic Management.

Master of Business Administration (Professional Practice)

SATAC CODE – 1CM572

Waterfront Darwin, Online (Full Fee)

UAC CODE – 873021

Waterfront Darwin, Online (Full Fee)

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Business Administration (Professional Practice) complements your current management role and further develops your knowledge and professional corporate skills in:

- > accounting for managers
- > business research
- > decision making
- > communication
- > negotiation and conflict resolution
- > economics for managers
- > organisational behaviour
- > organisational strategy
- > leadership fundamentals of management.

As part of the course, you will have the opportunity gain valuable work experience by spending an additional semester working in an organisation.

At CDU, you can study an MBA online or on campus to suit your lifestyle. You can also tailor your studies to suit your goals, with options to design your coursework around your areas of interest.

Master of Professional Accounting (Professional Practice)

SATAC CODE – 1CM557

Waterfront Darwin, Online (Full Fee)

UAC CODE – 873171

Waterfront Darwin, Online (Full Fee)

DURATION – 2 years full-time, 4 years full-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Professional Accounting (Professional Practice) complements your non-accounting, partial accounting or international accounting qualifications to meet the entry requirements for membership of CPA Australia and The Chartered Accountants of Australia and New Zealand (CAANZ).

This course focuses on the knowledge and skills required for practice as a certified practising or chartered accountant along with effective management, accountability and control, and effective decision-making for financial success.

As part of the course, you will have the opportunity to spend an additional semester working in an organisation, gaining valuable work and industry experience. You will develop technical and conceptual skills required to become a competent accountant as well as abilities to analyse, criticise and synthesise various accounting and related principles, methods and techniques.

PROFESSIONAL RECOGNITION

This conversion course enables graduates with non-accounting, partial accounting, or accounting but not equivalent to Australian accounting backgrounds to meet the academic requirements for membership of CPA Australia and The Chartered Accountants Australia and New Zealand (CAANZ).

CAREER OPPORTUNITIES

Completing a Master of Professional Accounting (Professional Practice) can lead to a wide range of career opportunities in small, medium and large organisations. As a graduate, you may become a financial accountant, management accountant, financial auditor, tax auditor/preparer, business/financial analyst, or work in a large multinational company or 'Big Four' accounting firm. Or, you could run your own businesses, work in a small, local accounting firm, or work in other areas of business management.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree in any discipline.

Applicants who have fully satisfied the entry requirements of the accounting professional bodies in their first degree are not eligible for entry.

ABOUT THE COURSE

The Master of Professional Accounting complements your non-accounting, partial accounting or foreign accounting qualifications to meet the entry requirements for membership of CPA Australia and The Chartered Accountants Australia and New Zealand (CAANZ).

The course focuses on the knowledge and skills required for practice as a certified practising accountant or chartered accountant along with effective management, accountability and control, and effective decision-making for financial success.

You will develop technical and conceptual skills required to become a competent accountant as well as abilities to analyse, criticise and synthesise various accounting and related principles, methods and techniques.

Key study areas include: financial accounting, management accounting, accounting theory, information system/technology, auditing, taxation, finance, company law, and corporate law.

PROFESSIONAL RECOGNITION

This is a conversion course that enables graduates with non-accounting or partial accounting backgrounds to meet the entry requirements for membership of CPA Australia, The Chartered Accountants of Australia and New Zealand (CAANZ) and The Chartered Institute of Management Accountants in the UK.

CAREER OPPORTUNITIES

Completing a Master of Professional Accounting with relevant work experience can lead to a wide range of career opportunities in small, medium and large organisations. As a graduate, you may become a financial accountant, management accountant, financial auditor, tax auditor/preparer, business/financial analyst, or work in a large multinational company or 'Big Four' accounting firm. Or, you could run your own businesses, work in a small, local accounting firm, or work in other areas of business management.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree in any discipline.

Applicants who have fully satisfied the entry requirements of the accounting professional bodies in their first degree are not eligible for entry.

Waterfront Darwin, Online (Full Fee)

UAC CODE – 872011

Waterfront Darwin, Online (Full Fee)

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in a business or related field

OR

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in an unrelated field plus a minimum of 6 months full-time employment experience in a managerial role. Applicants must provide documentation detailing their employment experience in the form of a curriculum vitae (CV) and two written referee reports in their application.

If you have no undergraduate or post graduate qualifications, you should apply for entry into one of the following programs:

- > Graduate Certificate of Global Marketing
- > Graduate Certificate of Human Resource Management
- > Graduate Certificate of Strategic Management.

ABOUT THE COURSE

The Graduate Diploma of Business Administration builds and develops your knowledge, skills and understanding of strategic management. It is perfectly suited to professionals and industry leaders in both public and private sectors, along with those with experience in the business sector. The course is designed to add to your skill base and increase your employment and professional opportunities.

CAREER OPPORTUNITIES

By completing this course, you may gain career opportunities in middle to upper management-level positions with government and private companies.

Graduate Certificate of Global Marketing

SATAC CODE – 1GC525

Waterfront Darwin, Online (Full Fee)

UAC CODE – 871071

Waterfront Darwin, Online (Full Fee)

DURATION – 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Global Marketing develops your knowledge and skills in entrepreneurship, business to business (B2B) marketing, business to customer (B2C) marketing, and marketing in the service industry.

It will prepare you to become a marketing specialist, where you will be responsible for generating revenue in organisations. This course will equip you with core marketing knowledge and skills, including how to make decisions about an organisation's product and service offerings, pricing, communications (including advertising and promotion), and distribution and retail channels.

This skill set will also prove valuable in other areas of business, including accounting and finance, human resources and management, taxation and law.

The Graduate Certificate in Global Marketing explores modern marketing in an increasingly dynamic and international business environment. It will prepare you for an evolving professional landscape, where competition and a renewed focus on creating favourable customer experiences will see the marketing function becoming increasingly important.

During the course, you will also explore how the marketing manager's role has grown due to increasing internationalisation and rapidly evolving technologies and social media, not to mention growing recognition of the need for sustainability and corporate accountability.

CAREER OPPORTUNITIES

You may have career opportunities in marketing management, brand management, customer relationship management, market research, communications or public relations.

The Graduate Certificate of Global Marketing also provides you with a pathway into the Master of Business Administration, which offers further career progression opportunities.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in a business or related field;

OR

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in an unrelated field plus a minimum of 6 months full-time employment experience in a managerial role. Applicants must provide documentation detailing their employment experience in the form of a curriculum vitae (CV) and two written referee reports in their application;

OR

Consideration will also be given to applicants without tertiary qualifications who have at least three years appropriate professional experience in middle to higher level management. Applicants must provide documentation detailing their employment experience in the form of a curriculum vitae (CV) and two written referee reports in their application.

Graduate Certificate of Human Resource Management

SATAC CODE – 1GC527

Waterfront Darwin, Online (Full Fee)

UAC CODE – 871091

Waterfront Darwin, Online (Full Fee)

DURATION – 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

Waterfront Darwin, Online (Full Fee)

UAC CODE – 871141

Waterfront Darwin, Online (Full Fee)

DURATION – 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Human Resource Management is designed to develop your knowledge and skills in human resource management. Key areas you will study include:

- > communication
- > negotiation
- > conflict resolution
- > international human resources management
- > organisational behaviour
- > contemporary management issues.

CAREER OPPORTUNITIES

You may gain career opportunities in middle to upper management positions in the private and public sectors.

The Graduate Certificate of Human Resources Management also provides you with a pathway to the Master of Business Administration, which offers further career progression opportunities.

ADDITIONAL ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in a business or related field

OR

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in an unrelated field plus a minimum of 6 months full-time employment experience in a managerial role. Applicants must provide documentation detailing their employment experience in the form of a curriculum vitae (CV) and two written referee reports in their application.

OR

Consideration will also be given to applicants without tertiary qualifications who have at least three years appropriate professional experience in middle to higher level management. Applicants must provide documentation detailing their employment experience in the form of a curriculum vitae (CV) and two written referee reports in their application.

ABOUT THE COURSE

The Graduate Certificate of Strategic Management will give you the qualifications, skills and confidence to move into and excel in middle to upper-management positions.

The specialised course develops your knowledge, skills and understanding of strategic management.

Key areas you will study include decision making, organisational strategy and leadership, contemporary management issues, operations management.

CAREER OPPORTUNITIES

Graduates may have the opportunity to move into a variety of industries that offer middle to upper management positions in the private and public sectors.

The Graduate Certificate of Strategic Management also provides you with a pathway into the Master of Business Administration, which offers further career progression opportunities.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in a business or related field

OR

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in an unrelated field plus a minimum of 6 months full-time employment experience in a managerial role. Master of Data Science

SATAC CODE – 1CM611
Casuarina, Online (Full Fee)

UAC CODE – 873290
Casuarina, Online (Full Fee)

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Data Science will further develop your technical and analytical skills needed to manage and interpret useful insights from massive data sets.

This qualification complements the following multi-disciplinary areas:

- > computer science
- > information technology
- > information systems
- > statistics
- > mathematics
- > engineering or a program with substantial quantitative competencies.

Your coursework will also include a project-based assessment allowing you to focus on what you are passionate about.

PROFESSIONAL RECOGNITION

This course is designed to meet Australian Computer Society requirements at Professional level.

CAREER OPPORTUNITIES

Graduating from the Master of Data Science may lead to career opportunities as a business analyst, data scientist, data analyst, data engineer or data manager.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification.

Master of Information Technology (Cyber Security)

SATAC CODE – 1CM109
Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1CM609
Casuarina, Online (Full Fee)

UAC CODE – 823100
Casuarina, Online (Commonwealth Supported)

UAC CODE – 873100
Casuarina, Online (Full Fee)

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Information Technology (Cyber Security) complements your current information systems, information technology and computer science degree.

The course focuses on cyber security in the modern world. You will apply your knowledge in practical activities giving you the opportunity to work alongside industry leaders.

PROFESSIONAL RECOGNITION

The Master of Information Technology (Cyber Security) is accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

Graduating from this course may lead to a career as an ICT security specialist, network security analyst or security officer.

If you are an Australian Citizen, you may be eligible to apply for ADF Cyber Gap Program

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification.

Master of Information Technology (Information Systems and Data Science)

SATAC CODE – 1CM610
Casuarina, Online (Full Fee)

UAC CODE – 873110
Casuarina, Online (Full Fee)

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Information Technology (Information Systems and Data Science) complements your current information systems, information technology and computer science degree.

The course focuses on information systems and data science and its effects in the modern world. You will explore the impacts of information systems and data science in the course and project work. Your studies will combine theory with practical activities giving you the opportunity to network with industry leaders.

PROFESSIONAL RECOGNITION

The Master of Information Technology (Information Systems and Data Science) is accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

Graduating from this course may lead to a career as a business analyst, data scientist, data analyst, data manager and data engineer.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification.

Master of Information Technology (Software Engineering)

SATAC CODE – 1CM099
Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1CM599
Casuarina, Online (Full Fee)

UAC CODE – 823120
Casuarina, Online (Commonwealth Supported)

UAC CODE – 873120
Casuarina, Online (Full Fee)

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Information Technology (Software Engineering) complements your other information technology qualifications helping you broaden your skill set in a specialised field. Key areas include project and risk management, current industry practices, processes and methodologies and entrepreneurship.

Your studies will combine theory with practical activities giving you the opportunity to network with industry leaders.

PROFESSIONAL RECOGNITION

The Master of Information Technology (Software Engineering) is accredited by Australia Computer Society at the level of professional practice in ICT and therefore recognised internationally under the Seoul Accord.

