

Chemtrails

We have provided this information to help people become aware of the relatively new phenomenon now coined as "Chemtrails". Chemtrails are large plumes of aerosol that are emitted from military jets that initially look like naturally occurring contrails except that they persist and either spread out to cover large areas of the sky, or descend in a smokey streamer.

Below are several pictures of typical chemtrails.

Following is a typical satellite photo depicting this spraying activity:

Where Is This Happening?

This phenomenon is occurring in most industrialized countries of the world including:

- United States
- Canada
- England
- Scotland
- Germany
- Norway
- New Zealand
- Australia

(please notify us if you know of others)

Reports about the existence of chemtrails in some countries are notably nonexistent. Included in this list are:

- China

(please notify us if you know of others)

What Do Chemtrails Contain?

Several independent tests in the United States have shown that chemtrails have contained the following substances:

- Aluminum
- Magnesium
- Barium and barium salts
- Lead
- Arsenic
- Uranium
- Sharp titanium shards
- Mercury
- Mold spores
- Mycoplasma
- Unidentified bacteria

These substances being sprayed by in large plumes by silver or white military jets are harmful to human and animal life. Some of the aspects of this toxicity are covered in a section below.

Mercury

Mercury is the most toxic non-radioactive metal known. Mercury accumulates in the body and causes a myriad of toxic effects, eventually leading to chronic, degenerative disease, and eventually death.

Diseases and conditions associated with mercury are:

- Allergies
- Asthma
- Autism (contrary to popular belief, there is very strong medical evidence linking autism to mercury)
- Nearsightedness & Farsightedness (by altering interocular fluid eye pressure)
- Autoimmune Diseases (through methionine mimicry and other processes)
- Amyotrophic Lateral Sclerosis
- Ankylosing spondylitis
- Myasthenia Gravis
- Parkinson's Disease
- Alzheimer's Disease
- Schizophrenia Spectrum Disorders
- Borderline personality disorder
- Anxiety
- Panic attacks
- Dysbiosis
- Leaky Gut Syndrome
- Acid Reflux
- Attention Deficit Disorder (ADD)
- Attention Deficit Hyperactivity Disorder (ADHD)
- Learning Disabilities
- Endocrine-Related Issues
- Aneurysm
- Depression
- Obsessive-Compulsive Disorder (OCS)
- Manic Depressive Disorder
- Hyperacusis (sensitivity to certain sounds)
- Photophobia (sensitivity to light from weak iris response)
- Heart Arrhythmia (irregular heartbeat)
- Multiple Chemical Sensitivity (MCS)
- Rheumatoid Arthritis
- Juvenile Arthritis
- Lupus Erythematosus
- Multiple Chemical Sensitivities
- Environmental Illness
- Chronic Fatigue
- Fibromyalgia
- Sciatica
- Gastritis
- Irritable Bowel Syndrome (IBS)
- Colitis
- Crohn's Disease
- Sleep Disorders
- Anorexia Nervosa
- Floaters In the Eyes
- Bulimia
- Hypothyroidism
- Yeast Syndrome/Candida
- Uncontrollable Weight Gain
- Hair loss (Balding—Elevated DHT)
- Constipation
- Flatulence (gas)

- Shifted Circadian Rhythm (inability to sleep on a normal schedule)
- Hypoglycemia
- Hyperglycemia
- Multiple Sclerosis
- Immune Suppression (weak immune system leading to frequent general illness or numerous opportunistic infections)
- Tinnitus (Ringing In the Ears)
- Grinding Teeth While Sleeping (Bruxism)
- Insomnia
- Excessive Salivating
- Enlarged Prostate (Elevated DHT)
- Heart Disease
- High Cholesterol
- Elevated Homocysteine (increases risk of heart disease)
- Headaches
- Mole Formation (especially on the neck, underarms, inner thighs, and feet)
- Dementia
- Blood in the Urine
- Nausea and Vomiting
- "Brain Fog"
- Dizziness (loss of equilibrium)
- Short-Term Memory Loss
- Cancer
- White Coating On the Tongue
- Oily Skin (Elevated DHT)
- Shyness
- General Phobias
- Outbursts of Anger
- Feelings of Apathy (especially toward property and personal affairs)
- Suicidal Thoughts
- Social Separation/Isolation
- Feeling of a Lack of Self Worth
- Spider Veins
- Easy Bruising (and other vitamin C deficiency diseases as mercury displaces vitamin C)
- Selenium Deficiency
- Zinc
- Deficiency
- Vitamin C Deficiency
- Iodine Deficiency
- Magnesium Deficiency
- Elevated Blood Calcium
- ...and many more.

Mold

The fact that chemtrails contains mold spores is extremely concerning as mold produces mycotoxins that are very harmful to human and animal life. Mycotoxins have been studied for their application in biological weapons and is the cause of disease and even death in mold infested homes.

Barium

Barium is toxic to humans and animals and causes a dramatic drop in potassium levels in the body. For this reason (and others), barium is known to considerably increase the frequency of heart attacks in persons 65 years and older.

