

EPOS | SENNHEISER

Cheat Sheet

Reasons to Choose
EPOS | SENNHEISER

Choosing the right headset

Customers and prospects want to know: “What do I gain by choosing EPOS?” Now, this handy guide gives you all the product USPs and supporting features needed to answer that question, at-a-glance.

It has never been easier to say what makes us different and win sales by helping customers and prospects make the right choice: EPOS.

How will you use your headset?

IMPACT Line

Headset solutions for professionals working in energetic call center and office environments, spending much time at or around their desks talking with customers.

ADAPT Line

Headset solutions for professionals working away from their desks, participating in meetings or calls or working remotely from other locations.

EXPAND Line

Flexible plug-and-play speakerphone and conference solutions for professionals having collaborative calls/meetings with co-workers, customers and other stakeholders anywhere.

What device do you use?

You need your devices to work seamlessly with your headset. It's that simple. Our headsets are designed to cover every possibility – check our headset compatibility guide at:

eposaudio.com/compatibility

Softphone/PC

Connection via USB/USB-C cable or USB dongle (Bluetooth®) to Microsoft Windows or Apple Mac OS.

Desk phone

Connection with multiple types of cables via Easy Disconnect.

Mobile phone

Connection via Bluetooth® or 3.5 mm jack cable.

Tablet

Connection via Bluetooth® or 3.5 mm jack cable.

Telecoil

Works with standard telecoil-equipped hearing aids.

How noisy is your workplace?

In a noisy environment, such as a contact center or open plan office, your choice of headset should be based as much on the quality of the microphone's noise cancelling capabilities as its ability to let you hear your caller clearly. EPOS Voice™ technology for your listener is an often overlooked consideration.

Low noise environment

Omni-directional microphone

Medium noise environment

Noise-cancelling microphone

High noise environment

Ultra noise-cancelling microphone

Single or double-sided?

Single-sided

Ideal for situations where you need to both hear your caller clearly, and pay attention to what's going on around you.

Double-sided

Delivers calls in quality sound while reducing background noise – ideal for contact centers, where you need to focus solely on your caller.

Unified Communications

UC optimized

Products with this icon are optimized for major UC and softphone brands.

Certified for Skype for Business

Products with this icon are certified for Skype for Business.

Certified for Microsoft Teams

Products are certified for Microsoft Teams
