WHY CIGNA-HEALTHSPRING?

2018 Benefits First Glance

Agent Benefits

We are focused on designing and operating Medicare Advantage Health Plans and we understand the complexities of the Medicare program.

Our training programs give you the tools you need to be successful.

Cigna-HealthSpring pays commissions weekly.

We also pay a lifetime renewal stream as long as the customer remains enrolled in the plan.

We employ Local Market Managers in each market to service our contracted agents.

A dedicated Cigna-HealthSpring Agent Assistance Line (HAAL) is provided as a resource to each contracted agent in all markets.

Cigna-HealthSpring offers customizable marketing tools to help you build your business.

Cigna-HealthSpring continues to build Provider commitment by creating collaborative and mutually beneficial partnerships.

Each market's Network Operations Department is dedicated to recruiting new physicians and providing service to our existing physicians.

Collaborative Model

Cigna-HealthSpring is proud to be one of the leading providers of health plans focused on caring for the senior population in the United States.

We work primarily through Medicare Advantage and other Medicare and Medicaid products.

Through our deep understanding of the needs and challenges facing both patients and physicians:

- We developed a collaborative model that provides more access to high quality preventive care for our members
- We supply physicians with the tools they need to deliver that care

Coordinated Care

Coordinated care is a way to deliver healthcare through teamwork among primary care physicians (PCPs), specialists, and other healthcare professionals, with a special focus on prevention and the management of chronic disease.

Did you know that care coordination is a feature of all Cigna-HealthSpring plans?

Preventive Care

One of the foundations of Cigna-HealthSpring's approach to healthcare is preventive care. Customers are covered for annual physical exams and other routine screenings.

Proactive preventive care makes it possible to identify and manage potentially serious health issues, thereby keeping out-of-pocket costs lower.

Did you know that we pay doctors based on the quality of care they give their patients, not the number of patients they see?

The benefits described in these materials have not been finalized and are subject to change based on CMS review. This information is solely for broker use and may not be used for purposes of marketing or sales.
