Children’s Habilitation Residential Program and Children’s Extensive Support Waivers Comparison Chart for Case Management

October 2021

Purpose

The chart below explains services authorized in the Health First Colorado (Colorado’s Medicaid program) Children’s Habilitation Residential Program (CHRP) and the Children’s Extensive Support (CES) waivers. The chart provides a side-by-side comparison of the services offered through each waiver.

Background

Home and Community-Based Services (HCBS) provided through waivers are in addition to a member’s Health First Colorado benefits and Early and Periodic Screening, Diagnostic and Treatment (EPSDT) services. The CHRP and CES waivers are two of four children’s services waivers offered in Colorado. HCBS waivers provide extra benefits to help children remain at home and in the community. Each waiver program offers different benefits to specific populations that meet special eligibility criteria. In order to qualify for the waiver, the child must meet waiver criteria and the appropriate level of care, as determined by the State prescribed assessment tools. Please see the [Children’s HCBS Waiver Chart](#) on the [Long-Term Services and Supports Training page](#) for an explanation of all children’s waivers.

Children’s Extensive Supports (CES) Waiver

The CES waiver is for children and youth from birth to age 17 with a developmental delay or an intellectual / developmental disability. CES provides services and supports to eligible children and youth who demonstrate a medical or behavioral condition that is intense and requires almost constant line-of-sight supervision to keep the child and others safe. The child must demonstrate a behavioral or medical condition that requires direct human intervention more intense than a verbal reminder at least once every two hours during the day and on a weekly average of once every three hours during the night. Children and youth must be living in their family home in order to receive services through CES. CES services must remain within the overall service plan limit.

Children’s Habilitation Residential Program (CHRP) Waiver

CHRP is targeted to children and youth from birth 0 to age 20 with a developmental delay or an intellectual / developmental disability. CHRP provides services and supports to eligible children, youth and their families who can live safely living in their homes and communities. CHRP helps children and youth with intensive behavioral or medical support needs that put them at risk, or potential need, for out-of-home placement or institutional care.

HCBS Waiver Services (Alphabetical Order)	CES	CHRP
<p>Adaptive Therapeutic Recreational Equipment and Fees</p> <p>Services that assist a client to recreate within the community. The cost of items shall be above and beyond what is typically expected for recreation and recommended by a doctor or therapist.</p> <p>Includes: Equipment specifically adapted to the child’s disability. Admissions fees for recreation centers only when the pass is needed to access professional services or to achieve or maintain a specific therapy goal as recommended and supervised by a doctor or therapist. Water safety trainings that are distinct from swimming lessons may be covered.</p> <p>Excludes: Does not include items a typical-age child would commonly need as a recreation item.