CAREER OPPORTUNITIES

Your skillset and knowledge make you a competitive candidate in a specialised field in areas such as consultancy, startups, government departments, private companies, non-government organisations (NGOs) and community groups.

ADMISSION REQUIREMENTS

Successful completion of a recognised Bachelor degree or equivalent international qualification.

Graduate Certificate of Data Science

-  **SATAC CODE** – 1GC534
Casuarina, Online (Full Fee)
-  **UAC CODE** – 871030
Casuarina, Online (Full Fee)
-  **DURATION** – 1 year part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Data Science will further develop your technical and analytical skills needed to manage and interpret useful insights from massive data sets.

This qualification complements the following multi-disciplinary areas:

- > computer science
- > information technology
- > information systems
- > statistics
- > mathematics
- > engineering or a program with substantial quantitative competencies.

Your coursework will also include a project-based assessment allowing you to focus on what you are passionate about.

CAREER OPPORTUNITIES

Graduating from this course may lead to careers as a business analyst, data scientist, data analyst, data engineer or data manager.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification with a major in computer science, information technology, information systems, statistics, mathematics, engineering, or a program with substantial quantitative competencies.

Consideration will also be given to applicants who have at least five years appropriate professional experience. Applicants must provide further documentation detailing their employment experience in the form of a curriculum vitae (CV) with their application.

Graduate Certificate of Information Technology (Cyber Security)

-  **SATAC CODE** – 1GC035
Casuarina, Online (Commonwealth Supported)
-  **SATAC CODE** – 1GC535
Casuarina, Online (Full Fee)
-  **UAC CODE** – 821100
Casuarina, Online (Commonwealth Supported)
-  **UAC CODE** – 871100
Casuarina, Online (Full Fee)
-  **DURATION** – 1 year part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate in Information Technology (Cyber Security) complements your other information technology qualifications and allows you to specialise in cyber security in the modern world.

You will apply your knowledge in practical activities giving you the opportunity to work alongside industry leaders.

CAREER OPPORTUNITIES

Graduating from this course may lead to career as an ICT security specialist, network security analyst or security officer.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification with a major in computer science, information technology, information systems, statistics, mathematics, engineering, or a program with substantial quantitative competencies.

Consideration will also be given to applicants who have at least five years appropriate professional experience. Applicants must provide further documentation detailing their professional experience in the form of a curriculum vitae (CV) with their application.

Master of Digital Learning Futures

SATAC CODE – 1CM567
Casuarina, Online (Full Fee)

UAC CODE – 873040
Casuarina, Online (Full Fee)

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

The course is suited to those working or aiming to work in educational settings, creative industries, software development, learning design, e-learning and related fields. Based on a solid foundation of core units, you'll have opportunities for research and internships, as well as the flexibility to choose from electives in new media production skills, web development, programming and systems management.

CAREER OPPORTUNITIES

Graduating from this course may lead to a range of roles, including in teaching or as a teaching centre technology officer, instructional designer, education software developer, learning and development specialist or e-learning specialist.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or a higher qualification.

ABOUT THE COURSE

Advancements and innovations with digital technology are not stopping now! The Master of Digital Learning Futures can help you get ready for the next wave of global transformation. This innovative, industry-relevant program investigates the dynamics of the digital era. What new 'smarts' are on the horizon and what skills are needed to engage effectively within the digital paradigm? How might we learn next? How might we teach?

The Master of Digital Learning Futures is an inter-disciplinary course that probes the possibilities of digital media and how it can optimise learning.

Master of Education (Global Learning)

SATAC CODE – 1CM076
Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1CM576
Casuarina, Online (Full Fee)

UAC CODE – 823050
Casuarina, Online (Commonwealth Supported)

UAC CODE – 873050
Casuarina, Online (Full Fee)

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Education (Global Learning) prepares you for research and leadership roles in globalised learning. It is a professional development course designed for education policy makers, practitioners, school teachers and principals and researchers working across Australia and in the Asia Pacific.

The Master of Education (Global Learning) can be tailored to suit your personal, organisational, workplace and community interests and goals.

During the course, you will choose a focus area for your research, which may cover:

- > international education
- > education policy
- > higher education
- > vocational education
- > literacy and language
- > English language teaching in Asia
- > educational leadership and management
- > Indigenous education
- > digital learning futures
- > education for all
- > technical and vocational education and training
- > adult education.

The course will strengthen your analytical thinking, collaborative learning, project management, and transformative practice skills in local and global settings. You are also encouraged to apply what you learn in practical contexts in order to build on your work experience.

Please note: This course does not qualify you to register as a teacher. If you would like to become a teacher, consider CDU's Master of Teaching or Bachelor of Education degrees.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as education policymakers, practitioners, school teachers and principals employment progression as well as researchers working across Australia and in the Asia-Pacific.

ADMISSION REQUIREMENTS

Successful completion of one of the following:

- a) a recognised three or four-year bachelor degree in a field related to education; or
- b) a recognised three-year non-education bachelor degree plus a graduate certificate, graduate diploma or honours degree of which at least one must be in a field broadly related to education
- c) a recognised three-year non-education bachelor degree and professional experience deemed equivalent to the above.

Master of Teaching

SATAC CODE – EARLY CHILDHOOD/PRIMARY – 1CM077

Casuarina, Online

SATAC CODE – PRIMARY – 1CM081

Casuarina, Online

SATAC CODE – SECONDARY – 1CM085

Casuarina, Online

UAC CODE – EARLY CHILDHOOD/PRIMARY – 823200

Casuarina, Online

UAC CODE – PRIMARY – 823250

Casuarina, Online

UAC CODE – SECONDARY – 823240

Casuarina, Online

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

If you already hold a bachelors degree in a field other than education, a Master of Teaching can help you to become a teacher in two years. At CDU, you can study your Master of Teaching online or on campus, part time or full time. This makes it easier to study where, when and how it suits you.

On graduating, you will be eligible to register as a teacher in all states and territories in Australia.

The Master of Teaching qualifies you to teach early childhood (birth to year 7), primary (transition to year 7) or secondary (year 8 to 12).

Before you start studying, you will need to choose the stream that suits your career goals and interests.

The course prepares you for new and changing roles as an educator. You will develop continuing awareness of the environmental and cultural influences on teaching and learning. You will also explore the needs of learners and communities with diverse linguistic and cultural orientations, including Indigenous learners. As a teacher, your levels of personal literacy and numeracy will be broadly equivalent to the top 30% of the Australian population.

PROFESSIONAL RECOGNITION

The Master of Teaching has been accredited through the Teacher Registration Board of the Northern Territory. It is consistent with the standards established by the Australian Institute for Teaching and School Leadership for the Accreditation of Initial Teacher Education Programs in Australia.

The Early Childhood and Primary Teaching stream in this program is approved with the Australian Children's Education and Care Quality Authority (ACECQA).

Graduates of the course will be eligible for teacher registration across all Australian State and Territory jurisdictions (subject to meeting other eligibility criteria, such as the National Literacy and Numeracy test for Initial Teacher Education aligned with Teacher Registration Requirement, English proficiency and suitability to teach).

Before applying for admission, students intending to seek employment should have the relevant State/Territory employment authority (eg State or Territory Department of Education, or Catholic Education Office) confirm their eligibility and suitability for employment.

CAREER OPPORTUNITIES

Graduating with a Master of Teaching prepares you to teach in early childhood, primary or secondary school settings. It also prepares you to work in associated educational areas such as:

- > curriculum development
- > educational planning
- > educational research
- > policy development.

ESSENTIAL REQUIREMENTS

Criminal History Check

You must have cleared a Police Check and/or Working with Children Check before you can undertake your practical placements. If your Police Check and/or Working with Children Check are not cleared by the education sector, you will not be able to undertake practice teaching placements and therefore, will not meet the requirements of the course.

ADMISSION REQUIREMENTS

Early Childhood - Successful completion of a recognised bachelor degree or equivalent international qualification in either early childhood, primary or an area relevant to early childhood/primary curriculum, such as art, music, technologies, English, health and physical education, mathematics, science or humanities and social sciences (e.g. history and geography).

Primary - Successful completion of a recognised bachelor degree or equivalent international qualification with at least one-year equivalent full-time study in an area relevant to primary curriculum, such as art, music, technologies, English, health and physical education, mathematics, science or humanities and social sciences (e.g. history and geography).

Secondary - Successful completion of a recognised bachelor degree or equivalent international qualification comprised of a major sequence and a minor sequence in two of the following secondary teaching areas: English, legal studies, Indigenous studies, accounting, business studies, economics, geography, history, mathematics, languages other than English, music, technologies, visual arts, chemistry, biology/ecology, environmental science, physics and health and physical education.

A major sequence is defined as one quarter of a three-year degree and a minor sequence is defined as one sixth of a three-year degree.

Note: if you have completed a major sequence in a teaching area, but do not meet the minimum requirements of one sixth in a second teaching area, you are required to contact Student Central on 1800 061 963 or student.central@cdu.edu.au for advice before submitting your application to study.

ADDITIONAL ADMISSION REQUIREMENTS

Additional Requirements: applicants must complete the Teaching Capabilities Statement used to demonstrate suitability for study and work in the teaching profession.

Graduate Certificate of Digital Learning Futures

-  **SATAC CODE** – 1GC546 (Full Fee)
Casuarina, Online
-  **UAC CODE** – 871182
Casuarina, Online (Full Fee)
-  **DURATION** – 6 months full-time, 1 year part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

Graduate Certificate of Education (Global Learning)

-  **SATAC CODE** – 1GC533
Casuarina, Online (Full Fee)
-  **UAC CODE** – 871040
Casuarina, Online (Full Fee)
-  **DURATION** – 6 months full-time, 1 year part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Digital Learning Futures prepares you for the next wave of digital transformation in education. It will teach you how to create, lead and implement digital technologies in all aspects of teaching and learning.

This course investigates the dynamics of the digital era. What new 'smarts' are on the horizon? What skills are needed to engage effectively within the digital paradigm? How might we learn next? How might we teach?

This course is suited to those working or aiming to work in schools and other educational settings, education software development, learning design, libraries, e-learning and related fields.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or higher qualification.

ABOUT THE COURSE

The Graduate Certificate of Education (Global Learning) is a diverse and innovative course that covers international education, education policy, higher education, vocational education, literacy and language, English language teaching in Asia, educational leadership, Indigenous education and digital technologies and learning.

This course aims to meet the professional development needs of education policymakers, practitioners, school teachers and principals, and researchers working across Australia and in the Asia-Pacific, in areas such as (but not limited to): teacher education, higher education, community development, schooling educators interested in digital learning, futures education for all technical and vocational education, and training adult education. It includes pathways to teacher and principal training.

During this course, you will strengthen your analytical thinking, collaborative learning, project management, and transformative practice skills in local and global settings. You are also encouraged to apply what you learn in practical contexts during your studies, building real-world experience.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities as education policymakers, practitioners, school teachers and principals employment progression as well as researchers working across Australia and in the Asia-Pacific.

ADMISSION REQUIREMENTS

Successful completion of one the following:

- a) a recognised three or four-year bachelor degree in a field related to education; or
- b) a recognised three-year non-education bachelor degree plus a graduate certificate, graduate diploma or honours degree, of which at least one must be in a field related to education
- c) a recognised three-year non-education bachelor degree and professional experience deemed as being equivalent to the above.

Graduate Certificate of Inclusive Education

SATAC CODE – 1GC560
Casuarina, Online (Full Fee)

UAC CODE – 871310
Casuarina, Online (Full Fee)

DURATION – 6 months full-time, 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

CAREER OPPORTUNITIES

There is a documented need for teachers with specialised teaching knowledge in education. Graduates of this course will be attractive to future employers and may have the opportunity for promotion within their school, workplace and Department of Education.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelors degree in teaching, early childhood education or allied health (occupational therapy, speech pathology).

