VISION PROVIDERS

Since 1997, the Washington State Correctional Industries (CI) optical program has been training incarcerated individuals to produce high quality, cost effective prescription eyewear. Our high capacity optical production facility is designed to supply large volume contracts as well as small entities. Our state of the art production facility is complemented by a highly experienced civilian supervisory staff ready to serve your vision hardware needs. In addition to our prescription eyewear services, we also offer a line of premade reading glasses designed specifically for the correctional/institutional environment.

EYE WEAR REQUESTS

Agency policy may affect eligibility. Please contact the CI optical lab if you have any questions.

- Please provide legible medical prescription (Rx) with complete information, i.e., frame name, color, eye size, DBL (skull or cable temples), and any applicable codes.
- Do not Fax POF orders; jobs start when patient's frame arrives, and please include Rx with frame.
- CI Optical does not sell or credit frames for patients to try out.
