From the Chairman's Desk

Basic Chemicals, Cosmetics & Dyes Export Promotion Council, popularly known as CHEMEXCIL was established in the year 1963 by the Government of India, Ministry of Commerce & Industry with the objective of promoting exports of Dyes & Dye Intermediates, Organic & Inorganic Chemicals, Agro Chemicals, Pesticides, Bio-fertilizers, Soaps, Detergents, Cosmetics, Toiletries, Essential Oils, Castor Oils etc from India to Overseas markets.

Moreover, CHEMEXCIL with a membership base of over 3900 provides free service as a reliable single point source of contact to help buyers in sourcing from India.

Like India, Iran is also an emerging market with immense potential. At present, India-Iran enjoys economic and commercial ties covering many sectors. However, the trade relations have traditionally been buoyed by Indian import of Iranian crude oil resulting in overall trade balance in favour of Iran.

From Chemicals perspective Iran is a promising market especially for Inorganic, Organic & Agro Chemicals, Dyes & Dye Intermediate, Cosmetics and Toiletries. In value terms, the total export performance of the items covered under the purview of CHEMEXCIL to Iran for the year 2014-15 was USD 209 Million out of which exports of Dyes & Dye Intermediate, Inorganic, Organic & Agro Chemicals accounted for USD 171 Million and that of Cosmetics & Toiletries accounted for USD 36 Million.

I am glad to inform you that CHEMEXCIL has participated in "Iran Beauty and Clean Exhibition" held from 24th - 27th April, 2016 at Tehran, Iran. Dr J P Tiwari, Regional Director was deputed along with 12 member exporters for participation in this Exhibition which has provided a window of opportunities to our exporting community to clinch attractive business deals and a vibrant platform to show-case their manufacturing capabilities for fructification of "Make in India" program of the Government of India.

I wish all the participants and visitors at Iran Beauty and Clean Exhibition at Tehran all the success in their endeavour.

DR. B.R. GAIKWAD

Geography	Iran is located in West Asia and borders of the Caspian Sea, Persian Gulf, and Gulf of Oman. Its mountains have helped to shape both the political and the economic history of the country for several centuries. The mountains enclose several broad basins, or plateaus, on which major agricultural and urban settlements are located.	
Population	2016 estimate Density :	79,115,000 48/km2 124/sq mi
Government	Iran is a theocratic Islamic republic governed under the constitution of 1979 as amended. Appointed, rather than elected, offices and bodies hold the real power in the government. The supreme leader, who effectively serves as the head of state, is appointed for life by an Islamic religious advisory board (the Assembly of Experts). The supreme leader oversees the military and judiciary and appoints members of the Guardian Council and the Expediency Discernment Council. The president, who is popularly elected for a four-year term, serves as the head of government. The unicameral legislature consists of the 290-seat Islamic Consultative Assembly, whose members are elected by popular vote for four-year terms. Administratively, Iran is divided into 30 provinces.	

Currency	RIAL (IRR)	
Climate	Iran has a hot, dry climate characterized by long, hot, dry summers and short, cool winters. The climate is influenced by Iran's location between the subtropical aridity of the Arabian desert areas and the subtropical humidity of the eastern Mediterranean area.	
Best time to visit Iran	The best time to visit Iran is between March to May and September to November. It is nevertheless best to avoid travelling during the following periods: (i) the two weeks surrounding Nowruz, (ii) the ten days prior to Ashura, (iii) and the month of Ramadan.	
Largest cities	Tehran, Isfahan, Ahvaz, and Qom	
Religions	Sunni and Shi'i are the two largest branches of Islam, with the overwhelming majority of Iranians practicing Shi'i Islam. About 90 percent of Iranians practice Shi'ism, the official religion of Iran.	
Literacy rate	82% of the Iranian adult population is now literate, well ahead of the regional average of 62%. This rate increases to 97% among young adults (aged between 15 and 24) without any gender discrepancy.	
Ethnicity/race	Persian 61%, Azeri 16%, Kurd 10%, Lur 6%, Baloch 2%, Arab 2%, Turkmen and Turkic tribes 2%, other 1%	
Industries	Textiles are the second most important industrial product; Tehran and Esfahan are the chief textile-producing centers. Other major industries are sugar refining, food processing, and the production of petrochemicals, cement and other building materials, and machinery. Iron and steel and fertilizer are also produced.
