## College Search

- 11th Grade Classroom Guidance (will save 3 post-secondary options)
- What am I looking for?
  - Size, location, costs, majors, clubs/groups, etc.
- How does the BIG 3 affect my admissions?
  - GPA, SAT/ACT, Curriculum Difficulty
- Have I narrowed my list down to 5-7 schools?
  - 1-2 Reach, 2-3 Match, 2-3 Safety

# College Search Safety-Match-Reach

- **Match Schools:** A match school is one in which your transcript mirrors that of the average freshman. Therefore, your GPA, SAT/ACT scores and coursework (college prep, honors, etc.) are all on par with those undergrads typically admitted. While this will not guarantee an acceptance (especially considering that extracurricular activities, essays, etc. will come into play), you can apply with confidence and the understanding that you have a great shot.
- **Reach Schools:** Unlike a match, reach schools are colleges where your academic qualifications are below the average accepted student. When considering a reach school, it's still important to be realistic. It's quite unlikely you would gain entry to an Ivy League university with a 1.5 GPA. However, even if your SATs might be 100 points lower than average or you have a 3.4 GPA instead of a 3.8, if you really like the school, throw your hat into the ring. You never know what will happen. It could be a long shot, but an admissions officer might just see your potential.
- **Safety Schools:** As you've probably deduced by now, a safety school is one in which your academic credentials exceed those of the average accepted student. Consequently, there is a high probability that you will be admitted (though it's important to recognize that nothing is certain).