Aluminum

Aluminum is toxic to human and animal life. Of particular concern is the fact that most people in industrialized countries have considerable exposure to mercury through amalgam fillings, coal-burning power plants, tattoos, and seafood. What is concerning about aluminum exposure is when mercury and aluminum combine in the body, the combined toxicity is about 100-times then with either substance alone.

Sharp Titanium Shards

Under a microscope, chemtrails are seen as extremely sharp, fibrous shards that embed themselves into lung tissue and break down the bacterial/viral-resistant properties of the lining that separate the air from the blood. This is concerning to those who anticipate a flu pandemic because this attribute of chemtrails will likely dramatically increase the communicability of the virus.

Health Affects

Chemtrails are now commonly associated with certain illnesses. A number of credible reports has demonstrated that respiratory-related illnesses increase dramatically in the presence of chemtrails. Symptoms that have been commonly associated with exposure to chemtrails include:

- Sinus pain
- Headaches
- Fatigue
- Tinnitus (ringing in the ears)
- Muscle aches/pain
- Joint pain
- Salty or "salty metallic" taste in the air or on the lips
- Itchy skin
- Nausea
- Eye floaters
- Dark circles under the eyes
- Brain fog
- Irritability
- other miscellaneous symptoms

Certain types of chemtrails have been associated with flu-like symptoms particularly chemtrails that leave visible fibrous deposits on cars and on other hard surfaces.

Chemtrail Origins

Conventional contrails are trails left by jet engines containing water vapor. They occasionally appear in very specific atmospheric conditions. They last only 2 to 4 seconds and have a faint, smooth, and wispy appearance. Observers of contrails will admit that they would be lucky to see more than a couple contrails per year. They are very rare.

Chemtrails can sometimes look similar to contrails while other times they can appear heavy and more pronounced. Sometimes chemtrails persist and spread out as they descend. Other times they disappear within a few seconds. They are not wispy in appearance, but have a visible turbulent structure to them.

Consent?

It is known that [a public law](#) in the United States allows the testing of chemicals and biologics on American citizens *with their consent*. Concern arises when we realize the true meaning of "consent" in this context.

Consent can be considered to be a condition that exists when both parties have knowledge of the terms of an agreement and neither party openly objects to it (Uniform Commercial Code-UCC).*

Because this law is "public" or "available for review" publically, it is assumed that the public is acquiescing to (agreeing to) the activity stated in the law (under the UCC).* This is why it is often said, "Ignorance of the law is no excuse". If it is published, it is assumed that you are aware of it. If you are aware of it and you don't openly object, you are agreeing to it. You have consented.

Health Solutions

After doing some research, we decided to attempt to use natural supplements dealing with what we believe is at the core of these symptoms: mercury, barium, aluminum and mycoplasma (a type of bacteria). We have found that the following supplements are helped considerably in reducing the symptoms associated with chemtrails:

Fatigue: Kills Mycoplasma

[Yeast/Fungal Detox](#)
[Suma Combination](#)

Fatigue: Chelates Aluminum

[Fibralgia \(Fibro-Malic\)](#)

Fatigue: Support for the Thyroid gland and Adrenal Glands[Thyroid Support](#)[Adrenal Support](#)**Helps Stop Joint Pain While Healing Joints**[Joint Health, Ayurvedic](#)**Boosts Immune System Activity**[Nature's Immune Stimulator](#)**General Protection: Kill Biologics Including Bacteria and Mold**[Colloidal Silver](#)**Get Involved**

Chemtrails are very real and contain known toxins. The purpose of the aerosol programs that produce chemtrails is currently under debate, but regardless of their intended function, the terrible health effects on humans and animals is already taking its toll.

We hope you will get involved in exposing the "aerosol crimes" that are occurring over our heads and are funded by our own tax dollars. You can be by forwarding a link to this page to people you know. Here is a short link you can use:

<http://urlbam.com/ha/Vz>**Class Action Lawsuit**

You may want to visit this website and share your experience. Perhaps we can stir up enough interest to get a legal team involved.

This website does ask for a lot of contact information, such as a cell number and address. I would recommend using a valid email address but just putting 123-456-7890 in the phone number fields to maintain your privacy. They can contact you by email if someone wishes.

http://www.sueeasy.com/class_action_detail.php?case_id=351**Resources****[Chemtrails: Don't Talk About the Weather \(video\)](#)**

Don't know about chemtrails? This video provides you with a comprehensive view of the phenomenon called chemtrails. Please make time for this video as it may be one of the most important ones you watch.

While you watch, please make note of this fact: Although I've been watching the sky all my life, and considering that I have spend a great deal of my life outside, I know that actual contrails are so rare, that you would be fortunate to see them 2-to-4 times per year.

It is apparent to me that the ones doing the spraying have now employed methods of spraying that make this chemical substance disappear more quickly so that they appear more like actual contrails. Please do your research on this extremely important subject before passing judgment.

[Local News Station Confirms Barium In Chemtrails \(video\)](#)

An actual local news station does an impartial piece on chemtrails in their local area.

[Chemtrails and Morgellons: Dr. Hildegard Staninger Interview \(video\)](#)

One of the most bizarre and shocking videos you may ever see. Dr. Staninger exposes the connection between chemtrails and one of the newest and fastest-growing diseases in the world, Morgellons.