ABOUT THE COURSE

The Graduate Certificate of Inclusive Education is designed for teaching, early childhood and allied health professionals. It will enhance your working knowledge of inclusive education principles in the classroom.

During the course you will:

- > Critically reflect on and revise your repertoire of practice to support the holistic development and inclusion of all students throughout their education
- > Critically evaluate academic literature to expand and apply in-depth knowledge about policies, pedagogies and practices related to inclusive education
- > Apply methods for fostering collaborative transdisciplinary and intercultural partnerships which support children's learning and engagement in early childhood settings, classrooms, schools and communities
- > Implement decision-making around curriculum, pedagogy, and assessment to maximise learning outcomes for students.
- > This qualification prepares teachers and other professionals to work with students with special needs in education settings.

UAC CODE – MECHANICAL – 873090

Casuarina, Online (Full Fee)

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Engineering will build on your previous knowledge and encourage you to develop a deeper and integrated understanding of the scientific and engineering principles of your engineering discipline. You will also be prompted to build leadership and research skills for the development of engineering or research projects.

This course specifically offers hands-on, practical experience, which will help you in your future career as a professional engineer. Special emphasis is placed on the themes of sustainability, creativity, teamwork, design, research and leadership. This course was developed in consultation with and is supported by industry leaders. You will graduate with the foundation of engineering knowledge which directly aligns with international industry requirements.

As a professional civil and structural engineer, you will continuously be challenging traditional civil and construction methods with creativity and innovation to help design and manage structures for the modern world. Key areas include structures, water resources, roads and traffic, bridges and marine structures.

As a professional engineer in the electrical and electronics industry, you will be able to contribute significantly to the design, automation and control of devices which make modern life convenient. You will be involved in electronics, telecommunications, biomedical applications, power generation and distribution, including renewable energy. You will develop skills in communication methods, electronic control systems and power engineering, together with a background of sustainable engineering principles. As a professional mechanical engineer, you will be able to make significant contributions to the design and development of machinery to improve transportation, and to provide affordable solutions for manufacturing and industrial production. Key areas include mechatronics, robotics, biomechanical applications, aeroplanes, cars, pumps and pipelines.

PROFESSIONAL RECOGNITION

The Master of Engineering is accredited by Engineers Australia at the level of professional engineer and therefore recognised internationally under the Washington Accord.

CAREER OPPORTUNITIES

Graduating from the civil and structural engineering major of this course may lead to professional opportunities in areas such as design, construction, water supply and treatment, infrastructure development, roads and traffic and project management.

Graduating from the electrical and electronics engineering major of this course may lead to professional opportunities in areas such as electronics, renewable energy, power generation, storage and distribution, process control, mining, oil and gas, consultation, and project management.

Graduating from the mechanical engineering major of this course may lead to career opportunities in areas such as design, machinery, manufacturing and fabrication, mining, oil and gas, consultation, and project management.

ADMISSION REQUIREMENTS

Successful completion of a recognised Bachelor of Engineering, Bachelor of Engineering Science, Bachelor of Engineering Technology, Bachelor of Technology or equivalent international qualification in civil and structural, electrical and electronics, mechanical or an approved equivalent engineering discipline.

Note: applicants may study only in the stream that matches the engineering area of their undergraduate degree.

Master of Environmental Management

-  **SATAC CODE** – 1CM089
Casuarina, Online (Commonwealth Supported)
-  **SATAC CODE** – 1CM589
Casuarina, Online (Full Fee)
-  **UAC CODE** – 823220
Casuarina, Online (Commonwealth Supported)
-  **UAC CODE** – 873220
Casuarina, Online (Full Fee)
-  **DURATION** – 2 years full-time, 4 years part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Environmental Management complements existing science qualifications if you are a graduate starting out or an established professional looking to broaden or deepen your professional skill set.

You will focus on the principles and practices of Environmental Management, particularly in the context of wet-dry and semi-arid tropical ecosystems and arid landscapes. Topic areas covered include livelihoods, spatial science and analysis, and ecology and management of natural resources. Unit selection is flexible within these areas. Professional placements, and remote Australia and international intensives, are also available.

The broad skills, concepts and applications explored in this course are also relevant even if you are working in other ecosystems, and include a focus on the social context within which environmental management takes place.

The course is flexible and caters to your individual needs. It balances required knowledge and technical skills, develops conceptual skills, and challenges you to apply them to natural resource management within its complex social context.

PROFESSIONAL RECOGNITION

Graduates may seek professional membership to associations such as the Australian Rangeland Society, Ecological Society of Australia and Environment Institute of Australia and New Zealand.

CAREER OPPORTUNITIES

Graduating from this course may lead to a career in areas of research or environmental and natural resources management, within regional natural resource management agencies, environmental NGOs, Indigenous natural resources management organisations, consultancy firms and the resources sector.

ADMISSION REQUIREMENTS

Successful completion of one of the following:

- > a recognised bachelor degree or equivalent international qualification in a related field; or
- > a recognised bachelor degree in an unrelated field plus completion of a graduate diploma in a related field or equivalent international qualification
- > Related fields include: biological science, earth science, environmental engineering, environmental science, geography, geographic information or sustainability studies.

Graduate Certificate of Spatial Science

-  **SATAC CODE** – 1GC522
Casuarina, Online (Full Fee)
- UAC CODE** – 871130
Casuarina, Online (Full Fee)
-  **DURATION** – 1 year part-time
-  **DOMESTIC INTAKE** – Semester 1

ABOUT THE COURSE

The Graduate Certificate in Spatial Science complements your current science qualifications and will further develop your professional skill set. This course is designed for professionals, across a wide-range of vocations, seeking to gain expertise in spatial science at postgraduate level.

This stand-alone course belongs to a pathway between graduate certificate, graduate diploma and Master of Environmental Management.

You are not expected to have previous experience in the spatial science field; however, if you do have some background, the repeatable placement unit allows the inclusion of project work in the unit selection.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in government, private companies and non-government organisations (NGOs) as managers, technicians, project managers, maintenance officers, surveyors and geospatial modellers.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in a relevant field, such as biological science, earth science, environmental engineering, environmental science, geography, geographic information, sustainability studies or other disciplines as deemed appropriate.

Applicants who hold a degree not in the disciplines listed above may be considered on the basis of relevant professional experience. Applicants must provide further documentation detailing their professional experience in the form of a curriculum vitae (CV) with their application.

Master of Emergency and Disaster Management

SATAC CODE – 1CM117

Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1CM617

Casuarina, Online (Full Fee)

UAC CODE – N/A

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

During the course you will:

- > Gain the essential knowledge and skills required to lead and manage all phases of the disaster management cycle
- > Learn how to confidently apply your academic studies to practical responses
- > Learn how to apply your skills, knowledge and experience in a way that's appropriate, collaborative and productive in the Asia Pacific region and beyond
- > Have the opportunity to tailor your course by choosing from a broad range of specialised electives and drawing on relevant study opportunities both at CDU and elsewhere
- > Acquire the technical, managerial and leadership skills to progress your current career or take a new professional direction.

The Master of Emergency and Disaster Management is supported by nationally and internationally respected leading industry partners. The Graduate Diploma and Graduate Certificate in Emergency and Disaster Management are also nested within the masters degree course as entry and exit pathways to this program.

Note: This course is currently under review. Please check the CDU website for availability and updated course information.

CAREER OPPORTUNITIES

The Master of Emergency and Disaster Management complements your resume by broadening your skill set and it prepares you for management and leadership roles.

Graduating from this course may lead to career opportunities that focus on emergency and disaster management from prevention to recovery. Your qualifications could land you a role in health, environment, social wellbeing, humanitarian assistance and management.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or a higher qualification in a relevant field.

ABOUT THE COURSE

The Master of Emergency and Disaster Management qualifies you with the skills and knowledge to work as an emergency and disaster management professional in a variety of contexts. This in-depth and unique program draws upon the expertise and practical experience of researchers and practitioners working from Australia's gateway to Indonesia and Southeast Asia, arguably one of the regions of the world most prone to, and affected by, various types of disasters. This course focuses on informed practice and research, and critically examines issues through a multi-sectoral lens to explore the ways in which different professional and cultural perspectives may shape emergency and disaster management work.

SATAC CODE – 1GC516

Casuarina, Online (Full Fee)

UAC CODE – 821050

Casuarina, Online (Commonwealth Supported)

UAC CODE – 871050

Casuarina, Online (Full Fee)

DURATION – 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

Based in the capital of Australia's Northern Territory, at the centre of the 'Top End' and Australia's gateway to Indonesia and Southeast Asia, this unique postgraduate program focuses on a geographic region that is unarguably the most prone to, and affected by, various types of disasters.

The Graduate Diploma of Emergency and Disaster Management will equip you with the skills and ability to apply your knowledge and experience appropriately, collaboratively and productively in this vulnerable region and other parts of the world.

You will graduate with essential knowledge and skills to lead and manage all phases of the disaster management cycle, as well as the confidence to apply your academic studies to practical responses and report on your professional experience in the academic sphere of this rapidly evolving sector.

This in-depth course promotes its uniqueness in three areas:

- > its focus on the Asia-Pacific region
- > its informed practice and research
- > its multi-sectoral approach.

This course is a pathway for further studies (for example, into a Master of Emergency and Disaster Management) and is supported by nationally and internationally respected industry partners. The Graduate Diploma and Graduate Certificate in Emergency and Disaster Management are entry and exit pathways for the Masters degree.

CAREER OPPORTUNITIES

The Graduate Diploma of Emergency and Disaster Management complements your current professional resume, broadening your skill set and preparing you for management and leadership roles.

Graduating from this course may lead to career opportunities that focus on emergency and disaster management from prevention to recovery. Your qualifications could land you a role in health, environment, social wellbeing, humanitarian assistance and management.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification.

ABOUT THE COURSE

Based in the capital of Australia's Northern Territory, at the centre of the 'Top End' and Australia's gateway to Indonesia and Southeast Asia, this unique postgraduate program focuses on a geographic region that is unarguably the most prone to, and affected by, various types of disasters.

The Graduate Certificate of Emergency and Disaster Management will equip you with the skills and ability to apply your knowledge and experience appropriately, collaboratively and productively in this vulnerable region and other parts of the world.

You will graduate with the essential knowledge and skills required to manage all phases of the disaster management cycle, as well as the confidence to apply your academic studies to practical responses and report on your professional experience in the academic sphere of this rapidly evolving sector.

This in-depth course promotes its uniqueness in three areas:

- > its focus on the Asia-Pacific region
- > its informed practice and research
- > its multi-sectoral approach.

Along with the necessary technical skills and experience, you will also develop your managerial and leadership skills to either assist in your current career or help with new career pathways.

This course is a pathway for advanced studies and is supported by nationally and internationally respected industry partners.

The Graduate Diploma and Graduate Certificate in Emergency and Disaster Management are entry and exit pathways for the Masters degree course.

CAREER OPPORTUNITIES

Graduating from Graduate Certificate in Emergency and Disaster Management may lead to career opportunities that focus on emergency and disaster management from prevention to recovery. Your qualifications could land you a role in health, environment, social wellbeing, humanitarian assistance and management.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification.

Consideration will be given to applicants who have a diploma level qualification or above and at least five years relevant professional experience.

Applicants must provide further documentation detailing their employment experience (i.e. work experience certificate from an employer/s) and outlining their roles and achievements in the form of a curriculum vitae (CV) and a statement of purpose. The statement of purpose should address why you would like to be admitted into the course, career goals and aspirations and benefits the course will provide you.

