## Nease Expands Sulfonic Acid Capabilities

Nease has supplied quality products for multiple applications and markets for over fifty years. But we're more than just the North American leader in hydrotropes...

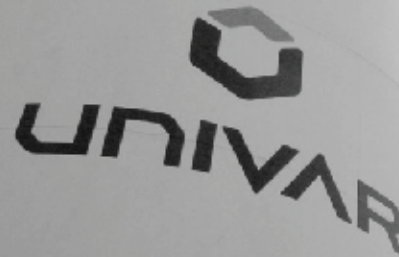

- Batch sulfonation capabilities allow Nease to tailor make specific products to meet customer needs and requirements
- Products sold and marketed to oil field services companies for applications such as emulsion breaking and paraffin inhibition
- Acids based on various aromatic solvents including xylene, toluene, cumene, diisopropyl naphthalene, benzene, phenol, and alkyl naphthalene

Let us help you find an innovative  
solution for your tough application.
