

**CITY OF BIRMINGHAM**  
**2011 QUARTON LAKE MAINTENANCE DREDGING PROJECT**  
**CONTRACT #9-11(M)**

**ADDENDUM No. 1**

Tuesday, August 30, 2011

In response to inquiries on the above Project and/or changes to the plans, the following addenda items are to be included by all bidders in the work of this Project:

**GENERAL**

1. **All bidders shall note receipt of this Addendum No. 1 on the outside of the envelope containing their bid and on the proposal form. This addendum contains nineteen (19) sheets, including attachments.**
2. The date, time, and place of **the bid opening remain unchanged** by the issuance of this addendum. Bids will be accepted at the City of Birmingham Clerk's office until **2:00 PM, local time on Thursday, September 1, 2011**. The bid opening will follow in the City Commission Room on the second floor.
3. The plan holder's list as of August 30, 2011 is attached for your information.
4. The sign in sheet from the pre-bid meeting held on Thursday, August 25, 2011 is attached for your information, along with meeting notes and responses to questions raised at the meeting prepared by Hubbell, Roth & Clark.

**SPECIFICATIONS**

No specification revisions are issued with this addendum.

**DRAWINGS**

No drawing revisions are issued with this addendum.

**ATTACHMENTS**

Plan Holders List as of August 30, 2011 (1 Page – 11"x17")  
Pre-bid Meeting Sign In Sheet (1 Page)  
Pre-bid Meeting Notes (3 Pages)  
MDEQ List of Polymers (13 Pages)

## CITY OF BIRMINGHAM

## 2011 QUARTON LAKE MAINTENANCE DREDGING PROJECT - CONTRACT #9-11(M)

PLAN HOLDERS LIST AS OF: 8/30/2011

**Pre-Bid Meeting Notes**  
**Quarton Lake Maintenance Dredging – City of Birmingham**  
**Contract No. 9-11 (M)**

1. These notes are not intended to document all communication, but highlight the points raised that could affect bidding on this project and/or impact construction and to distribute additional information to the prospective bidders. The information discussed at the Pre-Bid Meeting as well as items documented as part of these Meeting Minutes shall be taken into consideration during the bidding process and submitted Proposal for this Project. These Meeting Minutes will be made part of the Project Contract documents.
2. The pre-bid meeting was held at 1:00PM, Thursday, August 25, 2011. The following firms, companies, or agencies were represented: HRC, Savin Lake Services, Commercial Diving & Marine Services, Inc., Inland Lakes Landscaping Corp., Mark Stanley Ind., Metropolitan Environmental, Michigan Marine Services, Waste Control, Restoration Dredging, Runco Waste Industries, Inc., Hamlin Grading, and Encore Dredging. The sign-in sheet was circulated, introductions were made, and a general project overview was provided.
3. Additional questions can be emailed to Brendan Cousino, [bcousino@bhamgov.org](mailto:bcousino@bhamgov.org) by 5:00 PM Monday, August 29. Responses will be distributed by email on August 30.
4. Bids are due Thursday, September 1, 2011 at 2:00 pm at Birmingham City Hall. Deliver to the City's Clerk's Office. Bidders are welcome to attend. Bid opening will take place at 2:00 pm or shortly thereafter.
5. Gravel path restoration is included in the unit price bid for Staging Area Restoration. A unit cost for "Lake Sediment Dredging, Dewatering, and Related Material/Equipment" shall include dewatering bags.
6. Work is scheduled to commence October 1 (in accordance with the MDEQ permit) and upon receipt of execution of bonds, insurance certificates, and contracts and be completed by December 2.
7. Final contract approval and acceptance is anticipated by May-June 2012.
8. Planting Guarantee shall be for 1 Year following provisional acceptance.
9. A pre-construction videotape is also required to document all work areas and access points before work can begin on the project.

[www.hrc-engr.com](http://www.hrc-engr.com)

Engineering. Environment. Excellence.

10. The Contractor shall minimize the extent and duration of site disturbances and shall maintain traffic flow during the duration of construction.
11. Exact quantity placement locations and amounts (tree relocation and placement) to be determined in the field by the Engineer.
12. Work hours are listed in the contract (Spec 00805).
13. The site can be accessed from the west side of the lake for taking soil samples prior to bid submittal.
14. The Bidder should familiarize himself with the City's Insurance requirements, including the requirement for Pollution Liability Insurance, identified in the contract (Spec 00200).
15. The haul route is identified on the plan and in the contract (Spec 00805). There are no loading limits or weight laws that would be in effect during the hauling/trucking process. Bidders should avoid using Old Woodward.
16. Units have been included in the proposal for pavement removal and repair along the haul route. These will be on an as-needed basis as determined in the field by the City and/or Project Engineer.
17. There are no sprinkler systems located in the dewatering/staging area.
18. Construction observation/inspections are not included in the Proposal as a unit cost, therefore should not be included in the bid price.
19. This project is not a prevailing wage job.
20. The existing in-stream sediment trap and gravel berm is to remain in-place during dredging. No improvements will be needed to the berm.
21. The existing in-stream Aquamats are identified on the plans for informational purposes only and are to be removed.
22. Based on the previous sediment testing and dredging operations performed, we anticipate approximately 50% reductions in wet to dry soils. The soil composition is primarily silt and organics (leaf debris, etc.).
23. The cubic yard pay item for dredging will be paid for on a cubic yard basis measured in place (wet). The primary form of measurement (wet) will be taken on the dewatering bags. However, the City reserves the right to perform additional investigations (survey, soil probing, depth soundings, etc.) to confirm volume dredged and adjust accordingly from plan quantity. We expect the contractor to obtain disposal quantities from load tickets at the land disposal facility.
24. The suspended solids allowable rate goal is twice the effluent rate as found upstream. The Contractor will be notified if MDEQ assigns specific requirements which conflict with these standards.

25. There are no specific requirements on the amount and type of geotextile watering bags to be utilized for this project. It is the contractor's determination.
26. There are no specific requirements on the type of polymers to be used. We have attached an MDEQ-approved list with these minutes. The Bidder is responsible for obtaining the necessary MDEQ permit for the use of these polymers (if desired or necessary), at their expense. The Project Engineer will help to coordinate this effort if polymer is necessary. More information regarding permitting procedures, etc. can be found on the following website:  
[http://www.michigan.gov/deq/0,1607,7-135-3313\\_3686\\_3728-11385--,00.html](http://www.michigan.gov/deq/0,1607,7-135-3313_3686_3728-11385--,00.html)
27. The existing on-site park waste receptacles and benches will be removed prior to construction by City staff.
28. Access to the lake shall be off of the ledge rock area on the west side of the lake. This area to be restored to existing condition prior to project closeout.

If you have any questions or require any additional information, please contact the undersigned at 248-454-6856.

Very truly yours,

HUBBELL, ROTH & CLARK, INC.

Water Treatment Additives with the Rule 57(2) Minimum Toxicity  
Data Base for Aquatic Life

**NOTE:** The presence of a water treatment additive on this list does not constitute approval for its use. Approval is determined on a case-by-case basis for each site-specific facility. This list only includes water treatment additives with the Rule 57(2) minimum data for aquatic life. This list does not preclude adding water treatment additives or approval of water treatment additives at specific facilities.