Graduate Certificate of Leadership (Police, Fire and Emergency Services)

SATAC CODE – 1GC536
Casuarina, Online (Full Fee)

UAC CODE – 871110
Casuarina, Online (Full Fee)

DURATION – 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Leadership (Police, Fire and Emergency Services) prepares you with the necessary knowledge and skills to provide effective and efficient leadership for managing all types of situations, from small-scale routine emergencies to complex catastrophic events.

The course explores how public leaders manage crises, the secrets of successful crisis management, and how to anticipate and mitigate risk and future crises.

During the course, you will:

- > develop your leadership skills through advanced analysis of case studies from Australia and internationally
- > learn about proactive measures to deal with emergency risk reduction
- > explore how to use your skills and knowledge in a way that is appropriate, collaborative and productive in local and global contexts and gain a holistic, in-depth understanding of the leadership framework for complex crisis management
- > move beyond academic and theory-based learning to gain the practical and applied skills you will need to work in the sector at a national, regional and international level.

The course creates a solid foundation for translating your academic development into practical responses, and to apply lessons learned from your professional experience to academic thinking. You will develop your leadership and managerial skills to extend your career opportunities.

CAREER OPPORTUNITIES

Most students undertaking this course are from the police, fire and emergency sectors and study to acquire skills and knowledge that will further their career in their specific sector.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification.

Applicants who have a diploma level qualification and at least five years relevant professional experience will also be considered. Applicants must provide further documentation detailing their employment experience (i.e. work experience certificate from an employer/s) and outlining their roles and achievements in the form of a curriculum vitae (CV). Applicants must also provide a statement of purpose which should address why you would like to be admitted into the course, career goals and aspirations and benefits the course will provide you.

Casuarina, Online (Full Fee)

 **DURATION** – 2 years full-time, 4 years part-time

 **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Arts is a flexible, postgraduate degree that allows you to undertake a bespoke research project on a topic of your choice. It will equip you with deep knowledge to bolster your CV, demonstrate your expertise and prepare you for a PhD should you wish to continue your studies.

At CDU, you can choose a research topic that aligns with one of the following focus areas:

- > cultural and creative research
- > Indigenous research methodologies
- > Indigenous policy development
- > Indigenous engagement
- > Yolgnu languages and culture.

You will benefit from access to an expert, dedicated research supervisor, who will support you to think critically and creatively. You will be guided to shape a research thesis or piece of coursework that is unique, carefully considered and robust in its findings.

In a world where opinions are rife, but facts and considered thought may not be, your ability to critically evaluate ideas, concepts and information will set you apart.

CAREER OPPORTUNITIES

A Master of Arts is a great way to deepen and strengthen your knowledge and skills across a wide range of professional careers from the creative arts to Indigenous policy. The course offers the opportunity to credit the work you are doing on existing projects towards your study.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree, or equivalent international qualification.

ABOUT THE COURSE

The Master of Public Policy is an opportunity to undertake in-depth study in the field of public policy. The degree culminates in a research project that seeks to explore issues of research in policy related fields.

With a focus on Northern Australia and its relation to South-East Asia, you will explore the policy issues in the region's remote contexts, the significance of Indigenous peoples and cultures, and its proximity to South-East Asia.

You will build the necessary knowledge and skills to engage in effective and ethical research for policy development. This course deepens your understanding of the unique challenges and characteristics of "doing policy" in northern contexts.

You explore a variety of political, cultural and social theory approaches to public policy and gain a solid understanding of evidence-based policy development, evaluation, and empirical research theories and methodologies.

Choose from specialist electives that will develop your public policy knowledge in an area such as:

- > Indigenous policy
- > international education
- > governance and management
- > health
- > emergency and disaster management
- > environmental management.

You will apply this new knowledge in an important public policy research project of your choice. You will receive one-on-one supervision and support from university research, public policy researchers, policy developers and evaluators, and teaching staff.

CAREER OPPORTUNITIES

Graduating with a Master of Public Policy may lead to career opportunities in government and private organisations as a policy researcher, advisor, analyst or writer.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification.

Applicants who don't meet the entry requirements, are advised to contact the course coordinator in the College of Indigenous Futures, Education and the Arts by email to cifea_gateam@cdu.edu.au for further advice.

Master of Social Work (Qualifying)

SATAC CODE – 1CM606

Casuarina, Online

UAC CODE – 873210

Casuarina, Online

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Master of Social Work (Qualifying) provides you with the knowledge and skills required to work as an accredited social work practitioner.

You will learn to work with individuals, families, groups and communities to create positive change. You will gain specific practical skills for working effectively and safely in situations where resources are limited, including remote and regional locations.

During the course, you will receive support and access to a broad and coherent body of knowledge in a range of contexts, at a masters degree level.

Course themes include multidisciplinary and intercultural practice, social justice, research and advocacy, and working in virtual contexts.

PROFESSIONAL RECOGNITION

As a graduate, you will be eligible for membership with the Australian Association of Social Workers (AASW).

CAREER OPPORTUNITIES

Graduates of this course engage with social work curriculum, build networks, gain knowledge and apply that knowledge through field placement as accredited by the Australian Association of Social Workers.

ADMISSION REQUIREMENTS

Successful completion of:

- > a recognised bachelor degree in any field; and
- > the equivalent of one-year full-time study in behavioural or social science units, whether this be included in the completed degree or in the form of additional qualifications at diploma level or above.

If you do not meet the requirement of one-year full-time study in behavioural or social science you should apply for the Diploma of Social Care.

Due to professional recognition, applicants who have completed a Bachelor of Social Work degree are not eligible for entry into this course.

Graduate Diploma of Creative Therapies

 **SATAC CODE** – 1GD537
Casuarina, Online

 **UAC CODE** – 872090
Casuarina, Online

 **DURATION** – 2 years part-time

 **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Diploma of Creative Therapies will provide you with a sound theoretical and practical foundation in creative therapies - therapies that include art, play, dance, drama, and music.

Specifically, this course has been designed to equip practitioners who work with diverse client groups to utilise creative therapies in their practice.

The Graduate Diploma of Creative Therapies imparts the necessary skills in research, evaluation, and professional practice to enable you to choose suitable therapies and to accommodate the unique challenges of each client.

The course blends Western approaches with Aboriginal healing practices and knowledges.

The course is designed for people working in health, community, justice, education, and cognate fields, as well as individuals who work in Aboriginal and cross-cultural communities.

ADMISSION REQUIREMENTS

Successful completion of a bachelor degree or equivalent international qualification or a Graduate Certificate of Creative Therapies from Charles Darwin University.

Graduate Diploma of Safe Communities (Child Protection)

 **SATAC CODE** – 1GD036
Casuarina, Online (Commonwealth Supported)

 **SATAC CODE** – 1GD536
Casuarina, Online (Full Fee)

UAC CODE – 822080
Casuarina, Online (Commonwealth Supported)

UAC CODE – 872100
Casuarina, Online (Full Fee)

 **DURATION** – 2 years part-time

 **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Diploma of Safe Communities (Child Protection) provides you with specialist knowledge and skills to assess, manage, respond to and support the reduction of child abuse.

It is designed for people working (or seeking to work) in statutory child protection, including social workers, psychologists, police, teachers, youth workers, allied health workers and community workers.

The Graduate Diploma of Safe Communities (Child Protection) enhances the capacity of those with responsibility for supporting vulnerable children and family within their communities.

With an emphasis on prevention, innovation and collaboration you will be part of a learning community, drawing from research, knowledge and the expertise that exists within community led approaches to keeping children culturally, psychologically and physically safe.

ADMISSION REQUIREMENTS

Successful completion of a bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in a relevant field; or successful completion of a Graduate Certificate of Safe Communities (Child Protection) or CHC81215 Graduate Certificate in Statutory Child Protection.

ESSENTIAL REQUIREMENTS

You must clear a National Police Check and/or a Working with Children's Clearance.

Graduate Certificate of Arts

-  **SATAC CODE** – 1GC042
Casuarina, Online (Commonwealth Supported)
- SATAC CODE** – 1GC542
Casuarina, Online (Full Fee)
- UAC CODE** – 821150
Casuarina, Online (Commonwealth Supported)
- UAC CODE** – 871150
Casuarina, Online (Full Fee)
-  **DURATION** – 6 months full-time, 1 year part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Arts is a flexible postgraduate course that prepares you for further studies or research. The course will diversify and grow your knowledge in cultural and creative spheres.

You will choose to specialise in one of the following areas:

- > cultural and creative research
- > Indigenous research methodologies
- > Indigenous engagement
- > Indigenous policy development
- > Yolngu language and culture studies

Whether you want to consolidate your expertise or forge a new career path, this degree will equip you with the analytical and critical thinking skills you need to succeed.

At CDU, you will explore unique perspectives on the contemporary issues facing Indigenous Australia, Northern Australia and South-East Asia. Our lecturers are leaders in their fields and are ready to guide and mentor you.

CAREER OPPORTUNITIES

A Graduate Certificate of Arts will open up opportunities for you by adding a new dimension of knowledge and skills to your existing qualification. It is likely to make you ready for work in the NT by giving your qualifications and experience a local edge. It also allows you to access locally specific, Indigenous or creative skills and knowledge development without committing to longer periods of study.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification.

Consideration will also be given to applicants who do not have one of the above qualifications, but who have at least five years appropriate professional experience.

Applicants must provide further documentation detailing their employment experience in the form of a curriculum vitae (CV) with their application.

Graduate Certificate of Creative Therapies

-  **SATAC CODE** – 1GC545
Casuarina, Online (Full Fee)
- UAC CODE** – 871160
Casuarina, Online (Full Fee)
-  **DURATION** – 1 year part-time
-  **DOMESTIC INTAKE** – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Creative Therapies provides you with the key principles of creative therapies, including art, play, dance, drama and music.

It will help you to work with a diverse range of clients, from people who have experienced traumas to members of Aboriginal and cross-cultural communities.

The course blends Western approaches with Aboriginal healing practices and knowledges.

It is designed for you if you are working in health, community, justice, education, and related fields, or if you work in Aboriginal and cross-cultural communities.

The course is also a pathway to further postgraduate study of a graduate diploma or master's degree.

CAREER OPPORTUNITIES

This course develops your knowledge and skills for roles as teachers and teachers aides, health and mental health workers, workers in Indigenous organisations, arts workers, child protection workers, workers in justice, women's and children's services, disability and social services.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification.

Special consideration will also be given to applicants who are Aboriginal and Torres Strait Islander and/or have at least three years of appropriate experience working with, or living in, Aboriginal Communities. Ensure you include this experience in the employment section of your application. You may be asked to provide a curriculum vitae (CV) at a later date.

Graduate Certificate of Safe Communities (Child Protection)

SATAC CODE – 1GC044

Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1GC544

Casuarina, Online (Full Fee)

UAC CODE – 821180

Casuarina, Online (Commonwealth Supported)

UAC CODE – 871170

Casuarina, Online (Full Fee)

DURATION – 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

If you are experienced in working with people and communities, the Graduate Certificate of Safe Communities (Child Protection) can give you an entry point to specialist postgraduate qualifications.

You will work to gain specialist knowledge and skills to assess, manage, respond to and support the reduction of child abuse. The course is designed for people who are working, or seeking to work, in statutory child protection, including social workers, psychologists, police, teachers, youth workers, allied health workers and community workers.

The course aims to enhance your capacity if you are responsible for supporting vulnerable children and families within their communities.

With an emphasis on prevention, innovation and collaboration you will be part of a learning community, drawing from research, knowledge and the expertise within community-led approaches to keeping children culturally, psychologically and physically safe.

