Chetak Plaster of Paris

We offer pure and flawlessly white **Chetak plaster** of paris (POP). The whiteness of this plaster of paris (POP) stays for years together thus proving the fact that it's purity is not momentary but a long lasting one. Chetak is a superior quality plaster of paris (POP) as its manufacturing process includes many strong scientific tests. The major test is the calcium cooking process wherein each droplet of pure calcium sulphate is boiled at a predetermined temperature and the silica is separated. The result of this procedure is that Chetak doesn't shrink or crack after drying thus our plaster of plaster is very user friendly and doesn't create much problems for the user.

Chetak Plaster of Paris (POP) is so finely ground that it is a low density powder thus it covers more area with less material. It is also available in good quantity at affordable prices. We offer light colored, high strength and extra fine plaster of paris (POP) which has BIS marked standards. This plaster of paris (POP) settles slowly thus gives enough time to the mason/worker to complete his work, another advantage is that after settling the plaster of paris (POP) becomes strong thus it increases it's longevity.

Chetak plaster of paris (POP) is produced with isothermic micronic process and at predetermined temperature and controlled moisture. This high quality plaster of paris (POP) is packed in the right quantity with secured packing measures. Thus Chetak plaster of paris (POP) is available in the exact required packs in the market and there is no compromise in the quality.

PACKING DETAILS : Chetak plaster of paris (POP) is AVAILABLE IN 2KG / 20KG / 25KG

Profile (Chetak Plaster Industries)

Chetak Plaster Industries offers India's finest quality building construction and renovation products, which can give shape your challenging interior and exterior renovation ideas. The company has been established as the reputed manufacturer and exporter of premium quality Plaster of Paris, Ready Mix Plaster, Wall Putty, Joint Finish Compound and Gypsum Sheets, which are marketed under the brand name '**Chetak**'.

We are introducing ourselves as a mine owner Chetak Plaster Industries

Manufacturing Process

The gypsum stone is crushed into granule less than 25mm with crusher. It's stored in raw material silo, then conveyed into grinding mill to make gypsum powder. The powder is classified through a classifier. The qualified powder in required fineness shall be carried to the calciner, while the unqualified powder shall be returned to the grinding mill for further process. The calcined gypsum powder (it's usually called Plaster of Paris) shall be stored in the finished product silo for preparation of plasterboard raw material.

The relative parameter of the product (GB9776-88)

1. Fineness: ≥ 80 mesh
2. Antiflex strength (it is related to the raw material): $\geq 1.8\text{Mpa}$; Compression strength: $\geq 3.0\text{Mpa}$
3. Main component:
Semi-hydrated gypsum content: $\geq 80\%$ adjustable
Dihydrate gypsum content: 5% adjustable
Soluble anhydrous gypsum: 5% adjustable
4. The initial setting time: 3~8min adjustable;
5. The final setting time: 6~15min adjustable
6. Standard consistency: 78~85% adjustable

An ISO 9001:2008 & ISI CM/L2521644 Certificate Company

Our Mission

To offer world class products & finest quality POP of international standards to our valued customers.

» Accreditations

The company is accredited with ISO 9001: 2008 and ISO 0000:2012 certifications and has been prided with an environment-friendly organization. Furthermore, the quality license awarded to the company by the bureau of Indian Standards, the ISI mark for its products, establishes a reckoned name amidst distinct industries, commercial as well as residential domains. Our ready mix is fire resistant, as per BS476: Part 4: 1970 standards.

» Quality Control

The primary criteria that differentiates **Chetak** from other brand names available in the market is its finest quality. Developed using advanced technology, the finest raw materials like gypsum and others and strict quality control procedures, our brand name has become a known name in several commercial and industrial entities.

Above all, different process parameters for complete batch-to-batch consistency are recorded under our quality control procedures.

For us, quality means:

- ✓ The ultra-white colour of our plaster products is an expression of their absolute purity.
- ✓ Wider coverage area with less quantity of POP is provided by our plasters, which makes it highly economical and viable option for renovation.
- ✓ Resistant to shrinkage, cracking or warping and it stays firm and smooth after gradual setting.
- ✓ Slow setting time due to the premium quality and branded nature.
- ✓ More convenient and efficient in application and gradual setting of the plaster means longer life of the finished plaster.

Finest quality that makes for your once-in-a-lifetime investment.

Chetak Plaster Industries

Mfd. Of all kinds Plaster of Paris , Gypsum Powder, Gypsum etc.

Works: Gautam Industrial Area, 20 K.M. Store, Pugal Road, Shobhasar, BIKANER (Raj.)

Office :Behind choudhary Aman dharma Kanta , Pugal Road, Bikaner (Raj.)

An ISO 9001:2008 & ISI CM/L2521644 Certificate Company

Infrastructure

The company's manufacturing set up is located at Shobhasar Bikaner, Rajasthan, which provides the locational advantage to it as India's finest raw gypsum mines are located there in. Our sound infrastructure capabilities enable us to offer tailor-made grades as well - with precise specifications in our products. The personnel in our unit can also develop to provide different curing time or a particular level of hardness in our products.

» Manufacturing Process

This process involves heating the powder continuously at a pre-set temperature, while simultaneously cleaning it from unwanted silica. Conducted under the close supervision of our expert Quality Assurance Personnel, this process results in the premium quality of the brand 'Chetak'.

Chetak plaster products are *packed in sealed moisture-proof bags, in the packaging of 20 kg & 25 kg.* This is to ensure that the products reach in the same perfect condition as they come from the production line.

Chetak Plaster: A Result of Extensive R&D
The excellence and superior grade of our products is attained from extensive R&D done on them. The company has built sophisticated laboratory facilities in the unit for this purpose.

» Customized Products

Chetak Plaster Industries

Mfd. Of all kinds Plaster of Paris , Gypsum Powder, Gypsum etc.

An ISO 9001:2008 & ISI CM/L2521644 Certificate Company

Depending upon the specific requirements of the client, **Chetak** POP can also be offered with tailor-made features. The composition of the plaster's hydro-activated ingredients can be modified to create a hygroscopic products, which have specific curing time (faster or slower setting) or even a particular level of hardness. POP grades that facilitate special post-application work like carving can also be supplied.

» Integrated Services

Our company also offers integrated services, which include complete POP solutions and product application services. A dedicated team of experts is provides extensive support like: site inspection, masons and craftsmen are also provided for this purpose.

Useful recommendation about the right material choice and best application techniques, trouble-shooting for any problems that can occur during the process are also well attended by us.

Differentiating aspects of **Chetak** from other brands

- ✓ Unmatched whiteness, purity and fineness are the attributes that well defines our POP range.
- ✓ Ultra-fineness of our Plaster and lightness makes it economical for your office or residential domain.
- ✓ Slower setting time of our branded products allows more time for application, with no scope of wastage and it imparts longer lifespan to the plaster.
- ✓ Supplied in moisture-proof, fully sealed and tamper-proof packs.

Environment Friendly Products

Distinct regulations and guidelines are adhered to in our unit to ensure all our products are environment friendly in nature. Under our environmental policy, distinct parameters that are taken care for are enlisted below:

- ✓ Mining regulations and universally accepted laws & principles governing raw materials' extraction and processing are adhered to, to make all our operations environmental friendly.
