Remise des titres de CHE/LCS

Le dimanche 14 juin 2020

Certified Health Executive Program (CHE)

The College values and upholds the high standard of lifelong learning and offers Canadian health leaders the CHE (Certified Health Executive) designation. This designation signifies the commitment to health leadership that our members possess.

Over 50% of College members are currently certified. Achievement of the designation is the first step towards becoming a Fellow of the Canadian College of Health Leaders, the College's highest level of professional recognition.

The CHE designation demonstrates dedication to the profession; indicates knowledge of the latest healthcare leadership practices; exemplifies commitment to lifelong learning; is a mark of professionalism; and is becoming one of the most preferred credentials used in the recruitment of health leaders by an increasing number of employers.

Le programme Leader certifié en santé (CHE/LCS)

Le Collège croit en la valeur de l'apprentissage continu et s'efforce de maintenir des normes élevées en offrant aux leaders en santé le titre de CHE/LCS. Ce titre démontre l'engagement de nos membres envers la profession de leader en santé.

Actuellement, plus de 50 % des membres du Collège sont des CHE/LCS. La certification est la première étape vers l'obtention du titre de fellow du Collège, qui est la plus grande marque de reconnaissance professionnelle qu'offre le Collège.

Il est un des critères de premier choix qu'utilisent un nombre croissant d'employeurs pour recruter des leaders en santé.

**PROFESSIONAL STANDARDS COUNCIL
CONSEIL DES NORMES PROFESSIONNELLES**

ANDREW MACDOUGALL, CHE
(Chair/Président)
Director of Long Term Care
Health PEI

BRENDA LAMMI
Vice-President, Professional and
Leadership Development
Vice-présidente, Développement
professionnel et du leadership

STÉPHANE JOANNETTE
Manager, CHE Program
Gestionnaire, Programme CHE/LCS

**PROFESSIONAL STANDARDS
COUNCIL**

The CHE Program is administered by the Professional Standards Council which provides strategic directions for the professional designation programs (CHE and FCCHL), the Maintenance of Certification (MOC) program, leadership capabilities, and professional leadership programs for certified and non-certified members. The Council ensures high professional standards and continuous quality improvement for the professional designation programs.

**CONSEIL DES NORMES
PROFESSIONNELLES**

Le programme CHE/LCS est administré par le Conseil des normes professionnelles qui fournit les directions stratégiques aux programmes de désignations professionnelles (CHE/LCS et FCCL), le programme de Maintien de certification (MDC), les compétences professionnelles et les programmes de développement professionnel pour les membres certifiés et non-certifiés du Collège. Le Conseil garanti de hautes normes professionnelles et une amélioration de qualité continue pour les programmes de désignation professionnelle.

We are proud to announce that 376 College members received the CHE designation in 2019-2020.

Nous sommes fiers de vous présenter les 376 membres du Collège qui ont reçu le titre de CHE/LCS en 2019-2020.

CHE Select Program

The CHE Program is the only leadership designation in Canada for all health leaders. The CHE is aligned to the LEADS Domains which supports self-directed, life-long learning.

CHE Select intensifies the College's role in supporting leaders in Canadian health system to define and understand their leadership and the role they play in leading systems change, it includes individual development and will also support organizational culture and systems change.

CHE Select program is an extensive journey into LEADS-based leadership development using tools, content and processes representing current best practices and evidence. As LEADS is fully incorporated in the content and requirements for completing the CHE credential, achieving and maintaining the credential contributes to building a common leadership language across leaders and health systems in Canada.

Congratulations!
Félicitations!