CAREER OPPORTUNITIES

Child protection staff in local government take this course for professional development and skills acquisition.

ADMISSION REQUIREMENTS

- > Successful completion of a bachelor degree, graduate certificate, graduate diploma, masters degree or equivalent international qualification in a relevant field; or
- > Successful completion of a diploma level qualification and two years of experience working in the fields of community work, child protection or family violence; or
- > Consideration will also be given to you if you have at least five years of appropriate experience working with children, families and communities. To apply under this admission criteria, you must provide a curriculum vitae and two written referee reports in your application.

ESSENTIAL REQUIREMENTS

You must clear a National Police Check and/or a Working with Children Clearance.

Master of Aeromedical Retrieval

SATAC CODE – 1CM616
Casuarina, Online (Full Fee)

UAC CODE – 873350
Casuarina, Online (Full Fee)

DURATION – 1.5 years full-time, 3 years part-time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Master of Aeromedical Retrieval is an innovative course designed for healthcare professionals seeking to extend their knowledge of aeromedical retrieval, and develop foundational research skills.

Developed in partnership with The National Critical Care Trauma Response Centre, CareFlight (NT) and The Royal Flying Doctor Services (SA and Central Operations), this is a practical and industry-relevant course for nurses, midwives, physicians and other health professionals.

The Master of Aeromedical Retrieval will build on fundamental principles and clinical practice, equipping you to provide safe clinical care in the air in national and international situations.

You will study mostly online and complete on-campus intensives. This flexible course addresses:

- > delivery processes
- > critical reflection on aeromedical retrieval practice
- > the effects of policy and politics on health care provision, access and individual agency.

The Master in Aeromedical Retrieval will analyse the essentials of retrieval from neonatal care to adult care, including obstetrics.

An often-overlooked component of aeromedical retrieval is logistics. This course is an opportunity to critically reflect on both domestic and international logistics considerations.

This course, underpinned by cultural safety framework principles of safety and competence, will expand on your current or recent experience within the health service. During the course you will undertake education and assessments that have a direct application to your current or future professional practice and context.

CAREER OPPORTUNITIES

This course will enhance your knowledge and skills for roles which manage the emergency transport of patients by aeromedical retrieval. It is designed for clinicians and logisticians who are currently working in the aeromedical field or who have the pre-requisites to work in the field and are looking at entering the field in the future.

Graduates of this course will have an advanced level of aeromedical planning and understanding which will enable them to demonstrate critical thinking in this field. This will lead to better patient outcomes and fiscally responsible use of resources

Opportunities arising upon completion of this course include senior clinical roles and management within your organisation.

ADMISSION REQUIREMENTS

- > Australia Citizens and Permanent Residents must demonstrate current registration with the Australian Health Practitioner Regulation Agency (AHPRA).
- > International applicants must demonstrate current registration/affiliation/license with the relevant nursing/medical body in their country of origin.

It is expected applicants have recent work experience in a health setting.

ADDITIONAL ADMISSION REQUIREMENTS

English language requirements

Please refer to page 9 for further information.

Master of Health Research

	SATAC CODE – 1CM601 Casuarina, Online (Full Fee)
	UAC CODE – 873230 Casuarina, Online (Full Fee)
	DURATION – 1.5 years full-time, 3 years part-time
	DOMESTIC INTAKE – Semester 1, Semester 2

Master of Medical Laboratory Science

	SATAC CODE – 1CM607 Casuarina
	UAC CODE – 873260 Casuarina
	DURATION – 2 years full-time, 4 years part-time
	DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Master of Health Research will equip you with advanced knowledge and skills in health research design and practice, including the ability to plan and implement a substantial research project. Unique features of the course include learning from acclaimed Menzies School of Health Research professionals and supervisors in the specialist areas of Indigenous health, public health and global health.

You will acquire theoretical and practical capabilities in: epidemiology; biostatistics; quantitative and qualitative research methods. Following completion of the Master of Health Research you may proceed, with approval, to Higher Degree Research (PhD) training.

Career opportunities for graduates include the areas of health research and professional public health practice.

This course requires a high level of academic reading and writing. If you are not confident in your academic literacy skills you are encouraged to fully utilise the University's academic support services.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in non-government organisations (NGOs) and government sectors in areas such as: health research; professional health practice; health policy and planning; epidemiology; communicable and chronic disease control; community development and aid work.

ADMISSION REQUIREMENTS

Successful completion of one of the following:

- > a recognised bachelor degree or a graduate diploma in a related area; or
- > a recognised bachelor degree plus an honours degree or graduate diploma qualification in a non-related area.

Related areas include: public health, health science, social science, primary health care, medicine, or health promotion.

Applicants who have completed Charles Darwin University's Graduate Certificate of Infectious Disease Prevention and Control (UIDPC1) or Graduate Certificate of Epidemiology (UEPID1) are also eligible for entry into the Master of Public Health as these two courses are nested within the suite of postgraduate coursework awards.

ABOUT THE COURSE

The Master of Medical Laboratory Science will provide you with the necessary knowledge, skills and workplace experience to work in diagnostic pathology and assist with diagnosis, monitoring and treatment of disease.

You will gain knowledge and skills in the areas of haematology, microbiology, clinical chemistry, anatomical pathology and serology.

You will graduate ready to work in areas such as diagnostic pathology, research, forensics science and health management for public health departments, educational institutes and the pharmaceutical industry.

All graduates of this course are eligible to apply directly to Australian Institute of Medical Scientists (AIMS) for professional recognition.

PROFESSIONAL RECOGNITION

This course has been designed to meet the accreditation guidelines of the Australian Institute of Medical Scientists (AIMS). Graduates are eligible to apply for membership with AIMS.

CAREER OPPORTUNITIES

Graduates may work in a range of areas such as diagnostic pathology, research, forensics science, and health management for public health departments, educational institutes and the pharmaceutical industry.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree in biomedical or medical health disciplines.

Due to professional recognition, applicants who have completed a Bachelor of Medical Laboratory Science degree are not eligible for entry into this course.

ESSENTIAL REQUIREMENTS

A criminal history check will be required before undertaking any placements.

Master of Midwifery

SATAC CODE – 1CM596

Online (Full Fee)

UAC CODE – 873142

Online (Full Fee)

DURATION – 1.5 years full-time, 3 years part time

DOMESTIC INTAKE – Semester 1, Semester 2

CAREER OPPORTUNITIES

A Master of Midwifery can lead to advanced or specialised clinical roles. Graduates interested in research can progress from a Master of Midwifery to higher degrees by research.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification. Applicants must also hold current registration as a registered midwife with the Australian Health Practitioner Regulation Agency (AHPRA).

It is expected that all applicants for this course have post-degree work experience in a midwifery setting.

ABOUT THE COURSE

The Master of Midwifery will extend the knowledge you have gained through previous studies, midwifery practice and will develop your research appraisal skills. This course is designed for midwives who are already employed or have recent experience in a clinical setting, as students will undertake learning and assessment that can be directly applied to their professional practice and context.

The course focuses on cultivating your research skills in a supported partnership with an experienced midwife academic. During the final semester, you will undertake a project to address a real-world issue that you face at work. The project will be conducted entirely within your practice setting, and your findings will be disseminated to all relevant stakeholders at the clinical site.

The Master of Midwifery is a coursework qualification.

Master of Public Health

SATAC CODE – 1CM102

Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1CM602

Casuarina, Online (Full Fee)

UAC CODE – 823180

Casuarina, Online (Commonwealth Supported)

UAC CODE – 873180

Casuarina, Online (Full Fee)

DURATION – 1.5 years full-time, 3 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Master of Public Health will equip you with the tools to investigate, critique and respond to real world population health problems in local and global contexts. Unique features of the course include learning from acclaimed Menzies School of Health Research professionals in the specialist areas of Indigenous health, global health, public health practice and health research.

You will acquire advanced knowledge and skills in:

- > epidemiology
- > biostatistics
- > quantitative and qualitative research methods.

You will learn to analyse and interpret population health information, evaluate and design public health interventions and formulate strategies to address complex health and social issues.

You will apply public health approaches to:

- > health promotion
- > disease control
- > health systems
- > health policy
- > decision making
- > the environment
- > the sustainable development goals.

You will also have the opportunity to consolidate your learning by undertaking a research project supervised by an expert in the field.

Graduates have gone on to secure employment in national and international health services and government ministries; as well as in international health, development and humanitarian organisations and universities. They have become public health leaders, program planners, analysts, evaluators, health policy officers and professional practitioners. Our MPH graduates also continue on academic pathways to careers as successful health researchers.

This course requires you to have a high level of academic reading and writing. If you are not confident in your academic literacy skills, you are encouraged to fully utilise the University's academic support services.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in non-government organisations (NGOs) and government sectors in areas such as: health research, professional health practice, health policy and planning, epidemiology, communicable and chronic disease control, community development and aid work.

ADMISSION REQUIREMENTS

Successful completion of one of the following:

- > a recognised bachelor degree or a graduate diploma in a related area; or
- > a recognised bachelor degree plus an honours or a graduate diploma qualification in a non-related area.

Related areas include: public health, health science, primary health care, medicine, social science or health promotion.

Applicants who have completed Charles Darwin University's Graduate Certificate of Infectious Disease Prevention and Control (UIDPC1) or Graduate Certificate of Epidemiology (UEPID1) are also eligible for entry into the Master of Public Health as these two courses are nested within the suite of postgraduate coursework awards.

Master of Public Health/ Master of Health Research

SATAC CODE – 1CM614
Casuarina, Online (Full Fee)

UAC CODE – 873300
Casuarina, Online (Full Fee)

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

Combining a Master of Public Health with a Master of Health Research will give greater flexibility and opportunity to your career. This double degree is a strong, modern qualification that will enable you to tackle contemporary and future population health issues with high level public health and health research skills. It is also an alternative pathway to Higher Degrees by Research.

This double degree will equip students with the tools to investigate, critique and respond to real world population health problems in local and global contexts, as well as advanced knowledge and skills in health research design and evidence-based practice. Unique features of the course include learning from acclaimed Menzies School of Health Research professionals in the specialist areas of Indigenous health, global health, public health practice and health research.

Our students study:

- > epidemiology
- > biostatistics
- > quantitative
- > qualitative research methods.

They learn to analyse and interpret population health information, evaluate and design public health interventions and formulate evidence-based strategies to address complex health and social issues.

Our students apply public health approaches to:

- > health promotion
- > disease control
- > health systems
- > health policy
- > decision making
- > the environment and the sustainable development goals.

Students also consolidate their learning by undertaking a research project supervised by an expert in the field.

Our public health and health research graduates have gone on to secure employment in national and international health services and ministries; as well as public health organisations and universities. They have become public health leaders, program planners, analysts, evaluators, health policy officers, professional practitioners and health researchers.

This course requires a high level of academic reading and writing. Students who are not confident in their academic literacy skills are encouraged to fully utilise the University's academic support services.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in non-government organisations (NGOs) and government sectors in areas such as: health research, professional health practice, health policy and planning, epidemiology, communicable and chronic disease control, community development and aid work.

ADMISSION REQUIREMENTS

Successful completion of one of the following:

- > a recognised bachelor degree or a graduate diploma in a related area; or
- > a recognised bachelor degree plus an honours or a graduate diploma qualification in a non-related area.

Related areas include: public health, health science, primary health care, medicine, social science or health promotion.

Master of Nursing (Nurse Practitioner)

SATAC CODE – 1CM097
Online (Commonwealth Supported)

UAC CODE – 823152
Online (Commonwealth Supported)

DURATION – 2 years part-time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Master of Nursing (Nurse Practitioner) is an online course designed for experienced registered nurses who want to build their professional practice capability and seek endorsement as a Nurse Practitioner in line with the Standards of Practice set by Nursing and Midwifery Board of Australia.

This course will enhance your knowledge and advanced practice skills in a range of areas. These include, but are not limited to:

- > expanded practice
- > professional autonomy and accountability
- > clinical leadership.

The course builds on the knowledge you will have already gained through professional experience and postgraduate studies. It has a focus on person-centred care that is culturally responsive, to be applied within primary health care or any other healthcare settings where a nurse practitioner provides care.

Intensives (on campus)

While this is an online course, you are required to complete two on-campus intensives. Each intensive is one-week long and takes place at CDU's Sydney campus early in Semester 1 each year. Exact dates are confirmed during the course and students are responsible for the costs of attendance (including travel and accommodation).

Clinical requirements

In this course you are required to undertake a minimum of 300 hours supernumerary integrated professional practice (IPP). Further details are available in the Clinical Requirements SNNP01 Assessment Pack for the professional practice units.

Clinical Support Team (CST)

Chosen Clinical Support Team members and the clinical mentor (CM) must be employed at a minimum of 0.5 full-time equivalent (FTE) to enable consistent supervision and assessment in practice; casual staff are not eligible as CST members.

The nurse practitioner (NP) student will be working closely with their team to expand and further develop their clinical skills, decision-making, critical thinking, diagnostic reasoning, patient management, and professional practice.

It is desirable that the members of the CST have at least one of the following: educational training, experience supervising previous NP students, or experience of supervising registrar or medical students as outlined in the CST agreement form.

PROFESSIONAL RECOGNITION

Graduates of the course may be eligible to apply to the Nursing and Midwifery Board of Australia for endorsement as a nurse practitioner. See the Nursing and Midwifery Board of Australia website for further details regarding regulatory requirements.

CAREER OPPORTUNITIES

Nurse practitioners work in a wide variety of health care settings. As a nurse practitioner you can work in primary health care, community health or older adult care. Nurse practitioners work in hospital or outreach from different specialist areas, common areas; chronic diseases i.e. heart failure, renal or respiratory. There are opportunities to work as an endorsed Nurse practitioner in public and/or private health care either employed or through your own business.

ESSENTIAL REQUIREMENTS

Students may be required to undertake a Criminal History Check and Working with Children Check prior to undertaking supernumerary integrated professional practice.

ADMISSION REQUIREMENTS

All applicants must:

- > hold current and unrestricted registration as a registered nurse with the Australian Health Practitioner Regulation Agency (AHPRA)
- > have completed a graduate certificate or higher degree in their nursing clinical field,
- > provide a curriculum vitae (CV) demonstrating a minimum of two-years of full time equivalent (FTE) employment as a registered nurse in a specified clinical field and a minimum of an additional two-years FTE of recent advanced nursing practice in the same clinical field.
- > provide evidence from an approved health care organisation that support the applicant and the clinical requirements, including supervision and clinical support for a minimum of 300 hours of supernumerary integrated professional practice during the course.

Master of Nursing Practice (Pre-Registration)

SATAC CODE – 1CM612 (Full Fee)
Casuarina, Online

SATAC CODE – 1CM613 (Full Fee)
Sydney,

UAC CODE – 873310 (Full Fee)
Casuarina, Online

UAC CODE – 873323 (Full Fee)
Sydney

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

If you already hold a bachelors degree, the Master of Nursing Practice (Pre-Registration) enables you to become a registered nurse in as little as two years.

The Master of Nursing Practice (Pre-Registration) is a professionally-accredited course that qualifies you to register as a registered nurse (Division 1) in Australia. It is approved by the Nursing and Midwifery Board of Australia.

At CDU, you can study a Master of Nursing Practice (Pre-Registration) online or on campus, part-time or full-time. You will benefit from flexible and supportive study as you pursue a career change, and you will join our cohort of more than 4,000 nursing students across Australia.

During the course you will learn critical thinking, to use sound clinical reasoning, to undertake comprehensive health assessments and how to practice patient-centred care. The focus is on care that is evidence-based and respectful of the diverse contexts, cultures and communities where people live, connect and experience health, well-being, illness and disability.

Studying a Master of Nursing (Pre-Registration) online

CDU is one of the first universities in Australia to deliver nursing degrees online, and we have been offering distance education for more than 30 years.

As an online nursing student, you will have access to 24/7 technical and academic support, an easy-to-use online learning platform, and be supported with placements and practical training close to your home.

Online study is only available to domestic students (Australian and New Zealand citizens, Australian permanent residents, and holders of Australian humanitarian visas).

Practical training

To meet the requirements of a registered nurse (Division 1), you will complete at least 800 hours of supervised clinical placements across the two years of the course in a variety of health care settings.

Regardless of your study mode or pattern, you are required to complete clinical placement on a full-time basis, with rotating shifts across a seven-day week. These may include night, weekend and public holiday shifts.

If you are studying online, CDU will arrange placements close to your home.

Reporting obligations

Under the Health Practitioner Regulation National Law, CDU is required to register nursing students with the Australian Health Practitioner Regulation Agency (AHPRA) and to notify AHPRA if a student has or develops a health impairment that may place the public at substantial risk of harm. More information available on Student Registration is available on the Nursing and Midwifery Board of Australia website.

PROFESSIONAL RECOGNITION

Graduates of the Master of Nursing (pre-registration) meet the education criterion to apply for registration as a Division 1 nurse with Australian Health Practitioner Regulation Agency (AHPRA).

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in public and private health settings and specialty areas such as mental health, community health, acute and chronic care.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification.

ENGLISH LANGUAGE REQUIREMENTS

In order to register as a nurse or midwife in Australia, you are required to meet the English language requirements laid out by the Nursing and Midwifery Board of Australia. This applies to all initial registrations, regardless of whether they qualified in Australia or overseas. Find out more:

www.nursingmidwiferyboard.gov.au. Please refer to page 9 for further information.

Master of Nursing

SATAC CODE – 1CM615
Online (Full Fee)

UAC CODE – 873332
Online (Full Fee)

DURATION – 1.5 years full-time, 3 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

Master of Nutrition

SATAC CODE – 1CM603
Casuarina, Online

UAC CODE – 873340
Casuarina, Online

DURATION – 2 years full-time, 4 years part-time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Master of Nursing extends the knowledge you have gained through your undergraduate studies and professional experience, preparing you for enhanced roles in nursing in areas such as education, management, administration and consultancy.

The flexible, online Master of Nursing will equip you with the skills and knowledge to be a skilled advanced clinician and future leader, working collaboratively and productively in dynamic and diverse health service environments.

CAREER OPPORTUNITIES

Completion of postgraduate education is a necessity for a wide range of potential career advances such as management, leadership or education roles or academic or research positions. Graduates of a Master of Nursing are recognised as possessing significant advancement in critical thinking and decision-making capability, which is a requirement of most senior clinical and managerial positions.

ADMISSION REQUIREMENTS

Applicants must hold current registration as a registered nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

ESSENTIAL REQUIREMENTS

English language requirements

Please refer to page 9 for further information.

ABOUT THE COURSE

The Master of Nutrition is a graduate-entry degree that qualifies you to work as a nutritionist and pursue a diverse career in health, focusing on how food and nutrition impacts the health and wellbeing of individuals, families, communities and populations.

This course provides you with advanced knowledge in biological, social and policy related aspects of human nutrition, opening doors to a multitude of opportunities in health encompassing acute or community health facilities, public health, food and nutrition policy, health promotion, the food industry, and research.

You will study mostly online, and complete 100 days of work-integrated learning including supported, relevant practical placements and projects in food service, nutrition communication and nutrition research, supported by CDU academics.

There are unique placement opportunities in the Northern Territory local, rural and remote areas.

Australia needs competent health professionals who understand the impact of nutrition on health to address the prevention and treatment of illness and this course prepares students to take on this challenge.

Aboriginal and Torres Strait Island students are encouraged to apply. CDU's Indigenous Student Support services are on hand to support you through your degree.

This course offers international study opportunities and welcomes international students with CDU offering a dedicated academic to provide support to international students.

PROFESSIONAL RECOGNITION

As a Master of Nutrition graduate you will be eligible to register with the Nutrition Society of Australia as a Registered Nutritionist. You may also apply for membership with the Australian Health Promotion Association and the Public Health Association of Australia.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas such as community health centres, health promotion organisations, government and non-government organisations (NGOs), the food industry, acute health services, sporting organisations, universities and research organisations. Roles may include nutrition consultant, nutrition educator, health promotion officer, public health and policy advisor, food and nutrition programming.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or equivalent international qualification with at least a credit average (GPA of 5.00).

ADDITIONAL ADMISSION REQUIREMENTS

English language requirements

All applicants are required to demonstrate the minimum English language proficiency.

Master of Occupational Therapy

SATAC CODE – TBC
Casuarina

UAC CODE – TBC
Casuarina

DURATION – 2 years/ 4 years

DOMESTIC INTAKE – TBC

ABOUT THE COURSE

Occupational therapy (OT) is a degree-based health profession, regulated by the Australian Health Practitioner Regulation Agency (AHPRA). Occupational therapists use a whole person perspective to work with individuals, groups and communities to achieve optimal health and wellbeing through participation in the occupations of life.

The Master of Occupational Therapy equips you with the skills and knowledge to improve the lives of the clients, families and communities with which you will work.

During the course, you will gain invaluable practical experience by completing 1,000 hours of health practicum, with the support of CDU academics and registered OT professionals. There are unique placement opportunities in the Northern Territory's regional, rural and remote areas.

Aboriginal and Torres Strait Island students are encouraged to apply. CDU's Indigenous Student Support services are on hand to support you through your degree. This course offers international study opportunities and welcomes international students with CDU offering a dedicated international student support academic.

PROFESSIONAL RECOGNITION

All students within the occupational therapy program will be registered by the College with the Australian Health Practitioner Regulation Agency (AHPRA). Under the National Law, all students are required to comply with a range of legislative requirements.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in areas such as community health centres, public and private hospitals, aged care facilities, paediatric facilities, education facilities, mental health settings, alcohol and drug services, private clinics, non-government organisations, correctional institutions, universities and research facilities, corporate and industrial settings, supported employment and government departments.

ADDITIONAL ADMISSION REQUIREMENTS

English language requirements

Please refer to page 9 for further information.

ESSENTIAL REQUIREMENTS

If you are undertaking a course with clinical or fieldwork placements you must demonstrate compliance with the following checks and requirements. It is your responsibility to ensure that the correct documentation is obtained prior to commencing clinical/fieldwork placements. A national and/or international Police Check and a current Working with Children Check is required regarding suitability to undertake clinical/fieldwork placements.

Master of Psychology (Clinical)

SATAC CODE – 1CM092
Casuarina

UAC CODE – N/A
Casuarina

DURATION – 2 years full-time

DOMESTIC INTAKE – Semester 1

Graduate Diploma of Child and Family Health

SATAC CODE – 1GD539
Online (Full Fee)

UAC CODE – 872122
Online (Full Fee)

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1

ABOUT THE COURSE

The Master of Psychology (Clinical) is a professionally accredited degree that prepares you for a career as a specialist in the health services. It is approved by the Australian Psychological Society College of Clinical Psychologists. Your studies are a combination of coursework, placements, and a thesis to develop and strengthen your skills and knowledge so you are a confident and experienced practitioner ready to make a positive change in your community.

Key areas of focus include interviewing and intervention strategies, biological and neuropsychological perspectives on disorders, psychological assessment and therapies, ethics and issues in professional practice, as well as advanced research methods.

After you accept your offer into this course, you must register with the Australian Health Practitioner Regulation Agency (AHPRA) as a provisional psychologist before the study semester starts.

PROFESSIONAL RECOGNITION

This course is accredited by the Australian Psychology Accreditation Council (APAC) and is approved by the Australian Psychological Society College of Clinical Psychologists.

ADMISSION REQUIREMENTS

Successful completion of an APAC accredited four-year sequence in psychology with either a minimum upper second class Honours (2A).

OR

Graduate Diploma in psychology with a minimum GPA of 6.00.

All applicants are required to provide:

- > 2 referee reports submitted via <https://www.psychologyreference.org/>; and
- > a curriculum vitae (CV) and cover letter addressing why you are interested in the CDU course; to be uploaded with your application at the time of submission.

Invitations to attend an interview will be extended to applicants based on a combination of academic performance, CV and references.

ESSENTIAL REQUIREMENTS

All students enrolled in the program are required to be provisionally registered as a psychologist on commencement of the course.

Prior to commencing clinical practice, all students are required to undergo a 'working with vulnerable people' check, and Australian Federal Police Record Check. Depending on requirements of health departments, some health facilities may request students to present a complete immunisation schedule, and First Aid certificates including CPR. A current Working with Children Check may also be required.

ABOUT THE COURSE

The Graduate Diploma of Child and Family Health is an online course designed for registered nurses and midwives seeking to extend their knowledge and expand their scope of practice.

This course addresses the principles of equity, empowerment, and the socio-political determinants of health. It has an inter-sectoral focus on individual, family and community access to services, supporting the healthy development of children and families.

During this course, you will enhance your clinical practice, knowledge and skills in child and family health theory, care delivery processes, clinical education and clinical management.

This course will expand on your current or recent experience within the health service, and you will learn skills and knowledge that can be directly applied to your current or future professional practice.

CAREER OPPORTUNITIES

Completion of postgraduate education is a necessity for a change in career direction or advancement toward management, leadership or education roles or academic or research positions. On completion of the Graduate Diploma of Child and Family Health you may progress to the Master of Nursing or Midwifery.

ADMISSION REQUIREMENTS

Applicants must hold current registration as a registered nurse (Division 1) or registered midwife with the Australian Health Practitioner Regulation Agency (AHPRA).

It is expected applicants have at least one year full time recent employment (post registration) in a midwifery/nursing or associated setting by date of application.

ESSENTIAL REQUIREMENTS

Students must provide proof that they have met all university and State/Territory pre-clinical requirements before they can undertake those units that include clinical placements. These requirements include, but are not limited to, immunisation requirements, Senior First Aid qualification, annual criminal record checks and/or Working with Children clearances and/or fitness-to-practice requirements.

Graduate Diploma of Clinical Nursing

SATAC CODE – Non-SATAC
Online

UAC CODE – N/A
Online

DURATION – 1 year full-time

DOMESTIC INTAKE – Semester 1, Semester 2

Graduate Diploma of Health Research

SATAC CODE – 1GD034
Casuarina, Online (Commonwealth Supported)

SATAC CODE – 1GD534
Casuarina, Online (Full Fee)

UAC CODE – 822040
Casuarina, Online (Commonwealth Supported)

UAC CODE – 872040
Casuarina, Online (Full Fee)

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Diploma of Clinical Nursing is designed for registered nurses who already hold a Graduate Certificate of Clinical Nursing and wish to continue their studies.

This course will extend your knowledge further and to develop foundation research skills.

The Graduate Diploma of Clinical Nursing develops your knowledge of evidence-based practice, leadership skills and principles, and managing professional development.

The course is underpinned by principles inherent in cultural safety to highlight the importance of quality and safety in health care. It is expected that you will already be employed or have recent experience as a nurse. As part of this course, you will undertake assessments which can be directly applied to your professional practice and context.

On completing this course, you may progress to a Masters qualification and apply for advanced standing for the study you have already completed.

ADMISSION REQUIREMENTS

Applicants must hold a Graduate Certificate of Clinical Nursing from CDU. Applicants must hold current registration as a registered nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

All applicants must provide evidence of current employment or recent experience in their field of nursing specialisation in their application.

This course is only available by direct entry through MyNextCourse.

ABOUT THE COURSE

The Graduate Diploma of Health Research will equip you with advanced knowledge and skills in health research design and practice. Unique features of the course include learning from acclaimed Menzies School of Health Research professionals in the specialist areas of Indigenous health, public health and global health. You will acquire theoretical and practical capabilities in:

- > epidemiology
- > biostatistics
- > quantitative and qualitative research methods.

On completion you can articulate to a Master of Health Research and undertake a supervised research project; and then proceed, with approval, to Higher Degree Research training. Alternatively, you can articulate to a Master of Public Health.

Career opportunities for graduates include the areas of health research and professional public health practice.

This course requires a high level of academic reading and writing. If you are not confident in your academic literacy skills, you are encouraged to fully utilise the University's academic support services.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in non-government organisations (NGOs) and government sectors in areas such as: health research; professional health practice; health policy and planning; epidemiology; communicable and chronic disease; community development and aid work.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate diploma, masters or equivalent international qualification. Registered nurses who are graduates of a hospital-based program are also eligible for entry.

Consideration will be given to applicants who only hold a graduate certificate.

Graduate Diploma of Public Health

SATAC CODE – 1GD035

Casuarina, Online (Commonwealth Supported)

Casuarina, Online (Full Fee)

DURATION – 1 year full-time, 2 years part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Diploma of Public Health will equip you with the skills needed to investigate, critique and respond to real world population health problems in local and global contexts. Unique features of the course include learning from acclaimed Menzies School of Health Research professionals in the specialist areas of Indigenous health, global health, public health practice and health research.

You will acquire advanced knowledge and skills in:

- > epidemiology
- > biostatistics
- > quantitative and qualitative research methods.

You will learn to analyse and interpret population health information, evaluate and design public health interventions and formulate strategies to address complex health and social issues.

You will apply public health approaches to:

- > health promotion
- > disease control
- > health systems
- > health policy
- > decision making
- > the environment
- > the sustainable development goals

On completion you can articulate to the Master of Public Health with the option of undertaking a supervised research project.

Career opportunities for graduates include professional public health practice; health policy and planning; epidemiology; communicable and chronic disease control; health research; community development and aid work.

This course requires a high level of academic reading and writing. If you are not confident in your academic literacy skills, you are encouraged to fully utilise the University's academic support services.

CAREER OPPORTUNITIES

Graduating from this course may lead to career opportunities in non-government organisations (NGOs) and government sectors in areas such as: health research; professional health practice; health policy and planning; epidemiology; communicable and chronic disease control; community development and aid work.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree, graduate diploma, masters degree, or equivalent international qualification. Registered nurses who are graduates of a hospital-based program are also eligible for entry.

Consideration will be given to applicants who only hold a graduate certificate.

Graduate Diploma of Mental Health

	SATAC CODE – 1GD530 Online (Full Fee)
	UAC CODE – 872062 Online (Full Fee)
	DURATION – 1 year full-time, 2 years part-time
	DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Diploma of Mental Health is designed for health professionals who hold an undergraduate degree, and are seeking to extend their knowledge and develop their foundational research skills.

The course addresses:

- > care delivery processes
- > critical reflection on mental health practice
- > the effects of policy and politics on health care provision, access and individual agency.

Cultural safety principles underpin the course design and reinforce the ways in which quality and safety are central to health care.

It is expected that you will already be employed or have recent experience within the health sector. As part of this course, you will undertake assessments which have direct applications to your professional practice and context.

CAREER OPPORTUNITIES

The Graduate Diploma of Mental Health provides a sound basis for specialist clinical practice in the field of mental health and further career advancement.

ADMISSION REQUIREMENTS

Successful completion of a bachelor degree or equivalent international qualification in health or allied health studies. It is expected that all applicants for this course have post-degree work experience with mental health in their relevant industry.

Graduate Diploma of Nursing

	SATAC CODE – 1GD532 Online (Full Fee)
	UAC CODE – 872082 Online (Full Fee)
	DURATION – 1 year full-time, 2 years part-time
	DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Diploma of Nursing is designed for registered nurses seeking to extend the knowledge they have gained through their undergraduate nursing studies and to develop their foundation research skills.

The course will build your knowledge in evidence-based practice, leadership skills and principles, and managing professional development. Principles inherent in a cultural safety framework underpin the course to highlight the centrality of quality and safety in health care.

It is expected that you will already be employed or have recent experience as a nurse. As part of this course, you will undertake assessments which have direct applications to your professional practice and context.

On completion of this course, you may progress to the masters qualification specific to your discipline, with advanced standing for completed studies.

CAREER OPPORTUNITIES

Graduating from this course may lead to specialised clinical career opportunities in a broad range of nursing practice areas. On completion of this course, you may progress to the masters qualification specific to your discipline, with advanced standing for completed studies.

ADMISSION REQUIREMENTS

Current registration as a registered nurse with the Australian Health Practitioner Regulation Agency (AHPRA). It is expected that all applicants have recent experience in their field of nursing specialisation.

Graduate Diploma of Renal Care

-  **SATAC CODE** – 1GD538
Online (Full Fee)
-  **UAC CODE** – 872112
Online (Full Fee)
-  **DURATION** – 1 year full-time, 2 years part-time
-  **DOMESTIC INTAKE** – Semester 1

ABOUT THE COURSE

The Graduate Diploma of Renal Care is designed for registered nurses and midwives who want to extend their knowledge and expand their scope of practice.

In this course, you will synthesise the principles of equity, empowerment, and the socio-political determinants of health. It takes an inter-sectoral focus on individual, family and community access to renal health services.

The course will provide you with the opportunity to enhance and expand your:

- > clinical practice
- > knowledge and skills in renal healthcare
- > care delivery processes
- > clinical education, and
- > clinical management.

This course will expand on your current or recent experience within the health service, and you will undertake education and assessments that can be directly applied to your current or future professional practice.

CAREER OPPORTUNITIES

Completion of postgraduate education is a necessity for a wide range of career advances toward management, leadership or education roles or academic or research positions. On completion of the Graduate Diploma in Renal Care you may progress to study the Master of Nursing.

ADMISSION REQUIREMENTS

Applicants are required to:

- > hold current registration as a registered nurse (Division 1) or registered midwife with the Australian Health Practitioner Regulation Agency (AHPRA)
- > be currently employed in a renal related area and have worked in this field for at least 1 year at 0.4FTE, approximately 16 hours per week
- > provide details of their employment in this field which should be completed at the time of submitting their application.

Graduate Certificate of Aeromedical Retrieval

-  **SATAC CODE** – 1GC048
Casuarina, Online (Commonwealth Supported)
-  **SATAC CODE** – 1GC548
Casuarina, Online (Full Fee)
-  **UAC CODE** – 821292
Casuarina, Online (Commonwealth Supported)
-  **UAC CODE** – 871292
Casuarina, Online (Full Fee)
-  **DURATION** – 0.5 years full-time, 1 year part-time
-  **DOMESTIC INTAKE** – Semester 1

ABOUT THE COURSE

The Graduate Certificate of Aeromedical Retrieval is an innovative course that will extend knowledge gained through your health studies and develop foundational research skills and a complex understanding of aeromedical retrieval.

Relevant to nurses, midwives, physicians and other health professionals who wish to undertake postgraduate education in the area of aeromedical retrieval.

This flexible course addresses:

- > delivery processes
- > critical reflection on aeromedical retrieval practice- the effects of policy and politics on health care provision, access and individual agency.

On completion of the Graduate Certificate of Aeromedical Retrieval, you may progress to the Master of Aeromedical Retrieval, with advanced standing of completed studies.

CAREER OPPORTUNITIES

This course will enhance and develop the knowledge and skills for roles which manage the emergency transport of patients by aeromedical retrieval. Graduates of this course have the opportunity to critically analyse and reflect upon the aeromedical retrieval journey.

The Graduate Certificate examines the Fundamentals and Principles of Aeromedical retrieval as well as the logistic components from the domestic to international level.

Completion of this course positions graduates in a stronger position to undertake senior clinical and administrative roles within their organisation

ADMISSION REQUIREMENTS

Australia Citizens and Permanent Residents must demonstrate current registration with the Australian Health Practitioner Regulation Agency (AHPRA).

Graduate Certificate of Clinical Facilitation

SATAC CODE – 1GC537

Online (Full Fee)

UAC CODE – 871022

Online (Full Fee)

DURATION – 6 months full-time, 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

Graduate Certificate of Dementia Studies

SATAC CODE – 1GC549

Online (Full Fee)

UAC CODE – 871302

Online (Full Fee)

DURATION – 6 months full-time, 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Clinical Facilitation is designed for health professionals who are, or aspire to be, clinical educators in healthcare workplaces.

The course will equip you with the knowledge and skills to plan, implement and evaluate on-going facilitation when involved with the delivery of clinical education. It will also provide you with formal training in teaching and supervision, including the ability to overcome challenges when facilitating learning.

The course is for health professionals that are already working in a clinical setting, as students undertake assessments that can be directly applied to their professional practice and context. The Graduate Certificate of Clinical Facilitation offers a strong theoretical and practical grounding that enables health practitioners to develop an analytical approach to clinical education. It facilitates your capacity to think critically and provide enhanced clinical facilitation and supervision of students studying to be a health professional.

CAREER OPPORTUNITIES

Completion of the Graduate Certificate of Clinical Facilitation enables career opportunities for enhanced clinical facilitation and supervision of health professional students.

ADMISSION REQUIREMENTS

Current registration with the Australian Health Practitioner Regulation Agency (AHPRA).

ABOUT THE COURSE

The Graduate Certificate of Dementia Studies is an innovative course for healthcare professionals who want to build their knowledge and develop a deeper understanding of dementia care.

This course is relevant to all health professionals who wish to undertake postgraduate education in dementia care settings (including residential, inpatient and community settings).

This flexible course will prepare you to work within this growing area of speciality care.

On completion of the Graduate Certificate in Dementia Studies you may progress to the Master of Nursing and apply for advanced standing for study you have already completed.

CAREER OPPORTUNITIES

Completing this course may lead to career opportunities working in dementia care settings within the health and human services sector. In addition, completion of postgraduate education is a necessity for a wide range of career advances toward management, leadership or education roles or academic or research positions.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree in a related field such as nursing, allied health, or behavioural or social sciences; and

Applicants are required to provide a curriculum vitae (CV) clearly documenting one-year post-degree work experience and a professional development portfolio in a dementia care setting with their application.

Graduate Certificate of Health Services Management

SATAC CODE – 1GC539
Online (Full Fee)

UAC CODE – 871082
Online (Full Fee)

DURATION – 6 months full-time, 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

Graduate Certificate of Maternal Critical Care

SATAC CODE – 1GC540
Online (Full Fee)

UAC CODE – 871122
Online (Full Fee)

DURATION – 6 months full-time, 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Health Services Management is designed for those working in or aspiring to management roles in the healthcare sector.

This course will extend the knowledge you have gained through your undergraduate health or business studies by developing your understanding of:

- > the impact of technological innovation in healthcare management and service delivery
- > managing human and financial resources
- > planning for change in different contexts.

You will explore delivery processes, critically reflect on your decision-making processes, and learn about the effects of policy and politics on health care provision and access.

This course is designed for those who are already working or have recent management experience in the health sector. As part of this course, you will undertake learning and assessments that can be directly applied to your professional practice and context.

On completing this course, you may progress to the Masters qualification specific to your discipline and apply for advanced standing for study you have already completed.

CAREER OPPORTUNITIES

This course prepares graduates for contemporary management practice within the healthcare sector.

ADMISSION REQUIREMENTS

Successful completion of a bachelor degree or equivalent international qualification in health studies, management or business and evidence of recent experience in a health setting in a management capacity; or

Consideration will also be given to applicants who demonstrate at least five years appropriate professional experience in middle to higher level management in a health service organisation.

ABOUT THE COURSE

The Graduate Certificate of Maternal Critical Care is designed for registered nurses and midwives seeking to extend the knowledge they have gained through maternity clinical practice and to develop advanced theoretical skills in obstetrical and gynaecological critical care.

The course is suited to nurses and midwives who are already employed in a clinical setting, as students undertake assessments that can be directly applied to their professional practice and context.

The Graduate Certificate of Maternal Critical Care offers a strong theoretical and practical grounding that enables health practitioners to develop an analytical approach to clinical decision-making. It will improve your critical thinking capability and capacity to provide enhanced maternity care services.

CAREER OPPORTUNITIES

The Graduate Certificate of Maternal Critical Care prepares students for advanced clinical practice roles in this specialist area. This course is a recognised pathway to masters level study either by coursework or toward a Master of Nursing (Nurse Practitioner).

ADMISSION REQUIREMENTS

Current registration as a registered nurse or midwife with the Australian Health Practitioner Regulation Agency (AHPRA).

Graduate Certificate of Midwifery Studies

SATAC CODE – 1GC559

Online (Full Fee)

UAC CODE – 871322

Online (Full Fee)

DURATION – 6 months full-time, 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

Graduate Certificate of Nursing Studies

SATAC CODE – 1GC558

Online (Full Fee)

UAC CODE – 871332

Online (Full Fee)

DURATION – 6 months full-time, 1 year part-time

DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Midwifery Studies is an innovative course for registered midwives wishing to return to study. During the course, you will examine and reflect on your midwifery practice and have the freedom to create a tailored study program by selecting from a wide-range of units.

Available 100% online, this flexible course was designed with the busy midwife in mind. You will have access to 24/7 technical and academic support, an easy-to-use online learning platform, and phone, email and video communication, so you can study when it suits you.

On finishing the course, you will hold a postgraduate qualification (which can help to advance your career in management, leadership, education or research roles) and can use your Graduate Certificate as a pathway to further study should you wish to complete a masters degree.

CAREER OPPORTUNITIES

The Graduate Certificate in Midwifery Studies will build upon foundational knowledge and clinical experience to develop critical thinking and decision making. Completion of postgraduate education is a necessity for a wide range of career advances towards management, leadership or education roles or academic or research positions. On completion of the Graduate Certificate of Midwifery Studies, you may progress to the Master of Midwifery, with advanced standing of completed studies.

ADMISSION REQUIREMENTS

Applicants must hold current registration as a registered midwife with the Australian Health Practitioner Regulation Agency (AHPRA).

ABOUT THE COURSE

The Graduate Certificate of Nursing Studies is an innovative course for registered nurses seeking a bespoke, tailored postgraduate qualification.

It prepares you for a wide range of careers in nursing, such as working in clinical practice, research, education or management roles.

Building on your undergraduate nursing studies, the Graduate Certificate of Nursing Studies allows you to self-select units offered from the nursing and health fields, giving you the flexibility to customise an individualised program.

The course is 100% online, so you can study around your own schedule. You will have access to an easy-to-use online learning platform, 24/7 technical support, and email, phone and video communication with unit coordinators. On completion of the Graduate Certificate of Nursing Studies, you may progress to the Master of Nursing, with advanced standing of completed studies.

CAREER OPPORTUNITIES

Graduates of the Certificate in Nursing Studies will have advanced their foundational knowledge of nursing studies and developed understanding, appreciation and application of evidence based practice. Completion of postgraduate education is a necessity for a wide range of career advances towards management, leadership or education roles or academic or research positions.

ADMISSION REQUIREMENTS

Applicants must hold current registration as a registered nurse with the Australian Health Practitioner Regulation Agency (AHPRA).

DOMESTIC INTAKE – Semester 1, Semester 2

Through this course, you will synthesise the principles of equity, empowerment, and the socio-political determinants of health. It has an inter-sectoral focus on individual, family and community access to health services. This course will expand on your current or recent experience within the primary health care service, and you will undertake education and assessments that can be directly applied to your current or future professional practice.

On completion of the Graduate Certificate of Primary Health Care, you may progress to the Master of Nursing, with advanced standing of completed studies.

CAREER OPPORTUNITIES

Graduating from this course will demonstrate expertise in the selected primary healthcare specialty. Career opportunities afforded to graduates of this degree include the possibility of working in specialised areas of primary healthcare. Completion of postgraduate education is a necessity for a wide range of career advances towards management, leadership or education roles or academic or research positions.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree in an associated health, behavioural or social science studies or allied health field; such as nursing, midwifery, pharmacology, social work, oral or skin health.

Applicants to the Remote Nursing specialisation must also hold current registration as a registered nurse or midwife with the Australian Health Practitioner Regulation Agency (AHPRA).

It is expected applicants have current or recent work experience in a primary health care setting. This may include (but not be limited to) registered nursing, registered midwives, social workers and pharmacists.

ABOUT THE COURSE

The Graduate Certificate of Primary Health Care is designed for healthcare professionals seeking to expand their scope of practice and extend their knowledge of one of the following:

- > chronic condition management
- > dementia management
- > oral health
- > maternal and child health
- > sexual health
- > skin health
- > remote nursing.

This course covers the National Safety and Quality Health Service (NSQHS) Standards applied to Primary Health Care, Clinical Governance, Comprehensive Care, Partnering with Consumers, and Recognising and Responding to Acute Deterioration.

Graduate Certificate of Epidemiology

	SATAC CODE – 1GC543 Casuarina, Online (Full Fee)
	UAC CODE – 871060 Casuarina, Online (Full Fee)
	DURATION – 1 year part-time
	DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Epidemiology offers an introduction to core concepts and skills in epidemiology, statistical research methods and quantitative analysis of health data - aimed at prevention, protection and promotion of health in the community. Unique features of the course include learning from acclaimed Menzies School of Health Research researchers and experts in the field. Career opportunities for graduates include epidemiological roles in health or clinical research.

On completion, you can articulate to the Graduate Diploma and Master of Public Health, or the Graduate Diploma and Master of Health Research.

This course requires a high level of academic reading and writing. If you are not confident in your academic literacy skills, you are encouraged to fully utilise the University's academic support services.

CAREER OPPORTUNITIES

Career opportunities for graduates include epidemiological roles in health or clinical research.

ADMISSION REQUIREMENTS

Successful completion of a recognised bachelor degree or a higher qualification. Registered nurses who are graduates of a hospital-based program are also eligible for entry.

Graduate Certificate of Infectious Disease Prevention and Control

	SATAC CODE – 1GC547 Casuarina, Online (Full Fee)
	UAC CODE – 871192 Casuarina, Online (Full Fee)
	DURATION – 6 months full-time, 1 year part-time
	DOMESTIC INTAKE – Semester 1, Semester 2

ABOUT THE COURSE

The Graduate Certificate of Infectious Disease Prevention and Control offers an introduction to core concepts and skills in infectious disease prevention and control. This includes epidemiology, statistical research methods and quantitative analysis of health data.

During the course you will explore key public health principles and practices aimed at preventing illness and protecting health in the community. Unique features of the course include learning from acclaimed Menzies School of Health Research researchers and experts in the field.

Career opportunities for graduates include epidemiological or public health roles. On completion, students can articulate to the Graduate Diploma and Master of Public Health, or the Graduate Diploma and Master of Health Research.

This course requires strong academic reading and writing skills. If you are not confident in your academic literacy skills you will be supported by the University's academic support services.
